ROOSEVELT FACES PROBLEM IF ASKED TO OUST WALKER

That Angle of Case Surpasses All Other New York Political Interest

SEABURY HAS NOT GIVEN ANY INDICATION OF PLANS

But Gotham Mayor Declares That That Is What the Probe Is Aimed at

NEW YORK, May 28 (AP)—Intense curiosity was manifested today in political circles over what Governor Roosevelt's answer will be if he is asked to remove Mayor Walker, and how his stand on the question might affect his drive for the presidential nomination.

From Tammany hall, where the interest is particularly acute, to the governor's own campaign headquarters, the discussion transcended all other political talk.

Samuel Seabury, counsel for the Hofstadter legislative committee, which has spent nearly $750,000 in the last 14 months investigating Walker's administration, has not indicated whether or not he will make a demand for the mayor's removal.

But Walker himself and democratic members of the committee have said publicly that such is his aim.

The general opinion is that when Seabury rounds out the part of the inquiry centering on the mayor personally, he will send his findings to Roosevelt—with a strong recommendation.

Ten witnesses already have testified about the affairs of Walker and his missing friend, Russell T. Sherwood, $3500-a-year accountant who transacted financial deals running close to $1,000,000 in six years.

Others will be called next week by Seabury in a continued attempt to show that the mayor and Sherwood shared bank accounts and that their personal finances were intertwined.

A hunt is still going on for the mayor's brother, Dr. William H. Walker. One of Seabury's assistants said he had been unable to locate the doctor since May 19, the day after an agent for a street cleaning company testified he paid Dr. Walker for medical services $2800, a sum equal to about half of a commission the firm receives on a sale of equipment to the city.

While on the stand the mayor said he had not seen his brother in five or six months and did not know where he was, although he would try to locate him.

Predicting their discussions on the likelihood of a demand for Walker's removal, political observers are asking these questions:

Would removal of Walker hamper or enhance Roosevelt's chances of being nominated?

What would be the effect of a refusal?

What would be the effect of removal on the voting of the 94 uninstructed New York state delegates, 40 to 50 of whom Tammany claims to control?

If Roosevelt were to win the nomination, after having removed the mayor, would he be able to carry New York state in November?

Without New York state's 45 electoral votes, could he roll up a big enough majority in other sections to be elected?

Associates of John F. Curry, Tammany leader, are loud in their prediction that any action against Walker would "kill" Roosevelt politically.

BABY PULLS BIG TUB OF SCALDING WATER OVER UPON HIS BODY

Ernest Smith, year-old son of Mr. and Mrs. Corbett Smith, who live four miles west of West Monroe, was severely burned at 6 o'clock last night when he pulled a tub of hot water off a chair in the home.

He was brought to the St. Francis sanitarium, where his burns were dressed. His burns were said not to be dangerous, though he was kept at the sanitarium last night.

Mrs. Smith said she had just finished completing the family washing, and had noticed the baby standing near the tub. Reaching the handle of the tub, he succeeded in pulling it off the chair, pouring the hot water over himself.

WEST CARROLL GAZETTE IS AWARDED LOVING CUP

H. N. Lipp, publisher of the West Carroll Gazette at Oak Grove, was last night awarded the silver loving cup of the Louisiana Press Association, at its annual meeting in New Orleans, for printing the best weekly newspaper in the state. The presentation was made by Henry McEnerny, of the Times-Picayune.

Mr. Lipp and his mother, Mrs. Leopold, mounted the stage at the association's annual dinner last night to receive the award. Among the speakers at the function were Mrs. E. M. Gilmer, "Dorothy Dix," Clayton Rand, of Gulfport, and Dean T. C. Morelock, of the Missouri school of journalism.

An Enormous Tax Bill

The Louisiana Taxpayers' association issues a statement through Mr. C. C. Sheppard, its president, which should have the serious consideration of the legislature, now in session at Baton Rouge and wrestling with the question of whether it should enact new taxes or so cut its cloth, as respects its spendings compared with its revenue, as to bring us back to the old days when income and outgo matched.

Summarizing figures prepared by the association, he says annual taxes paid into the state treasury have increased from $5,408,230 in 1912 to $31,060,166 in 1931. During the same time tax spendings by the state have grown from $6,436,580 to $79,398,111!

From 1912 to 1931 taxes paid into the treasury totaled $344,595,519 and monies spent $472,214,378, or the stupendous difference of $127,618,859.

Commenting on these figures, tremendously impressive in this time of colossal economic distress that is not local but world-wide, with multitudes out of work, Mr. Sheppard says:

> The Louisiana Taxpayers' association has made a graphic picture of the tidal wave of taxation that has swept down through recent years and is threatening to engulf everybody in confiscatory levies, and upon the basis of this showing, I, as president of the association, say that the need for economy is instant, immediate, overwhelming, admitting of no delay or beating about the bush. The economic welfare and perhaps the future of the state is in the hands of the present legislature.
>
> * * * *

The point Mr. Sheppard makes is on all fours with that which we ourselves have emphasized in the hope of bringing the legislature to a realization of its duty. It is that this is not a crisis whose solution can be left to the morrow.

There are bills or resolutions by well-intentioned members of the senate and house now pending that, acknowledging the financial peril with which the state is confronted, provide for the creation of special committees and the drafting of experts to work out a solution of the tax problem and report back to the legislature at the next biennium what must be done to set our house in order, balance our budget and bring relief to taxpayers. Some such program should be adopted.

But we cannot wait two years for that relief. "The need for economy is INSTANT, IMMEDIATE, OVERWHELMING, ADMITTING OF NO DELAY OR BEATING ABOUT THE BUSH," as Mr. Sheppard says.

It is folly to say that the legislature has no alternative but to create new sources of revenue, in the shape of a large series of new taxes that will cripple business and impoverish thousands of people all over the state who, if they had to bear them, would be hard put to it to keep the wolf from the door—taxes that, while ostensibly aimed at the merchant or the capitalist, would strike cruelly at the masses.

* * * *

The house, under the leadership of Speaker Ellender, has responded to the pulse of the people. It has cut its expenses to the bone. We are disappointed—and we are sure the whole state is disappointed—that the senate has not followed its lead.

The upper body should repent. If it doesn't, and if it refuses to work in harmony with the house in a program of wholesale reduction of the costs of government and refusal to be party to the crucifixion of the people by the imposition on them of additional tax burdens, the deplorable conditions now existing in Louisiana will be infinitely worse.

BOY, 10, IS INJURED IN AUTO ACCIDENT

Alvin Spence, Fowler, Brought Here for Treatment of Skull Fracture

Alvin Spence, 10-year-old son of Mr. and Mrs. Jeff Spence, of Fowler, was brought to the St. Francis sanitarium last night to receive treatment for dangerous injuries incurred in an automobile wreck shortly before 8 o'clock, midway between Fowler and Fairbanks.

He suffered a frontal fracture of the skull, severe body bruises, and gashes about the head and face when he lost control of the car he was said to have been driving, and the machine plunged off the roadway, turning over several times. Hospital attaches said his condition was serious.

Gus Hammonds, of Fowler, said the boy passed him, driving at approximately 50 miles an hour, just before the machine left the roadway. He took the boy in his car, and rushed him to the sanitarium here. On the way here, he said, young Spence appeared not to be badly hurt, and talked several times on the way.

The car he was driving, Mr. Spence said, belonged to Huell, an older brother who had started the boy to Fairbanks on an errand. Mr. Spence said his son had been driving since he was quite young, but had never been allowed to take the car by himself. The parents were in Monroe when the accident occurred.

The father is manager of a carbon black plant at Fowler.

VETERANS FIRED UPON IN ORLEANS

Shotgun Squads of Police Halt Bonus March Toward Washington

NEW ORLEANS, May 28 (AP)—One shot was fired tonight as a heavily armed squad of 35 policemen and railroad officers went to the Gentilly yards of the Louisville and Nashville railroad and broke up an assemblage of several hundred World war veterans bent on getting box car rides to Washington to urge payment of the soldiers' bonus. The shot was attributed to a negro veteran.

Two men were arrested and were charged with unlawful assembly in the officers' move against the protestants in the railroad yards. One of those arrested was Paul E. Bonta, a leader of the "box car brigade."

Under orders from Mayor T. Semmes Walmsley the police interrupted plans of the veterans to congregate in mass formation at an uptown location and demonstrate in parade through the city streets.

Taxicabs, private trucks and automobiles were placed at the disposal of the veterans and they were transported across the city to the railroad yards. The men boarded a freight train and started out of New Orleans.

Less than a mile away police shotgun squads got in their work. The train halted. Guns were poked in and the men piled out of the train.

"Boys, this is as far as you get to Washington," the armed camp members told them. The men in small groups walked back up the road.

MAYOR BERNSTEIN AND BREARD ISSUE JOINT STATEMENT

Public Declaration Regarding Proposed Municipal Workers Pay Cut Made

EXPRESS REGRET PUBLIC STATEMENT IS NECESSARY

City Executive Cites Letter on Subject Which He Wrote January 26

Mayor Arnold Bernstein and Commissioner of Finance and Utilities D. A. Breard, yesterday issued the following joint statement with respect to the recently published interview of the commissioner of streets and parks, on reduction of municipal expenses:

"On January 26th, 1932, Mayor Bernstein addressed to the other members of the city council the following letter:

January 26th, 1932.

Mr. Breard and
Mr. Swayze, Commissioners,
City of Monroe,
Gentlemen:

For sometime it has been apparent I think to all of us, that a reduction in salaries, starting from the mayor and commissioners, down through all the departments, might have to take place.

Following this line of thought, I have had Mr. Poag, secretary-treasurer, make up a list of all employees so as to arrive at a basis of any contemplated cut.

Mr. Poag figured a ten per cent cut on all, summing it up by the month and year and it is quite a large sum of money.

I have held back in presenting this to you but due to the high-water fight that we are now waging with extra expenditures, it appears more necessary than heretofore. It may be possible that this will be necessary and if so, I shall call a session of the commission council in order that we might all present our views on the matter and come to some decision as what is the best to do.

For your information further, I have been informed that most of the larger business institutions in the city have recently followed this course of retrenchment.

Very truly yours,
(Signed) Arnold Bernstein,
Mayor.

"Following a general discussion, conferences were had with the heads of the banks of Monroe, and numerous business men and taxpayers of the city in a sincere effort to arrive at the best, most just, and most equitable method of accomplishing a re-

UNION PARISH PUBLIC MASS MEETING SLATED TUESDAY AFTERNOON

Circulars are being distributed over Union parish, The Morning World was informed last night, at the instance of a group of Union citizens residing at Bernice and in the northern part of the parish, calling for a parish-wide mass meeting to be held at Farmerville Tuesday afternoon at 2:30 o'clock.

At the same time, it is said, organization of a permanent taxpayers' association for Union parish will be completed.

Among other things reputedly scheduled to be discussed at that time are retrenchment in both Union parish and state governmental expenses and a resolution memorializing the Louisiana legislature against passage at this time of any tax unless it be a tax upon luxuries.

Reduction of salaries in public offices and other matters of common interest are also expected to come up.

Long Is Arousing Interest In United States Senate

WASHINGTON, May 28 (AP)—Master of his own one-ring circus on the floor, Senator Huey P. Long of Louisiana keeps the galleries in guffaws and his colleagues wondering.

The phrase "rough and tumble debate" apparently was coined with the democrat from the Louisiana bayous in mind, because his debates are both rough and tumbling, on himself and his foes.

In a quaint mixture of figures and colorful phrasing and with eloquent gyrations, he presents the points for which he is arguing, noisily and vehemently. Sarcasm is his chief weapon in debate.

"Ain't" is one of his standby words—coupled with "gonna"—while "particular" becomes "puhtickuler" in his colloquial speech as he stomps this way and that, sways far back from the waist up, first one arm and then the other waving wildly. Occasionally both are flying, or both are tucked deep in his pockets while he listens to a question.

At times, Long takes command in the senate. His favorite position is in the back of the center aisle dividing the two parties' sections of seats. There he teeters and talks, while directing activities.

It was his favorite place in the import levy fight during consideration of the tax bill. There he stood and left the distinct impression he was in charge. He sits here and there about the chamber, usually far from his own place in the back row.

Some of his colleagues think Long has considerable to learn of senatorial courtesy. Only the other day he objected to Senator Tydings (D., Md.) having read an

The Unwelcome Hitch-Hiker

PORTER BURGESS GIVES STATEMENT

Explains Resolution Aimed at Securing Revision of Taxation System

Porter Burgess, representative of Ouachita parish in the state legislature, returned from Baton Rouge yesterday for his first weekend at home since the legislature opened its current session.

Mr. Burgess issued the following statement regarding house concurrent resolution No. 16, providing for appointment of a committee to revise and reconstruct the taxation system of Louisiana:

"Passage of the house resolution for revision of the tax system would place Louisiana in the same class with many other states, including North Carolina, which have recently taken similar steps to relieve farmers and property owners by adoption of more equitable systems of taxation.

"All who are acquainted with existing conditions will admit that our present system of taxation is obsolete and inadequate to meet our present needs.

"It is a fact that 85 per cent of the has not been able to keep within its income and must pledge two mills of

(Continued on Third Page)

ANNUAL TWO-DAY POPPY SALE IS ENDED SATURDAY

The annual two-day "buddy" poppy sale of the Veterans of Foreign Wars was concluded here last night.

J. E. Thomas, chairman of Rodney J. Hobbs, post 1809, committee in charge of the sale, announced that all of the 3000 poppies ordered were sold before 6 o'clock by women of the auxiliary, who conducted the sale.

Approximately $260 was raised, he said. The funds will go to the national home, Cedar Rapids, Mich.

M. C. Redmond Gives Views Regarding Allocation Bill

M. C. Redmond, Monroe attorney and former state senator, last night issued the following statement:

"Favorable endorsement, I understand, was last week given by the state senate finance committee at Baton Rouge to senate bill No. 26, granting authority to cities and parishes, excepting New Orleans, to allocate two mills of their general revenue tax for the purpose of retiring indebtedness incurred up to May 1, 1932.

"The original act, which this bill amends—for it does not establish a new law, merely changing the date of last effectiveness of an old one—was passed in 1928, during my incumbency as state senator. It authorized similar allocation of tax money but solely to retire debts incurred prior to May 1, 1928.

"This bill of amendment, undoubtedly designed chiefly for the city of Monroe, since it was the mayor and city attorney of Monroe who appeared before the senate finance committee to urge a favorable report, should be considered mainly as a Monroe measure.

"The citizens of Monroe should take an interest in it.

"On the face of it, it does not increase taxes.

"In a larger sense, it will increase taxes.

"These are my reasons for so thinking.

"It is apparent that the present income of the city, partly derived from taxes, is not sufficient to pay even current running expenses.

"Taking two mills of the general revenue tax, already insufficient to pay the city's expenses, to pay for something which has already been obtained will leave less for current expenses.

"Therefore, it follows that the taxes must be increased, if not now, then in the course of time.

"Benefits of the bill are these—and these alone—to pay up, in the course of 25 years, debts incurred by the city between May 1, 1928, and May 1, 1932.

"If the city, in the past four years,

(Continued on Third Page)

STERLINGTON YOUTH IS INJURED BY FALLING OF PIPE FROM BRIDGE

A. L. Smith, 10-year-old son of D. Y. Smith, of Sterlington, was brought to the St. Francis sanitarium yesterday afternoon to receive treatment for a wound in his right thigh, inflicted when a piece of three-fourths inch pipe fell from the bridge now under process of construction at Sterlington, and struck him.

The boy was in a boat, rowing beneath the bridge when the pipe fell almost 30 feet, striking him in the thigh. The pipe passed completely through the fleshy part of his limb, but did not fracture any bones, the doctor said.

Several muscles were torn loose, and the boy lost considerable blood before he could be rushed to the sanitarium.

The doctor said last night he did not believe the limb would be paralyzed, and that the boy was resting quite well.

ZOO TO REMAIN OPEN LATER THIS EVENING

Because of the baseball game at Forsythe park this afternoon and in order to accommodate those who wish to visit the city zoo after watching the game, Harry McLeod, keeper of the zoo, announced last night, the zoo will be kept open until 6:30 p. m. today instead of closing at 5.

The two black bears will stage their customary wrestling bout, the wolves will strut their stuff and all exhibits will be on view.

And there will be a "mystery box."

LOUISIANA SOLONS FACE SALES TAX

Graduate Levy of That Type Will Be Proposed by Bienville Legislator

BATON ROUGE, May 28 (AP)—Expectation that a sales tax would be among the revenue producing measures proposed in the current "money session" of the Louisiana legislature, was substantiated today with announcement by Representative Lorris Wimberly, Bienville, that he would introduce a graduated general sales levy bill when the general assembly reconvenes Monday night.

Wimberly said his proposed tax would range from a minimum of one-twentieth of one per cent on gross sales amounting to less than $200,000 a year, to a maximum of one per cent on gross sales of more than $1,000,000 a year.

The proceeds, to be collected by the supervisor of public accounts, would be devoted to payment of part of the bonded indebtedness of the parishes. The parishes would be al-

(Continued on Twelfth Page.)

No Holiday

Tennessee Will Observe Only Confederate Memorial Day

NASHVILLE, Tenn., May 28 (AP)—Memorial day on May 30 has been rubbed off the list of legal holidays in Tennessee and Confederate Decoration day on June 3 is recognized instead.

When the legislature last year codified the state's statutes it omitted May 30 as a holiday, and H. Grady Huddleston, secretary of the Tennessee Bankers association, has written all the banks, calling attention to this fact.

Huddleston has been advised that banks in Memphis, Chattanooga and Nashville will remain open Monday, though those in Knoxville will close.

TAXPAYERS' GROUP IN LINCOLN PARISH RAPS LAWMAKERS

Pass Resolution of Censure Over Legislature's Defeat of Hamiter Act

SAY PUBLIC IS ENTITLED TO INFORMATION SOUGHT

Also Criticize Board of Liquidation's Present Power to Borrow Money

RUSTON, May 28 (Special)—Taking note of the defeat of the Hamiter concurrent resolution, the purpose of which was to give the taxpayers detailed information about expenditures of tax monies, the Lincoln Parish Taxpayers' association, in session at the city hall Saturday afternoon, passed the following resolution by a unanimous vote:

"We note with regret that the legislature now in session voted overwhelmingly against the Hamiter concurrent resolution, a resolution which, if passed and complied with, would have given the taxpayers much needed information about the expenditures of tax monies. It is common knowledge that the voluminous and cumbersome records of the several state officers, boards and commissions do not reveal in any useable way the information that the taxpayer is justly entitled to have to guide him in his attitude toward all tax matters."

Quoting the well-known adage, "The power to tax is the power to destroy," the Lincoln parish group expressed its attitude toward the recent practice of borrowing funds for all sorts of purposes in the following terms:

"And while the board of liquidation does not have the direct power to levy a tax, it does have the power to borrow, and funds borrowed by this arm of the state government must be repaid with tax money. For this very obvious reason, we deem it the part of wisdom to so amend our basic law that the right of the board of liquidation to plunge the state in debt by borrowing be materially altered if not prohibited altogether."

Following the authority delegated to President J. L. Anderson, ward 5 farmer, when the Lincoln organization was set up a week ago, to name eight directors, one from each ward, the following board was named for the organization: J. L. Anderson, Choudrant, president; S. L. Barksdale, ward 1, Ruston; T. L. McCrary, Hilly, ward 2; John T. Henry, Simsboro, ward 3; John A. Baker, Choudrant, ward 4; J. Curt Hammons, Choudrant, ward 5; Tay B. Colvin, Dubach, ward 6; Thomas L. Waugh, Hico, ward 7; V. W. Colvin, Dubach, ward 8.

O. E. Hodge, Ruston; James A. Gaar, Ruston, and John T. Henry, Simsboro, were named a committee on constitution and by-laws. This organization will submit its report at a special meeting of the organization to be held in the city hall, Ruston, Saturday, June 4, at 2 oclock.

The secretary was instructed to send out not less than 500 notices to as many individual taxpayers over the parish, inviting them to the next meeting.

Harvey G. Fields, public service commissioner for this district, in a telephone conversation with The World last night explained details of the Hamiter resolution.

"Mr. Hamiter," he said, "originally proposed that the departments of the state be required to submit reports

WINNFIELD RESIDENTS COMPLAIN OF CHARGES FOR GAS, LIGHT, WATER

Matters pertaining to attempts to obtain lower gas, electric and water rates for the city of Winnfield were taken up yesterday. The World was informed last night, at a meeting in the Winn parish seat of all city officials, a citizens committee and Public Service Commissioner Harvey G. Fields, of Farmerville.

Sentiments of the people of Winnfield that the rates for all three services there are "exorbitant" were voiced at the meeting and Commissioner Fields was asked to provide the city council with forms for filing a formal complaint.

Another meeting will be held at Winnfield Tuesday to decide upon further action.

ORLEANS BOY IS DROWNED WHILE COMRADES SCREAM

NEW ORLEANS, May 28 (AP)—Believed to have been seized with cramps late today while swimming in the Mississippi river here, Theodore Arceneaux, 13-year-old fifth grade grammar school pupil, drowned while his companions screamed in horror.

Emile Haynes, 42-year-old lumber plant watchman, arrived on the scene and reached the youth with a small gasoline boat just as he was going down for the last time.

Efforts to revive him failed.

WEST CARROLL GAZETTE IS AWARDED LOVING CUP

H. N. Lipp, publisher of the West Carroll Gazette at Oak Grove, was last night awarded the silver loving cup of the Louisiana Press Association, at its annual meeting in New Orleans, for printing the best weekly newspaper in the state. The presentation was made by Henry McEnerny, of the Times-Picayune.

Mr. Lipp and his mother, Mrs. Leopold, mounted the stage at the association's annual dinner last night to receive the award. Among the speakers at the function were Mrs. E. M. Gilmer, "Dorothy Dix," Clayton Rand, of Gulfport, and Dean T. C. Morelock, of the Missouri school of journalism.

An Enormous Tax Bill

The Louisiana Taxpayers' association issues a statement through Mr. C. C. Sheppard, its president, which should have the serious consideration of the legislature, now in session at Baton Rouge and wrestling with the question of whether it should enact new taxes or so cut its cloth, as respects its spendings compared with its revenue, as to bring us back to the old days when income and outgo matched.

Summarizing figures prepared by the association, he says annual taxes paid into the state treasury have increased from $5,408,230 in 1912 to $31,060,166 in 1931. During the same time tax spendings by the state have grown from $6,436,580 to $79,398,111!

From 1912 to 1931 taxes paid into the treasury totaled $344,595,519 and monies spent $472,214,378, or the stupendous difference of $127,618,859.

Commenting on these figures, tremendously impressive in this time of colossal economic distress that is not local but world-wide, with multitudes out of work, Mr. Sheppard says:

> The Louisiana Taxpayers' association has made a graphic picture of the tidal wave of taxation that has swept down through recent years and is threatening to engulf everybody in confiscatory levies, and upon the basis of this showing, I, as president of the association, say that the need for economy is instant, immediate, overwhelming, admitting of no delay or beating about the bush. The economic welfare and perhaps the future of the state is in the hands of the present legislature.

* * * *

The point Mr. Sheppard makes is on all fours with that which we ourselves have emphasized in the hope of bringing the legislature to a realization of its duty. It is that this is not a crisis whose solution can be left to the morrow.

There are bills or resolutions by well-intentioned members of the senate and house now pending that, acknowledging the financial peril with which the state is confronted, provide for the creation of special committees and the drafting of experts to work out a solution of the tax problem and report back to the legislature at the next biennium what must be done to set our house in order, balance our budget and bring relief to taxpayers. Some such program should be adopted.

But we cannot wait two years for that relief. "The need for economy is INSTANT, IMMEDIATE, OVERWHELMING, ADMITTING OF NO DELAY OR BEATING ABOUT THE BUSH," as Mr. Sheppard says.

It is folly to say that the legislature has no alternative but to create new sources of revenue, in the shape of a large series of new taxes that will cripple business and impoverish thousands of people all over the state who, if they had to bear them, would be hard put to it to keep the wolf from the door—taxes that, while ostensibly aimed at the merchant or the capitalist, would strike cruelly at the masses.

* * * *

The house, under the leadership of Speaker Ellender, has responded to the pulse of the people. It has cut its expenses to the bone. We are disappointed—and we are sure the whole state is disappointed—that the senate has not followed its lead.

The upper body should repent. If it doesn't, and if it refuses to work in harmony with the house in a program of wholesale reduction of the costs of government and refusal to be party to the crucifixion of the people by the imposition on them of additional tax burdens, the deplorable conditions now existing in Louisiana will be infinitely worse.

BOY, 10, IS INJURED IN AUTO ACCIDENT

Alvin Spence, Fowler, Brought Here for Treatment of Skull Fracture

Alvin Spence, 10-year-old son of Mr. and Mrs. Jeff Spence, of Fowler, was brought to the St. Francis sanitarium last night to receive treatment for dangerous injuries incurred in an automobile wreck shortly before 8 o'clock, midway between Fowler and Fairbanks.

He suffered a frontal fracture of the skull, severe body bruises, and gashes about the head and face when he lost control of the car he was said to have been driving, and the machine plunged off the roadway, turning over several times. Hospital attaches said his condition was serious.

Gus Hammonds, of Fowler, said the boy passed him, driving at approximately 50 miles an hour, just before the machine left the roadway. He took the boy in his car, and rushed him to the sanitarium here. On the way here, he said, young Spence appeared not to be badly hurt, and talked several times on the way.

The car he was driving, Mr. Spence said, belonged to Huell, an older brother who had started the boy to Fairbanks on an errand. Mr. Spence said his son had been driving since he was quite young, but had never been allowed to take the car by himself. The parents were in Monroe when the accident occurred.

The father is manager of a carbon black plant at Fowler.

VETERANS FIRED UPON IN ORLEANS

Shotgun Squads of Police Halt Bonus March Toward Washington

NEW ORLEANS, May 28 (AP)—One shot was fired tonight as a heavily armed squad of 35 policemen and railroad officers went to the Gentilly yards of the Louisville and Nashville railroad and broke up an assemblage of several hundred World war veterans bent on getting box car rides to Washington to urge payment of the soldiers' bonus. The shot was attributed to a negro veteran.

Two men were arrested and were charged with unlawful assembly in the officers' move against the protestants in the railroad yards. One of those arrested was Paul E. Bonta, a leader of the "box car brigade."

Under orders from Mayor T. Semmes Walmsley the police interrupted plans of the veterans to congregate in mass formation at an uptown location and demonstrate in parade through the city streets.

Taxicabs, private trucks and automobiles were placed at the disposal of the veterans and they were transported across the city to the railroad yards. The men boarded a freight train and started out of New Orleans.

Less than a mile away police shotgun squads got in their work. The train halted. Guns were poked in and the men piled out of the train.

"Boys, this is as far as you get to Washington," the armed camp members told them. The men in small groups walked back up the road.

MAYOR BERNSTEIN AND BREARD ISSUE JOINT STATEMENT

Public Declaration Regarding Proposed Municipal Workers Pay Cut Made

EXPRESS REGRET PUBLIC STATEMENT IS NECESSARY

City Executive Cites Letter on Subject Which He Wrote January 26

Mayor Arnold Bernstein and Commissioner of Finance and Utilities D. A. Breard, yesterday issued the following joint statement with respect to the recently published interview of the commissioner of streets and parks, on reduction of municipal expenses:

"On January 26th, 1932, Mayor Bernstein addressed to the other members of the city council the following letter:

January 26th, 1932.

Mr. Breard and
Mr. Swayze, Commissioners,
City of Monroe,
Gentlemen:

For sometime it has been apparent I think to all of us, that a reduction in salaries, starting from the mayor and commissioners, down through all the departments, might have to take place.

Following this line of thought, I have had Mr. Poag, secretary-treasurer, make up a list of all employees so as to arrive at a basis of any contemplated cut.

Mr. Poag figured a ten per cent cut on all, summing it up by the month and year and it is quite a large sum of money.

I have held back in presenting this to you but due to the high-water fight that we are now waging with extra expenditures, it appears more necessary than heretofore. It may be possible that this will be necessary and if so, I shall call a session of the commission council in order that we might all present our views on the matter and come to some decision as what is the best to do.

For your information further, I have been informed that most of the larger business institutions in the city have recently followed this course of retrenchment.

Very truly yours,
(Signed) Arnold Bernstein,
Mayor.

"Following a general discussion, conferences were had with the heads of the banks of Monroe, and numerous business men and taxpayers of the city in a sincere effort to arrive at the best, most just, and most equitable method of accomplishing a re-

UNION PARISH PUBLIC MASS MEETING SLATED TUESDAY AFTERNOON

Circulars are being distributed over Union parish, The Morning World was informed last night, at the instance of a group of Union citizens residing at Bernice and in the northern part of the parish, calling for a parish-wide mass meeting to be held at Farmerville Tuesday afternoon at 2:30 o'clock.

At the same time, it is said, organization of a permanent taxpayers' association for Union parish will be completed.

Among other things reputedly scheduled to be discussed at that time are retrenchment in both Union parish and state governmental expenses and a resolution memorializing the Louisiana legislature against passage at this time of any tax unless it be a tax upon luxuries.

Reduction of salaries in public offices and other matters of common interest are also expected to come up.

The Unwelcome Hitch-Hiker

PORTER BURGESS GIVES STATEMENT

Explains Resolution Aimed at Securing Revision of Taxation System

Porter Burgess, representative of Ouachita parish in the state legislature, returned from Baton Rouge yesterday for his first weekend at home since the legislature opened its current session.

Mr. Burgess issued the following statement regarding house concurrent resolution No. 16, providing for appointment of a committee to revise and reconstruct the taxation system of Louisiana:

"Passage of the house resolution for revision of the tax system would place Louisiana in the same class with many other states, including North Carolina, which have recently taken similar steps to relieve farmers and property owners by adoption of more equitable systems of taxation.

"All who are acquainted with existing conditions will admit that our present system of taxation is obsolete and inadequate to meet our present needs.

"It is a fact that 85 per cent of the has not been able to keep within its income and must pledge two mills of

(Continued on Third Page)

ANNUAL TWO-DAY POPPY SALE IS ENDED SATURDAY

The annual two-day "buddy" poppy sale of the Veterans of Foreign Wars was concluded here last night.

J. E. Thomas, chairman of Rodney J. Hobbs, post 1809, committee in charge of the sale, announced that all of the 3000 poppies ordered were sold before 6 o'clock by women of the auxiliary, who conducted the sale.

Approximately $260 was raised, he said. The funds will go to the national home, Cedar Rapids, Mich.

M. C. Redmond Gives Views Regarding Allocation Bill

M. C. Redmond, Monroe attorney and former state senator, last night issued the following statement:

"Favorable endorsement, I understand, was last week given by the state senate finance committee at Baton Rouge to senate bill No. 26, granting authority to cities and parishes, excepting New Orleans, to allocate two mills of their general revenue tax for the purpose of retiring indebtedness incurred up to May 1, 1932.

"The original act, which this bill amends—for it does not establish a new law, merely changing the date of last effectiveness of an old one—was passed in 1928, during my incumbency as state senator. It authorized similar allocation of tax money but solely to retire debts incurred prior to May 1, 1928.

"This bill of amendment, undoubtedly designed chiefly for the city of Monroe, since it was the mayor and city attorney of Monroe who appeared before the senate finance committee to urge a favorable report, should be considered mainly as a Monroe measure.

"The citizens of Monroe should take an interest in it.

"On the face of it, it does not increase taxes.

"In a larger sense, it will increase taxes.

"These are my reasons for so thinking.

"It is apparent that the present income of the city, partly derived from taxes, is not sufficient to pay even current running expenses.

"Taking two mills of the general revenue tax, already insufficient to pay the city's expenses, to pay for something which has already been obtained will leave less for current expenses.

"Therefore, it follows that the taxes must be increased, if not now, then in the course of time.

"Benefits of the bill are these—and these alone—to pay up, in the course of 25 years, debts incurred by the city between May 1, 1928, and May 1, 1932.

"If the city, in the past four years,

(Continued on Third Page)

STERLINGTON YOUTH IS INJURED BY FALLING OF PIPE FROM BRIDGE

A. L. Smith, 10-year-old son of D. Y. Smith, of Sterlington, was brought to the St. Francis sanitarium yesterday afternoon to receive treatment for a wound in his right thigh, inflicted when a piece of three-fourths inch pipe fell from the bridge now under process of construction at Sterlington, and struck him.

The boy was in a boat, rowing beneath the bridge when the pipe fell almost 30 feet, striking him in the thigh. The pipe passed completely through the fleshy part of his limb, but did not fracture any bones, the doctor said.

Several muscles were torn loose, and the boy lost considerable blood before he could be rushed to the sanitarium.

The doctor said last night he did not believe the limb would be paralyzed, and that the boy was resting quite well.

ZOO TO REMAIN OPEN LATER THIS EVENING

Because of the baseball game at Forsythe park this afternoon and in order to accommodate those who wish to visit the city zoo after watching the game, Harry McLeod, keeper of the zoo, announced last night, the zoo will be kept open until 6:30 p. m. today instead of closing at 5.

The two black bears will stage their customary wrestling bout, the wolves will strut their stuff and all exhibits will be on view.

And there will be a "mystery box."

LOUISIANA SOLONS FACE SALES TAX

Graduate Levy of That Type Will Be Proposed by Bienville Legislator

BATON ROUGE, May 28 (AP)—Expectation that a sales tax would be among the revenue producing measures proposed in the current "money session" of the Louisiana legislature, was substantiated today with announcement by Representative Lorris Wimberly, Bienville, that he would introduce a graduated general sales levy bill when the general assembly reconvenes Monday night.

Wimberly said his proposed tax would range from a minimum of one-twentieth of one per cent on gross sales amounting to less than $200,000 a year, to a maximum of one per cent on gross sales of more than $1,000,000 a year.

The proceeds, to be collected by the supervisor of public accounts, would be devoted to payment of part of the bonded indebtedness of the parishes. The parishes would be al-

(Continued on Twelfth Page.)

No Holiday

Tennessee Will Observe Only Confederate Memorial Day

NASHVILLE, Tenn., May 28 (AP)—Memorial day on May 30 has been rubbed off the list of legal holidays in Tennessee and Confederate Decoration day on June 3 is recognized instead.

When the legislature last year codified the state's statutes it omitted May 30 as a holiday, and H. Grady Huddleston, secretary of the Tennessee Bankers association, has written all the banks, calling attention to this fact.

Huddleston has been advised that banks in Memphis, Chattanooga and Nashville will remain open Monday, though those in Knoxville will close.

TAXPAYERS' GROUP IN LINCOLN PARISH RAPS LAWMAKERS

Pass Resolution of Censure Over Legislature's Defeat of Hamiter Act

SAY PUBLIC IS ENTITLED TO INFORMATION SOUGHT

Also Criticize Board of Liquidation's Present Power to Borrow Money

RUSTON, May 28 (Special)—Taking note of the defeat of the Hamiter concurrent resolution, the purpose of which was to give the taxpayers detailed information about expenditures of tax monies, the Lincoln Parish Taxpayers' association, in session at the city hall Saturday afternoon, passed the following resolution by a unanimous vote:

"We note with regret that the legislature now in session voted overwhelmingly against the Hamiter concurrent resolution, a resolution which, if passed and complied with, would have given the taxpayers much needed information about the expenditures of tax monies. It is common knowledge that the voluminous and cumbersome records of the several state officers, boards and commissions do not reveal in any useable way the information that the taxpayer is justly entitled to have to guide him in his attitude toward all tax matters."

Quoting the well-known adage, "The power to tax is the power to destroy," the Lincoln parish group expressed its attitude toward the recent practice of borrowing funds for all sorts of purposes in the following terms:

"And while the board of liquidation does not have the direct power to levy a tax, it does have the power to borrow, and funds borrowed by this arm of the state government must be repaid with tax money. For this very obvious reason, we deem it the part of wisdom to so amend our basic law that the right of the board of liquidation to plunge the state in debt by borrowing be materially altered if not prohibited altogether."

Following the authority delegated to President J. L. Anderson, ward 5 farmer, when the Lincoln organization was set up a week ago, to name eight directors, one from each ward, the following board was named for the organization: J. L. Anderson, Choudrant, president; S. L. Barksdale, ward 1, Ruston; T. L. McCrary, Hilly, ward 2; John T. Henry, Simsboro, ward 3; John A. Baker, Choudrant, ward 4; J. Curt Hammons, Choudrant, ward 5; Tay B. Colvin, Dubach, ward 6; Thomas L. Waugh, Hico, ward 7; W. W. Colvin, Dubach, ward 8.

O. E. Hodge, Ruston; James A. Gaar, Ruston, and John T. Henry, Simsboro, were named a committee on constitution and by-laws. This organization will submit its report at a special meeting of the organization to be held in the city hall, Ruston, Saturday, June 4, at 2 oclock.

The secretary was instructed to send out not less than 500 notices to as many individual taxpayers over the parish, inviting them to the next meeting.

Harvey G. Fields, public service commissioner for this district, in a telephone conversation with The World last night explained details of the Hamiter resolution.

"Mr. Hamiter," he said, "originally proposed that the departments of the state be required to submit reports

(Continued on Thirteenth Page)

WINNFIELD RESIDENTS COMPLAIN OF CHARGES FOR GAS, LIGHT, WATER

Matters pertaining to attempts to obtain lower gas, electric and water rates for the city of Winnfield were taken up yesterday. The World was informed last night, at a meeting in the Winn parish seat of all city officials, a citizens committee and Public Service Commissioner Harvey G. Fields, of Farmerville.

Sentiments of the people of Winnfield that the rates for all three services there are "exorbitant" were voiced at the meeting and Commissioner Fields was asked to provide the city council with forms for filing a formal complaint.

Another meeting will be held at Winnfield Tuesday to decide upon further action.

ORLEANS BOY IS DROWNED WHILE COMRADES SCREAM

NEW ORLEANS, May 28 (AP)—Believed to have been seized with cramps late today while swimming in the Mississippi river here, Theodore Arceneaux, 13-year-old fifth grade grammar school pupil, drowned while his companions screamed in horror.

Emile Haynes, 42-year-old lumber plant watchman, arrived on the scene and reached the youth with a small gasoline boat just as he was going down for the last time.

Efforts to revive him failed.

Long Is Arousing Interest In United States Senate

WASHINGTON, May 28 (AP)—Master of his own one-ring circus on the floor, Senator Huey P. Long of Louisiana keeps the galleries in guffaws and his colleagues wondering.

The phrase "rough and tumble debate" apparently was coined with the democrat from the Louisiana bayous in mind, because his debates are both rough and tumbling, on himself and his foes.

In a quaint mixture of figures and colorful phrasing and with eloquent gyrations, he presents the points for which he is arguing, noisily and vehemently. Sarcasm is his chief weapon in debate.

"Ain't" is one of his standby words—coupled with "gonna"—while "particular" becomes "puhtickuler" in his colloquial speech as he stomps this way and that, sways far back from the waist up, first one arm and then the other waving wildly. Occasionally both are flying, or both are tucked deep in his pockets while he listens to a question.

At times, Long takes command in the senate. His favorite position is in the back of the center aisle dividing the two parties' sections of seats. There he teeters and talks, while directing activities.

It was his favorite place in the import levy fight during consideration of the tax bill. There he stood and left the distinct impression he was in charge. He sits here and there about the chamber, usually far from his own place in the back row.

Some of his colleagues think Long has considerable to learn of senatorial courtesy. Only the other day he objected to Senator Tydings (D., Md.) having read an

(Continued on Third Page)

RIFLE SHOOT WILL BE OPENED TODAY

Range at Smoot Field Will Be Scene of Activity From 8 o'Clock On

A rifle shoot, open to attendance of marksmen from throughout north Louisiana, will be held on the range at Smoot field next Sunday, June 5, it was announced yesterday afternoon by S. E. Pipes, one of the local marksmen who have been active in building the Smoot field range and conducting shooting matches there.

Because of the large number of marksmen expected to enter the shoot, the range will be opened at 8 o'clock in the morning and scores may be posted throughout the day.

Fifteen prizes will be awarded the high scorers, including a silver trophy for the highest score. The prizes have been donated by local merchants.

Rifles used in the shoot will be limited to those of .22 caliber. Each participant will post two scores, one for 20 rounds fired from a distance of 50 yards, and the other for 20 rounds fired from a distance of 100 yards. Five prizes will be awarded to high scorers of each event, making a total of 10 prizes. In addition, five prizes will be awarded to participants making the five highest aggregate scores, or highest total scores for the two events. The highest aggregate score will earn the silver trophy.

Original plans for a shooting match, to be featured by the awarding of prizes, involved the probability that an inter-city match would be held between Monroe and Shreveport marksmen. This idea was elaborated so that marksmen from all towns and communities of north Louisiana would be eligible to participate in the shoot.

The idea of a match with a Shreveport team has not been abandoned, however, and providing a sufficient number of Shreveport marksmen come here for the shoot next Sunday, they may compete with a local team for the honor of winning an inter-city match, while all participants in the shoot will remain eligible to win prizes.

The regular Sunday afternoon rifle and pistol shooting matches will be held at the local range at 2 o'clock this afternoon. Matches are also regularly held on Wednesday afternoons at 5 o'clock.

PLAYGROUND LEADERSHIP MEETING HELD SATURDAY

"Individual Competitive Games" were discussed by C. C. Colvert, president of the Ouachita parish junior college, at a meeting of the playground leadership institute in the offices of the Municipal Recreation department, sponsors of the course, yesterday afternoon.

Miss Armandine Renaud discussed "Dancing on the Playground," in the only other address given at the meeting.

At a meeting next Monday night at 7 o'clock, Miss Olive Gunby, instructor in the parish schools, will discuss "Activities of Little Children."

4-H CAMP PLANNED

FERRIDAY, May 28 (Special)—4-H club members of Concordia, Catahoula, Tensas, Franklin, West Carroll and other parishes will attend their annual district camps at Camp Peck, in Catahoula parish, near Sicily Island during the summer months. Approximately 60 4-H club boys and girls of West Carroll will go to Camp Peck on June 20 and remain until June 24.

HOLLYWOOD'S "BAD GIRL"

Miss Mary Nolan, famed from New York to Hollywood for her dramatic skill, is in this city in person today, appearing at the Paramount in "File 113." Many who saw the film and Miss Nolan here Saturday went away highly pleased. Today will be the last time Miss Nolan and the film will be presented here.

TODAY

The Automobile Capital The G. M. Laboratory Machines That Think Henry Ford's Telegram

By ARTHUR BRISBANE
(Copyright, 1932, King Features Synd.)

DETROIT, MICH., MAY 28.—Fine weather in the capital of the world's automobile industry.

The event looked forward to at the moment is the annual 500-mile race that will start at Indianapolis next Monday, Decoration Day.

This year Edsel Ford will drive the car that will start the races. He will lead them around the track once in a 12-cylinder Lincoln, at a moderate pace, about 70 miles an hour, and start them after one lap around the big saucer.

MR. ERSKINE, PRESIDENT of the Studebaker Company, has entered five stock cars. Practically all the others were built for racing. General Motors and Ford do not compete.

Captain Rickenbacker will be there. No American should forget him. Best of all the air fighters we sent to Europe, he represents the courage and skill that this nation will need some day.

ON THE WALL of the General Motors research laboratory occupying an entire building, under the direction of Charles F. Kettering, you read, "The death of a theory is the birth of a fact."

Mr. Kettering should add to that, for nobody knows it better, "The birth of a sound theory sometimes wipes out fallacies mistaken for facts." For instance, the theory that the earth goes round the sun wiped out many accepted "facts."

IN THAT ADMIRABLE laboratory theories are born and transmitted into facts. You see a machine that can look into a mixture of metals and tell what is in the mixture. With that machine Archimedes could have analyzed Hiero's golden crown without using the idea that occurred to him in his bath.

THERE IS A MACHINE that looks into the center of a steel axle and photographs the slightest flaw.

There is a Neon lamp, mysteriously synchronized with a wheel or a shaft making 2,000 revolutions per minute, the light makes the moving object apparently stand still.

The shaft, instead of revolving so rapidly you cannot see it, is apparently at rest, can even be made to revolve, apparently, in the opposite direction.

An application of that scientific miracle may some day enable astronomers to study the fixed stars, planets and our sun, as though they were standing still.

IN THAT SAME LABORATORY, music is sent over a beam of light to a distant radio. There is no sound where the beam starts; if you cut off the light with your hand the music stops.

Near the transmission of music by light you see an engine used for experiments with engine "knocking" trouble. A knock that could be heard two blocks ceases when a certain fluid is added to the ordinary gasoline.

AND MORE WONDERFUL, the knocking, when at its worst, stops immediately when a tiny uncorked bottle of a certain chemical is held before a pipe leading to the knocking.

None of this chemical goes into the fuel. The engine simply "sniffs" the odor, and stops knocking.

You have seen a lady brought out of a faint by holding salts to her nose. This is the same thing in mechanics.

HENRY FORD HAD for his luncheon party today, at the plant, his son Edsel, Mr. Sorensen, his manager, Mr. Cameron, M. C. Meigs, commonly known as "the Goliath of the American Weekly," this writer and some others. They all are bread made of soy because Mr. Ford experiments with everything.

MR. FORD, WHO SEEMED not to have the slightest idea that we are all "enjoying a depression," was interested in showing about 500 antique steam engines, gas engines and hot air engines to Mr. Meigs, who like himself knows all about oil feed, water pumps, valve gears, automatic governors, and other mysterics. Every steam engine that was ever run, from the first to the latest Diesel product is in Mr. Ford's antique collection, including even one of his own giant engines that turned out 15,000,000 model T Fords.

HE HAS NOT IN HIS collection the primitive engine supposed to have run in the Serapion at Alexandria long before the birth of Christ. That, probably, no longer exists. If he could find it he would make it run. He has enough skilled mechanics, restoring these old engines, enough mechanics to equip an ordinarily large factory.

WHEN THIS WRITER arrived at Dearborn Saturday morning, Mr. Ford had just answered a telegram received from L'Anse, Michigan, telling him that the only bank at L'Anse had closed and asking, "Won't you advance $75,000" to start the bank going again?

Mr. Ford's reply, which this writer has his permission to print, indicates that Mr. Ford thinks the kind of bank that decides to die might as well stay dead. He wired to the L'Anse committee that had asked for $75,000 as follows:

"We have hundreds of similar requests and thus far we have not been convinced that it is wise to support a system that has so lamentably failed in protecting the savings which working people have entrusted to it.

"The primary function of a bank is to provide a place of safe deposit not to jeopardize this in any way.

"It seems to me that the duty of savings banks falls upon those whose misjudgment injured it. We have studied several communities in these matters and find that they do very well without banks as at present managed. A prosperous bank too often means a mortgage community and such prosperity is the forerunner of depression.

"Lending money at high interest is no help to any community. Advise your people to plant their gardens and work their farms and dispel the fallacy that money can make money. Henry Ford."

YOU WILL NOTE WITH interest that Mr. Ford in his telegram repeats the advice so often given by Voltaire, "Cultivons nos jardins," "Let us cultivate our gardens."

Mr. Ford's telegram apparently does not apply to banks engaged in banking that do not blow up.

You will learn with interest that following a bank explosion, Tecumseh, Mich., had no bank. A reliable man has been put in charge of a safe that belonged to the old bank. Citizens who wish to deposit money for safekeeping bring it to that safe, and get it out again when they want it. Primitive, but Tecumseh depositors know where their money is, and can get it.

AT THE MOVIES

PARAMOUNT

Mary Nolan, the red-headed little girl of the stage and screen, known far and wide as "Hollywood's Bad Girl," is here in Monroe in a personal appearance at the Paramount for the last times today. It is seldom that a screen star visits a city like Monroe and her coming has caused a decided furore of excitement in the ranks of theater-goers.

On the bill, which proved a real treat yesterday, was Carmine di Giovanni, former tenor of the Metropolitan Opera company of New York, now making a limited concert tour.

Other features that will be seen today on the same bill will be the Wolff Twins, well known mimics and comedy entertainers from big time vaudeville circuits. The Venetian Trio, a musical group, is also an important number on the program.

Interest, however, centers around Miss Nolan, formerly the Imogene Wilson whose tragic experiences with Frank Tinney, one-time famed New York comedian, flashed across front pages of newspapers from New York to San Francisco. With her name changed, she went to Hollywood and staged a comeback that was sensational. After a series of unusual films in which she starred and made name and fame for herself, the present film was presented as "File 113," a thrilling mystery and detective tale. Supporting Miss Nolan, the cast are of all star material and comprise Lew Cody, Clara Kimball Young, William Collier, Jr., June Clyde, Roy D'Arcy and George E. Stone.

Miss Nolan makes a personal appearance immediately preceding the presentation of the film.

This film and the presence of Miss Nolan are indicative of the enterprise of the company which operates the Paramount and which is giving this city and vicinity the very best to be had in entertainment regardless of cost.

CAPITOL

Motion picture producers are again putting the emphasis on the story, and not so much the beauty of their stars. Lingering close-ups except where they advance the telling of the plot—and how often is that?—are out, and camera hogging has passed.

In the cutting room, the floors are strewn with faces of stars and featured players, the footage having had to make way for action sequences.

This on the word of the cutters, who handled "Sky Devils," the air comedy that Howard Hughes spent a year in making for United Artists, and which comes to the Capitol Theater today for a two days' engagement.

It is sad news for the stars and other performers, but the public today demands a polished story, more than a pretty face or a shapely figure.

The cutter, technically known as the film-editor, is one of the most important cogs in movie manufacture. He is the man who takes from 200 to 400 reels of celluloid and trims it to the standard seven-reel (7,000 feet) length.

Stars have been made and unmade in the cutting room, and so have pictures, and many ambitious screen players, after laboring for days before cameras, have been disappointed when the picture is released to discover they were entirely eliminated by the cutter's scissors.

Many "sick" pictures—those pronounced as failures—have been salvaged from the shelves by the deft art of the cutter. And others, too, have been ruined by a few untimely snips of the cutter's shears.

CLOSING EXERCISES HELD FOR SCHOOLS AT VIDALIA

FERRIDAY, May 28 (Special) — Thursday night marked the closing exercises of the Vidalia high school. Four diplomas were awarded to the members of the senior class, Ruth Scott, Lucille Blount, Ewell Cleary and Philip Roberts by Judge John Dale, Sr., president of the Concordia parish school board.

The graduation exercises, largely attended were featured by an address to the graduates by Professor J. S. Kyser, of the Louisiana State Normal college, Natchitoches, awarding of the medals and certificates and short talks by Judge Dale, Mike S. Ohlsen, commander of the Phillip Adell post of the American Legion. Principal J. S. Burris and parish superintendent of schools, D. C. Strickler of Vidalia.

BOY SWALLOWS MARBLE AND CHOKES TO DEATH

FERRIDAY, May 28 (Special)—Funeral services were held in Centreville, Miss., Thursday for little Charles G. Bruce, Jr., two-year-old son of Rev. and Mrs. Charles G. Bruce of Ferriday, whose death Wednesday occurred after the boy accidentally swallowed a marble he was playing with in the yard of his home. It lodged in his windpipe and he choked to death before an operation could be performed to remove it.

OIL MEN ARE TO ASSEMBLE FOR MEET HERE TUESDAY

Marketers, jobbers, tank car purchasers, and retail distributors of petroleum products in this district will hold a meeting at the Hotel Virginia at 7:30 o'clock, Tuesday night, June 7, it was announced yesterday by T. J. O'Sullivan, Shreveport, executive secretary of the Louisiana Code committee.

The object of the meeting, Mr. O'Sullivan said, is to promote acquaintance among marketers of petroleum products, to discuss business codes of ethics, to confer on methods of eliminating waste in the marketing of products, to exchange opinions regarding business conditions generally.

K. Dyson, manager of the Louisiana division of the Louisiana Oil Refining company, will preside at the meeting.

NEVILLE SENIORS OFFER OPERETTA TUESDAY EVE

Tuesday evening, as one of the last of the activities of the class of '32, Neville high school, the seniors will present their operetta, "Oh, Doctor," in the school auditorium.

Rehearsals for the play have been in progress for some time, under direction of Miss Sallie Humble, sponsor of the class.

ENJOY RIDES

The street sales boys' club of the News-Star—World was the guest of C. W. Naill's rides at Forsythe park Friday night.

MONROE BOY IS NAMED AS AN ANNAPOLIS GRADUATE

All doubts as to whether John Munholland, Monroe youth who has been a "middie" at Annapolis the past few years, would be among those to whom Secretary of the Navy Adams will present diplomas Thursday have been set at rest.

Munholland was listed in Associated Press dispatches last night as among those to be graduated, thus indicating that he negotiated final examinations successfully.

MONROE MAN TO DELIVER SERMON IN NATCHITOCHES

Rev. Henry A. Rickey of Monroe will deliver the baccalaureate sermon today for this year's graduating class of his alma mater, Louisiana State Normal, at Natchitoches.

Graduation exercises at Normal opened yesterday with annual homecoming day for alumni of the school.

Tomorrow the graduation address will be delivered by Nicholas Bauer, New Orleans, superintendent of schools.

TWO LIENS FILED

Two liens, securing government crop production loans in this parish, were filed with the clerk of court yesterday afternoon.

Flowers that Kill
All Flies or Mosquitoes with a
Perfumed Mist

Some years ago it was discovered that a certain field flower grown in Japan drove away winged insects. A shipment was sent to America for testing in a research laboratory. Here an extract was made from the flowers and sprayed in a closed room filled with flies and mosquitoes. Every insect perished at its touch.

Now that extract is the basis of Fly-Tox, developed at Mellon Institute of Industrial Research by Rex Research Fellowship. Ten years and over $100,000 have been spent by us in perfecting it.

This Fly-Tox, used as directed, fills the room with a perfumed mist, at a cost of only 1 or 2 cents. That mist is harmless to people, stainless to anything. But every fly or mosquito that it touches dies at once. And they can't escape it when the room is filled.

These pests are deadly, for they carry the germs of over 30 diseases. They deposit those germs on foods or in blood streams. Many thousands of children die every year from this cause. Fly-Tox rightly used, frees your home and keeps it free, in an easy, certain, economical way. Think what that means to you and yours.

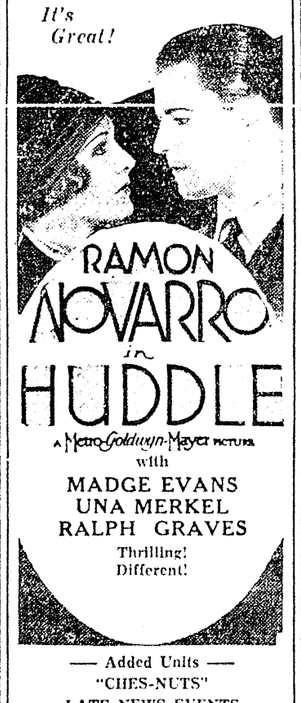

FLY-TOX ONLY

A Rex Research Product

Use Fly-Tox only, and always in a new-type Fly-Tox sprayer. Every lot is tested on flies in our laboratory. The efficiency is guaranteed. The odor is pleasant, the extra strength makes it very economical. Use it because nothing is too good for the safety of your home. Go get it today—it's sold everywhere. Harmless to people. Stainless. Made by the Makers of Moth-Tox.

RIFLE SHOOT WILL BE OPENED TODAY

Range at Smoot Field Will Be Scene of Activity From 8 o'Clock On

A rifle shoot, open to attendance of marksmen from throughout north Louisiana, will be held on the range at Smoot field next Sunday, June 5, it was announced yesterday afternoon by S. E. Pipes, one of the local marksmen who have been active in building the Smoot field range and conducting shooting matches there.

Because of the large number of marksmen expected to enter the shoot, the range will be opened at 8 o'clock in the morning and scores may be posted throughout the day.

Fifteen prizes will be awarded the high scorers, including a silver trophy for the highest score. The prizes have been donated by local merchants.

Rifles used in the shoot will be limited to those of .22 caliber. Each participant will post two scores, one for 20 rounds fired from a distance of 50 yards, and the other for 20 rounds fired from a distance of 100 yards. Five prizes will be awarded to high scorers of each event, making a total of 10 prizes. In addition, five prizes will be awarded to participants making the five highest aggregate scores, or highest total scores for the two events. The highest aggregate score will earn the silver trophy.

Original plans for a shooting match, to be featured by the awarding of prizes, involved the probability that an inter-city match would be held between Monroe and Shreveport marksmen. This idea was elaborated so that marksmen from all towns and communities of north Louisiana would be eligible to participate in the shoot.

The idea of a match with a Shreveport team has not been abandoned, however, and providing a sufficient number of Shreveport marksmen come here for the shoot next Sunday, they may compete with a local team for the honor of winning an inter-city match, while all participants in the shoot will remain eligible to win prizes.

The regular Sunday afternoon rifle and pistol shooting matches will be held at the local range at 2 o'clock this afternoon. Matches are also regularly held on Wednesday afternoons at 5 o'clock.

PLAYGROUND LEADERSHIP MEETING HELD SATURDAY

"Individual Competitive Games" were discussed by C. C. Colvert, president of the Ouachita parish junior college, at a meeting of the playground leadership institute in the offices of the Municipal Recreation department, sponsors of the course, yesterday afternoon.

Miss Armandine Renaud discussed "Dancing on the Playground," in the only other address given at the meeting.

At a meeting next Monday night at 7 o'clock, Miss Olive Gunby, instructor in the parish schools, will discuss "Activities of Little Children."

4-H CAMP PLANNED

FERRIDAY, May 28 (Special)—4-H club members of Concordia, Catahoula, Tensas, Franklin, West Carroll and other parishes will attend their annual district camps at Camp Peck, in Catahoula parish, near Sicily Island during the summer months. Approximately 60 4-H club boys and girls of West Carroll will go to Camp Peck on June 20 and remain until June 24.

HOLLYWOOD'S "BAD GIRL"

Miss Mary Nolan, famed from New York to Hollywood for her dramatic skill, is in this city in person today, appearing at the Paramount in "File 113." Many who saw the film and Miss Nolan here Saturday went away highly pleased. Today will be the last time Miss Nolan and the film will be presented here.

AT THE MOVIES

PARAMOUNT

Mary Nolan, the red-headed little girl of the stage and screen, known far and wide as "Hollywood's Bad Girl," is here in Monroe in a personal appearance at the Paramount for the last times today. It is seldom that a screen star visits a city like Monroe and her coming has caused a decided furore of excitement in the ranks of theater-goers.

On the bill, which proved a real treat yesterday, was Carmine di Giovanni, former tenor of the Metropolitan Opera company of New York, now making a limited concert tour.

Other features that will be seen today on the same bill will be the Wolff Twins, well known mimics and comedy entertainers from big time vaudeville circuits. The Venetian Trio, a musical group, is also an important number on the program.

Interest, however, centers around Miss Nolan, formerly the Imogene Wilson whose tragic experiences with Frank Tinney, one-time famed New York comedian, flashed across front pages of newspapers from New York to San Francisco. With her name changed, she went to Hollywood and staged a comeback that was sensational. After a series of unusual films in which she starred and made name and fame for herself, the present film was presented as "File 113," a thrilling mystery and detective tale. Supporting Miss Nolan, the cast are of all star material and comprise Lew Cody, Clara Kimball Young, William Collier, Jr., June Clyde, Roy D'Arcy and George E. Stone.

Miss Nolan makes a personal appearance immediately preceding the presentation of the film.

This film and the presence of Miss Nolan are indicative of the enterprise of the company which operates the Paramount and which is giving this city and vicinity the very best to be had in entertainment regardless of cost.

CAPITOL

Motion picture producers are again putting the emphasis on the story, and not so much the beauty of their stars. Lingering close-ups except where they advance the telling of the plot—and how often is that?—are out, and camera hogging has passed.

In the cutting room, the floors are strewn with faces of stars and featured players, the footage having had to make way for action sequences.

This on the word of the cutters, who handled "Sky Devils," the air comedy that Howard Hughes spent a year in making for United Artists, and which comes to the Capitol Theater today for a two days' engagement.

It is sad news for the stars and other performers, but the public today demands a polished story, more than a pretty face or a shapely figure.

The cutter, technically known as the film-editor, is one of the most important cogs in movie manufacture. He is the man who takes from 200 to 400 reels of celluloid and trims it to the standard seven-reel (7,000 feet) length.

Stars have been made and unmade in the cutting room, and so have pictures, and many ambitious screen players, after laboring for days before cameras, have been disappointed when the picture is released to discover they were entirely eliminated by the cutter's scissors.

Many "sick" pictures—those pronounced as failures—have been salvaged from the shelves by the deft art of the cutter. And others, too, have been ruined by a few untimely snips of the cutter's shears.

CLOSING EXERCISES HELD FOR SCHOOLS AT VIDALIA

FERRIDAY, May 28 (Special) — Thursday night marked the closing exercises of the Vidalia high school. Four diplomas were awarded to the members of the senior class, Ruth Scott, Lucille Blount, Ewell Cleary and Philip Roberts by Judge John Dale, Sr., president of the Concordia parish school board.

The graduation exercises, largely attended were featured by an address to the graduates by Professor J. S. Kyser, of the Louisiana State Normal college, Natchitoches, awarding of the medals and certificates and short talks by Judge Dale, Mike S. Ohlsen, commander of the Phillip Adell post of the American Legion, Principal J. S. Burris and parish superintendent of schools, D. C. Strickler of Vidalia.

BOY SWALLOWS MARBLE AND CHOKES TO DEATH

FERRIDAY, May 28 (Special)—Funeral services were held in Centreville, Miss., Thursday for little Charles G. Bruce, Jr., two-year-old son of Rev. and Mrs. Charles G. Bruce of Ferriday, whose death Wednesday occurred after the boy accidentally swallowed a marble he was playing with in the yard of his home. It lodged in his windpipe and he choked to death before an operation could be performed to remove it.

TODAY

The Automobile Capital The G. M. Laboratory Machines That Think Henry Ford's Telegram

By ARTHUR BRISBANE
(Copyright, 1932, King Features Synd.)

DETROIT, MICH., MAY 28.—Fine weather in the capital of the world's automobile industry.

The event looked forward to at the moment is the annual 500-mile race that will start at Indianapolis next Monday, Decoration Day.

This year Edsel Ford will drive the car that will start the races. He will lead them around the track once in a 12-cylinder Lincoln, at a moderate pace, about 70 miles an hour, and start them after one lap around the big saucer.

MR. ERSKINE, PRESIDENT of the Studebaker Company, has entered five stock cars. Practically all the others were built for racing. General Motors and Ford do not compete.

Captain Rickenbacker will be there. No American should forget him. Best of all the air fighters we sent to Europe, he represents the courage and skill that this nation will need some day.

ON THE WALL of the General Motors research laboratory occupying an entire building, under the direction of Charles F. Kettering, you read, "The death of a theory is the birth of a fact."

Mr. Kettering should add to that, for nobody knows it better, "The birth of a sound theory sometimes wipes out fallacies mistaken for facts." For instance, the theory that the earth goes round the sun wiped out many accepted "facts."

IN THAT ADMIRABLE laboratory theories are born and transmitted into facts. You see a machine that can look into a mixture of metals and tell what is in the mixture. With that machine Archimedes could have analyzed Hiero's golden crown without using the idea that occurred to him in his bath.

THERE IS A MACHINE that looks into the center of a steel axle and photographs the slightest flaw.

There is a Neon lamp, mysteriously synchronized with a wheel or a shaft making 2,000 revolutions per minute, the light makes the moving object apparently stand still.

The shaft, instead of revolving so rapidly you cannot see it, is apparently at rest, can even be made to revolve, apparently, in the opposite direction.

An application of that scientific miracle may some day enable astronomers to study the fixed stars, planets and our sun, as though they were standing still.

IN THAT SAME LABORATORY, music is sent over a beam of light to a distant radio. There is no sound where the beam starts; if you cut off the light with your hand the music stops.

Near the transmission of music by light you see an engine used for experiments with engine "knocking" trouble. A knock that could be heard two blocks ceases when a certain fluid is added to the ordinary gasoline.

AND, MORE WONDERFUL, the knocking, when at its worst, stops immediately when a tiny uncorked bottle of a certain chemical is held before a pipe leading to the knocking.

None of this chemical goes into the fuel. The engine simply "sniffs" the odor, and stops knocking.

You have seen a lady brought out of a faint by holding salts to her nose. This is the same thing in mechanics.

HENRY FORD HAD for his luncheon party today, at the plant, his son Edsel, Mr. Sorensen, his manager, Mr. Cameron, M. C. Meigs, commonly known as "the Goliath of the American Weekly," this writer and some others. They all ate bread made of soy because Mr. Ford experiments with everything.

MR. FORD, WHO SEEMED not to have the slightest idea that we are all "enjoying a depression," was interested in showing about 300 antique steam engines, gas engines and hot air engines to Mr. Meigs, who like himself knows all about oil feed, water pumps, valve gears, automatic governors, and other mysteries. Every steam engine that was ever run, from the first to the latest Diesel product is in Mr. Ford's antique collection, including even one of his own giant engines that turned out 15,000,000 model T Fords.

HE HAS NOT IN HIS collection the primitive engine supposed to have run in the Serapion at Alexandria long before the birth of Christ. That, probably, no longer exists. If he could find it he would make it run. He has enough skilled mechanics, restoring these old engines, enough mechanics to equip an ordinarily large factory.

WHEN THIS WRITER arrived at Dearborn Saturday morning, Mr. Ford had just answered a telegram received from L'Anse, Michigan, telling him that the only bank at L'Anse had closed and asking, "Won't you advance $75,000" to start the bank going again?

Mr. Ford's reply, which this writer has his permission to print, indicates that Mr. Ford thinks the kind of bank that decides to die might as well stay dead. He wired to the L'Anse committee that had asked for $75,000 as follows:

"We have hundreds of similar requests and thus far we have not been convinced that it is wise to support a system that has so lamentably failed in protecting the savings which working people have entrusted to it.

"The primary function of a bank is to provide a place of safe deposit not to jeopardize this in any way.

"It seems to me that the duty of savings banks falls upon those whose misjudgment injured it. We have studied several communities in these matters and find that they do very well without banks as at present managed. A prosperous bank too often means a mortgage community and such prosperity is the forerunner of depression.

"Lending money at high interest is no help to any community. Advise your people to plant their gardens and work their farms and dispel the fallacy that money can make money. Henry Ford."

YOU WILL NOTE WITH interest that Mr. Ford in his telegram repeats the advice so often given by Voltaire, "Cultivons nos jardins," "Let us cultivate our gardens."

Mr. Ford's telegram apparently does not apply to banks engaged in banking that do not blow up.

You will learn with interest that following a bank explosion, Tecumseh, Mich., had no bank. A reliable man has been put in charge of a safe that belonged to the old bank. Citizens who wish to deposit money for safekeeping bring it to that safe, and get it out again when they want it. Primitive, but Tecumseh depositors know where their money is, and can get it.

OIL MEN ARE TO ASSEMBLE FOR MEET HERE TUESDAY

Marketers, jobbers, tank car purchasers, and retail distributors of petroleum products in this district will hold a meeting at the Hotel Virginia at 7:30 o'clock, Tuesday night, June 7, it was announced yesterday by T. J. O'Sullivan, Shreveport, executive secretary of the Louisiana Code committee.

The object of the meeting, Mr. O'Sullivan said, is to promote acquaintance among marketers of petroleum products, to discuss business codes of ethics, to confer on methods of eliminating waste in the marketing of products, to exchange opinions regarding business conditions generally.

K. Dyson, manager of the Louisiana division of the Louisiana Oil Refining company, will preside at the meeting.

NEVILLE SENIORS OFFER OPERETTA TUESDAY EVE

Tuesday evening, as one of the last of the activities of the class of '32, Neville high school, the seniors will present their operetta, "Oh, Doctor," in the school auditorium.

Rehearsals for the play have been in progress for some time, under direction of Miss Sallie Humble, sponsor of the class.

ENJOY RIDES

The street sales boys' club of the News-Star—World was the guest of C. W. Naill's rides at Forsythe park Friday night.

MONROE BOY IS NAMED AS AN ANNAPOLIS GRADUATE

All doubts as to whether John Munholland, Monroe youth who has been a "middie" at Annapolis the past few years, would be among those to whom Secretary of the Navy Adams will present diplomas Thursday have been set at rest.

Munholland was listed in Associated Press dispatches last night as among those to be graduated, thus indicating that he negotiated final examinations successfully.

MONROE MAN TO DELIVER SERMON IN NATCHITOCHES

Rev. Henry A. Rickey of Monroe will deliver the baccalaureate sermon today for this year's graduating class of his alma mater, Louisiana State Normal, at Natchitoches.

Graduation exercises at Normal opened yesterday with annual homecoming day for alumni of the school.

Tomorrow the graduation address will be delivered by Nicholas Bauer, New Orleans, superintendent of schools.

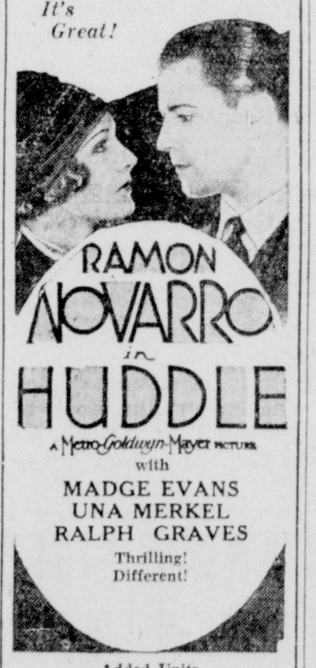

TWO LIENS FILED

Two liens, securing government crop production loans in this parish, were filed with the clerk of court yesterday afternoon.

REDMOND GIVES VIEWS UPON BILL

(Continued from First Page)

its tax income for the next 25 years, what guarantee have we that it can keep within its income for the next four years, that it will not be obliged then to take the same step it is doing now and seek to be allowed to shove the date up another four years?

"Unquestionably, this method will delay the final payment for the time being, but what will be the effect on some future administration which must face the necessity of paying up?

"As a citizen, the chief drawback this means of transacting the city's business is the fact that it contains no check upon future spending, does not, nor does any other proposition so far advanced, even suggest economy moves which might give us some reason to believe that the city is really and sincerely anxious to pay its debts and to live within its income.

"It is much the same as a man who makes a practice of refinancing his obligations, except that, in the city's case, little or no payment is or has been made.

"Can a man who buys a house and makes the smallest possible down payment go to a finance company and ask for a larger loan, in order to pay off some other debts? And then, in a short time, return before he has paid off any of the original debt and ask that the operation be repeated?

"Or can a man go to the bank, give a note for $100, then return when that is due and give a note for $200, paying off the first with the second and keeping the proceeds? And then continue the process indefinitely?

"It would be fine if he could—but he can't. Some day he must pay.

"Then why should the city do this?

"Let us consider this bill further in its application to Monroe, and see what the future holds. With our present taxes, the city is running into greater debt. If we set aside two mills for the funding of debts, is that going to improve the situation, when all our income and more is used up without being applied to those debts which are to be paid under the new provision?

"Frankly, it will not improve the situation in the least, but rather augurs for an increase in municipal taxation. If the city cannot keep expenses within the present income, what will it do when part of that income is set aside for payment of debts? Increase municipal taxes is the only logical conclusion, and anyone at least half cognizant of present conditions well knows citizens cannot stand having a larger burden of taxation saddled upon them.

"This two mills is dedicated for the payment of debts over a period of 25 years, which constitutes nothing less than saddling the results of our extravagance, that burden, upon our children for the better part of their lives. The only logical conclusion is that it is a new version of the old story of 'robbing Peter to pay Paul.'

"Such a move might 'tide over' the city for a period of two years without the necessity of an increase in taxation, but at the same time permitting extravagance to continue unchecked. It might, conceivably, carry it past another election, leaving the new city administration at its wit's end to handle the affair.

"It might do all of that. But it never will achieve a Midas touch whereby our debts can be paid by a mere wave of the hand. Persons who are acquainted with municipal affairs and principles of government, in fact, any man knows that sooner or later taxes will need to be increased under the present system. To take a portion away from an income already insufficient under the present system does not improvement anything.

"Why not, instead of going on as usual with the same expenses and allocating two mills of our already insufficient tax income, just institute a ready system of economy, start living not only within our municipal income but a little under it, then apply the savings so obtained to the purpose for which the city is now seeking permission to use two mills of an insufficient income before making economy moves?

"In other words, let's run the city in a business-like way."

LONG IS AROUSING SENATE INTEREST

(Continued from First Page)

article opposing the oil import tax for which Long was campaigning and for which he had spoken all told about six hours.

Under senate rules, unanimous consent is necessary for this courtesy, which most senators take for granted when they ask it. First Long objected and then as he wavered, Senator Tydings said he would not accept consent from one who knew "so little of senatorial courtesy." On motion to permit reading of the article, Long alone objected.

He posed as a professor of history in one debate, telling Texas' two senators Sam Houston had 635 Louisianians when he licked Santa Ana at the battle of San Jacinto, adding, "He didn't need any more."

Thirty-nine years of age, Long is an alert and vigorous warrior. Few questions come up but what he gets in before action is completed. Then he uses his long experience as Louisiana railroad commissioner and governor in fighting. The Louisiana house delegation usually comes over to listen to him, since he's the democratic boss of his state.

Capitol observers are wondering just how far he will get before his senate term expires in 1937, as a result of his rebellion against the leadership of Senator Joe Robinson of Arkansas.

Meanwhile, Long goes his way, undaunted by their rebuffs, opinions or opposing votes.

ONE MAIL DELIVERY.

Only one mail delivery in the city is to be made Monday, May 30, due to the holiday. There will be no rural deliveries of mail but the general delivery window is to be open from 11:30 a.m. to 12:30 p.m.

CHAPTER XXXII
(Continued)

Jupiter cleared his throat. "Now, here's another thing," he said, leaning his elbows on the table and laying the index finger on his right hand in the palm of his left. He was making a hard and very successful effort to be practical and not give way to emotion at this time, though the girl could not guess that. She marveled at his calmness.

"You know," he began, "or—rather, you don't know, because they don't anybody know but just me and one or two others, that there's a Lorimor car belongs to me."

Mary's eyes widened at this revelation. It was the very thing she wanted most to know about, but she had choked on the question whenever opportunity arose to ask it.

"I had Tom buy it for me. I kept it secret. Bound to be talk if I bought any car not put out by the Jupiter Motor company, and I thought it was just as well not to let the Lorimer people be able to say I had to buy one of their cars to get any place.

"But the fact is," he hesitated, and Mary fairly twitched with impatience, "the fact is—now, you keep this to yourself, Mary—but the Lorimor car is a darn good car and it's been into our sales to the point where it's not funny any more. Now, I know all about the Lorimor car. They haven't got so much as a washer on it that we haven't got, or can't put, on a Jupiter. But I'm damned if a lot of people don't prefer it to the Jupiter. Now why?

"I says to myself, I'm going to find out. So I gave Tom $5000 cash to buy a brand-new Lorimor. You've heard me say Tom's the best mechanic alive, and he is. That's why I keep him. He ain't so trustworthy in all ways—I've found that out. But I'd rather have him on my cars that some honest lunkhead. And if he wasn't lacking somewheres he'd be down at the plant, getting $20,000 a year, instead of wearing my livery and sleeping over a garage.

Breathless as she was with eagerness for him to get on to the point of the story, Mary could not help recognizing that the faults of Tom were a real heartache to the old man, so highly did he esteem the man's mechanical genius.

"Well, I says to Tom," Jupiter went on, "this here's to be your car to fool with. Take it whenever you've got the time, and do tricks with it. Give it every test you can think of, just as if you was buying a car for yourself. I want to know just what you think of that car when you're done with it. Take it apart, if you want to, though I know what's inside, and so do you. Eat with it, sleep with it, get to know that Lorimor car as well as you know the Jupiter car. And when you've got an idea about the two makes of car, come and tell me where the difference is.

"Well, Tom was just like a kid with a clock to take apart. You never saw a happier man. Only—here's what I didn't know till just now—today, in fact—what Tom went and did was buy a second-hand car and pocket the difference!

Yeah, that's Tom. He's a little on the sly order. Instead of paying the full price for a new Lorimor, Tom began watching for bargains. A few days ago he found what he wanted—a car that looked brand new—turned back to the dealer after it hadn't been driven more than a couple thousand miles—and not a scratch. Yes, there was a dent in the left front fender, but Tom took it down to the factory and got it ironed out and painted over. Nobody would notice—and it gave Tom a $1000 cut in price. He says not, but I know—I know the price of cars. Well—

"Anyhow, I sent for Tom to drive down here. Don't know as I mentioned it. Don't like riding round in rented cars with these wild drivers. Feel better with Tom at the wheel. Well, he got here last night and this morning when he brought the car around to take us out, what was it but this Lorimor! I gave him the devil for it. I said, 'Tom, you know I don't want to be seen in that car!' But it seems he never thought. When I said, 'Drive down,' he thought what a chance it would be to try out his new plaything on a long drive, and the change in climate, and all, so off he runs in it.

"Well, I rode out in it this morning. Nobody likely to see me down here, nobody that knows me, that is. Sitting back there with nobody to talk to but this Louise, I got to looking around at the finish and poking the upholstery and so on, and—look what I found!"

* * *

He held out a folded sheet of paper, his hand trembling until it was hard for her to seize it.

Mary unfolded it, read in Eddie's familiar handwriting:

"I. O. U. $15,000.

Edward Harkness, Junior."

"Take it easy, now. Don't get upset." Jupiter warned her, as the whiteness of her face began to frighten him. She pulled herself together.

"How did—this—get in the car, I wonder?" she asked, levelly—holding the sheet of paper which was like a message from Eddie himself.

"Well—it was a second-hand car. Looks like it might be the car that The Fly used coming and going, and maybe later on the one that ran your brother down," Jupiter offered.

Mary's dazed eyes sought the paper again.

"Tom swears there's been nobody in this back seat till this morning," went on Jupiter. "Tom's no hand for joyriding, I'll say that for him."

When they got back to town, driven by the obliging young man in whose pocket now reposed the first $50 bill he had ever seen, none of the motoring party had returned. Not until she entered the lobby did it enter Mary's mind that she had not telephoned Bowen!

Hastily she called the number he had given her, but he was not there. No one knew whether he had been there or how long ago he had gone. Well, she had been gone nearly three hours. No wonder he had grown impatient.

No sooner had she gained her room, however, than the telephone began to thrill madly. It was Bowen. He was almost incoherent with relief at finding her in.

"Listen," he said. "I'm here at Hilltop Inn. Nobody here but me now. But they've been here, Bruce and the Countess. And what a fight! I hid behind a catsup bottle and got an earful. Listen, did Mrs. Jupiter have a diamond bracelet?"

"Yes," said Mary, "she did."

"Would you know it?"

"I think so."

"Well look on the countess' arm when she comes in. And she'll come in—alone!"

(To Be Continued)

STAMP CLUB TO SPONSOR CACHET ON MEMORIAL DAY

Members of the Monroe Stamp Collectors club will sponsor a "cachet," sending back stamped envelopes to other collectors with whom they are in communication tomorrow, as a Memorial Day observance. Approximately 100 letters will be sent out.

Collectors who wish to obtain "cachet" envelopes may do so by presenting an envelope to J. W. Cunningham, it was announced.

Other cachets will be sponsored on June 17, when Sergeant Alvin C. York, outstanding World war hero, visits Monroe at the Louisiana Veterans of Foreign Wars encampment, and July 1, when the first anniversary of the Monroe air mail service is observed.

Another cachet will be sponsored, members announced, when the first night air mail flight through Monroe is held.

HIGHWAY COMMISSION HAS PLANS TO SLICE PAYROLL

BATON ROUGE, May 28 (AP)—The Louisiana highway commission will cut its payroll again June 1, Chairman A. P. Tugwell, today announced.

Reductions are being carried out to reduce the payroll from about $215,00, which will be the May total, to from $180,000 to $190,000 for the month of June. The June figure will be about one-third the last January total, which was $550,000.

Necessity for meeting bond retirements now amounting to about $3,500,000 a year was given by Tugwell as reason for cutting the personnel for June.

The first radical personnel reduction cut occurred last February.

REV. FRANK TRIPP SPEAKS TO BIBLE CLASSES TODAY

Rev. Frank Tripp is to address the Bible classes of the various churches of Monroe and West Monroe at the Paramount theater at 9:30 a.m. today.

At 11 a.m. he is to preach the morning sermon at the First Baptist church in West Monroe and tonight will occupy his old pulpit in the First Baptist church here.

He ranks as an orator of ability and his many friends will hear him with interest at the various services today.

PORTER BURGESS GIVES STATEMENT

(Continued from First Page)

cost of government for the state of Louisiana is being borne by the farmers and owners of real estate.

"I estimate that 75 per cent of the wealth of this state has for the past 20 years escaped taxation altogether, leaving the brunt of the burden to the farm owner, the home owner and the man who possesses other tangible property.

"If the administration will support house resolution No. 16 and it is adopted, it will result in a minimum reduction of 30 per cent in the state of ad valorem tax on farm land and real estate.

"The burden of taxes will be shifted and millage lowered generally, and all property heretofore taxed will be benefited thereby.

"This is not theory but actual practice. It has been accomplished in 17 states already.

"Actually, the method is this:

"If the resolution is adopted, a joint house-senate committee will be named for the express purpose of considering and revising the tax system.

"From some source outside the state a distinterested man who is an accepted expert in matters of taxation will be called in to show just how, where and why revision is necessary.

"It will be his task and duty to show to the committee how taxes may be so redistributed that all the wealth of the state—not simply farm lands, homes and other real estate—may be so assessed as to pay their proper shares of the state's revenues.

"Mortgages constitute one portion and a large one of the states' intangible wealth. They yield large revenues annually, just as much as does a farm or the actual piece of real estate which is their safeguard, yet they are not taxed.

"And that is only one item in the entirety. It is the aim of this resolution in the final outcome to help and to protect the man who owns real estate, to take from him the burden of paying virtually all the expenses of the government.

"It seems to me only fair that those who are in favor of such action and who desire that the resolution be adopted in order that the committee be named and the work of revision started should inform the men who represent them in the legislature of their desires."

MONROE HAS SUMMER WEATHER AS CHICAGO SEES WINTER RETURN

Yesterday, for the first time in more than a week, skies were clear, breezes were warm and the sun shone brightly upon Monroe. Even the river, which had risen a few scant tenths following the heavy rains of last week, had apparently felt effects of the fine day and was stationary.

Temperatures were not as high as had been the case on several other days, maximum yesterday having been 85. During the 24 hours ending at 8 o'clock last night, there had been a 20 degree variation, 65 having been the coldest registered.

Jacksonville, with 90, and New Orleans, 88, both reported warmer temperatures than Monroe. At Chicago weather was nearer the winter stage, with a maximum of 54 and minimum of 46.

MISSION MEET

Plans for holding "Guest Day" in June, a national celebration, were formulated Friday at a meeting of the Gordon avenue church missionary society, held at the home of Mrs. W. H. Dennis, 618 Benton avenue. Committees to complete the arrangements for the day were appointed and plans were made for the club to attend a zone meeting at Columbia Tuesday.

REDMOND GIVES VIEWS UPON BILL

(Continued from First Page)

its tax income for the next 25 years, what guarantee have we that it can keep within its income for the next four years, that it will not be obliged then to take the same step it is doing now and seek to be allowed to shove the date up another four years?

"Unquestionably, this method will delay the final payment for the time being, but what will be the effect on some future administration which must face the necessity of paying up?

"As a citizen, the chief drawback this means of transacting the city's business is the fact that it contains no check upon future spending, does not, nor does any other proposition so far advanced, even suggest economy moves which might give us some reason to believe that the city is really and sincerely anxious to pay its debts and to live within its income.

"It is much the same as a man who makes a practice of refinancing his obligations, except that, in the city's case, little or no payment is or has been made.

"Can a man who buys a house and makes the smallest possible down payment go to a finance company and ask for a larger loan, in order to pay off some other debts? And then, in a short time, return before he has paid off any of the original debt and ask that the operation be repeated?

"Or can a man go to the bank, give a note for $100, then return when that is due and give a note for $200, paying off the first with the second and keeping the proceeds? And then continue the process indefinitely?

"It would be fine if he could—but he can't. Some day he must pay.

"Then why should the city do this?

"Let us consider this bill further in its application to Monroe, and see what the future holds. With our present taxes, the city is running into greater debt. If we set aside two mills for the funding of debts, is that going to improve the situation, when all our income and more is used up without being applied to those debts which are to be paid under the new provision?

"Frankly, it will not improve the situation in the least, but rather augurs for an increase in municipal taxation. If the city cannot keep expenses within the present income, what will it do when part of that income is set aside for payment of debts? Increase municipal taxes is the only logical conclusion, and anyone at least half cognizant of present conditions well knows citizens cannot stand having a larger burden of taxation saddled upon them.

"This two mills is dedicated for the payment of debts over a period of 25 years, which constitutes nothing less than saddling the results of our extravagance, that burden, upon our children for the better part of their lives. The only logical conclusion is that it is a new version of the old story of 'robbing Peter to pay Paul.'

"Such a move might 'tide over' the city for a period of two years without the necessity of an increase in taxation, but at the same time permitting extravagance to continue unchecked. It might, conceivably, carry it past another election, leaving the new city administration at its wit's end to handle the affair.

"It might do all of that. But it never will achieve a Midas touch whereby our debts can be paid by a mere wave of the hand. Persons who are acquainted with municipal affairs and principles of government, in fact, any man knows that sooner or later taxes will need to be increased under the present system. To take a portion away from an income already insufficient under the present system does not improvement anything.

"Why not, instead of going on as usual with the same expenses and allocating two mills of our already insufficient tax income, just institute a ready system of economy, start living not only within our municipal income but a little under it, then apply the savings so obtained to the purpose for which the city is now seeking permission to use two mills of an insufficient income before making economy moves?

"In other words, let's run the city in a business-like way."

LONG IS AROUSING SENATE INTEREST

(Continued from First Page)

article opposing the oil import tax for which Long was campaigning and for which he had spoken all told about six hours.

Under senate rules, unanimous consent is necessary for this courtesy, which most senators take for granted when they ask it. First Long objected and then as he wavered, Senator Tydings said he would not accept consent from one who knew "so little of senatorial courtesy." On motion to permit reading of the article, Long alone objected.

He posed as a professor of history in one debate, telling Texas' two senators Sam Houston had 635 Louisianians when he licked Santa Ana at the battle of San Jacinto, adding, "He didn't need any more."

Thirty-nine years of age, Long is an alert and vigorous warrior. Few questions come up but what he gets in before action is completed. Then he uses his long experience as Louisiana railroad commissioner and governor in fighting. The Louisiana house delegation usually comes over to listen to him, since he's the democratic boss of his state.

Capitol observers are wondering just how far he will get before his senate term expires in 1937, as a result of his rebellion against the leadership of Senator Joe Robinson of Arkansas.

Meanwhile, Long goes his way, undaunted by their rebuffs, opinions or opposing votes.

ONE MAIL DELIVERY.

Only one mail delivery in the city is to be made Monday, May 30, due to the holiday. There will be no rural deliveries of mail but the general delivery window is to be open from 11:30 a.m. to 12:30 p.m.

CHAPTER XXXII
(Continued)

Jupiter cleared his throat. "Now, here's another thing," he said, leaning his elbows on the table and laying the index finger on his right hand in the palm of his left. He was making a hard and very successful effort to be practical and not give way to emotion at this time, though the girl could not guess that. She marveled at his calmness.

"You know," he began, "or—rather, you don't know, because they don't anybody know but just me and one or two others, that there's a Lorimor car belongs to me."

Mary's eyes widened at this revelation. It was the very thing she wanted most to know about, but she had choked on the question whenever opportunity arose to ask it.

"I had Tom buy it for me. I kept it secret. Bound to be talk if I bought any car not put out by the Jupiter Motor company, and I thought it was just as well not to let the Lorimer people be able to say I had to buy one of their cars to get any place.

"But the fact is," he hesitated, and Mary fairly twitched with impatience, "the fact is—now, you keep this to yourself, Mary—but the Lorimor car is a darn good car and it's been into our sales to the point where it's not funny any more. Now, I know all about the Lorimor car. They haven't got so much as a washer on it that we haven't got, or can't put, on a Jupiter. But I'm damned if a lot of people don't prefer it to the Jupiter. Now why?

"I says to myself. I'm going to find out. So I gave Tom $5000 cash to buy a brand-new Lorimor. You've heard me say Tom's the best mechanic alive, and he is. That's why I keep him. He ain't so trustworthy in all ways—I've found that out. But I'd rather have him on my cars that some honest lunkhead. And if he wasn't lacking somewheres he'd be down at the plant, getting $20,000 a year, instead of wearing my livery and sleeping over a garage.

Breathless as she was with eagerness for him to get on to the point of the story, Mary could not help recognizing that the faults of Tom were a real heartache to the old man, so highly did he esteem the man's mechanical genius.

"Well, I says to Tom," Jupiter went on, "this here's to be your car to fool with. Take it whenever you've got the time, and do tricks with it. Give it every test you can think of, just as if you was buying a car for yourself. I want to know just what you think of that car when you're done with it. Take it apart, if you want to, though I know what's inside, and so do you. Eat with it, sleep with it, get to know that Lorimor car as well as you know the Jupiter car. And when you've got an idea about the two makes of car, come and tell me where the difference is.

"Well, Tom was just like a kid with a clock to take apart. You never saw a happier man. Only—here's what I didn't know till just now—today, in fact—what Tom went and did was buy a second-hand car and pocket the difference!

Yeah, that's Tom. He's a little on the sly order. Instead of paying the full price for a new Lorimor, Tom began watching for bargains. A few days ago he found what he wanted—a car that looked brand new—turned back to the dealer after it hadn't been driven more than a couple thousand miles—and not a scratch. Yes, there was a dent in the left front fender, but Tom took it down to the factory and got it ironed out and painted over. Nobody would notice—and it gave Tom a $1000 cut in price. He says not, but I know—I know the price of cars. Well—

"Anyhow, I sent for Tom to drive down here. Don't know as I mentioned it. Don't like riding round in rented cars with these wild drivers. Feel better with Tom at the wheel. Well, he got here last night and this morning when he brought the car around to take us out, what was it but this Lorimor! I gave him the devil for it. I said, 'Tom, you know I don't want to be seen in that car!' But it seems he never thought. When I said, 'Drive down,' he thought what a chance it would be to try out his new plaything on a long drive, and the change in climate, and all, so off he runs in it.

"Well, I rode out in it this morning. Nobody likely to see me down here, nobody that knows me, that is. Sitting back there with nobody to talk to but this Louise, I got to looking around at the finish and poking the upholstery and so on, and—look what I found!"

* * *

He held out a folded sheet of paper, his hand trembling until it was hard for her to seize it.

Mary unfolded it, read in Eddie's familiar handwriting:

"I. O. U. $15,000.

Edward Harkness, Junior."

"Take it easy, now. Don't get upset," Jupiter warned her, as the whiteness of her face began to frighten him. She pulled herself together.

"How did—this—get in the car, I wonder?" she asked, levelly—holding the sheet of paper which was like a message from Eddie himself.

"Well—it was a second-hand car. Looks like it might be the car that The Fly used coming and going, and maybe later on the one that ran your brother down," Jupiter offered.

Mary's dazed eyes sought the paper again.

"Tom swears there's been nobody in this back seat till this morning," went on Jupiter. "Tom's no hand for joyriding, I'll say that for him."

When they got back to town, driven by the obliging young man in whose pocket now reposed the first $50 bill he had ever seen, none of the motoring party had returned. Not until she entered the lobby did it enter Mary's mind that she had not telephoned Bowen!

Hastily she called the number he had given her, but he was not there. No one knew whether he had been there or how long ago he had gone. Well, she had been gone nearly three hours. No wonder he had grown impatient.

No sooner had she gained her room, however, than the telephone began to thrill madly. It was Bowen. He was almost incoherent with relief at finding her in.

"Listen," he said. "I'm here at Hilltop Inn. Nobody here but me now. But they've been here, Bruce and the Countess. And what a fight! I hid behind a catsup bottle and got an earful. Listen, did Mrs. Jupiter have a diamond bracelet?"

"Yes," said Mary, "she did."

"Would you know it?"

"I think so."

"Well look on the countess' arm when she comes in. And she'll come in—alone!"

(To Be Continued)

STAMP CLUB TO SPONSOR CACHET ON MEMORIAL DAY

Members of the Monroe Stamp Collectors club will sponsor a "cachet," sending back stamped envelopes to other collectors with whom they are in communication tomorrow, as a Memorial Day observance. Approximately 100 letters will be sent out.

Collectors who wish to obtain "cachet" envelopes may do so by presenting an envelope to J. W. Cunningham, it was announced.

Other cachets will be sponsored on June 17, when Sergeant Alvin C. York, outstanding World war hero, visits Monroe at the Louisiana Veterans of Foreign Wars encampment, and July 1, when the first anniversary of the Monroe air mail service is observed.

Another cachet will be sponsored, members announced, when the first night air mail flight through Monroe is held.

HIGHWAY COMMISSION HAS PLANS TO SLICE PAYROLL

BATON ROUGE, May 28 (AP)—The Louisiana highway commission will cut its payroll again June 1, Chairman A. P. Tugwell, today announced.

Reductions are being carried out to reduce the payroll from about $215,00, which will be the May total, to from $180,000 to $190,000 for the month of June. The June figure will be about one-third the last January total, which was $550,000.

Necessity for meeting bond retirements now amounting to about $3,500,000 a year was given by Tugwell as reason for cutting the personnel for June.

The first radical personnel reduction cut occurred last February.

REV. FRANK TRIPP SPEAKS TO BIBLE CLASSES TODAY

Rev. Frank Tripp is to address the Bible classes of the various churches of Monroe and West Monroe at the Paramount theater at 9:30 a.m. today.

At 11 a.m. he is to preach the morning sermon at the First Baptist church in West Monroe and tonight will occupy his old pulpit in the First Baptist church here.

He ranks as an orator of ability and his many friends will hear him with interest at the various services today.

PORTER BURGESS GIVES STATEMENT

(Continued from First Page)

cost of government for the state of Louisiana is being borne by the farmers and owners of real estate.

"I estimate that 75 per cent of the wealth of this state has for the past 20 years escaped taxation altogether, leaving the brunt of the burden to the farm owner, the home owner and the man who possesses other tangible property.

"If the administration will support house resolution No. 16 and it is adopted, it will result in a minimum reduction of 30 per cent in the state of ad valorem tax on farm land and real estate.

"The burden of taxes will be shifted and millage lowered generally, and all property heretofore taxed will be benefited thereby.

"This is not theory but actual practice. It has been accomplished in 17 states already.

"Actually, the method is this:

"If the resolution is adopted, a joint house-senate committee will be named for the express purpose of considering and revising the tax system.

"From some source outside the state a distinterested man who is an accepted expert in matters of taxation will be called in to show just how, where and why revision is necessary.

"It will be his task and duty to show to the committee how taxes may be so redistributed that all the wealth of the state—not simply farm lands, homes and other real estate—may be so assessed as to pay their proper shares of the state's revenues.

"Mortgages constitute one portion and a large one of the states' intangible wealth. They yield large revenues annually, just as much as does a farm or the actual piece of real estate which is their safeguard, yet they are not taxed.

"And that is only one item in the entirety. It is the aim of this resolution in the final outcome to help and to protect the man who owns real estate, to take from him the burden of paying virtually all the expenses of the government.

"It seems to me only fair that those who are in favor of such action and who desire that the resolution be adopted in order that the committee be named and the work of revision started should inform the men who represent them in the legislature of their desires."

MONROE HAS SUMMER WEATHER AS CHICAGO SEES WINTER RETURN

Yesterday, for the first time in more than a week, skies were clear, breezes were warm and the sun shone brightly upon Monroe. Even the river, which had risen a few scant tenths following the heavy rains of last week, had apparently felt effects of the fine day and was stationary.

Temperatures were not as high as had been the case on several other days, maximum yesterday having been 85. During the 24 hours ending at 8 o'clock last night, there had been a 20 degree variation, 65 having been the coldest registered.

Jacksonville, with 90, and New Orleans, 88, both reported warmer temperatures than Monroe. At Chicago weather was nearer the winter stage, with a maximum of 54 and minimum of 46.

MISSION MEET

Plans for holding "Guest Day" in June, a national celebration, were formulated Friday at a meeting of the Gordon avenue church missionary society, held at the home of Mrs. W. H. Dennis, 618 Benton avenue. Committees to complete the arrangements for the day were appointed and plans were made for the club to attend a zone meeting in Columbia Tuesday.

DREAMS OF YOUTH

Every year, in May and June, an army of boys and girls set out to conquer the world.

They are confident that their diplomas will help them cope with any situation. They haven't a doubt that they will be able to take every bend in the road, sight banners all the way, and come into a promised land.

They haven't tried to tackle reality as yet. Their dreams haven't had a chance to grow tarnished in the struggle. So they start on the uphill road, gaily, gallantly, unafraid.

Instructors who are wise in the ways of life as well as the routine of the classroom will not teach boys and girls, young men and young women, that all the battles go to the strong. They will not tell them that every race belongs to the fleet. They have learned better.

Rather, they will tell those who are new in the conflict that there are things of the spirit that mean infinitely more than material successes can possibly mean. They will try to inspire them to make lives, not merely a living.

It would be a splendid thing if the far-flung visions that are such a glorious part of youth could span every long tomorrow as they dream of doing. But they can't. The play isn't written that way. There are few all-star casts. The vast majority of that great and hopeful band of city and parish high school graduates must stay in the wings, wait for the cues that seldom come. They are going to be disappointed and restless, unless they have some abiding, deeper interest.

Then, too, the sorry plight of the present economic system may make them think that there are no holes, either round or square, for their pegs, in the industrial structure. If their dreams are entirely materialistic this will be tremendously discouraging. If they are built of sterner stuff they will stand the strain.

Youth is such a buoyant time. It is only right that boys and girls should have a period for dreaming before life brings problems for solving. However, if the loss of a little transient glamor will supply more durable stuff for tomorrow's building, it is well worth the cost.

THE GLACIERS AGAIN?

Within 2000 years there will be a return of the great glaciers, says Dr. O. Gunnar Erdtman of the University of Stockholm. The climate of northern Europe and America has been growing steadily colder for more than a thousand years; deciduous trees such as the beech and the oak have been steadily moving southward, as if to get away from the glacial advance that they clearly foresaw.

Of course, as far as any of us are concerned, a catastrophe 2000 years away might as well be entirely nonexistent; but the idea is enough, just the same, to give an imaginative man the creeps. The greater part of North America, for instance, down to about the latitude of the Ohio river, was once covered with hundreds of feet of ice. Is this to happen again? If so, what sort of task is the human race to follow thereafter?

THE CENTER OF BUSINESS

When the pioneers of America founded their towns, about the first institution established was a retail store. People built their homes around their stores, largely because the presence of these concerns made it convenient to obtain the necessaries of life. As a community grows, these stores continue one of the reasons why the city exists.

As they grow and prosper, people come to live in the town because it is a good place to buy their merchandise. If the stores have hard times, the prospects of the town are affected. So it is vitally essential, if we are to build up a constantly developing community, that we buy our supplies at these home stores and keep our money at home.

"Who doesn't get a thrill out of watching a horse flash past first in a close race?" asks an enthusiast. That's an easy one. The man who played another horse.

If you were allowed to park your car down town all day, you might find a bushel of circulars, handbills, cards, posters, folders and samples in it by 5 p. m.

We will be rid of the divorce problem when husbands never tire of wiping the dishes for their wives.

"Seventy-four senators are still dry," says a dry. Somebody else is being shadowed.

Vital Question Marks

(Editorial from the Atlanta Journal.)

The League of Nations association has submitted to "dominant figures" in American life a group of questions relevant to international relations, and it is possible that many undominant figures would like to weigh these great questions for themselves. Questions sometimes are more important than answers, and it is certainly as interesting to know what questions George W. Wickersham and Nicholas Murray Butler consider momentous just now as it will be to know what our dominant national figures think are good replies.

The questions, prepared by Mr. Butler and Mr. Wickersham are these: "1. Has the world's peace machinery proven of value in the Far Eastern crisis? 2. What importance do you attach to the part played by the Nine-Power treaty? By the Pact of Paris? By the League of Nations? 3. Has the league been handicapped in its efforts to solve the Far Eastern problem by the non-membership of the United States, and if so, how? 4. What importance do you attach to the specific American contribution to the problem, namely, the Stimson doctrine, and to the league's indorsement of it? 5. Is it to the interest of the United States to contribute further to the strengthening of the world's peace machinery, and if so, what steps should be taken by our country."

As to question No. 1, we can imagine the interrogatees fleeing in alarm. To be sure, the recently climatic state of affairs in China has tapered off into something less explosive, but who can say what effect the League's moderate pressure had upon this transformation? Defying the League openly, were the Oriental captains secretly afraid of the international sentiment the League was bespeaking, and did this fear influence the cooling process in Sino-Japanese relations? Each question, it is plain, opens up a multitude of complementary questions, and into the answering of each must go much judgment, much discernment, and much intuition.

The second questions seem but an elaboration of the first. If the world's "peace machinery" did affect helpfully the far eastern crisis, then it becomes a delicate matter indeed to assay the relative efficacy of the various treaties and pacts which, we presume, are components of that "machinery." Perhaps the next question will get the readiest answer. This does not mean, necessarily, that our relationship to the League has presented an obvious conclusion as to its value, but may mean that everyone already has a private conviction upon the matter, regardless of circumstances and evidence. The next two questions arise so naturally out of this one that they are entirely dependent upon it.

In connection with this questionnaire, Mr. Butler submitted to captains of finance and industry a set of questions dealing with economic affairs. Yet these questiers have a singular connection, it appears, with the questions about political accords. For example, the first economic question, "Do you believe that the entire world is today so economically interdependent that no nation can hope to extricate itself alone from the present world-wide depression, and that collective action by the nations is therefore necessary?" presents the supplementary question of whether, granted that such an economic interdependence exists, there is not inevitably a similar dependence as to peace-making efforts. If the nations must move in concert upon economics, what can unharmonized effort accomplish toward universal peace?

When these questions will be answered, and what effect the answers will have upon subsequent affairs we do not know, but they assuredly are pertinent and timely, and should produce a stimulating symposium.

Democracy and Tariff Reform

(Editorial from the Memphis Commercial Appeal)

It begins to appear that once more a national campaign for the presidency is to be fought on tariff reform.

As congress grinds along and the unsettled state of trade continues, the demand increases for a tearing down of the tariff walls, a condition that some of the world's foremost economists trace our ills to. The professors of economics and the students of business in our colleges and universities have always found little justification for the American tariff. It has been grounded on the theory of helping infant industry and keeping the standard of living high for American labor. The present depression has shot holes through both these theories.

In fact, the republicans are running so far now that there is a serious demand for free trade. The time-honored stand of the democratic party since the days of Andrew Jackson has been for a tariff for revenue only. From the close of the Civil war until 1896 virtually every national campaign was waged with the tariff as a paramount issue, and in 1892 it was the chief issue. So stirring were its demands and so carefully guarded as a fundamental principle was it that Henry Watterson was able to carry a convention off its feet by his tribute to it, remembered as the "star-eyed goddess of reform."

Since 1896 when the silverites took the play, the tariff has been more or less moribund. It flared up in 1912, but went to pieces in 1928 when the democrats compromised with the tariff advocates by declaring that its tariff legislation would not hurt business. Thus, under the soft name of a scientific adjustment, the standard bearer proposed to fix up the tariff so it would suit everybody.

It is interesting to note that during the last 20 years one man prominent in the Democratic councils has set himself to the task of holding the party fast to its traditional stand on the tariff. He has not always been successful, but his efforts now appear to be bearing fruit. This man is now the junior United States senator from Tennessee. As Tennessee's nominee for the platform committee of the national convention in Chicago next month, Senator Hull will probably be the chairman of the committee. It is needless to predict that he will demand a unanimous confirmation of the party's allegiance to tariff reform and if the convention is wise it will follow his advice.

The Hoover tariff may be good for the country in times of prosperity, but as the incumbent old parson said in the experience meeting, "it has pretty nigh ruined us now."

Howe About Everything

By E. W. HOWE

Writing of the late Frank Harris, a biographer says: "He transgressed all the inflexible rules of the righteous. He wronged friends, betrayed everyone, and violated every decency. And yet he was one of the noblest men of his day. If this be paradox, it is also very close to the truth. Championing the helpless and fighting oppression, Harris was magnificent; at his worst, he was far too close to rascality for the comfort of his admirers."

This is mere literary piffle. A man who violated every decency, and betrayed every friend, could not have been one of the noblest men of his time; to say so, or think so, is silly.

"What will he do for the farmers?" is being asked by farmers of every candidate.... The Old Soldiers are asking what will be done for soldeirs. Then come the labor union men with their special demands, followed by pretty much every other element of the population.... And every demand made is at least extravagant, and foolish, and usually dishonest. Every citizen is willing to rob his neighbor. Our trouble is lack of honesty. The only remedy is realization that honesty is the best policy, for the reason that it is the only policy that will work out practically. ...Neighbors robbing each other, instead of seisibly helping each other, is one of the main troubles in the present dark hour, and no dawn in sight.

Everyone talks too much of the present depression; some say recovery would be easier if it wasn't for the hard times talk.... But those who have lost jobs and money have a good deal of excuse for their indignation. The argument that the whole thing was unnecessary has some foundation. (That's the argument that causes the present grumbling among plain people who have nothing to say in public affairs except cursing.)

Reform comes slowly. In order to do better we must all admit we have been foolish; and for a man who has thought himself very smart to admit he is a fool, is hard.... If ever we get back to common sense, we will speak back, we are so ashamed of the foolish bragging we have indulged in.

And old saying in France declares that "who is not something of a socialist at twenty has little heart, but who is not a conservative at forty has no head." Still another old maxim says that the world is so naturally devoted to hope, exaggeration, and leaning on unstable crutches that to believe in admitting the truth is not far from folly.... Here are two bits of wisdom the reader may make such use of as he sees fit, but I cannot believe the world should have less respect for the truth.... I shall be seventy-nine years old in a few days, and am physically rather well, but daily encounter more insults for everything I seem to know.

Another incident of the hard times: Milk was so regularly stolen from a man's doorstep that he journeyed every morning to a nearby grocery store to get his supply. The third evening he was held up and lost not only his milk and bottle, but three dollars in money.

I am quite impressed with the Literary Digest's poll on prohibition, since I am convinced it is honest and unprejudiced. It seems from this poll that for every voter who believes prohibition is the best temperance policy, two others oppose it. Yet the two-thirds in opposition are compelled to submit to the one-third, to pay taxes for needless humiliation, a vast and endless inconvenience. Our greatest fiction is that the majority rules; the greatest misfortune is it does not.

In Italy and Germany satisfactory performances of opera are heard regularly in quite unimportant places. In the United States the Metropolitan company in New York is on the rocks, owing to extravagant management. Foreign singers were imported, and paid salaries many times in excess of what they received at home.... As an instance, performance of opera as I have ever heard was "Rigoletto," presented by a small traveling company. The same performance at the Metropolitan would have been no better, and cost twenty times as much. Waste, wastes it soon finds its way into everything American.... During the past winter I heard eight thoroughly enjoyable concerts by a symphony orchestra of seventy players all the players were local and the conductor a strolling musician. The orchestra was financed in a small town, yet Chicago's famous organization had just gone to pieces because of waste. The greatest harm the rich accomplish is in exhibiting unnecessary waste. The poor imitate them, and are ruined.

Who of us can find about the hundredth anniversary of a German named Goethe? Representatives of almost every nation gathered at his birthplace recently, and praised him extravagantly. Some of the German papers say Goethe is not read, even in colleges, that the people of today have something else than Goethe in their heads. This conforms with my own notions. His "Faust" seems to me a great farce. I have encountered a few clever things he said, and believe these might be profitably collected in a few pages for general reading, but beyond that am indifferent. Who of it believes a great amount of money should be spent in hard times to honor Goethe's memory? I believe these persons are not very important, and represent a very small minority.

Reading is largely wasting time in wading through dull pages in the hope of finding an occasional "good thing." I have just encountered "Where robbers are heroes, and the police intruders," in a description of the island of Corsica, controlled by the French who are so astonished at our Chicago.... It is related that once when a French president visited Corsica, the local Al Capone rode in the procession, and received more flowers and applause than the president.

To See Ourselves as Others See Us!

The Depression as a Success

The depression is a good thing, after all, according to that cheery philosopher of the Hoover cabinet, Dr. Ray Lyman Wilbur, secretary of the interior. Four years ago it was pictured as a thing impossible under a republican administration, and not until it had fastened upon the country like the frogs upon Pharaoh's kingdom was its presence acknowledged by the powers that be. But since it is now undeniably here and has come to pass under the reign of the Grand Old Party, it needs must be a blessing. It is a jewel in the head of what prosaic people have taken to be an altogether ugly if not venomous toad, says the Atlanta Journal.

"The depressions," said Dr. Wilbur, addressing the National Conference on Social Work, meeting in the City of Brotherly Love, "has turned out to be a benefit to the children of America." If his audience startled a bit at this unique view of a situation in which not a few fathers and mothers wonder how the little ones are to be fed, the distinguished speaker did not leave them long mystified. "There are a number of reasons for this," he went on. "In the first place, the home is on a more normal level today than it was during the high tide of prosperity. Parents have again assumed the responsibility for their children, instead of unloading those responsibilities on others. There is no substitute for the parent in the development of the child." In fact, the secretary of the interior might have added with equal insight, there is no substitute for the parent in the birth of the child. What he did add was this:

"In all times there are children who need aid. These are likely to be forgotten in prosperous times. It is too often assumed that all is well. It is harder to raise money for the community chest in boom times than in hard times. (Witness the fulsing coffers of every charitable agency today.) Profitable investments constantly invite it. Expenditures for more elaborate living consume it. In bad times people become conscious of the need of looking out for the needy. The whole range of expert service that has been built up during the decades is called into being. (That is why, we suppose, nothing is said in congress about the necessity of supplementing local relief.) Children receive attention who would miss it in good times. The message of the trained expert is more readily accepted, even by the well-to-do."

Ah, there is the sovereign virtue of the depression—the readier acceptance of the message of the trained expert! Thus the super-efficiency finds now a field which was not a tithe so broad or fertile in the days of stiff-necked prosperity. Though the wind blows ill to many, all is compensated by the vastly heightened importance of the "trained expert." On one or two points Dr. Wilbur has a certain misgiving. "The emphasis upon amusement instead of recreation, the apparent decrease in substantial reading, and behavior problems of various sorts give us real concern." He is also a bit disquieted over the "gambling spirit," which "gives just the wrong turn to growing children, who need to think in terms of security, stability and honest endeavor, rather than on chance." But these are mere freckles on depression's benign visage. Serene philosopher and good republican that he is, the doctor concludes with this trumpet note of optimism: "Even in this period of change, which is also a period of stress, when there is bound to be maladjustment, our children are riding out the confusion with astonishing poise."

Hungry the little urchins may be; but, thank heaven (or, rather, thank Hoover) they are poised. Though poverty has not been abolished, as in 1928 we were given to understand it would be, it has been so idealized that only the most arrant of fleshpotters could wish again for prosperity. The depression is a wondrous success, the noblest experiment of all.

AGED WOMAN CELEBRATES NINETY-FOURTH BIRTHDAY

Mrs. Sarah Shuster observed her ninety-fourth birthday anniversary at the home of her daughter, Mrs. Hugh Bracey, 516 Hudson lane, yesterday.

Mrs. Shuster is believed to be the oldest woman in the Twin Cities and probably in Ouachita parish. Her eventful life started in Bavaria, and at the age of eight she came to America. She has lived in Columbia, Cincinnati, Shreveport, Farmerville and Monroe.

Her husband, Isaac Shuster, was for 37 years postmaster at Farmerville.

While only six years of the century mark, Mrs. Shuster is unusually well preserved and bids fair to live many more years.

She has five living children, of whom two reside in this city. The other daughter besides Mrs. Bracey who resides here is Mrs. Tom Atkinson.

WILL ASK FOR BIDS ON NEW FEDERAL BUILDING HERE

That bids will be asked inside of the next three weeks' time for the construction of the new federal building for Monroe, was the assurance brought here from Washington, D. C., by John M. Breard, president of the parish police jury.

Mr. Breard has just returned from a business trip to the capital city together with L. P. Abernathy and W. E. "Ned" Wilson. While there he accompanied Representative Riley J. Wilson to the offices of postal officials and architects where the assurance was given that bids will be sought inside of the next three weeks' time.

ST. MATTHEW'S STUDENTS HOLD EXERCISES MONDAY

Graduation exercises for students of the grammar school department of St. Matthew's Parochial school will be held Monday morning at 8:30 o'clock at St. Matthew's Catholic church. Rev. N. F. Vandegaer, pastor of the church, will deliver the graduation address and award certificates to 26 students.

Following the exercises all classes of the grammar school excepting the graduating class will assemble at the respective classrooms, where final report cards and promotion certificates will be issued. The students will then be dismissed for the summer vacation period.

CAN FLY TO CALIFORNIA.

Through the lighting of the route from Dallas to Los Angeles, it will be possible to fly from Monroe to the California metropolis, leaving here in the afternoon and arriving the next morning. This plan is to go into effect June 15, it is announced by the American Airways, Inc.

HEARD IMPROVES

W. S. Heard, West Monroe city councilman, who has been ill at the Clinic, is recuperating nicely and will be removed to his home within the next day or two.

What Today Means to You

By MARY BLAKE

"GEMINI"

If May 29th is your birthday, the best hours for you on this date are from 10:30 a.m. to noon, from 4:30 to 5:45 p.m. and from 8 p.m. to 9:30 p.m. The danger periods are from 7:40 a.m. to 9 a.m. and from 3 p.m. to 4 p.m.

Sunday, May 29th, will be a good time for deep mental breathing. Many perplexed business men will have the solution of important problems come to them this weekend in the smoky atmosphere of their home den or the tranquility of their garden. Illuminating experience for psychic or spiritually-minded. Regrets for young lovers.

The child born on this May 29th will come under benefic planetary aspects. They give to the native a love of recognition, an observant, alert mind, and a fitness for work where arbitration and judgment are required. They place those under their influence in prominent positions, or bring them fame or recognition.

You are a sociable, companionable, an an amorous being, disliking to live or work alone. In most phases of life, you do better cooperating with others. You are quite capable of being the strength and brains in double harness, whereas you are not a spectacular worker in single harness. Connection is always good for people of your type. You may have the air of being on the surface, but you are not superficial in most respects.

You often pose as being indifferent, when you are really deeply moved. You always dislike exhibiting a sour face to the public, and generally keep up the appearance that all is well in your house. There is much kindliness in your nature, and you are happy to do things for others and help many a lame dog over the stile. You are very hospitable and receptive to the wants and requirements of others. You are ambitious, particularly for physical objects and lovely personal surroundings. You are sufficiently vain to like to "show off" to advantage, and do not like your friends to get ahead of you. You are critical about your food, and like well served and cooked meals. You have a love of the beautiful and harmonious in sights, colors and sounds. There is not much jazz in your makeup.

Successful People Born on May 29th:

1—Patrick Henry, statesman and orator.
2—James J. Mapes, agricultural chemist.
3—Eugene F. Ware, lawyer, "Ironquill," commissioner of pensions.
4—Dion C. Boucicault, actor.
5—Charles F. Richardson, professor of English in Dartmouth college.
6—Charles R. Van Hise, geologist.

THEODORE TERZIA BURIED HERE YESTERDAY MORNING

An unusually large number of persons attended the funeral of Theodore Terzia yesterday morning at his home at 2709 South Grand street. A number of well-known business men and officials from Baton Rouge and New Orleans were present. Floral offerings were more numerous than in any funeral held here for some time.

Rev. W. C. Scott, pastor of the First Methodist church, and Rev. Ernest Holloway, pastor of the First Presbyterian church, officiated. Interment was in Riverview Burial park.

Pallbearers were: Jack Harrington, Joe Goyne, E. L. Neville, J. W. Collens, D. Y. Smith, W. E. Pipes, Fred Mitchell, and J. Morton Myatt.

DREAMS OF YOUTH

Every year, in May and June, an army of boys and girls set out to conquer the world.

They are confident that their diplomas will help them cope with any situation. They haven't a doubt that they will be able to take every bend in the road, sight banners all the way, and come into a promised land.

They haven't tried to tackle reality as yet. Their dreams haven't had a chance to grow tarnished in the struggle. So they start on the uphill road, gaily, gallantly, unafraid.

Instructors who are wise in the ways of life as well as the routine of the classroom will not teach boys and girls, young men and young women, that all the battles go to the strong. They will not tell them that every race belongs to the fleet. They have learned better.

Rather, they will tell those who are new in the conflict that there are things of the spirit that mean infinitely more than material successes can possibly mean. They will try to inspire them to make lives, not merely a living.

It would be a splendid thing if the far-flung visions that are such a glorious part of youth could span every long tomorrow as they dream of doing. But they can't. The play isn't written that way. There are few all-star casts. The vast majority of that great and hopeful band of city and parish high school graduates must stay in the wings, wait for the cues that seldom come. They are going to be disappointed and restless, unless they have some abiding, deeper interest.

Then, too, the sorry plight of the present economic system may make them think that there are no holes, either round or square, for their pegs, in the industrial structure. If their dreams are entirely materialistic this will be tremendously discouraging. If they are built of sterner stuff they will stand the strain.

Youth is such a buoyant time. It is only right that boys and girls should have a period for dreaming before life brings problems for solving. However, if the loss of a little transient glamor will supply more durable stuff for tomorrow's building, it is well worth the cost.

THE GLACIERS AGAIN?

Within 2000 years there will be a return of the great glaciers, says Dr. O. Gunnar Erdtman of the University of Stockholm. The climate of northern Europe and America has been growing steadily colder for more than a thousand years; deciduous trees such as the beech and the oak have been steadily moving southward, as if to get away from the glacial advance that they clearly foresaw.

Of course, as far as any of us are concerned, a catastrophe 2000 years away might as well be entirely nonexistent; but the idea is enough, just the same, to give an imaginative man the creeps. The greater part of North America, for instance, down to about the latitude of the Ohio river, was once covered with hundreds of feet of ice. Is this to happen again? If so, what sort of tack is the human race to follow thereafter?

THE CENTER OF BUSINESS

When the pioneers of America founded their towns, about the first institution established was a retail store. People built their homes around their stores, largely because the presence of these concerns made it convenient to obtain the necessaries of life. As a community grows, these stores continue one of the reasons why the city exists.

As they grow and prosper, people come to live in the town because it is a good place to buy their merchandise. If the stores have hard times, the prospects of the town are affected. So it is vitally essential, if we are to build up a constantly developing community, that we buy our supplies at these home stores and keep our money at home.

"Who doesn't get a thrill out of watching a horse flash past first in a close race?" asks an enthusiast. That's an easy one. The man who played another horse.

If you were allowed to park your car downtown all day, you might find a bushel of circulars, hand-bills, cards, posters, folders and samples in it by 5 p. m.

We will be rid of the divorce problem when husbands never tire of wiping the dishes for their wives.

"Seventy-four senators are still dry," says a dry. Somebody else is being shadowed.

Vital Question Marks

(Editorial from the Atlanta Journal.)

The League of Nations association has submitted to "dominant figures" in American life a group of questions relevant to international relations, and it is possible that many undominant figures would like to weigh these great questions for themselves. Questions sometimes are more important than answers, and it is certainly as interesting to know what questions George W. Wickersham and Nicholas Murray Butler consider momentous just now as it will be to know what our dominant national figures think are good replies.

The questions, prepared by Mr. Butler and Mr. Wickersham are these: "1. Has the world's peace machinery proven of value in the Far Eastern crisis? 2. What importance do you attach to the part played by the Nine-Power treaty? By the Pact of Paris? By the League of Nations? 3. Has the league been handicapped in its efforts to solve the Far Eastern problem by the non-membership of the United States, and if so, how? 4. What importance do you attach to the specific American contribution to the problem, namely, the Stimson doctrine, and to the league's indorsement of it? 5. Is it to the interest of the United States to contribute further to the strengthening of the world's peace machinery, and if so, what steps should be taken by our country."

As to question No. 1, we can imagine the interrogatees fleeing in alarm. To be sure, the recently climatic state of affairs in China has tapered off into something less explosive, but who can say what effect the League's moderate pressure had upon this transformation? Defying the League openly, were the Oriental captains secretly afraid of the international sentiment the League was bespeaking, and did this fear influence the cooling process in Sino-Japanese relations? Each question, it is plain, opens up a multitude of complementary questions, and into the answering of each must go much judgment, much discernment, and much intuition.

The second questions seem but an elaboration of the first. If the world's "peace machinery" did affect helpfully the far eastern crisis, then it becomes a delicate matter indeed to assay the relative efficacy of the various treaties and pacts which, we presume, are components of that "machinery." Perhaps the next question will get the readiest answer. This does not mean, necessarily, that our relationship to the League has presented an obvious conclusion as to its value, but may mean that everyone already has a private conviction upon the matter, regardless of circumstances and evidence. The next two questions arise so naturally out of this one that they are entirely dependent upon it.

In connection with this questionnaire, Mr. Butler submitted to captains of finance and industry a set of questions dealing with economic affairs. Yet these questions have a singular connection, it appears, with the questions about political accords. For example, the first economic question, "Do you believe that the entire world is today so economically interdependent that no nation can hope to extricate itself alone from the present world-wide depression, and that collective action by the nations is therefore necessary?" presents the supplementary question of whether, granted that such an economic interdependence exists, there is not inevitably a similar dependence as to peace-making efforts. If the nations must move in concert upon economics, what can unharmonized effort accomplish toward universal peace?

When these questions will be answered, and what effect the answers will have upon subsequent affairs we do not know, but they assuredly are pertinent and timely, and should produce a stimulating symposium.

Democracy and Tariff Reform

(Editorial from the Memphis Commercial Appeal)

It begins to appear that once more a national campaign for the presidency is to be fought on tariff reform.

As congress grinds along and the unsettled state of trade continues, the demand increases for a tearing down of the tariff walls, a condition that some of the world's foremost economists trace our ills to. The professors of economics and the students of business in our colleges and universities have always found little justification for the American tariff. It has been grounded on the theory of helping infant industry and keeping the standard of living high for American labor. The present depression has shot holes through both these theories.

In fact, the pendulum has swung so far now that there is a serious demand for free trade. The time-honored stand of the democratic party since the days of Andrew Jackson has been for a tariff for revenue only. From the close of the Civil war until 1896 virtually every national campaign was waged with the tariff as a paramount issue, and in 1892 it was the chief issue. So stirring were its demands and so carefully guarded as a fundamental principle was it that Henry Watterson was able to carry a convention off its feet by his tribute to it, remembered as the "star-eyed goddess of reform."

Since 1896 when the silverites took the play, the tariff has been more or less secondary. It flared up in 1912, but went to pieces in 1928 when the democracy compromised with the tariff advocates by declaring that its tariff legislation would not hurt business. Thus, under the soft name of a scientific adjustment, the standard bearer proposed to fix up the tariff so it would suit everybody.

It is interesting to note that during the last 20 years one man prominent in the Democratic councils has set himself to the task of holding the party fast to its traditional stand on the tariff. He has not always been successful, but his efforts now appear to be bearing fruit. This man is now the junior United States senator from Tennessee. As Tennessee's nominee for the platform committee of the national convention in Chicago next month, Senator Hull will probably be the chairman of the committee. It is needless to predict that he will demand a straightout reaffirmation of the party's allegiance to tariff reform; and if the convention is wise it will follow his advice.

The Hoover tariff may be good for the country in times of prosperity, but as the proverbial old paralytic said in the experience meeting, "it has pretty nigh ruined us now."

Howe About Everything

By E. W. HOWE

Writing of the late Frank Harris, a biographer says: "He transgressed all the inflexible rules of the righteous. He wronged friends, betrayed everyone, and violated every decency. And yet he was one of the noblest men of his day. If this be paradox, it is also very close to the truth. Championing the helpless and fighting oppression, Harris was magnificent; at his worst, he was far too close to rascality for the comfort of his admirers."

This is mere literary piffle. A man who violated every decency, and betrayed every friend, could not have been one of the noblest men of his time; to say so, or think so, is silly.

"What will he do for the farmers?" is being asked by farmers of every candidate.... The Old Soldiers are asking what will be done for soldeirs. Then come the labor union men with their special demands, followed by pretty much every other element of the population.... And every demand made is at least extravagant, and foolish, and usually dishonest. Every citizen is willing to rob his neighbor. Our trouble is lack of honesty. The only remedy is realization that honesty is the best policy, for the reason that it is the only policy that will work out practically. ... Neighbors robbing each other, instead of sensibly helping each other, is one of the main troubles in the present dark hour, and no dawn in sight.

Everyone talks too much of the present depression; some say recovery would be easier if it wasn't for the hard times talk.... But those who have lost jobs and money have a good deal of excuse for their indignation. The argument that the whole thing was unnecessary has some foundation. (That's the argument that causes the present grumbling among plain people who have nothing to say in public affairs except cursing.)

Reform comes slowly. In order to do better we must all admit we have been foolish; and for a man who has thought himself very smart to admit he is a fool, is hard.... If ever we get back to common sense, we will sneak back, we are so ashamed of the foolish bragging we have indulged in.

And old saying in France declares that "who is not something of a socialist at twenty has little heart, but who is not a conservative at forty has no head." Still another old maxim says that the world is so naturally devoted to hope, exaggeration, and leaning on unstable crutches that to believe in admitting the truth is not far from folly.... Here are two bits of wisdom the reader may make such use of as he sees fit, but I cannot believe the world should have less respect for the truth.... I shall be seventy-nine years old in a few days, and am physically rather well, but daily encounter more insults for everything I seem to know.

Another incident of the hard times: Milk was so regularly stolen from a man's doorstep that he journeyed every morning to a nearby grocery store to get his suply. The third evening he was held up, and lost not only his milk and bottle, but three dollars in money.

I am quite impressed with the Literay Digest's poll on prohibition, since I am convinced it is honest and representative. It seems from this poll that for every voter who believes prohibition is the best temperance measure, two others oppose it. Yet the two-thirds in opposition are compelled to submit to the one-third, to pay taxes for needless humiliation, arrest and endless inconvenience. Our greatest fiction is that the majority rules; our greatest misfortune is it does not.

In Italy and Germany satisfactory performances of opera are heard regularly in quite unimportant places. In the United States the Metropolitan company in New York is on the rocks, owing to extravagant management. Foreign singers were imported, and paid salaries many times in excess of what they received at home.... As satisfactory performance of opera as I have ever heard was "Rigoletto," presented by a small traveling company. The same performance at the Metropolitan would have been no better, and cost twenty times as much. Waste, waste; it soon finds its way into everything American.... During the past winter I heard eight thoroughly enjoyable concerts by a symphony orchestra of seventy players, all the players were local, and the conductor a strolling musician. The orchestra was financed in a small town, yet Chicago's famous organization had just gone to pieces because of waste. The greatest harm the rich accomplish is in exhibiting unnecessary waste. The poor imitate them, and are ruined.

Why all this fuss about the hundredth anniversary of a German named Goethe? Representatives of almost every nation gathered at his birthplace recently, and praised him extravagantly. Some of the German papers say Goethe is not read, even in colleges; that the people of today have something else than Goethe in their heads.... This conforms with my own notions. His "Faust" seems to me a great farce. I have encountered a few clever things he said, and believe these might be profitably collected in a few pages for general reading, but beyond that am indifferent. Who is it believes a great amount of money should be spent in hard times to honor Goethe's memory? I believe these persons are not very important, and represent a very small minority.

Reading is largely wasting time in wading through dull pages in the hope of finding an occasional "good thing." I have just encountered "Where robbers are heroes, and the police intruders," in a description of the island of Corsica, controlled by the French who are so astonished at our Chicago.... It is related that once when a French president visited Corsica, the local Al Capone rode in the procession, and received more flowers and applause than the president.

To See Ourselves as Others See Us!

The Depression as a Success

The depression is a good thing, after all, according to that cheery philosopher of the Hoover cabinet, Dr. Ray Lyman Wilbur, secretary of the interior. Four years ago it was pictured as a thing impossible under a republican administration, and not until it had fastened upon the country like the frogs upon Pharaoh's kingdom was its presence acknowledged by the powers that be. But since it is now undeniably here and has come to pass under the reign of the Grand Old Party, it needs must be a blessing. It is a jewel in the head of what prosaic people have taken to be an altogether ugly if not venomous toad, says the Atlanta Journal.

"The depressions," said Dr. Wilbur, addressing the National Conference on Social Work, meeting in the City of Brotherly Love, "has turned out to be a benefit to the children of America." If his audience startled a bit at this unique view of a situation in which not a few fathers and mothers wonder how the little ones are to be fed, the distinguished speaker did not leave them long mystified. "There are a number of reasons for this," he went on. "In the first place, the home is on a more normal level today than it was during the high tide of prosperity. Parents have again assumed the responsibility for their children, instead of unloading those responsibilities on others. There is no substitute for the parent in the development of the child." In fact, the secretary of the interior might have added with equal insight, there is no substitute for the parent in the birth of the child. What he did add was this:

"In all times there are children who need aid. These are likely to be forgotten in prosperous times. It is too often assumed that all is well. It is harder to raise money for the community chest in boom times than in hard times. (Witness the bulging coffers of every charitable agency today!) Profitable investments constantly invite it. Expenditures for more elaborate living consume it. In bad times people become conscious of the need of looking out for the needy. The whole range of expert service that has been built up during the decades is called into being. (That is why, we suppose, nothing is said in congress about the necessity of supplementing local relief.) Children receive attention who would miss it in good times. The message of the trained expert is more readily accepted, even by the well-to-do."

Ah, there is the sovereign virtue of the depression—the readier acceptance of the message of the trained expert! Thus the super-efficiency finds now a field which was not a tithe so broad or fertile in the days of stiff-necked prosperity. Though the wind blows ill to many, all is compensated by the vastly heightened importance of the "trained expert." On one or two points Dr. Wilbur has a certain misgiving. "The emphasis upon amusement instead of recreation, the apparent decrease in substantial reading, and behavior problems of various sorts give us real concern." He is also a bit disquieted over the "gambling spirit," which "gives just the wrong turn to growing children, who need to think in terms of security, stability and honest endeavor, rather than on chance." But these are mere freckles on depression's benign visage. Serene philosopher and good republican that he is, the doctor concludes with this trumpet note of optimism: "Even in this period of change, which is also a period of stress, when there is bound to be maladjustment, our children are riding out the confusion with astonishing poise."

Hungry the little urchins may be; but, thank heaven (or, rather, thank Hoover) they are poised. Though poverty has not been abolished, as in 1928 we were given to understand it would be, it has been so idealized that only the most arrant of fleshpotters could wish again for prosperity. The depression is a wondrous success, the noblest experiment of all.

AGED WOMAN CELEBRATES NINETY-FOURTH BIRTHDAY

Mrs. Sarah Shuster observed her ninty-fourth birthday anniversary at the home of her daughter, Mrs. Hugh Bracey, 516 Hudson lane, yesterday.

Mrs. Shuster is believed to be the oldest woman in the Twin Cities and probably in Ouachita parish. Her eventful life started in Bavaria, and at the age of eight she came to America. She has lived in Columbia, Cincinnati, Shreveport, Farmerville and Monroe.

Her husband, Isaac Shuster, was for 37 years postmaster at Farmerville.

While only six years of the century mark, Mrs. Shuster is unusually well preserved and bids fair to live many more years.

She has five living children, of whom two reside in this city. The other daughter besides Mrs. Bracey who resides here is Mrs. Tom Atkinson.

WILL ASK FOR BIDS ON NEW FEDERAL BUILDING HERE

That bids will be asked inside of the next three weeks' time for the construction of the new federal building for Monroe, was the assurance brought here from Washington, D. C., by John M. Breard, president of the parish police jury.

Mr. Breard has just returned from a business trip to the capital city together with L. P. Abernathy and W. E. "Ned" Wilson. While there he accompanied Representative Riley J. Wilson to the offices of postal officials and architects where the assurance was given that bids will be sought inside of the next three weeks' time.

ST. MATTHEW'S STUDENTS HOLD EXERCISES MONDAY

Graduation exercises for students of the grammar school department of St. Matthew's Parochial school will be held Monday morning at 8:30 o'clock at St. Matthew's Catholic church. Rev. N. F. Vandegaer, pastor of the church, will deliver the graduation address and award certificates to 26 students.

Following the exercises all classes of the grammar school excepting the graduating class will assemble at the respective classrooms, where final report cards and promotion certificates will be issued. The students will then be dismissed for the summer vacation period.

CAN FLY TO CALIFORNIA.

Through the lighting of the route from Dallas to Los Angeles, it will be possible to fly from Monroe to the California metropolis, leaving here in the afternoon and arriving the next morning. This plan is to go into effect June 15, it is announced by the American Airways, Inc.

HEARD IMPROVES

W. S. Heard, West Monroe city councilman, who has been ill at the Clinic, is recuperating nicely and will be removed to his home within the next day or two.

What Today Means to You

By MARY BLAKE

"GEMINI"

If May 29th is your birthday, the best hours for you on this date are from 10:30 a.m. to noon, from 4:30 to 5:45 p.m. and from 8 p.m. to 9:30 p.m. The danger periods are from 7:40 a.m. to 9 a.m. and from 3 p.m. to 4 p.m.

Sunday, May 29th, will be a good time for deep mental breathing. Many perplexed business men will have the solution of important problems come to them this weekend in the smoky atmosphere of their home den or the tranquility of their garden. Illuminating experience for psychic or spiritually-minded. Regrets for young lovers.

The child born on this May 29th will come under benefic planetary aspects. They give to the native a love of recognition, an observant, alert mind, and a fitness for work where arbitration and judgment are required. They place those under their influence in prominent positions, or bring them fame or recognition.

You are a sociable, companionable, an an amorous being, disliking to live or work alone. In most phases of life, you do better cooperating with others. You are quite capable of being the strength and brains in double harness, whereas you are not a spectacular worker in single harness. Competition is always good for people of your type. You may have the air of being on the surface, but you are not superficial in most respects.

You often pose as being indifferent, when you are really deeply moved. You always dislike exhibiting a sour face to the public, and generally keep up the appearance that all is well in your house. There is much kindliness in your nature, and you are happy to do things for others and help many a lame dog over the asile. You are very hospitable and receptive to the wants and requirements of others. You are ambitious, particularly for physical objects and lovely personal surroundings. You are sufficiently vain to like to "show off" to advantage, and do not like your fiends to get ahead of you. You are critical about your food, and like well served and cooked meals. You have a love of the beautiful and harmonious in sights, colors and sounds. There is not much jazz in your make-up.

Successful People Born on May 29th:

1—Patrick Henry, statesman and orator.
2—James J. Mapes, agricultural chemist.
3—Eugene F. Ware, lawyer, "Ironquill," commissioner of pensions.
4—Dion C. Boucicault, actor.
5—Charles F. Richardson, professor of English in Dartmouth college.
6—Charles R. Van Hise, geologist.

THEODORE TERZIA BURIED HERE YESTERDAY MORNING

An unusually large number of persons attended the funeral of Theodore Terzia yesterday morning at his home at 2709 South Grand street. A number of well-known business men and officials from Baton Rouge and New Orleans were present. Floral offerings were more numerous than in any funeral held here for some time.

Rev. W. C. Scott, pastor of the First Methodist church, and Rev. Ernest Holloway, pastor of the First Presbyterian church, officiated. Interment was in Riverview Burial park.

Pallbearers were: Jack Harrington, Joe Goyne, E. L. Neville, J. W. Collens, D. Y. Smith, W. E. Pipes, Fred Mitchell, and J. Morton Myatt.

CHURCHES

FIRST BAPTIST CHURCH
WEST MONROE
E. E. Huntsberry, Pastor

Rev. Frank Tripp, former pastor of the First Baptist church, Monroe, and now pastor of the first Baptist church, Joplin, Mo., will preach at the morning hour Sunday.

The pastor will speak at the evening hour on "The Miraculous Christ."

FIRST PRESBYTERIAN CHURCH
Ernest Holloway, Pastor

The regular program will be carried out. The pastor will speak at the morning worship on the subject "When God is not Our Ally," based on Deuteronomy 32:30.

The Christian endeavor societies convene in the evening at 7:00 o'clock. At the night period of worship we finish our study of the first general epistle of John. Read chapter five.

FIRST CHURCH OF CHRIST, SCIENTIST
Corner Auburn and North Second St.

Sunday service at 11 a. m. Sunday school at 9:30 a. m. Wednesday evening testimony meeting at 8 o'clock. Reading room at 1108 Ouachita Bank building, open daily, except Sundays and holidays, 12:30 to 5 p. m. The public is welcome to all services and the use of the reading room.

CHENIERE BAPTIST CHURCH
S. L. Bunch, Pastor

Our new building is under construction. Until then we preach under the large trees at Cheniere station. Will baptize this Sunday at 2 p. m.

Preaching Sunday at 2 p. m.

Baptizing at 3 p. m.

PENILE BAPTIST CHURCH
Jonesboro Road
S. L. Bunch, Pastor

Sunday school, 10 a. m.

Preaching, 8 p. m.

W. M. U., Wednesday, 2 p. m.

Prayer meeting Thursday night.

GRACE CHURCH
4th and Glenmar Sts.

Services for first Sunday after Trinity are as follows: The Holy Eucharist will be celebrated at 7:30 a.m. Church school will meet at 9:30 a.m. and morning prayer with sermon at 11 o'clock.

TRENTON BAPTIST CHURCH
C. B. Gates, Pastor

Sunday school at 9:45, J. F. Jones, Supt.

Preaching at 11 a.m. and 7:45 p.m. B. Y. P. U. meets at 7 p.m. each Sunday night. Prayer meeting every Thursday night at 8 p.m. Ladies meet every Tuesday at 3 p.m.

Baptizing Sunday night at close of service.

CENTRAL BAPTIST CHURCH
3400 Lee Avenue
Roger M. Baxter, Pastor.

The services of this church will be Sunday school at 9:45, morning worship at 10:50 a.m., B. Y. P. U. will meet at 7:00 with evening worship at 8:00 p.m. At the morning hour the pastor will speak on "The Stewardship of Influence." At the evening hour "Sinners Entreated to Hear God."

FIRST METHODIST EPISCOPAL CHURCH, SOUTH
Jackson at Wood Street

Sunday evening at 7:45 in the First Methodist church the baccalaureate sermon for Neville high school will be given by Dr. W. C. Scott, pastor. The sermon theme will be, "The Majesty of Strength." An augmented choir will sing Shelley's "Hark, Hark My Soul." Come early if you want a pew.

Sunday morning, Dr. Scott will preach on the subject, "The Trifler."

ASSEMBLY OF GOD
West Monroe.
E. L. Tanner, Pastor.

Sunday school at 9:45 a.m., J. E. Lindsey, superintendent. Preaching at 11:00 a.m. and 7:45 p.m. Mrs. Leona Murphrey will preach at both hours Sunday. The pastor will be in Shreveport attending a fifth Sunday fellowship meeting of the Assemblies of God of this section of the district.

Weekly services will be held on Tuesday and Thursday nights.

FIRST NAZARENE CHURCH
H. F. Camp, Minister
Thomas Avenue at Richmond

The first part of the 11 o'clock worship will be given to reception of new converts into the fellowship of the church. After this the pastor will use for his text. "Grieve not the Holy Spirit of God." The evening service at 7:45 will be evangelistic. Sunday school at 9:40. Junior N. Y. P. S. devotional at 4 p.m. A pre-prayer service for the senior N. Y. P. S. will be conducted at 6:45. Mid-week prayer service Thursday 7:45 p.m.

IMMANUEL BAPTIST CHURCH
WEST MONROE
Corner North Fourth and Vernon
Rev. H. L. Driskell, Pastor

Continuing the evangelistic services that have been in progress for several days, Rev. E. A. Bateman has announced that he will speak this evening on the Battle of Armageddon, or the Final Victory. Sunday morning he will speak on Christianity and the American home. Sunday evening he has announced that his subject will be the question "Is This the End of The Ages?"

Sunday school at 9:45, Rev. R. L. Ross, Jr., superintendent. Evangelistic meeting at 11:00 o'clock.

B. Y. P. U. at 7:00, Mr. Harry G. Durgin, director.

Evangelistic meeting at 8:00 o'clock.

TRINITY LUTHERAN
H. H. Schaefer, Pastor

First after Trinity. All departments of the Sunday school and Bible class will assemble for regular studies at 9:45. Chief worship begins at 10:45. The topic of the pastor's sermon will be "Christian Joy," based on the lesson for the day, being the parable of the vine and the branches, John 15.

FIRST BAPTIST CHURCH
L. T. Hastings, Pastor

The American Legion, Veterans of Foreign Wars and all ex-soldiers will be our honor guests at the morning service, beginning at 11 o'clock. Our pastor will preach on "Did They Die in Vain?" or "Will Our Patriotism Now Meet the Problems of Peace as it Has Always Met the Problems of War?" Appropriate music will be furnished by the choir, led by L. A. Stulce, asssted by Mrs. G. C. Cornett at the piano.

Rev. Frank Tripp, formerly pastor of the First Baptist church, now of St. Joseph, Mo., will preach Sunday night at 7:45. He will also speak to the combined Bible classes of men at the Paramount theater Sunday morning at 9:30. The other classes and departments will meet at 9:45 as usual.

FIRST CHRISTIAN CHURCH
Thos. F. Jett, Minister

Church school meets at 9:45 a. m. Morning worship and communion at 11:00 o'clock. The pastor's discourse will be "The Christian Decoration Day."

Young people meet at 7:00 p. m.; the evening worship at 8 o'clock.

It is necessary for us to announce this far in advance that Wednesday evening, June 8, is the regular yearly election of the church officiary. It is understood that the final decision concerning these officers is made by the members of the church, meeting in regular session for this purpose. It is also understood that those present on the night of June 8 represent the congregation officially.

METHODIST PROTESTANT CHURCH
Stone and South Third Streets
I. L. Yeager, Pastor

Services of the day begin with Sunday school at 9:50 a. m.; morning worship 11 o'clock; Christian Endeavor 6:45 p. m.; evening service 7:45; Women's Missionary auxiliary to meet Tuesday afternoon at 2:30. Choir practice Tuesday evening 7:45. Midweek prayer service, Thursday evening 7:45. Miss Gertie Mae Brasher, leader.

Commodity prices in Japan are still dropping.

CANTALOUPE CROP SHOWING PROMISE

Farm Agent Finds Conditions Good in All Parts of Ouachita Parish

Visits were made during the week to some cantaloupe demonstrations in all sections of the parish by E. R. Strahan, parish agent, and he reports that satisfactory progress is being made by more than 300 growers who are producing cantaloupes for shipment to distant markets.

Melons as large as goose eggs were found on the farm of Larrie Henry of ward eight, and E. R. Gray of ward six. Both of these farmers planted their seed on March 25, almost two weeks ahead of the average date of planting, which accounts for the earliness of their crops, but the condition of other crops visited warrants the prediction that there will be a "heavy set" of melons on about 700 acres by June 1, Mr. Strahan said yesterday.

On the eastern side of the parish and in a few instances on the western side considerable damage was done to the plants in the early part of the growing season by cucumber beetles. Best results in combating the pests were secured from dusting with dutox or barium fluosilicate, while a few farmers reported goods results to a minimum by dusting with calcium arsenate mixed with lime.

The parish agent recommends that all crops that are heavily infested with these cucumber beetles be dusted well one time with dutox or kalite and after that dust once a week or as often as necessary to control the damage done by these pests, with one part calcium arsenate mixed with five to eight parts hydrated lime or gypsum. By following this line of procedure the agent believes that the plants can be kept in a healthy condition which will result in a larger production and also in a better quality of melons.

An official of the Missouri Pacific railroad and one from the Fruit Supply Co. are expected to visit a number of cantaloupe crops next week so they will be able to determine the time to begin shipping and what arrangements will be necessary for handling the crop.

Tallulah

Commencement exercises for the graduating class of the Tallulah high school were held in the high school auditorium here Thursday night before a large number of parents and friends, when 19 diplomas were presented by W. M. Murphy, president of the Madison parish school board. The stage effecting a woodland scene, with an artistic arrangement of cut flowers and ferns made a lovely setting for the occasion. Two pretty girls with their heads encircled in a horseshoe of flowers came slowly down the aisle stopping at the foot of the stage then forming an archway of the flowers, following by other couples stopping at equidistant points, together making four beautiful archways, through which passed the stately procession of graduates in cap and gown, ascending the stage. Mr. Dutton, the principal of the school, expressed a hearty welcome to the visitors, and referred to the graduates as being a characteristic representation of young America of today, ranking them among the best class in the history of his work, and introducing the program of the seniors, which follows: Invocation, the Rev. C. N. Kimberlin; chorus, "Sylvia," seniors of glee club; salutatory, "Milestones," Frederick Tucker; piano solo, "Valse Caprice," Lorraine McCready; duet, "Trees," Elizabeth Bettis, Dorothy Fairly; class will and prophecy, Jane Becker; chorus, "Gaudeamus Igitur," senior Latin students; valedictory, "Friendship," Marianne Ward; presentation of diplomas, W. M. Murphy; benediction, the Rev. C. N. Kimberlin.

Tallulah grammar school exercises were held Friday morning in the auditorium at the high school building, with Mr. Dutton giving a short talk on the school work, at which time 46 students were promoted to the high school. Many certificates of efficiency were awarded, among them being 75 in spelling and 329 in reading. Certificates of attendance were received by nine students.

RELATIVES OF DEAD MAN SOUGHT; LIVED IN SWARTZ

Red Cross officials yesterday were trying to locate relatives of Ike Grayson, 73, formerly of Swartz, who died early yesterday morning in the Shreveport charity hospital.

He was removed to the hospital a week ago, after he had fallen and fractured his hip. At the time of his injury he was staying with Mrs. L. A. Griffin, who lives north of Monroe, Red Cross officials said.

He is said to have two daughters living in Monroe, but attempts to locate them yesterday were unsuccessful.

SON IS BORN

A wedding secret a year old was disclosed yesterday when Jimmie Hamilton, clerk at the Hotel Virginia, announced that he and Miss Pearl Furey, daughter of Mr. and Mrs. John L. Furey, 324 North Sixth street, were married a year ago. Employes at the hotel had not learned of the marriage until yesterday. A son was born yesterday morning to the couple, at the St. Francis sanitarium.

WEATHER-PROOF MOVING VAN INSURED

MONROE TRANSFER & WAREHOUSE COMPANY INC. 780

Proper trucks for handling all classes freight and merchandise.

FOREIGN LANGUAGE GROUP HOLDS PICNIC YESTERDAY

Students of the Ouachita parish junior college French and Spanish classes held a picnic and swimming party yesterday afternoon at Lazarre's point, West Monroe, with 40 students present.

Miss Ama Lee Null, instructor, was in charge of the party.

VETERANS OF WAR TO HEAR SERMON

Rev. L. T. Hastings Will Deliver Address at Memorial Service Here

Delivering a sermon before war veterans in memorial services to be held at the Monroe First Baptist church at 11 o'clock this morning, Rev. L. T. Hastings, pastor of the church, will speak on the subject, "Did They Die in Vain, or Will Our Patriotism Meet the Problems of Peace As it Met the Problems of War?"

An invitation to attend the services has been issued all war veterans of the Twin Cities. American Legion members will attend the services in a body, marching to the church from the courthouse, where they will assemble at 10:30 o'clock. Veterans of Foreign Wars and United Spanish War veterans will also form groups to attend the services.

Memorial day officially comes on Monday, but observance of the day began yesterday afternoon when the auxiliary of the local camp of Spanish war veterans decorated graves of veterans in local cemeteries.

This afternoon Leonidas Barkdull Faulk post of the American Legion will decorate graves of veterans in all cemeteries of Ouachita parish. Members of the post will assemble at 2 o'clock this afternoon at the home of Charles Mitchell, 123 North Sixth street, and will leave from that point in automobiles on journeys to the cemeteries.

Persons who have flowers which they will contribute for decoration of the graves are requested to deliver them to the Mitchell home prior to 2 o'clock this afternoon.

Monday morning at 10 o'clock, members of Rodney J. Hobbs post, Veterans of Foreign Wars, will assemble at the post headquarters and journey to Riverview Burial park, where a memorial service will be conducted in charge of Rev. Tom Roberts of Farmerville, state chaplain of the American Legion.

Graves of veterans in the cemetery will be decorated with flags and the Malta cross, insignia of Veterans of Foreign Wars.

XYZ CLUB TO HAVE AFFAIR THURSDAY

Colored Organization Will Give Literary Program at Martin's Temple

Announcement was made last night by the XYZ club, colored charitable and social organization of Monroe, of a public literary program which will be presented by the club Thursday night at Martin's temple, colored, at Nineteenth and Adams streets.

J. C. Nelson will act as master of ceremonies, with S. H. Simmons, O. P. Peoples and Dave Adams as members of the program committee.

Frank Perkins is president of the club, E. W. Simmons secretary-treasurer.

Ceremonies will open at 8 p.m. when a song service will be opeend by the B-Natural club. A. T. White, J. A. Johnson, Dr. J. T. Miller, E. W. Simms, Callie Jones, W. B. Young, Dr. I. L. Turner, O. L. Ivy, J. Leo Hardy, E. J. Hamilton, L. A. H. Jackson, Jr., O. Peoples and A. Peterson all have places on the program.

DENIES SUCIDE INTENT

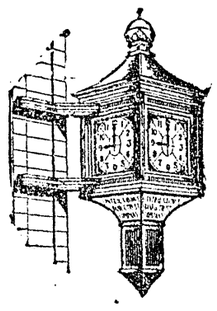

Miss Essie Veuleman, 22-year-old waitress who, police said, swallowed a quantity of poison Friday with suicidal intent, yesterday denied she had intended to take her own life when she swallowed the poison. She said she had taken the potion as medicine, acting under her physician's orders. She was much better yesterday.

"I'm not so particular about the terms and conditions you put in the trust agreement. All I want is to know everything is left entirely in your discretion, and then I am sure you will meet all occasions as they may arise.

"Why, man, if I'd leave that $30,000 life insurance in cash to my wife, and she, without any business experience, would have to invest it—that would be a rank injustice both to her and to my idea of business."

Words actually spoken to the writer by a prominent Monroe man. And what a world of common sense they contain.

How about your own insurance?

CHURCHES

FIRST BAPTIST CHURCH
WEST MONROE
E. E. Huntsberry, Pastor

Rev. Frank Tripp, former pastor of the First Baptist church, Monroe, and now pastor of the first Baptist church, Joplin, Mo., will preach at the morning hour Sunday.

The pastor will speak at the evening hour on "The Miraculous Christ."

FIRST PRESBYTERIAN CHURCH
Ernest Holloway, Pastor

The regular program will be carried out. The pastor will speak at the morning worship on the subject "When God is not Our Ally," based on Deuteronomy 32:30.

The Christian endeavor societies convene in the evening at 7:00 o'clock. At the night period of worship we finish our study of the first general epistle of John. Read chapter five.

FIRST CHURCH OF CHRIST, SCIENTIST
Corner Auburn and North Second St.

Sunday service at 11 a. m. Sunday school at 9:30 a. m. Wednesday evening testimony meeting at 8 o'clock. Reading room at 1108 Ouachita Bank building, open daily, except Sundays and holidays, 12:30 to 5 p. m. The public is welcome to all services and the use of the reading room.

CHENIERE BAPTIST CHURCH
S. L. Bunch, Pastor

Our new building is under construction. Until then we preach under the large trees at Cheniere station. Will baptize this Sunday at 2 p. m.
Preaching Sunday at 2 p. m.
Baptizing at 3 p. m.

PENILE BAPTIST CHURCH
Jonesboro Road
S. L. Bunch, Pastor

Sunday school, 10 a. m.
Preaching, 8 p. m.
W. M. U., Wednesday, 2 p. m.
Prayer meeting Thursday night.

GRACE CHURCH
4th and Glenmar Sts.

Services for first Sunday after Trinity are as follows: The Holy Eucharist will be celebrated at 7:30 a.m. Church school will meet at 9:30 a.m. and morning prayer with sermon at 11 o'clock.

TRENTON BAPTIST CHURCH
C. B. Gates, Pastor

Sunday school at 9:45, J. F. Jones, Supt.

Preaching at 11 a.m. and 7:45 p.m. B. Y. P. U. meets at 7 p.m. each Sunday night. Prayer meeting every Thursday night at 8 p.m. Ladies meet every Tuesday at 3 p.m.

Baptizing Sunday night at close of service.

CENTRAL BAPTIST CHURCH
3400 Lee Avenue
Roger M. Baxter, Pastor.

The services of this church will be Sunday school at 9:45, morning worship at 10:50 a.m., B. Y. P. U. will meet at 7:00 with evening worship at 8:00 p.m. At the morning hour the pastor will speak on "The Stewardship of Influence." At the evening hour "Sinners Entreated to Hear God."

FIRST METHODIST EPISCOPAL CHURCH, SOUTH
Jackson at Wood Street

Sunday evening at 7:45 in the First Methodist church the baccalaureate sermon for Neville high school will be given by Dr. W. C. Scott, pastor. The sermon theme will be, "The Majesty of Strength." An augmented choir will sing Shelley's "Hark, Hark My Soul." Come early if you want a pew.

Sunday morning, Dr. Scott will preach on the subject, "The Trifler."

ASSEMBLY OF GOD
West Monroe.
E. L. Tanner, Pastor.

Sunday school at 9:45 a.m., J. E. Lindsey, superintendent. Preaching at 11:00 a.m. and 7:45 p.m. Mrs. Leona Murphrey will preach at both hours Sunday. The pastor will be in Shreveport attending a fifth Sunday fellowship meeting of the Assemblies of God of this section of the district.

Weekly services will be held on Tuesday and Thursday nights.

FIRST NAZARENE CHURCH
H. F. Camp, Minister
Thomas Avenue at Richmond

The first part of the 11 o'clock worship will be given to reception of new converts into the fellowship of the church. After this the pastor will use for his text, "Grieve not the Holy Spirit of God." The evening service at 7:45 will be evangelistic. Sunday school at 9:40. Junior N. Y. P. S. devotional at 4 p.m. A pre-prayer service for the senior N. Y. P. S. will be conducted at 6:45. Mid-week prayer service Thursday 7:45 p.m.

IMMANUEL BAPTIST CHURCH
WEST MONROE
Corner North Fourth and Vernon
Rev. H. L. Driskell, Pastor

Continuing the evangelistic services that have been in progress for several days, Rev. E. A. Bateman has announced that he will speak this evening on the Battle of Armageddon, or the Final Victory. Sunday morning he will speak on Christianity and the American home. Sunday evening he has announced that his subject will be the question "Is This the End of The Ages?"

Sunday school at 9:45, Rev. R. L. Ross, Jr., superintendent. Evangelistic meeting at 11:00 o'clock.

B. Y. P. U. at 7:00, Mr. Harry G. Durgin, director.

Evangelistic meeting at 8:00 o'clock.

TRINITY LUTHERAN
H. H. Schaefer, Pastor

First after Trinity. All departments of the Sunday school and Bible class will assemble for regular studies at 9:45. Chief worship begins at 10:45. The topic of the pastor's sermon will be "Christian Joy," based on the lesson for the day, being the parable of the vine and the branches, John 15.

FIRST BAPTIST CHURCH
L. T. Hastings, Pastor

The American Legion, Veterans of Foreign Wars and all ex-soldiers will be our honor guests at the morning service, beginning at 11 o'clock. Our pastor will preach on "Did They Die in Vain?" or "Will Our Patriotism Now Meet the Problems of Peace as it Has Always Met the Problems of War?" Appropriate music will be furnished by the choir, led by L. A. Stulce, asssted by Mrs. G. C. Cornett at the piano.

Rev. Frank Tripp, formerly pastor of the First Baptist church, now of St. Joseph, Mo., will preach Sunday night at 7:45. He will also speak to the combined Bible classes of men at the Paramount theater Sunday morning at 9:30. The other classes and departments will meet at 9:45 as usual.

FIRST CHRISTIAN CHURCH
Thos. F. Jett, Minister

Church school meets at 9:45 a. m. Morning worship and communion at 11:00 o'clock. The pastor's discourse will be "The Christian Decoration Day."

Young people meet at 7:00 p. m.; the evening worship at 8 o'clock.

It is necessary for us to announce this far in advance that Wednesday evening, June 8, is the regular yearly election of the church officiary. It is understood that the final decision concerning these officers is made by the members of the church, meeting in regular session for this purpose. It is also understood that those present on the night of June 8 represent the congregation officially.

METHODIST PROTESTANT CHURCH
Stone and South Third Streets
I. L. Yeager, Pastor

Services of the day begin with Sunday school at 9:50 a. m.; morning worship 11 o'clock; Christian Endeavor 6:45 p. m.; evening service 7:45; Women's Missionary auxiliary to meet Tuesday afternoon at 2:30. Choir practice Tuesday evening 7:45. Midweek prayer service, Thursday evening 7:45. Miss Gertie Mae Brasher, leader.

Commodity prices in Japan are still dropping.

CANTALOUPE CROP SHOWING PROMISE

Farm Agent Finds Conditions Good in All Parts of Ouachita Parish

Visits were made during the week to some cantaloupe demonstrations in all sections of the parish by E. R. Strahan, parish agent, and he reports that satisfactory progress is being made by more than 300 growers who are producing cantaloupes for shipment to distant markets.

Melons as large as goose eggs were found on the farm of Larrie Henry of ward eight, and E. R. Gray of ward six. Both of these farmers planted their seed on March 25, almost two weeks ahead of the average date of planting, which accounts for the earliness of their crops, but the condition of other crops visited warrants the prediction that there will be a "heavy set" of melons on about 700 acres by June 1, Mr. Strahan said yesterday.

On the eastern side of the parish and in a few instances on the western side considerable damage was done to the plants in the early part of the growing season by cucumber beetles. Best results in combating the pests were secured from dusting with dutox or barium fluosilicate, while a few farmers reported goods results to a minimum, by dusting with calcium arsenate mixed with lime.

The parish agent recommends that all crops that are heavily infested with these cucumber beetles be dusted well one time with dutox or kalite and after that dust once a week or as often as necessary to control the damage done by these pests, with one part calcium arsenate mixed with five to eight parts hydrated lime or gypsum. By following this line of procedure the agent believes that the plants can be kept in a healthy condition which will result in a larger production and also in a better quality of melons.

An official of the Missouri Pacific railroad and one from the Fruit Supply Co. are expected to visit a number of cantaloupe crops next week so they will be able to determine the time to begin shipping and what arrangements will be necessary for handling the crop.

Tallulah

Commencement exercises for the graduating class of the Tallulah high school were held in the high school auditorium here Thursday night before a large number of parents and friends, when 19 diplomas were presented by W. M. Murphy, president of the Madison parish school board. The stage effecting a woodland scene, with an artistic arrangement of cut flowers and ferns made a lovely setting for the occasion. Two pretty girls with their heads encircled in a horseshoe of flowers came slowly down the aisle stopping at the foot of the stage then forming an archway of the flowers, following by other couples stopping at equidistant points, together making four beautiful archways, through which passed the stately procession of graduates in cap and gown, ascending the stage. Mr. Dutton, the principal of the school, expressed a hearty welcome to the visitors, and referred to the graduates as being a characteristic representation of young America of today, ranking them among the best class in the history of his work, and introducing the program of the seniors, which follows: Invocation, the Rev. C. N. Kimberlin; chorus, "Sylvia," seniors of glee club; salutatory, "Milestones," Frederick Tucker; piano solo, "Valse Caprice," Lorraine McCready; duet, "Trees," Elizabeth Bettis, Dorothy Fairly; class will and prophecy, Jane Becker; chorus, "Gaudeamus Igitur," senior Latin students; valedictory, "Friendship," Marianne Ward; presentation of diplomas, W. M. Murphy; benediction, the Rev. C. N. Kimberlin.

Tallulah grammar school exercises were held Friday morning in the auditorium at the high school building, with Mr. Dutton giving a short talk on the school work, at which time 46 students were promoted to the high school. Many certificates of efficiency were awarded, among them being 75 in spelling and 329 in reading. Certificates of attendance were received by nine students.

RELATIVES OF DEAD MAN SOUGHT; LIVED IN SWARTZ

Red Cross officials yesterday were trying to locate relatives of Ike Grayson, 73, formerly of Swartz, who died early yesterday morning in the Shreveport charity hospital.

He was removed to the hospital a week ago, after he had fallen and fractured his hip. At the time of his injury he was staying with Mrs. L. A. Griffin, who lives north of Monroe, Red Cross officials said.

He is said to have two daughters living in Monroe, but attempts to locate them yesterday were unsuccessful.

SON IS BORN

A wedding secret a year old was disclosed yesterday when Jimmie Hamilton, clerk at the Hotel Virginia, announced that he and Miss Pearl Furey, daughter of Mr. and Mrs. John L. Furey, 324 North Sixth street, were married a year ago. Employes at the hotel had not learned of the marriage until yesterday. A son was born yesterday morning to the couple, at the St. Francis sanitarium.

WEATHER-PROOF MOVING VAN INSURED
MONROE TRANSFER & 780 WAREHOUSE COMPANY INC.
Proper trucks for handling all classes freight and merchandise.

FOREIGN LANGUAGE GROUP HOLDS PICNIC YESTERDAY

Students of the Ouachita parish junior college French and Spanish classes held a picnic and swimming party yesterday afternoon at Lazarre's point, West Monroe, with 40 students present.

Miss Ama Lee Null, instructor, was in charge of the party.

VETERANS OF WAR TO HEAR SERMON

Rev. L. T. Hastings Will Deliver Address at Memorial Service Here

Delivering a sermon before war veterans in memorial services to be held at the Monroe First Baptist church at 11 o'clock this morning, Rev. L. T. Hastings, pastor of the church, will speak on the subject, "Did They Die in Vain, or Will Our Patriotism Meet the Problems of Peace As it Met the Problems of War?"

An invitation to attend the services has been issued all war veterans of the Twin Cities. American Legion members will attend the services in a body, marching to the church from the courthouse, where they will assemble at 10:30 o'clock. Veterans of Foreign Wars and United Spanish War veterans will also form groups to attend the services.

Memorial day officially comes on Monday, but observance of the day began yesterday afternoon when the auxiliary of the local camp of Spanish war veterans decorated graves of veterans in local cemeteries.

This afternoon Leonidas Barkdull Faulk post of the American Legion will decorate graves of veterans in all cemeteries of Ouachita parish. Members of the post will assemble at 2 o'clock this afternoon at the home of Charles Mitchell, 123 North Sixth street, and will leave from that point in automobiles on journeys to the cemeteries.

Persons who have flowers which they will contribute for decoration of the graves are requested to deliver them to the Mitchell home prior to 2 o'clock this afternoon.

Monday morning at 10 o'clock, members of Rodney J. Hobbs post, Veterans of Foreign Wars, will assemble at the post headquarters and journey to Riverview Burial park, where a memorial service will be conducted in charge of Rev. Tom Roberts of Farmerville, state chaplain of the American Legion.

Graves of veterans in the cemetery will be decorated with flags and the Malta cross, insignia of Veterans of Foreign Wars.

XYZ CLUB TO HAVE AFFAIR THURSDAY

Colored Organization Will Give Literary Program at Martin's Temple

Announcement was made last night by the XYZ club, colored charitable and social organization of Monroe, of a public literary program which will be presented by the club Thursday night at Martin's temple, colored, at Nineteenth and Adams streets.

J. C. Nelson will act as master of ceremonies, with S. H. Simmons, O. P. Peoples and Dave Adams as members of the program committee.

Frank Perkins is president of the club, E. W. Simmons secretary-treasurer.

Ceremonies will open at 8 p.m. when a song service will be opeend by the B-Natural club. A. T. White, J. A. Johnson, Dr. J. T. Miller, E. W. Simms, Callie Jones, W. B. Young, Dr. I. L. Turner, O. L. Ivy, J. Leo Hardy, E. J. Hamilton, L. A. H. Jackson, Jr., O. Peoples and A. Peterson all have places on the program.

DENIES SUCIDE INTENT

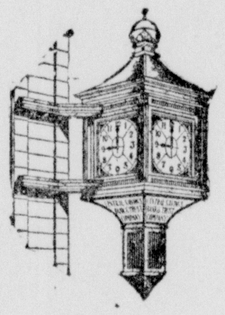

Miss Essie Veuleman, 22-year-old waitress who, police said, swallowed a quantity of poison Friday with suicidal intent, yesterday denied she had intended to take her own life when she swallowed the poison. She said she had taken the potion as medicine, acting under her physician's orders. She was much better yesterday.

Miss Alice Cobb

In the Pictures

Miss Rose Crawford and Miss Virginia Dougal, valedictorian and salutatorian of the senior class of St. Matthew's parochial school are seen here in their lovely graduation frocks.

Miss Alice Cobb whose splendid work in the recent Little Theater workshop production, is a charming member of the younger set. Miss Cobb was featured as the beautiful Dresden figurine in the clever little skit playing opposite Mr. Allen Smith.

Mrs. John Welchel Finger, prominent young society matron and club woman of New York City who has just completed a visit in the home of her sister, Mrs. Alvin L. Smith of Winnsboro, La., and with friends in New Orleans and Baton Rouge and this city. Mrs. Finger only recently returned from a tour of Europe where she visited the art centres of the world. She has studied extensively in the art schools of New York and Paris and is recognized as an accomplished artist not only in New York but in Europe as well. Mrs. Finger is also a writer of note. Several of her poems and stories have been published.

Mrs. Dean Selig Reads Splendid Paper on Music

With the subject of public school music uppermost in the minds of all educators at the present moment, the following article prepared by Mrs. Dean Selig and read before the members of the Welcome Branch of the Twentieth Century Book club will be read with exceptional interest:

As an introduction to this subject, let us first repeat what Plato says: "Education shall begin with music which includes the study of literature and gymnastics. Musical training is a more potent instrument than any other; because rhythm and harmony find their way into the inward places of the soul, on which they mightily fasten, imparting grace and make the soul of him who is rightly educated, graceful."

American people are gradually admitting the fact that music is education; that a person trained in music is as truly educated as one who has been trained in algebra or Latin. We are a practical people, we are looking for subjects that train the mind and can be put into daily use.

Dr. Charles W. Elliot of Harvard speaking of different subjects taught in schools says: "Music is the best mind trainer of them all."

The great educational and cultural values of instruction in music in the public schools are receiving increasing recognition by our educators in both vocal and instrumental music. Of course vocal music reaches every child in the schools and will always retain its undisputed supremacy in the music department of the schools' curriculum.

Fifteen or twenty years ago a thousand school children throughout the land were tasting the joy of musical self-expression as members of makeshift school orchestras. Five years later their numbers increased to about 10,000; today over a million and a half are glorifying our educational program with the highest form of art—music.

Music is the universal language. All nations can speak to one another and make known the innermost feelings

(Continued on Seventh Page)

Delightful Little Comedy Will Be Staged by Members Of the Neville Senior Class

Among the many projects "projected" by Neville high school this year will be the opening of a sanatorium next Tuesday night, May 31. There will be doctors, nurses, habitual patients, and a bad, bold robber to add the necessary criminal touch. This hospital will be open for just one night. It will be quite a gala affair and all those patients residing there will really enjoy their "poor health."

A fashionable sanatorium on the banks of the Rio Grande is the setting for the operetta to be presented by the senior class under the efficient direction of Mrs. Minnie Ruffin and Miss Clara Hall. A complete hospital staff will be in attendance with Mr. Henry Florsheim, as Dr. Drinkwater, chief of staff on hand to dispense "pink pills for pale people." Katherine May and Nellie Breard as Honor and Glory, live up to their ethereal names as the "women in the case." Jim Newton keeps everybody happy as Philip the U. S. Ranger; and Melvin Annish makes you remember that there is still some wool in the "wild and woolly west" in the character of the bold, bad robber. Interspersed throughout the dialogues are clever choruses and dances appropriate to each dramatic situation. Doris Beaman, will be the feature dancer for the "Birth of Spring," while Joy Steele will lead the "Morning Glories."

Dapper, smiling and anxious to please are the three young internes, Tom Sullivan, Morris Haas and J. Bowen Haver, good-looking enough, to make anybody's pulse beat faster, and if you would like to see us steal Eddie Cantor's thunder from "Bend Down Sister," witness the chorus of setting up exercises with Chunky Gray and Dean McKoin as the confirmed invalids.

The "cullud man" Rainbow, will be your favorite shade of local color in Leo Tichell.

And lacking nothing of the Broadway atmosphere we plan to offer our own "Little Symphony" playing the overture as a curtain raiser with Mr. Loxery Jefferson (in his best Walter Damraschian manner) at the baton.

"God gave us men. Tall men, sun-crowned who live above the fog in public duty and in private thinking. The time demands strong minds, great hearts, true faith and willing hands."

The words of John Holland were uppermost in our mind Friday night as we viewed the array of "sun-crowned" young men who stepped briskly forth on the electric-flooded stage for their diplomas—the hope of the future rests with them and thousands like them all over the land who will be forced to make their own way in the world with the closing of the school doors behind them.

A beautiful, never-to-be-forgotten picture was revealed with the parting of the blue velvet curtains at the Neville auditorium Friday night — girls in fluffy white organdies standing "where the brook and river meet." The words of Dr. Frank Tripp, spoken with dynamic force, will ever ring in our ears. "Run with patience the race that is set before you." Splendid advice he gave those young folks and behind the words (not empty shallow words by any means) was the grim reminder of the obligations of life—would that speakers like this would come our way more often.

Speaking of graduates, Elizabeth Platt will be home from L. S. U. next week with a B. A. degree tucked proudly under her arm. That ambitious young sister of hers has accepted a man's size job they tell us and will remain in Baton Rouge for the summer. Ann is a student at L. S. U. . . . Noclee Currie tripped over to Monroe just as soon as exams were over at the University of Oklahoma where she covered herself with scholastic glory this past year. Noclee is basking in the hospitality of the Fagan Cox home where the latch-string is always on the outside for persons of such ilk. . . . Mrs. R. C. Sparks is counting the hours until she steps off the train in Lexington, Va., into the arms of her son James, who graduates in law from Washington and Lee on the third of June—stepping off the train also will be Ellen Kent Millsaps who will attend the finals at Washington and Lee.

Panting motors are now carrying happy vacationists to the four corners of the country. This morning just at the break of dawn, to the accompaniment of grinding gears, Mrs. A. L. Smith and party left in a cloud of dust for the great open spaces leading to California where they will see life as it is lived by residents of Hollywood. Mrs. Smith's home in Los Angeles will be their summer rendezvous. . . . The C. W. Wallaces are facing the western trail with their two sons, Foster and Will, students at Roswell Military camp, New Mexico, watching the far horizon for their appearance. Following commencement festivities they will hop into their motor car and make a tour of Old Mexico—the flamboyant beauty of the Painted Desert will unfold before them as they tour Arizona with yawning chasms and roaring canyons at every turn of the road. . . . Mr. and Mrs. Herman Masur in New York City had the pleasure of seeing that lovely daughter of theirs receive the Benjamin medal on the eve of her graduation from the Benjamin school for girls—a very "Ritzy" school by the way. . . . Henry Florsheim in the senior class play "Oh, Doctor" is really a knockout—a peep behind closed doors is responsible for this advanced information. Our advice is to get your tickets at once.

All the young bloods around town will be on the "ball-headed" row at the Neville auditorium Wednesday night—more good-looking girls in this year's crop of graduates than ever before in history—sleek marcelled heads rising above clouds of billowy organdies and high heeled slippers beating a tatoo on the bare floor of the flower-banked stage as they step forth for their coveted diplomas. When the valedictorian, Dean McKoin, has spoken the words of farewell the lights will be lowered—the school doors closed and then summer—glorious summer—stretching out alluring arms. What the summer will bring forth remains on the lap of the gods. Even the gods incline their ears to gossip occasionally and if the truth about a certain tall, broad-shouldered young man and dashing brunette beauty is true we will have much to talk about when fall winds commence to blow.

News reaches us every day of vacation plans—too early in the day, however, to make positive statements. There is plenty going on right here to keep our typewriter from getting rusty.

Little Theatre Aims Given by Mrs. Harper

Mrs. W. M. Harper, vice-president of The Little Theater gives the aims of this organization as follows:

"Our aims are not hard to understand: To give dramas with a literary quality, acted and staged with sincerity and artistic simplicity—in short, to study the community that its theater may express its ideals; to make of the theater a place where good drama, wholesome amusements and intelligent recreation may be enjoyed; a place where may be seen those plays seldom seen on the commercial or legitimate stage—and finally to encourage the creative spirit of our own people.

"Our aim is not to present great plays by great writers, but sincere plays by beginners. We do no seek to uplift the drama, but to bring out the best there is in dramatic writing.

"Again our aim is to add something to the joy of life by the presentation of good music and worthwhile plays.

"The workshop is an experimental theater where ideas may be worked out in actual stage practice.

"And our aim is to give plays by writers of this city or surrounding territory and nothing but first productions will be given."

Miss Dorothy Emerson has issued invitations for a dancing party Thursday night at the home of Mr. and Mrs. O. M. Grisham, in honor of Miss Virginia Galloway, Miss Elizabeth Oglesby and Miss Dorothy Oglesby. These young ladies who have made their home this past winter in the Grisham family will leave for their homes early in June.

Society Calendar

Monday

Meeting of the Review club with Mrs. E. R. Yancey, 2:30.

Dramatic Art Students to Be Presented in Three One-Act Plays by Miss McMichael

The coming week has much to offer in the way of entertainment with Miss Margaret McMichael's dramatic recital, Thursday night at the Crosley school, West Monroe, outstanding.

The evening's program comprises three one-act plays as follows:

A GARDEN CINDERELLA

Characters:

Spirit of the Garden.....Martha Alice Ethridge
Court Herald.....Louis Hubbard, Jr.
West Wind.....James Pittman, George Byron Vaughan.
Dream Fairy.....Innis Glenn Ellis.
The Little Green Worm.....George Franklin, Jr.
Rose.....Mildred Caldwell
Lily.....Doris Reid
Rainbow Fairy.....Peggy Ellis
Forget-Me-Not.....Louise Gail McDonald
Buttercup.....Betty Sue Jones
Luna Moth.....Jane Rhymes
Daisy.....Annie Sue Miller
Petunia.....Dolores Garland
Moonbeam.....Billy Hubbard
Page.....George Franklin, Jr.
Garden Spirits.....Elizabeth Allen, Alice Mary Wilkins, Margie Lou Miller, Elizabeth Ann Gibbs, Marietta Rasbury, Elizabeth Davis.

Scene I—In a Garden at Midnight.
Scene II—The same garden exactly one year later.

THE SQUAWMAN RETURNS

Characters:

Glory of the Morning (the Chevalier's Winnebago Squaw).....Clarissa Davis
The Chevalier (called the Half Moon, a French nobleman, now an adventurer in the fur-trade).....Robert Faulk, John Strahan
Red Wing (their son).....Frances Smith
Oak Leaf (their daughter).....Lillian Ers
Black Wolf (a visionary old medicine man).....Annie Mae Smith

Scene: The Half Moon's wigwam beside the lake shore.

Time: An autumn afternoon long, long ago.

MARTHA'S MORNING

Characters:

Aunty (an old woman in the mountains).....Robertine Rhymes
Martha (her niece).....Hilda Ann Hair
A neighbor.....Mildred Merritt

Scene: An evening in Aunty's humble living room.

Special number contributed by Jack Liner, Dolores Garland, Robert Faulk, James Pittman.

Dance number arranged and directed by Miss Regina Moffett.

Mrs. Trousdale Entertains At Cards Thursday

Beautiful white summer purses were presented by Mrs. J. Harvey Trousdale to Mrs. George Weaks and Mrs. Belle Graham for their success at cards when she entertained the Married People's Card club at her hospitable home banked with colorful garden flowers Thursday night. Mr. Weaks and Mr. L. W. Mobley received handsome ties for their successful efforts and each of the score keepers, Mrs. Gordon Wright, Mrs. George Trousdale, Miss Blanche Baird and Miss Bower Weaks were favored with exquisite evening handkerchiefs.

A luscious chicken course with strawberry parfait in tall crystal glasses was served at the card table to Mr. and Mrs. R. B. Frizzell, Mr. and Mrs. L. B. Ferguson, Mr. and Mrs. Albert Horuff, Mr. and Mrs. George Weaks, Mr. and Mrs. L. W. Mobley, Mr. and Mrs. F. P. Stubbs, Mr. and Mrs. B. D. Hodges, Mr. and Mrs. J. M. Cobb, Mrs. Victor Barringer, Mrs. Minnie Ruffin, Mrs. W. F. Cummings, Mrs. J. W. McWilliams, Mrs. Percy Sandel, Mr. and Mrs. J. J. Potts, Mr. and Mrs. J. R. Gilhula.

In the Pictures

Miss Rose Crawford and Miss Virginia Dougal, valedictorian and salutatorian of the senior class of St. Matthew's parochial school are seen here in their lovely graduation frocks.

Miss Alice Cobb whose splendid work in the recent Little Theater workshop production, is a charming member of the younger set. Miss Cobb was featured as the beautiful Dresden figurine in the clever little skit playing opposite Mr. Allen Smith.

Mrs. John Welchel Finger, prominent young society matron and club woman of New York City who has just completed a visit in the home of her sister, Mrs. Alvin L. Smith of Winnsboro, La., and with friends in New Orleans and Baton Rouge and this city. Mrs. Finger only recently returned from a tour of Europe where she visited the art centres of the world. She has studied extensively in the art schools of New York and Paris and is recognized as an accomplished artist not only in New York but in Europe as well. Mrs. Finger is also a writer of note. Several of her poems and stories have been published.

Mrs. Dean Selig Reads Splendid Paper on Music

With the subject of public school music uppermost in the minds of all educators at the present moment, the following article prepared by Mrs. Dean Selig and read before the members of the Welcome Branch of the Twentieth Century Book club will be read with exceptional interest:

As an introduction to this subject, let us first repeat what Plato says: "Education shall begin with music which includes the study of literature and gymnastics. Musical training is a more potent instrument than any other; because rhythm and harmony find their way into the inward places of the soul, on which they mightily fasten, imparting grace and make the soul of him who is rightly educated, graceful."

American people are gradually admitting the fact that music is education; that a person trained in music is as truly educated as one who has been trained in algebra or Latin. We are a practical people, we are looking for subjects that train the mind and can be put into daily use.

Dr. Charles W. Elliott of Harvard, speaking of different subjects taught in schools says: "Music is the best mind trainer of them all."

The great educational and cultural values of instruction in music in the public schools are receiving increasing recognition by our educators in both vocal and instrumental music. Of course vocal music reaches every child in the schools and will always retain its undisputed supremacy in the music department of the schools' curriculum.

Fifteen or twenty years ago a thousand school children throughout the land were tasting the joy of musical self-expression as members of makeshift school orchestras. Five years later their numbers increased to about 10,000; today over a million and a half are glorifying our educational program with the highest form of art—music.

Music is the universal language. All nations can speak to one another and make known the innermost feel-

(Continued on Seventh Page)

Delightful Little Comedy Will Be Staged by Members Of the Neville Senior Class

Among the many projects "projected" by Neville high school this year will be the opening of a sanatorium next Tuesday night, May 31. There will be doctors, nurses, habitual patients, and a bad, bold robber to add the necessary criminal touch. This hospital will be open for just one night. It will be quite a gala affair and all those patients residing there will really enjoy their "poor health."

A fashionable sanatorium on the banks of the Rio Grande is the setting for the operetta to be presented by the senior class under the efficient direction of Mrs. Minnie Ruffin and Miss Clara Hall. A complete hospital staff will be in attendance with Mr. Henry Florsheim, as Dr. Drinkwater, chief of staff on hand to dispense "pink pills for pale people." Katherine May and Nellie Breard as Honor and Glory, him up to their ethereal names as the "women in the case," Jim Newton keeps everybody happy as Philip, the U. S. Ranger, and Melvin Annish makes you remember that there is still some wool in the "wild and woolly west" in the character of the bold, bad robber. Interspersed throughout the dialogues are clever choruses and dances appropriate to each dramatic situation. Doris Beaman will be the feature dancer for the "Birth of Spring," while Joy Steele will lead the "Morning Glories."

Dapper, smiling and anxious to please are the three young internes, Tom Sullivan, Morris Haas and J. Bowen Hayes, good-looking enough to make anybody's pulse beat faster, and if you would like to see us steal Eddie Cantor's thunder from "Bend Down Sister," witness the chorus of setting up exercises with Chunky Gray and Dean McKoin as the confirmed invalids.

The "cullud man" Rainbow, will be your favorite shade of local color in Leo Ticheli.

And lacking nothing of the Broadway atmosphere we plan to offer our own "Little Symphony" playing the overture as a curtain raiser with Mr. Lowery Jefferson (in his best Walter Damraschian manner) at the baton.

"God gave us men. Tall men, sun-crowned who live above the fog in public duty and in private thinking. The time demands strong minds, great hearts, true faith and willing hands."

The words of John Holland were uppermost in our mind Friday night as we viewed the array of "sun-crowned" young men who stepped briskly forth on the electric-flooded stage for their diplomas—the hope of the future rests with them and thousands like them all over the land who will be forced to make their own way in the world with the closing of the school doors behind them.

A beautiful, never-to-be-forgotten picture was revealed with the parting of the blue velvet curtains at the Neville auditorium Friday night — girls in fluffy white organdies standing "where the brook and river meet." The words of Dr. Frank Tripp, spoken with dynamic force, will ever ring in our ears. "Run with patience the race that is set before you." Splendid advice he gave those young folks and behind the words (not empty shallow words by any means) was the grim reminder of the obligations of life—would that speakers like this would come our way more often.

Speaking of graduates, Elizabeth Platt will be home from L. S. U. next week with a B. A. degree tucked proudly under her arm. That ambitious young sister of hers has accepted a man's size job they tell us and will remain in Baton Rouge for the summer. Ann is a student at L. S. U. . . . Noelee Currie tripped over to Monroe just as soon as exams were over at the University of Oklahoma where she covered herself with scholastic glory this past year. Noelee is basking in the hospitality of the Fagan Cox home where the latchstring is always on the outside for persons of such ilk. . . . Mrs. R. C. Sparks is counting the hours until she steps off the train in Lexington, Va., into the arms of her son James, who graduates in law from Washington and Lee on the third of June—stepping off the train also will be Ellen Kent Millsaps who will attend the finals at Washington and Lee.

Panting motors are now carrying happy vacationists to the four corners of the country. This morning just at the break of dawn, to the accompaniment of grinding gears, Mrs. A. L. Smith and party left in a cloud of dust for the great open spaces leading to California where they will see life as it is lived by residents of Hollywood. Mrs. Smith's home in Los Angeles will be their summer rendezvous. . . . The C. W. Wallaces are facing the western trail with their two sons, Foster and Will, students at Roswell Military camp, New Mexico, watching the far horizon for their appearance. Following commencement festivities they will hop into their motor car and make a tour of Old Mexico—the flamboyant beauty of the Painted Desert will unfold before them as they tour Arizona with yawning chasms and roaring canyons at every turn of the road. . . . Mr. and Mrs. Herman Masur in New York City had the pleasure of seeing that lovely daughter of theirs receive the Benjamin medal on the eve of her graduation from the Benjamin school for girls—a very "Ritzy" school by the way. . . . Henry Florsheim in the senior class play "Oh, Doctor" is really a knockout—a peep behind closed doors is responsible for this advanced information. Our advice is to get your tickets at once.

All the young bloods around town will be on the "ball-headed" row at the Neville auditorium Wednesday night—more good-looking girls in this year's crop of graduates than ever before in history—sleek marcelled heads rising above clouds of billowy organdies and high heeled slippers beating a tatoo on the bare floor of the flower-banked stage as they step forth for their coveted diplomas. FASTEST FIELD E

Oklahoma Champion Sh

MRS. BEYER WINS 8-AND-7 VICTORY IN FINAL MATCH

Mrs. Tom Wallace Falls Victim to Flock of Pars in Tourney at Spa

By Henry N. Dorris
(Associated Press Staff Writer)

HOT SPRINGS, Ark., May 28—Reeling off par after par with deadly consistency, Mrs. Walter Beyer of Tulsa scored an eight to seven victory today over another Oklahoma woman, Mrs. Tom Wallace, Sapulpa, in the 36 hole finals of the women's trans-Mississippi golf tournament.

Mrs. Beyer succeeds the trans-Mississippi champion, Mrs. Opal S. Hill of Kansas City, who is in England with the United States women's golf team.

Although forced to start continuously at the pars hung up by her opponent, Mrs. Wallace, who has held the Oklahoma championship three times, never gave up and fought gamely to the 29th hole where another par by Mrs. Beyer ended the match.

Five up at the beginning of the second 18 holes, Mrs. Beyer banked away at the middle of the fairways and many times was on the green under regulation, putting for birdies. She had Mrs. Wallace continually under the strain of having to putt for long distances to halve holes.

After raising her lead to eight up at the 22nd, the result was never in doubt for Mrs. Beyer, but the gallery followed to lend encouragement to Mrs. Wallace, who fought with determination to reduce her opponent's lead.

Mrs. Beyer was only three over par for the entire distance, carding a score of 130 for the 29 holes, or 11 strokes less than Mrs. Wallace.

Mrs. Susan Vilas, Little Rock, won the championship consolation finals from Mrs. D. W. Snyder, Jr., Kansas City, 4 and 3. It was to have gone 36 holes.

BASTROP KRAFTMEN IN WIN OVER ALL-STARS

The Monroe All-Stars lost a 12-5 decision to the Bastrop club of the Big Six league, at Bastrop yesterday.

The Kraftmen made 13 hits off Smith and Tucker, Monroe hurlers, while the All-Stars touched Curry and Pate for eleven. Mickey Witt led the Monroe attack with three safeties, while Montgomery hit three for Bastrop. Fryer and Womack hit home runs.

LIGHT

By HELEN WELSHIMER

IT was so dark along my little street—
Day's end had come without a lighted lamp,
And I was lost as Israel's children were
When they had toiled dim years in Egypt's camp.

I TOO, it seemed, had made bricks all the day
That other hands might build a monument;
My vessel held no oil to break the dusk
Of alien fields where I had pitched my tent.

THEN suddenly I prayed—and there was light
That left me warm and strangely unafraid
When I am frightened now I always think
Once it was dark and light came when I prayed.

...nce could be developed to the world some ...coloratura.

...st chance of finding ...asters and coloraturas ...s in the public schools. ...t is more often found ...of very moderate means. ...ho studies music under- ...perience in aesthetic de- ...and mental coordination ...t be secured in any other ...fe becomes more respon- ...alert, more receptive and ...owers of concentration in ... has amazed educational ... It makes his mind keener, ...ical, and analytical. ...ot have music taught in ...hools, when it can be done ...y as history, Latin, French ...studies, if done by class in- ...?

...ill hail and bless the day when ...ple and our state superintend- ...public schools realize the need ...sic being taught in the public ...s and will put it in the regular ...rriculum, giving credit for the mu- ...sons the same as any other sub- ...taught, thereby giving every ...a chance to develop what mu- ...talent God has given him.

...rful Operetta ...turing Children

..."Twilight Alley," colorful little fan- ..., featuring the pupils of the Bark- ...Faulk school will be presented ...the public at the city school audi- ...um.

...he operetta abounds in music, ...vers, beautiful children who will ...stray Mother Goose characters and ...ct a clever little playlet. Many ...ents in the audience will have ... pleasure of seeing their children ...pear in the same operetta in which ...y were cast when they were chil- ...n. "Twilight Alley" is one of the ...st colorful of all operettas and ...ver grows old. Following is the ...ogram:

No. 5—Flying Butterflies.....
..... Solo and Chorus
No. 6—Sleep song.....Chorus girls
No. 7—Here They Come..Chorus girls
No. 8—Welcome Days of Sunshine (Finale) .....Chorus (all)

Plot of the Play

Dame Needy, with her large family, lives in the "Old Shoe," a tenement in "Twilight Alley." Meg is the oldest of eight daughters, and Jack, the only son, is captain of a baseball nine of his own age. Angelina is an emigrant child who is left all day at the "Old Shoe" while her mother works in a factory. Lily is the daughter of a well-to-do property owner, the landlord of the "Old Shoe."

One afternoon Lily loses her way in the city streets and wanders into a tenement court where the sunshine rarely penetrates because of the smoke. She pities these "twilight dwellers" and invites them to her own lovely garden. While Dame Needy is asleep, the girls steal away to Lily's home on the hill-top.

During their absence the boys rebel at being compelled to live in the "Old Shoe" and decide to burn it, but Lily and the others return in time to offer a happy solution, and all ends well.

Cast of Characters

Dame Needy, mother of the tenement family, Dolores Grant.

Meg, the eldest daughter, Hettie V. Nettles.

Jack, only son, Ruffin Tidwell.

Angelina, an emigrant child, Grace Zufall.

Lily, daughter of the owner of tenement, Gladys E. Whitfield.

Meg's sisters, Lilah Kitchens, Yvonne Williams, Edith Middleton, Josephine McCook, Pearl Mohundro, Jane McKenzie, Melba Busby.

Jack's baseball nine—R. E. Autrey, Hurlan Beauman, Bernice Bernstein, Robert Pribble, Pete Jones, R. L. Richards, James Perrine.

Boys' chorus—Wilson Thorne, Lawrence Brown, Hugh Hackley, James Keith, Carl Weaver, Junior McDougald, Nordahl Colburn, Marzelle Hill.

Girls' chorus—Mildred Wales, Gaynell Hennigan, Louise Lay, Jacqueline Lay, Johnnie Tingle, Jean Calhoun, Phyllis Snider, Frances Thompson, Hallie Young, Eloise Pilgreen, Frances Reitzell, Ina Ray Wherry, Dorothy Grayson, Nellie Brooks, Florence Goza, Ernestine Gandy, Lora Thompson, Helen Jordon, Vivian Wooten, Martha Moore, Frances Hood.

Between Acts—"Sleepy Town Express" by primary children.

Mother Goose Characters—Eula Croxton, Bernard Zuccaro, Betro McRaney, Alice Walton, Cook Taylor, Jean Bennett, Nelwyn Moody, Verland Haynes, Betty McDonald, C. W. Perkins, Betty Jones, Marilyn Nelson, Katherine Morris, John McClain, Jack McCook, Mary Stewart Kellogg, Luther Howell, J. L. Stern, Helen Fernandez, Anne Burgess, Mimi McConnell, Joe Eleanor Thompson.

Sleeping Babies—Jessie Touchstone, Dorothy Bynum, Jane Hayne.

Kinderten orchestra—Ellis Bairnsfather, Robert Carter, Prentiss Castle, Jack Easterling, Prioleau Ellis, L. C. Harkness, Jarrell Hulin, Owen Johnson, Bobbie Pipes, Jack Terzia, Kathleen Bastoe, Dorothy Bynum, Betty Firnberg, Clarice Kitchens, Helen Kitchens, Theo Bell McClain, Marjie Rushing, Ruth Simpson, Sally Anne Ware, Betty Zuccaro, Bobbie Jane Appel. Director, Carl Tidwell.

Primary chorus—Bonnie Crenshaw, Dorothy Taylor, Catherine Moak, Anna Collins, Carolyn Husted, Hilda Bond, Philip Ticheli, Nell Davis, Bessie, Sheppard, Mabel Sheppard, George Dent, Tommy Moore, Rosemary Dawson, Alton Tingle, Janet Hart, Neva Perry, James Sehon, C. D. Wood, Elaine Elliot, William Nettles, Bessie Franks, Katherine Harrel, Dalton Miller, Elsie Whittington, Perry Rodgers, Frances Marter, Louis White, Jo Eleanor Thompson, Bennie Fluker, B. K. Fluker, Mildred Skinner, Dorothy Fulford, Violet Sawyer, Billy Ware, Ralph Irving, Patty Padgett, Catherine Travis, Joe Wright, Louis Yeldell, Martha Nelson, Annie R. Matthews, J. D. LaDart, James Montgomery, Robert Gryder, Gray Wade.

Little Theater News Notes

(Contributed)

The sad part of this job is that I can't talk about myself, but anyway—have you seen my new hat?

Dorothy Emerson was the first girl I heard of in this town and if I'm not much mistaken we'll be hearing plenty about her from now on. Mr. Grisham is proud of his nieces, and why not, cunning little Virginia Galloway is another one of them.

Well, we seem to be all fixed up now, we have (besides our aforementioned aids to smooth running) acquired "Mule" to pull the heavy loads. Where is the Brown part of this "Mule" team?

Listen all you stage-shy folks, remember we need an audience, in fact that's a most important part of our organization. So if you are interested in seeing us further "art," come on and join as associate members. We'll be proud of your moral support, and will outdo ourselves trying to justify it. Just 'phone Summy Potts, and say, that's one of the nicest things I've gotten from the Little theater. Do you boys know that Henry Bernstein is a part of her committee? Well drop in on him and help him sell you the idea of a membership. And we'll let you act if you want to, Henry's going to act, oh, yes you are, Henry.

A young friend of mine, a newcomer in town, has been in talk over the New Orleans group with me. He tells me the show the early part of this week (in New Orleans) was playing to such crowds that he was forced to sit in the balcony. I ask him if the performance was good and he said, "Well, as far as I saw it was, but it got so hot I had to leave during the second act." Now you construe that. Another thing he told me was, that this was his job in his groupe, and he said he used to get beat up about once a week.

Musical Coterie Ends Successful Year

A year of splendid achievement, for members of the Musical Coterie, has just been brought to a most successful close. The last program in the year book was enjoyed Friday afternoon with Miss Florence Zeigler, hostess.

Following the roll call answered by current events, reports from various committees were given after which the program, much enjoyed by all was presented as follows:

Text Book—300 Years of Music in America .....Mrs. Hadley Leavell
Paper—America's Position in Music .....Mrs. Morris DeLarot
Piano—From An Indian Lodge—McDowell .....Mrs. P. L. Perot
Piano—The Irish Washerwoman—Sowerby .....Mrs. Grayson Guthrie
Piano—March of the Indian Phantoms—Kroeger .....Mrs. H. H. Land

Following the program Miss Zeigler assisted by her sister, Miss Mary Z. Zeigler, served a refreshing frozen salad course and English tea to Mrs. Morris DeLarot, Mrs. R. L. George, Mrs. Grayson Guthrie, Miss Gertrude Hart, Mrs. Louis Hullum, Mrs. H. H. Land, Mrs. M. B. Pearce, Mrs. P. L. Perot, Miss Myrtle Rodgers, Mrs. William Rodriguez, Mrs. R. B. Rush, Mrs. J. E. Walsworth, Mrs. Henry Whitfield, Mrs. Julius Kugler, Mrs. Hadley Leavell, Mrs. Harry Oliver, Mrs. Roger Frisbie, Miss Beatrice Skiwin.

SOCIETY CALENDAR

(Continued from Sixth Page)

sent her dramatic art pupils in three one-act plays at the Crosley auditorium, 8 p.m. Public is invited.

Friday

Regular monthly business meeting C. D. of A., St. Matthew's Parochial school, 7:30 p.m.

MULHEARN'S

FUNERAL HOME INCORPORATED

The Home of Dignified, Sympathetic Service

To meet the demand that is rapidly increasing for a real funeral home, free of the cold, impersonal atmosphere of the ordinary funeral chapel or mortuary department, we have striven to go further and supply better facilities than the most discriminating might exact.

We recommend the use of our Home in lieu of the residence funeral. First, our Home is designed exclusively for this purpose, and our facilities perfected for the orderly, dignified procedure so desirable on such occasions. It also relieves the family and friends of the many details incident thereto. We offer these facilities in a setting of peaceful, sacred quiet that must appeal to the most aesthetic taste.

When in need of ambulance service, ring No. 65 or 66. Your call will be answered immediately.

FASTEST FIELD E… Oklahoma Champion Sh…

MRS. BEYER WINS 3-AND-7 VICTORY IN FINAL MATCH

Mrs. Tom Wallace Falls Victim to Flock of Pars in Tourney at Spa

By Henry N. Dorris
(Associated Press Staff Writer)

HOT SPRINGS, Ark., May 28—Reeling off par after par with deadly consistency, Mrs. Walter Beyer of Tulsa scored an eight to seven victory today over another Oklahoma woman, Mrs. Tom Wallace, Sapulpa, in the 36 hole finals of the women's trans-Mississippi golf tournament.

Mrs. Beyer succeeds the trans-Mississippi champion, Mrs. Opal S. Hill of Kansas City, who is in England with the United States women's golf team.

Although forced to start continuously at the pars hung up by her opponent, Mrs. Wallace, who has held the Oklahoma championship three times, never gave up and fought gamely to the 29th hole where another par by Mrs. Beyer ended the match.

Five up at the beginning of the second 18 holes, Mrs. Beyer banked away at the middle of the fairways and many times was on the green under regulation, putting for birdies. She had Mrs. Wallace continually under the strain of having to putt for long distances to halve holes.

After raising her lead to eight up at the 22nd, the result was never in doubt for Mrs. Beyer, but the gallery followed to lend encouragement to Mrs. Wallace, who fought with determination to reduce her opponent's lead.

Mrs. Beyer was only three over par for the entire distance, carding a score of 130 for the 29 holes, or 11 strokes less than Mrs. Wallace.

Mrs. Susan Vilas, Little Rock, won the championship consolation finals from Mrs. D. W. Snyder, Jr., Kansas City, 4 and 3. It was to have gone 36 holes.

BASTROP KRAFTMEN IN WIN OVER ALL-STARS

The Monroe All-Stars lost a 12-5 decision to the Bastrop club of the Big Six league, at Bastrop yesterday.

The Kraftmen made 13 hits off Smith and Tucker, Monroe hurlers, while the All-Stars touched Curry and Pate for eleven. Mickey Witt led the Monroe attack with three safeties, while Montgomery hit three for Bastrop. Fryer and Womack hit home runs.

…… Solo and Chorus
No. 6—Sleep song……Chorus girls
No. 7—Here They Come..Chorus girls
No. 8—Welcome Days of Sunshine (Finale) ……Chorus (all)

Plot of the Play

Dame Needy, with her large family, lives in the "Old Shoe," a tenement in "Twilight Alley." Meg is the oldest of eight daughters, and Jack, the only son, is captain of a baseball nine of his own age. Angelina is an emigrant child who is left all day at the "Old Shoe" while her mother works in a factory. Lily is the daughter of a well-to-do property owner, the landlord of the "Old Shoe."

One afternoon Lily loses her way in the city streets and wanders into a tenement court where the sunshine rarely penetrates because of the smoke. She pities these "twilight dwellers" and invites them to her own lovely garden. While Dame Needy is asleep, the girls steal away to Lily's home on the hill-top.

During their absence the boys rebel at being compelled to live in the "Old Shoe" and decide to burn it, but Lily and the others return in time to offer a happy solution, and all ends well.

Cast of Characters

Dame Needy, mother of the tenement family, Dolores Grant.

Meg, the eldest daughter, Hettie V. Nettles.

Jack, only son, Ruffin Tidwell.

Angelina, an emigrant child, Grace Zufall.

Lily, daughter of the owner of tenement, Gladys E. Whitfield.

Meg's sisters, Lilah Kitchens, Yvonne Williams, Edith Middleton, Josephine McCook, Pearl Mohundro, Jane McKenzie, Melba Busby.

Jack's baseball nine—R. E. Autrey, Hurlan Beauman, Bernice Bernstein, Robert Pribble, Pete Jones, R. L. Richards, James Perrine.

Boys' chorus—Wilson Thorne, Lawrence Brown, Hugh Hackley, James Keith, Carl Weaver, Junior McDougald, Nordahl Colburn, Marzelle Hill.

Girls' chorus—Mildred Wales, Gaynell Hennigan, Louise Lay, Jacqueline Lay, Johnnie Tingle, Jean Calhoun, Phyllis Snider, Frances Thompson, Hallie Young, Eloise Pilgreen, Frances Reitzell, Ina Ray Wherry, Dorothy Grayson, Nellie Brooks, Florence Goza, Ernestine Gandy, Lora Thompson, Helen Jordon, Vivian Wooten, Martha Moore, Frances Hood.

Between Acts—"Sleepy Town Express" by primary children.

Mother Goose Characters—Eula Croxton, Bernard Zuccaro, Betro McRaney, Alice Walton, Cook Taylor, Jean Bennett, Nelwyn Moody, Verland Haynes, Betty McDonald, C. W. Perkins, Betty Jones, Marilyn Nelson, Katherine Morris, John McClain, Jack McCook, Mary Stewart Kellogg, Luther Howell, J. L. Stern, Helen Fernandez, Anne Burgess, Mimi McConnell, Joe Eleanor Thompson.

Sleeping Babies—Jessie Touchstone, Dorothy Bynum, Jane Hayne.

Kinderten orchestra—Ellis Bairnsfather, Robert Carter, Prentiss Castle, Jack Easterling, Prioleau Ellis, L. C. Harkness, Jarrell Hulin, Owen Johnson, Bobbie Pipes, Jack Terzia, Kathleen Bastoe, Dorothy Bynum, Betty Firnberg, Clarice Kitchens, Helen Kitchens, Theo Bell McClain, Marjie Rushing, Ruth Simpson, Sally Anne Ware, Betty Zuccaro, Bobbie Jane Appel. Director, Carl Tidwell.

Primary chorus—Bonnie Crenshaw, Dorothy Taylor, Catherine Moak, Anna Collins, Carolyn Husted, Hilda Bond, Philip Ticheli, Nell Davis, Bessie, Sheppard, Mabel Sheppard, George Dent, Tommy Moore, Rosemary Dawson, Alton Tingle, Janet Hart, Neva Perry, James Sehon, C. D. Wood, Elaine Elliot, William Nettles, Bessie Franks, Katherine Harrel, Dalton Miller, Elsie Whittington, Perry Rodgers, Frances Marter, Louis White, Jo Eleanor Thompson, Bennie Fluker, B. K. Fluker, Mildred Skinner, Dorothy Fulford, Violet Sawyer, Billy Ware, Ralph Irving, Patty Padgett, Catherine Travis, Joe Wright, Louis Yeldell, Martha Nelson, Annie R. Matthews, J. D. LaDart, James Montgomery, Robert Gryder, Gray Wade.

Little Theater News Notes

(Contributed)

The sad part of this job is that I can't talk about myself, but anyway—have you seen my new hat?

Dorothy Emerson was the first girl I heard of in this town and if I'm not much mistaken we'll be hearing plenty about her from now on. Mr. Grisham is proud of his nieces, and why not, cunning little Virginia Galloway is another one of them.

Well, we seem to be all fixed up now, we have (besides our aforementioned aids to smooth running) acquired "Mule" to pull the heavy loads. Where is the Brown part of this "Mule" team?

Listen all you stage-shy folks, remember we need an audience, in fact that's a most important part of our organization. So if you are interested in seeing us further "art," come on and join as associate members. We'll be proud of your moral support, and will outdo ourselves trying to justify it. Just 'phone Summy Potts, and say, that's one of the nicest things I've gotten from the Little theater. Do you boys know that Henry Bernstein is a part of her committee? Well drop in on him and help him sell you the idea of a membership. And we'll let you act if you want to, Henry's going to act, oh, yes you are, Henry.

A young friend of mine, a newcomer in town, has been in talk over the New Orleans group with me. He tells me the show the early part of this week (in New Orleans) was playing to such crowds that he was forced to sit in the balcony. I ask him if the performance was good and he said, "Well, as far as I saw it was, but it got so hot I had to leave during the second act." Now you construe that. Another thing he told me was, that this was his job in his groupe, and he said he used to get beat up about once a week.

Musical Coterie Ends Successful Year

A year of splendid achievement, for members of the Musical Coterie, has just been brought to a most successful close. The last program in the year book was enjoyed Friday afternoon with Miss Florence Zeigler, hostess.

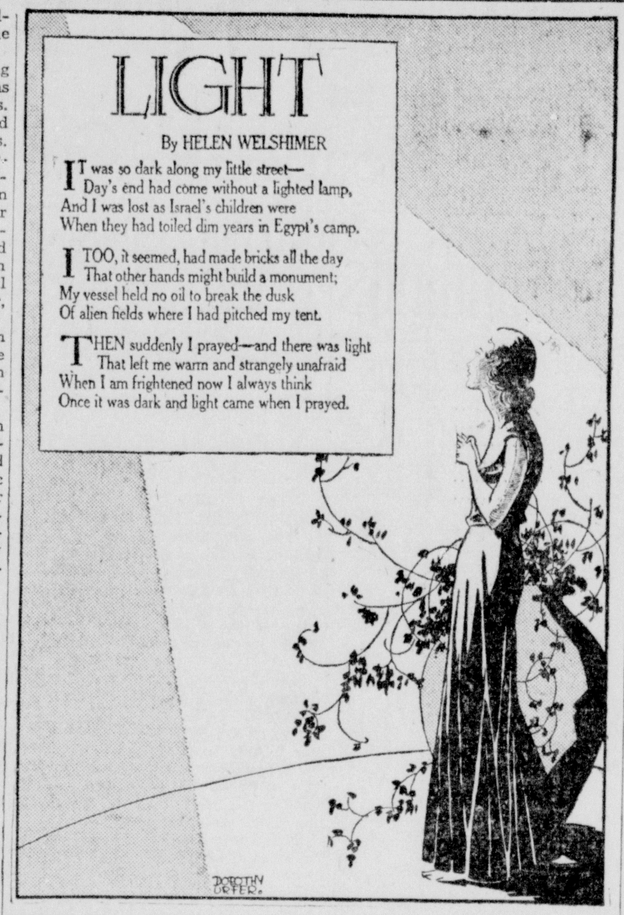

Following the roll call answered by current events, reports from various committees were given after which the program, much enjoyed by all was presented as follows:

Text Book—300 Years of Music in America ……Mrs. Hadley Leavell
Paper—America's Position in Music ……Mrs. Morris DeLarot
Piano—From An Indian Lodge—McDowell ……Mrs. P. L. Perot
Piano—The Irish Washerwoman—Sowerby ……Mrs. Grayson Guthrie
Piano—March of the Indian Phantoms—Kroeger ……Mrs. H. H. Land

Following the program Miss Zeigler assisted by her sister, Miss Mary Z. Zeigler, served a refreshing frozen salad course and English tea to Mrs. Morris DeLarot, Mrs. R. L. George, Mrs. Grayson Guthrie, Miss Gertrude Hart, Mrs. Louis Hullum, Mrs. H. H. Land, Mrs. M. B. Pearce, Mrs. P. L. Perot, Miss Myrtle Rodgers, Mrs. William Rodriguez, Mrs. R. B. Rush, Mrs. J. E. Walsworth, Mrs. Henry Whitfield, Mrs. Julius Kugler, Mrs. Hadley Leavell, Mrs. Harry O…er, Mrs. Roger Frisbie. Miss Beatrice Skiwin.

SOCIETY

MULHEARN'S

FUNERAL HOME INCORPORATED

The Home of Dignified, Sympathetic Service

To meet the demand that is rapidly increasing for a real funeral home, free of the cold, impersonal atmosphere of the ordinary funeral chapel or mortuary department, we have striven to go further and supply better facilities than the most discriminating might exact.

We recommend the use of our Home in lieu of the residence funeral. First, our Home is designed exclusively for this purpose, and our facilities perfected for the orderly, dignified procedure so desirable on such occasions. It also relieves the family and friends of the many details incident thereto. We offer these facilities in a setting of peaceful, sacred quiet that must appeal to the most aesthetic taste.

When in need of ambulance service, ring No. 65 or 66. Your call will be answered immediately.

PEREZ WEAKENS IN NINTH AND SENA

Senators Win Both Games of Double Header to Cut Yanke

Ford, Editor

YANKEE PITCHERS UNABLE TO STEM SENATORS' ATTACK

Nats Hitters Go on Spree to Win Two Games, Despite Ruth's Homers

WASHINGTON, May 28 (AP)—The Washington Senators chopped the first place lead of the New York Yankees to two games today by smashing through McCarthy's wallopers, 5 to 1 and 13 to 5.

Two home runs by Babe Ruth, one in each game, and four hits in the same number of tries for Lou Gehrig in the second game were not enough to offset the timely stick work of the Senators.

The rough spot Washington has been for Yankee hurling all season was no smoother today. Neither Johnny Allen nor George Pipgras [illegible] around to see the ninth inning, [illegible] Lloyd Brown and Monte [illegible]ere mowing McCarthy's [illegible]own when hits meant runs. The rejuvenated hitting power of the Senators nicked Allen for three [illegible]in the second and third innings and then, in the seventh, Myer's walk, West's single and Cronin's triple ended the scoring before Allen was injured putting Cronin out at the plate.

Pipgras was even less effective in the second game and the Yankeees made five errors to insure victory for Washington.

With Manush clouting a homer in the fifth after Myer had doubled, the Senators went into the sixth with a four-run lead. Ruth hit his thirteenth circuit smash over the right field wall and then the Senators fell on Pipgras and drove him from the box.

TIGERS, CHISOX DIVIDE

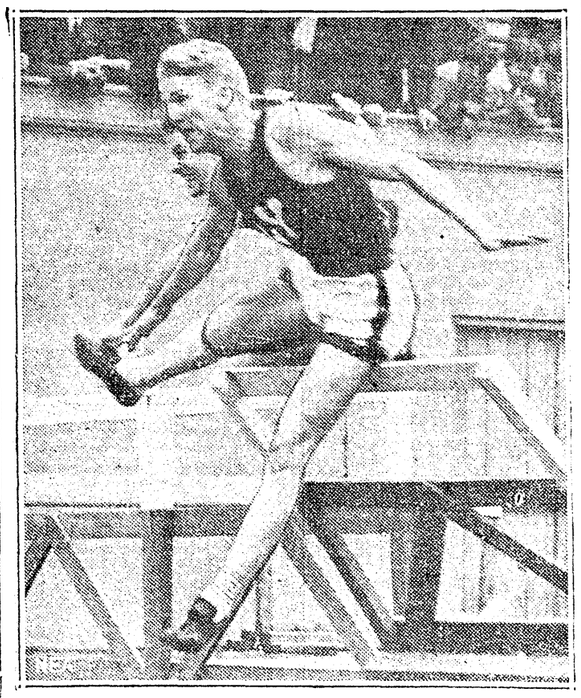

DETROIT, May 28 (AP)—Detroit and Chicago split a double header today the Tigers taking the opener, 4 to 1, and the White Sox winning the nightcap, 7 to 5, in 10 innings.

Milt Gaston lost a heartbreaker in the first, allowing only three hits, two of which were combined with two errors and a walk by Detroit for the winners' only scores.

Chicago used 16 and Detroit 17 players in the second. Even Manager Lew Fonseca took a turn at bat pinch-hitting for Frasier in the ninth. He

A RECORD FOR RECORD

This unusual action shot shows how George Lockwood of Yale, in the foreground, caught his right toe on the last hurdle and then fell, to allow Captain Eugene Record of Harvard, in background, to win the 120-yard low hurdles in the meet record time of 15 seconds flat. Harvard won the dual track meet, 80¼ to 45¾, at Cambridge, Mass.

LOCAL CLUBS PLAY INTRA-CITY MATCH

First of Series Between Riverside and Muny Golfers Played Today

Golfers of the Riverside Country club and the Municipal Golf club tie up today in the first of the summer's intra-city matches. The tourney will be played over the Riverside course.

The first match will start promptly at 1 o'clock, Snap Girault, manager of the Riverside club, said last night, and foursomes will follow at intervals of five minutes. All players are urged to report promptly at 1 o'clock. R. D. Swayze, commissioner of parks and playgrounds, will act as starter.

Final pairings were announced last night by Mr. Girault. The Riverside team is listed first in the following pairings:

H. K. Touchstone and Wesley Shafto vs. Lund Harper and Luckey Royster, Prioleau Ellis and W. B. Gladney vs. Jimmy Harper and Harry Taylor, Bunn Beasley and M. C. McDonald vs. H. G. Frazer and Art Woodruff, Jack Rogers and Snap Girault vs. Fred Majors and Q. Henry, John Sherrouse and Ed Seymour vs. L. R. McDonald and Jack Sells, Jr., Jack Warren and O. A. Evans vs. George Hyle and W. C. Johnson, John Fox and A. L. Harrington vs. F. E. Maxwell and Jordon Barton.

Kenneth Brown and J. E. Godfrey vs. Red Taylor and Dr. R. T. Harperson, Art Edwards and W. E. Reardon vs. R. B. Wofford and Cramer Haas, C. C. Boardman and Dr. John Snellings vs. Captain Harry Roberts and Albert Marx, D. Y. Smith and Alden Snotwell vs. Johnny Kramer and Ernest Eves, Joe Washburn and H. H. Reardon vs. W. A. Guy, Jr., and R. W. Allemon, Victor Davis and Guy Campbell vs. Bill Pernamus and Bill Hyde, William Rodriguez and Alfred Jenkins vs. Will Washburn and Bishop Pipes, George Weaks and J. H. Trousdale vs. Julius Rosenheim and Gilbert Wolf, Dr. Collins and J. B. Lindsey vs. Harold Mouk and Dr. Nat Gaston, Alston Propst and Mike Winberry vs. Ray Buce and Shelby Cage. Ray Braswell also has registered as a Municipal club player.

A return match over the Municipal course will be played in the near future, it was announced, and it is probable that the two clubs will meet in several other matches during the summer and fall.

It has been announced that the Municipal club has extended the courtesy of the course to Riverside golfers who are not participating in the intra-city match.

HAILE TEAM SEEKS TO SCHEDULE GAME

W. B. Haile, manager of the Haile baseball team, asks The World to publish the following challenge to ball clubs in this section.

"We have a home talent baseball team that would like to play any team within thirty miles of Monroe. We prefer return games, each team paying its own expenses but will play by other arrangements if other team prefers."

Mr. Haile may be reached at Haile, La.

SOUTHERN LEAGUE

SMOKIES, VOLS SPLIT

KNOXVILLE, Tenn., May 28 (AP)—Knoxville and Nashville divided a doubleheader today, the mokies taking the first 4 to 3 and the Vols the second, 6 to 4 in eight innings. The new "dead ball" was used here for the first time. With the score tied 3-all in the seventh inning of the second game, Rodda, Vol shortstop, hit a home run inside the park to score two men ahead of him.

Nashville	200 001 000—3 8 0
Knoxville	000 400 00x—4 11 1

Shealey and Gooch; Smith and Thompson.

Second Game

Nashville	001 010 13—6 11 1
Knoxville	100 200 01—4 8 1

Larsen, Miller and Gooch; G. Williams, Roy and B. Williams.

PELS RALLY TO WIN

LITTLE ROCK, May 28 (AP)—A five-run rally in the ninth inning gave the New Orleans Pelicans a 7 to 4 victory over the Little Rock Travelers here today.

New Orleans	000 000 205—7 12 2
Little Rock	101 000 002—4 5 3

Perrin, Moore, Gillatt and Autry; Hughes and Harper.

BARONS BLANK CHICKS

MEMPHIS, Tenn., May 28 (AP)—Birmingham turned the tables on Memphis today bunching hits to win 2 to 0. The Chicks got nine hits off Hasty but were unable to make them count.

Birmingham	000 101 000—2 5 0
Memphis	000 000 000—0 9 1

Hasty and Berres; Jacobs, Granger and Berger.

LOOKOUTS TRIM ATLANTA

ATLANTA, May 28 (AP)—In spite of the late homer poled out by Barron, Cracker mentor in the ninth, Chattanooga won the game here today 7 to 5. This copped the series for the Lookouts.

Chattanooga	202 210 000—7 12 3
Atlanta	200 000 012—5 6 1

Malls and Bolton; Bleeken and Rowland.

DALLAS GOLFER LEADS IN STATE TOURNAMENT

TEXARKANA, Ark., May 28 (AP)—Brilliant putting gave Gus Moreland of Dallas a lead of eight up on W. R. Long of Austin in the first 18 holes of their 36 hole match today for the 1932 Texas Golf association's state championship.

The defending champion scored a 69, four strokes under par, in attaining his commanding lead over Long who shot a 79. Moreland's 69 tied the new course record set in the qualifying round by Louis Nowlin.

Long won but two holes in this morning's round.

BROWN TEAM MEETS GEORGETOWN TODAY

The Brown Paper Mill Safety Firsts will meet the strong Georgetown team at the Brown park this afternoon. The game will start at 3:30 o'clock.

Manager Phillips said last night that "Blondie" Conner, ace of the Brown staff, will face Georgetown. The Safety Firsts were rained out in their scheduled game with Oak Grove Friday and are in good shape for the fray today.

The Georgetown team has not been defeated this season, Phillips said.

PIRATES TROUNCE CARDINALS, 8 TO 6

Champions Score Five Runs as Result of Two Homers But Can't Win

PITTSBURGH, May 28 (AP)—Aided by four hits from the bat of Dave Barbee, Pacific coast importation, the Pittsburgh Pirates today annexed their fifth consecutive game by trimming the St. Louis Cards, 8 to 6.

It was the eighth victory for the Buccaneers out of their last nine combats.

Steve Swetonic, who twirled for the Pirates, chalked up his fifth win in six starts.

Five of the St. Louis markers were due to home runs. Watkins connected for a four-bagger in the seventh with two mates on the paths and Collins crashed his twelfth of the season in the ninth with one man on.

Paul Waner, leading National league batsman, poled his 25th double of the season in the initial frame.

DODGERS DOWN GIANTS

NEW YORK, May 28 (AP)—The Brooklyn Dodgers climbed another step in the National league standing today, going into fifth place as they downed the Giants for the third time in a row, 6 to 4.

Home runs played a large part in the victory. Tony Cuccinello hit one to top off a four-run rally in the sixth and Glenn Wright clouted another with one aboard in the eighth.

Golf as the STARS play it

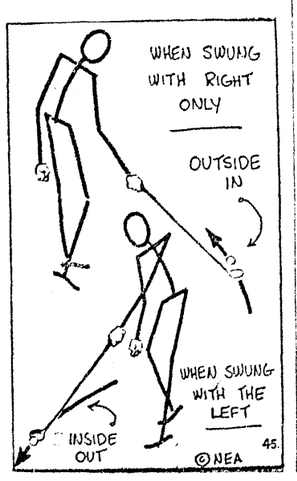

by ART KRENZ

Many golfers have asked: "Why can't the right hand control the swing as well as the left?"

Now every golf bug—especially the man who has tried to improve his game by reading or taking golf instructions from a professional—at some time or other has had it impressed upon his mind that the good golf stroke is one that comes into the ball from the inside.

In swinging the club with the right hand alone, you can see for yourself that the club will travel in a path from right to left, from the outside in. But, swung with the left, it will travel in the proper path, from the inside out.

Of course, the shot is not entirely a left-handed affair. The right hand does its share when it whips the clubhead through as the hitting region is reached.

PERSONALITY PARADE

Spencer Gentry

LOOKING UP.

Regardless of the fact tha[illegible] Twins took it on the chin [illegible] hands of the league-leading [illegible] Rouge Senators yesterday, they l[illegible] like a far different ball team tha[illegible] club that left here a week [illegible] ago.

With one or two more impr[illegible] ments, the Monroe club will be[illegible] set for its climb upward. The p[illegible] ing has been great for the past [illegible] and if the infield is tightened up [illegible] least bit, the club seems ready.

The debut here yesterday of [illegible] "Pepper" Rea was a sensation. This l[illegible] was whooping it up all through t[illegible] game and he had 'em talking ab[illegible] him before the first inning was ov[illegible] He puts plenty of pep into the ga[illegible] from his position behind the plate.

The team is hustling and t[illegible] means a lot.

• • •

ATTENDANCE.

It may be that some minor leagu[illegible] are having their difficulties on a[illegible] count of small crowds, but baseb[illegible] hasn't gone entirely to the dogs [illegible] yet. Several little leagues alread[illegible] have gone under and others may [illegible] the same way but it's not as toug[illegible] everywhere.

The clubs that are playing win[illegible] ning ball in the major leagues are[illegible] drawing good crowds. Recently one[illegible] of the largest crowds ever to attend[illegible] a regularly scheduled game at the Yankee stadium paid to see the Senators and the Yankees do battle and during the Yankee-Athletic series the stands were packed. Several clubs in both the National and American leagues are enjoying prosperity, although the weaker teams may be falling by the wayside at home.

The International league reports the most prosperous beginning in years. Extraordinary crowds have turned out, in spite of poor weather. The league awards a prize of $1000 to the club that shows the most hustle and this incentive is keeping the players on their toes.

Some owners are putting plenty of color into the game and if more of this showmanship were injected into baseball, there would be less failures.

• • •

THE SOUTHEASTERN

There were many reasons why the Southeastern league couldn't go, if you believe all the explanations that

MAUREEN ORCUTT LEADS AT SAUNTON

American Star Wins Medal in Qualifying Round of British Tourney

SAUNTON, England, May 28 (AP)—The storm kings along Saunton's sandy wastes smiled again today on Maureen Orcutt, holding back the elements until the blonde American girl had added a fine 78 to a brilliant 73 of the first round to win the qualifying medal for the British women's golf championship.

Her total of 151 let the final 64 into the match play rounds which start Monday. In the field, tucked neatly away under the qualifying limit of 160 strokes, were all the members of the American team that defeated a British girls' team recently at Wentworth, with the sole exception of the non-playing captain, Marion Hollins, of Santa Barbara, Cal.

Miss Hollins just missed the match play by a single stroke, with her score of 89-92—181. Mrs. Harley Higbie, of Detroit, shaved the line, taking a 96 today to bring her total to an even 180. She was tied with seven others for the last four qualifying places, which were awarded on the basis of the best last nine holes.

The remainder of the American team finished well within the limit. Virginia Van Wie, of Chicago, had rounds of 77-81 for 158 and Mrs. Leona Cheney, of Los Angeles, 78-81 for 159. Glenna Collett Vare, former national champion, finished with 80-88 for 168 and the present American titleholder, Helen Hicks, needed 88-86 for her total of 174. Mrs. O. S. Hill, of Kansas City, matched Miss Hicks stroke for stroke with 88-86—174.

Miss Orcutt needed perfect conditions today to stave off the bid of Enid Wilson, defending champion, for the medal. The English girl added a fine 75 today to a 79 yesterday for a 36-hole total of 154.

But just as rain came down and the wind came up after the New Jersey girl shot her 73 yesterday under perfect conditions, so did the same cease abruptly today after raging all morning.

INTERNATIONAL LEAGUE

Baltimore 4; Jersey City 1.
Newark 5; Reading 6.
Toronto 3; Montreal 1.
Rochester-Buffalo, rain.

SCORE Finger

[illegible] to [illegible] at third.
[illegible]ings behind the [illegible]. Brown, the new right fielder, [illegible]a double to left center that [illegible]es and Bill Baker followed [illegible] another double to center and Terrier [illegible] with the third tally. West [illegible]ve to Riley, who took the grou[illegible] and beat Tommy to first.

The two hurlers bore down and [illegible] not another run was scored until [illegible] the seventh inning. With nobody [illegible] out, Vincent singled past third base [illegible] and Hines, who joined the Senators [illegible] from Port Arthur last week, hit [illegible]e a mile over the left field fence for [illegible] two runs and the score was tied.

Baker doubled in the Twins' [illegible] half of the seventh, with two out, and [illegible] Ezzell worked Denton for a base on balls but Terrier rolled out, Denton to Rea, for the third out.

The Senators threatened in [illegible] the eighth, due largely to West's [illegible] error at third, but Perez pulled out [illegible] the hole. However, he ran into trouble in the ninth and the Senators scored their three runs.

The Twins scored once in the [illegible] home half of the inning. Miles, batting for Perez lofted to Long in center, but Moses singled to left. Bilgere was out, Denton to Riley, and Moses took second. Homer Ezzell lifted one over first base that no one could reach and Moses streaked home from second. Terrier hit a long fly to center but Long got under it and the game was over.

The Senators pulled one for the book in the sixth inning. Riley struck out to start the frame but Long drew a base on balls. Atwood dumped a slow roller down the third base line and beat it out. With Vincent up, Perez threw one into the dirt but Rea scooped it up almost instantly and threw fast at third, who tagged Atwood as he slid into the bag. It was a close decision, however, and Umpire Parker called Atwood safe. The Senators raised a protest and Manager Georgetown, who was in charge of the play, charged out to protest. West snapped a throw to first after Ezzell before Atwood got back to the bag and the Rookie got in a chase. He was finally run down near third base with Perez taking the ball and taking the out to complete a weird double play.

The Twins showed a lot of hustle and it seemed to be a vastly improved club. The chatter of "Pepper" Rea back of the plate made quite a hit with the [illegible]-sized turnout of fans and the little receiver handled Perez nicely. Rea tried for every fly hit

BLACK DRILLERS MEET RAYVILLE TEAM TODAY

The Monroe Black Drillers and the Rayville Sluggers will tie up in a double header at Casino park this afternoon, the first game starting at 2:30 o'clock. The Drillers have defeated Vicksburg, Farmerville, Winnsboro and Jonesville.

A feature of the game, according to the Driller business manager, will be the antics of "Pork Chop" Chapman, ex-vaudeville wise cracker who will devote his efforts for the Drillers. The Sluggers are said to have a comedian of their own to vie for honors with "Pork Chop."

The Driller hurler has not been selected but Hardy will be the catcher.

Senators Win Both Games of Double Header to Cut Yanke

Ford, Editor

YANKEE PITCHERS UNABLE TO STEM SENATORS' ATTACK

Nats Hitters Go on Spree to Win Two Games, Despite Ruth's Homers

WASHINGTON, May 28 (AP)—The Washington Senators chopped the first place lead of the New York Yankees to two games today by smashing through McCarthy's wallopers, 5 to 1 and 13 to 5.

Two home runs by Babe Ruth, one in each game, and four hits in the same number of tries for Lou Gehrig in the second game were not enough to offset the timely stick work of the Senators.

The rough spot Washington has been for Yankee hurling all season was no smoother today. Neither Johnny Allen nor George Pipgras ... around to see the ninth inning, ... Lloyd Brown and Monte ... were mowing McCarthy's ... down when hits meant runs.

The rejuvenated hitting power of the Senators nicked Allen for three ... in the second and third innings and then, in the seventh, Myer's walk, West's single and Cronin's triple ended the scoring before Allen was injured putting Cronin out at the plate.

Pipgras was even less effective in the second game and the Yankeees made five errors to insure victory for Washington.

With Manush clouting a homer in the fifth after Myer had doubled, the Senators went into the sixth with a four-run lead. Ruth hit his thirteenth circuit smash over the right field wall and then the Senators fell on Pipgras and drove him from the box.

TIGERS, CHISOX DIVIDE

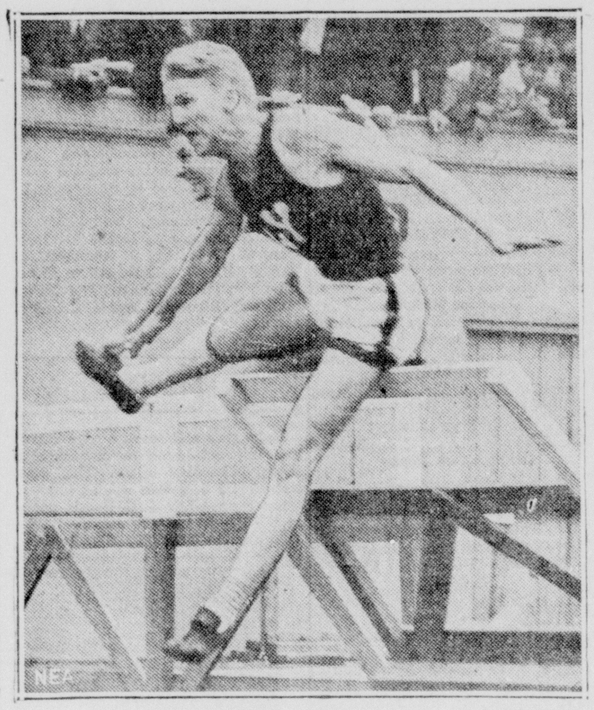

DETROIT, May 28 (AP)—Detroit and Chicago split a double header today the Tigers taking the opener, 4 to 1, and the White Sox winning the nightcap, 7 to 5, in 10 innings.

Milt Gaston lost a heartbreaker in the first, allowing only three hits, two of which were combined with two errors and a walk by Detroit for the winners' only scores.

Chicago used 16 and Detroit 17 players in the second. Even Manager Lew Fonseca took a turn at bat, pinch-hitting for Frasier in the ninth. He

A RECORD FOR RECORD

This unusual action shot shows how George Lockwood of Yale, in the foreground, caught his right toe on the last hurdle and then fell, to allow Captain Eugene Record of Harvard, in background, to win the 120-yard low hurdles in the meet record time of 15 seconds flat. Harvard won the dual track meet, 89¼ to 45¾, at Cambridge, Mass.

LOCAL CLUBS PLAY INTRA-CITY MATCH

First of Series Between Riverside and Muny Golfers Played Today

Golfers of the Riverside Country club and the Municipal Golf club tie up today in the first of the summer's intra-city matches. The tourney will be played over the Riverside course.

The first match will start promptly at 1 o'clock, Shep Girault, manager of the Riverside club, said last night, and foursomes will follow at intervals of five minutes. All players are urged to report promptly at 1 o'clock. R. D. Swayze, commissioner of parks and playgrounds, will act as starter.

Final pairings were announced last night by Mr. Girault. The Riverside team is listed first in the following pairings:

H. K. Touchstone and Wesley Shafto vs. Lund Harper and Luckey Royster, Prioleau Ellis and W. B. Gladney vs. Jimmy Harper and Harry Taylor, Bunn Beasley and M. C. McDonald vs. H. G. Frazer and Art Woodruff, Jack Rogers and Shep Girault vs. Fred Majors and Q. Henry, John Sherrouse and Ed Seymour vs. L. R. McDoniel and Jack Selig, Jr., Jack Warren and O. A. Evans vs. George Hyle and W. C. Johnson, John Fox and A. L. Harrington vs. F. E. Maxwell and Jordon Barton.

Kenneth Brown and J. E. Godfrey vs. Red Taylor and Dr. R. T. Harberson, Art Edwards and W. E. Reardon vs. R. B. Wofford and Cramer Haas, C. C. Boardman and Dr. John Snellings vs. Captain Harry Roberts and Albert Marx, D. Y. Smith and Alden Shotwell vs. Johnny Kramer and Ernest Eves, Joe Washburn and H. H. Reardon vs. W. A. Guy, Jr., and R. W. Allemon, Victor Davis and Guy Campbell vs. Bill Perhamus and Bill Hyde, William Rodriguez and Alfred Jenkins vs. Will Washburn and Bishop Pipes, George Weaks and J. H. Trousdale vs. Julius Rosenheim and Gilbert Wolf, Dr. Collins and J. B. Lindsey vs. Harold Mouk and Dr. Nat Gaston, Alston Prophit and Mike Winberry vs. Ray Buce and Shelby Cage. Ray Braswell also has registered as a Municipal club player.

A return match over the Municipal course will be played in the near future, it was announced, and it is probable that the two clubs will meet in several other matches during the summer and fall.

It has been announced that the Municipal club has extended the courtesy of the course to Riverside golfers who are not participating in the intra-city match.

HAILE TEAM SEEKS TO SCHEDULE GAME

W. B. Haile, manager of the Haile baseball team, asks The World to publish the following challenge to ball clubs in this section.

"We have a home talent baseball team that would like to play any team within thirty miles of Monroe. We prefer return games, each team paying its own expenses but will play by other arrangements if other team prefers."

Mr. Haile may be reached at Haile, La.

SOUTHERN LEAGUE

SMOKIES, VOLS SPLIT

KNOXVILLE, Tenn., May 28 (AP)—Knoxville and Nashville divided a doubleheader today, the mokies taking the first 4 to 3 and the Vols the second, 6 to 4 in eight innings. The new "dead ball" was used here for the first time. With the score tied 3-all in the seventh inning of the second game, Rodda, Vol shortstop, hit a home run inside the park to score two men ahead of him.

Nashville ..... 200 001 000—3 8 0
Knoxville ..... 000 400 00x—4 11 1

Shealey and Gooch; Smith and Thompson.

Second Game

Nashville ..... 001 010 13—6 11 1
Knoxville ..... 100 200 01—4 8 1

Larsen, Miller and Gooch; G. Williams, Roy and B. Williams.

PELS RALLY TO WIN

LITTLE ROCK, May 28 (AP)—A five-run rally in the ninth inning gave the New Orleans Pelicans a 7 to 4 victory over the Little Rock Travelers here today.

New Orleans ..... 000 000 205—7 12 2
Little Rock ..... 101 000 002—4 5 3

Perrin, Moore, Gliatto and Autry; Hughes and Harper.

BARONS BLANK CHICKS

MEMPHIS, Tenn., May 28 (AP)—Birmingham turned the tables on Memphis today bunching hits to win 2 to 0. The Chicks got nine hits off Hasty but were unable to make them count.

Birmingham ..... 000 101 000—2 5 0
Memphis ..... 000 000 000—0 9 1

Hasty and Berres; Jacobs, Granger and Berger.

LOOKOUTS TRIM ATLANTA

ATLANTA, May 28 (AP)—In spite of the late homer poled out by Barron, Cracker mentor, in the ninth, Chattanooga won the game here today 7 to 5. This copped the series for the Lookouts.

Chattanooga ..... 202 210 000—7 12 3
Atlanta ..... 200 000 012—5 6 1

Mails and Bolton; Blethen and Rowland.

DALLAS GOLFER LEADS IN STATE TOURNAMENT

TEXARKANA, Ark., May 28 (AP)—Brilliant putting gave Gus Moreland of Dallas a lead of eight up on W. R. Long of Austin in the first 18 holes of their 36 hole match today for the 1932 Texas Golf association's state championship.

The defending champion scored a 69, four strokes under par, in attaining his commanding lead over Long, who shot a 79. Moreland's 69 tied the new course record set in the qualifying round by Louis Nowlin.

Long won but two holes in this morning's round.

BROWN TEAM MEETS GEORGETOWN TODAY

The Brown Paper Mill Safety Firsts will meet the strong Georgetown team at the Brown park this afternoon. The game will start at 3:30 o'clock.

Manager Phillips said last night that "Blondie" Corser, ace of the Brown staff, will face Georgetown. The Safety Firsts were rained out in their scheduled game with Oak Grove Friday and are in good shape for the fray today.

The Georgetown team has not been defeated this season, Phillips said.

PIRATES TROUNCE CARDINALS, 8 TO 6

Champions Score Five Runs as Result of Two Homers But Can't Win

PITTSBURGH, May 28 (AP)—Aided by four hits from the bat of Dave Barbee, Pacific coast importation, the Pittsburgh Pirates today annexed their fifth consecutive game by trimming the St. Louis Cards, 8 to 6.

It was the eighth victory for the Buccaneers out of their last nine combats.

Steve Swetonic, who twirled for the Pirates, chalked up his fifth win in six starts.

Five of the St. Louis markers were due to home runs. Watkins connected for a four-bagger in the seventh with two mates on the paths and Collins crashed his twelfth of the season in the ninth with one man on.

Paul Waner, leading National league batsman, poled his 25th double of the season in the initial frame.

DODGERS DOWN GIANTS

NEW YORK, May 28 (AP)—The Brooklyn Dodgers climbed another step in the National league standing today, going into fifth place as they downed the Giants for the third time in a row, 6 to 4.

Home runs played a large part in the victory. Tony Cuccinello hit one to top off a four-run rally in the sixth and Glenn Wright clouted another with one aboard in the eighth.

Golf as the STARS play it

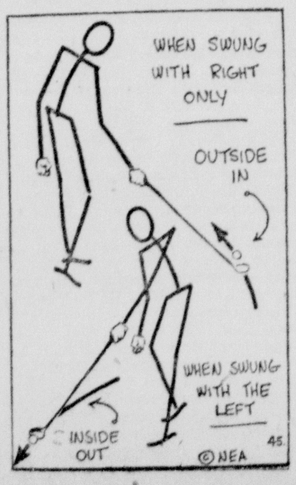

by ART KRENZ

Many golfers have asked: "Why can't the right hand control the swing as well as the left?"

Now every golf bug—especially the man who has tried to improve his game by reading or taking golf instructions from a professional—at some time or other has had it impressed upon his mind that the good golf stroke is one that comes into the ball from the inside.

In swinging the club with the right hand alone, you can see for yourself that the club will travel in a path from right to left, from the outside in. But, swung with the left, it will travel in the proper path, from the inside out.

Of course, the shot is not entirely a left-handed affair. The right hand does its share when it whips the clubhead through as the hitting region is reached.

LOOKING UP.

Regardless of the fact th... Twins took it on the chin ... hands of the league-leading ... Rouge Senators yesterday, they l... like a far different ball team tha... club that left here a week ... ago.

With one or two more impr... ments, the Monroe club will be... set for its climb upward. The p... ing has been great for the past ... and if the infield is tightened up ... least bit, the club seems ready.

The debut here yesterday of ... "Pepper" Rea was a sensation. This l... was whooping it up all through t... game and he had 'em talking ab... him before the first inning was ov... He puts plenty of pep into the ga... from his position behind the plate.

The team is hustling and t... means a lot.

• • •

ATTENDANCE.

It may be that some minor leag... are having their difficulties on a... count of small crowds, but baseb... hasn't gone entirely to the dogs ... yet. Several little leagues alread... have gone under and others may ... the same way but it's not as toug... everywhere.

The clubs that are playing winning ball in the major leagues are drawing good crowds. Recently one of the largest crowds ever to attend a regularly scheduled game at the Yankee stadium paid to see the Senators and the Yankees do battle and during the Yankee-Athletic series the stands were packed. Several clubs in both the National and American leagues are enjoying prosperity, although the weaker teams may be falling by the wayside at home.

The International league reports the most prosperous beginning in years. Extraordinary crowds have turned out, in spite of poor weather. The league awards a prize of $1000 to the club that shows the most hustle and this incentive is keeping the players on their toes.

Some owners are putting plenty of color into the game and if more of this showmanship were injected into baseball, there would be less failures.

• • •

THE SOUTHEASTERN

There were many reasons why the Southeastern league couldn't go, if you believe all the explanations that

MAUREEN ORCUTT LEADS AT SAUNTON

American Star Wins Medal in Qualifying Round of British Tourney

SAUNTON, England, May 28 (AP)—The storm kings along Saunton's sandy wastes smiled again today on Maureen Orcutt, holding back the elements until the blonde American girl had added a fine 78 to a brilliant 73 of the first round to win the qualifying medal for the British women's golf championship.

Her total of 151 let the final 64 into the match play rounds which start Monday. In the field, tucked neatly away under the qualifying limit of 180 strokes, were all the members of the American team that defeated a British girls' team recently at Wentworth, with the sole exception of the non-playing captain, Marion Hollins, of Santa Barbara, Cal.

Miss Hollins just missed the match play by a single stroke, with her score of 89-92—181. Mrs. Harley Higbie, of Detroit, shaved the line, taking a 96 today to bring her total to an even 180. She was tied with seven others for the last four qualifying places, which were awarded on the basis of the best last nine holes.

The remainder of the American team finished well within the limit. Virginia Van Wie, of Chicago, had rounds of 77-81 for 158 and Mrs. Leona Cheney, of Los Angeles, 78-81 for 159. Glenna Collett Vare, former national champion, finished with 80-88 for 168 and the present American titleholder, Helen Hicks, needed 88-86 for her total of 174. Mrs. O. S. Hill, of Kansas City, matched Miss Hicks stroke for stroke with 88-86—174.

Miss Orcutt needed perfect conditions today to stave off the bid of Enid Wilson, defending champion, for the medal. The English girl added a fine 75 today to a 79 yesterday for a 36-hole total of 154.

But just as rain came down and the wind came up after the New Jersey girl shot her 73 yesterday under perfect conditions, so did the same cease abruptly today after raging all morning.

INTERNATIONAL LEAGUE

Baltimore 4; Jersey City 1.
Newark 5; Reading 6.
Toronto 3; Montreal 1.
Rochester-Buffalo, rain.

BLACK DRILLERS MEET RAYVILLE TEAM TODAY

The Monroe Black Drillers and the Rayville Sluggers will tie up in a double header at Casino park this afternoon, the first game starting at 2:30 o'clock. The Drillers have defeated Vicksburg, Farmerville, Winnsboro and Jonesville.

A feature of the game, according to the Driller business manager, will be the antics of "Pork Chop" Chapman, ex-vaudeville wise cracker who will devote his efforts for the Drillers. The Sluggers are said to have a comedian of their own to vie for honors with "Pork Chop."

The Driller hurler has not been selected but Hardy will be the catcher.

... rain delayed ... radus ... Ezzell before At... wood ... back to the bag and ... got in a chase. He was ... down near third base with ... king the out to complete a ... double play.

The Twins showed a lot of hustle and it seemed to be a vastly improved club. The chatter of "Pepper" Rea back of the plate made quite a hit with the ... -sized turnout of fans and the little receiver handled Perez nicely. Rea tried for every fly hit

Oklahoma Champion Shoots Near Par Golf to Win Women's Trans-Mississippi Title

MRS. BEYER WINS 8-AND-7 VICTORY IN FINAL MATCH

Mrs. Tom Wallace Falls Victim to Flock of Pars in Tourney at Spa

By Henry N. Dorris
(Associated Press Staff Writer)

HOT SPRINGS, Ark., May 28—Reeling off par after par with deadly consistency, Mrs. Walter Beyer of Tulsa scored an eight to seven victory today over another Oklahoma woman, Mrs. Tom Wallace, Sapulpa, in the 36 hole finals of the women's trans-Mississippi golf tournament.

Mrs. Beyer succeeds the trans-Mississippi champion, Mrs. Opal S. Hill of Kansas City, who is in England with the United States women's golf team.

Although forced to start continuously at the pars hung up by her opponent, Mrs. Wallace, who has held the Oklahoma championship three times, never gave up and fought gamely to the 29th hole where another par by Mrs. Beyer ended the match.

Five up at the beginning of the second 18 holes, Mrs. Beyer banked away at the middle of the fairways and many times was on the green under regulation, putting for birdies. She had Mrs. Wallace continually under the strain of having to putt for long distances to halve holes.

After raising her lead to eight up at the 22nd, the result was never in doubt for Mrs. Beyer, but the gallery followed to lend encouragement to Mrs. Wallace, who fought with determination to reduce her opponent's lead.

Mrs. Beyer was only three over par for the entire distance, carding a score of 130 for the 29 holes, or 11 strokes less than Mrs. Wallace.

Mrs. Susan Vilas, Little Rock, won the championship consolation finals from Mrs. D. W. Snyder, Jr., Kansas City, 4 and 3. It was to have gone 36 holes.

BASTROP KRAFTMEN IN WIN OVER ALL-STARS

The Monroe All-Stars lost a 12-5 decision to the Bastrop club of the Big Six league, at Bastrop yesterday.

The Kraftmen made 13 hits off Smith and Tucker, Monroe hurlers, while the All-Stars touched Curry and Pate for eleven. Mickey Witt led the Monroe attack with three safeties, while Montgomery hit three for Bastrop. Fryer and Womack hit home runs.

Summary: Two-base hits—M. Witt, Goodwin, Francis. Three-base hits—Second. Home runs—Fryer, Womack. Batters pitched—By Smith 6 with 3 runs and 9 hits, by Tucker 3 with 3 runs and 4 hits, by Curry 2-3 with 3 runs and 4 hits, Pate 0 1-3 with 2 runs and 2 hits. Winning pitcher — Pate. Losing pitcher — Smith. Bases on balls—Off Smith 7, off Tucker 1, off Pate 1. Struck out—By Curry 2, by Pate 3, by Smith 4, by Tucker 2. Hit by pitcher—Adcock by Pate. Time—2:05. Umpire—Wilkerson.

DE FOREST CAPTURES AMATEUR GOLF TITLE

MUIRFIELD, Scotland, May 28 (AP)—In the longest final in the history of the British amateur golf championship, John De Forest, of Addington, London, defeated Eric Fiddian, of Stourbridge, 3 and 1, for the title today in a 36-hole match that lasted six hours and 35 minutes.

So bad were weather conditions during the long drawn out play, that Fiddian wrapped towels around his neck to keep out the rain and both stopped frequently to dry clubs. The mists were so heavy that it almost became necessary to play the rugged Muirfield links from memory.

De Forest, wealthy son of Baron De Forest, lost out in the final round last year to Eric Martin Smith.

OLDAG WINS MARATHON

SALISBURY, Md., May 28 (AP)—Hans Oldag of Buffalo was victor in the Olympic tryout marathon here today, winning the Cambridge-Salisbury run in two hours 38 minutes.

THREE-RUN RALLY GAINS 6-4 VICTORY FOR BATON ROUGE

(Continued from Eighth Page)

over his shoulder, whether it went back to the grandstand or over near the players' benches.

Perez had the Senators biting at his tantalizing curve. Horace Long, the same old free-swinger, was his particular victim. Horace went down on strikes three times, while five other Senators went out swinging for a total of eight strikeouts. The little southpaw issued five bases on balls.

Denton pitched a steady game, bearing down in the pinches to gain a well-earned victory. He struck out three Twins and gave up only two bases on balls.

JUDGES DOWN REFINERS

PINE BLUFF, Ark., May 28 (AP)—Pine Bluff tonight defeated Port Arthur, 7 to 4.

MOODY, RYAN WIN FRENCH DOUBLES

American Women Easily Defeat Defending Champions in Straight Sets

AUTEUIL, France, May 28 (AP)—After a lapse of a year, Helen Wills Moody and Elizabeth Ryan re-established themselves today in the French tennis championships as the best women's doubles team in the world.

In straight sets the American women defeated Mrs. Eileen Bennett Whittingstall and Betty Nuthall, defending champions, 6-1, 6 -3, outclassing one of the best of all the women's doubles combinations.

Rene Lacoste, brilliant Frenchman, after three years of retirement, returned to tournament play with an easy victory over Georges Krasny, young Czechoslovakian play, in the first round of men's singles. The scores were 6-3, 6-1, 0-6, 6-0.

Sidney Wood, American Davis cup player and Wimbledon singles champion, seeded second in the French play, easily defeated Marcel Combemale in the first round of the singles 6-4, 3-6, 6-2, 6-2.

Gregory Mangin, only other American in the men's singles, did not play. Unless the unexpected happens, he will meet Henri Cochet, successor to Lacoste as French ace, in the quarter finals.

Mrs. Wills will play her first singles match tomorrow against Marcelle Beauge.

The men's doubles will be an all-French affair. The youngsters Christian Boussus and Marcel Bernard defeated Jean Borotra and Antoine Gentien 6-2, 6-1, 10-8, to qualify for the final against Cochet and Jacques Brugnon.

CITY LEAGUE

ENGINEERS BEAT GASSERS

The Sterlington Engineers staged a five-run rally in the seventh inning of yesterday's game with the Monroe Gassers to nose out their foes, 8 to 7.

The game was featured by a triple play for the Gassers, Richardson to McGinnis to Robb

FASTEST FIELD ENTERS INDIANAPOLIS SPEED CLASSIC

Oklahoma Champion Shoots Near Par Golf to Win Women's Trans-Mississippi Title

MRS. BEYER WINS 8-AND-7 VICTORY IN FINAL MATCH

Mrs. Tom Wallace Falls Victim to Flock of Pars in Tourney at Spa

By Henry N. Dorris
(Associated Press Staff Writer)

HOT SPRINGS, Ark., May 28—Reeling off par after par with deadly consistency, Mrs. Walter Beyer of Tulsa scored an eight to seven victory today over another Oklahoma woman, Mrs. Tom Wallace, Sapulpa, in the 36 hole finals of the women's trans-Mississippi golf tournament.

Mrs. Beyer succeeds the trans-Mississippi champion, Mrs. Opal S. Hill of Kansas City, who is in England with the United States women's golf team.

Although forced to start continuously at the pars hung up by her opponent, Mrs. Wallace, who has held the Oklahoma championship three times, never gave up and fought gamely to the 29th hole where another par by Mrs. Beyer ended the match.

Five up at the beginning of the second 18 holes, Mrs. Beyer banked away at the middle of the fairways and many times was on the green under regulation, putting for birdies. She had Mrs. Wallace continually under the strain of having to putt for long distances to halve holes.

After raising her lead to eight up at the 22nd, the result was never in doubt for Mrs. Beyer, but the gallery followed to lend encouragement to Mrs. Wallace, who fought with determination to reduce her opponent's lead.

Mrs. Beyer was only three over par for the entire distance, carding a score of 130 for the 29 holes, or 11 strokes less than Mrs. Wallace.

Mrs. Susan Vilas, Little Rock, won the championship consolation finals from Mrs. D. W. Snyder, Jr., Kansas City, 4 and 3. It was to have gone 36 holes.

BASTROP KRAFTMEN IN WIN OVER ALL-STARS

The Monroe All-Stars lost a 12-5 decision to the Bastrop club of the Big Six league, at Bastrop yesterday.

The Kraftmen made 13 hits off Smith and Tucker, Monroe hurlers, while the All-Stars touched Curry and Pate for eleven. Mickey Witt led the Monroe attack with three safeties, while Montgomery hit three for Bastrop. Fryer and Womack hit home runs.

Summary: Two-base hits—M. Witt, Godwin, Francis. Three-base hit—Womack. Home run—Fryer, Womack. Innings pitched—By Smith 6 with 9 runs and 9 hits, by Tucker 3 with 3 runs and 4 hits, by Curry 2-3 with 3 runs and 4 hits, by Pate 3 1-3 with 2 runs and 7 hits. Winning pitcher — Pate. Losing pitcher — Smith. Bases on balls—Off Smith 7, off Tucker 1, off Pate 4. Struck out—By Curry 2, by Pate 3, by Smith 4, by Tucker 2. Hit by pitcher—Adcock by Pate. Time—2:05. Umpire—Wilkerson.

DE FOREST CAPTURES AMATEUR GOLF TITLE

MUIRFIELD, Scotland, May 28 (AP)—In the longest final in the history of the British amateur golf championship, John De Forest, of Addington, London, defeated Eric Fiddian, of Stourbridge, 3 and 1, for the title today in a 36-hole match that lasted six hours and 35 minutes.

So bad were weather conditions during the long drawn out play, that Fiddian wrapped towels around his neck to keep out the rain and both stopped frequently to dry clubs. The mists were so heavy that it almost became necessary to play the rugged Muirfield links from memory.

De Forest, wealthy son of Baron De Forest, lost out in the final round last year to Eric Martin Smith.

OLDAG WINS MARATHON

SALISBURY, Md., May 28 (AP)—Hans Oldag of Buffalo was victor in the Olympic tryout marathon here today, winning the Cambridge-Salisbury run in two hours 38 minutes.

over his shoulder, whether it went back to the grandstand or over near the players' benches.

Perez had the Senators biting at his tantalizing curve. Horace Long, the same old free-swinger, was his particular victim. Horace went down on strikes three times, while five other Senators went out swinging for a total of eight strikeouts. The little southpaw issued five bases on balls.

Denton pitched a steady game, bearing down in the pinches to gain a well-earned victory. He struck out three Twins and gave up only two bases on balls.

JUDGES DOWN REFINERS

PINE BLUFF, Ark., May 28 (AP)—Pine Bluff tonight defeated Port Arthur, 7 to 4.

America Expected to Count Points Heavily in Olympic Weight Events This Year

EDGREN DISCUSSES PAST RECORDS OF OLYMPIC ENTRIES

Tremendous Improvements in Performances Has Been Shown in Weights

By Robert Edgren

R. S. Garrett of Princeton was the first Olympic winner in the weight events. Bob won the shot put at Athens with 36 ft. 2 in. and the discus throw with 95 ft. 7½ inches. This was in the first renewal of the ancient Olympic games in 1896. Since then there has been a tremendous improvement in performances, and although competitors from other countries have cut into the list of winners now and then as a rule Americans have counted points heavily in the weights. Garrett, at the time of the first Olympics, was intercollegiate champion with the shot. He never saw a discus until he threw at Athens. The discus was thrown from a square instead of a circle, and Bob hopped across the square instead of throwing with a turn.

Bauer, of Hungary, was winner in 1900, and then Martin Sheridan appeared and won in the next three Olympiads, putting the record up to 136 ft. ½ in. Sounds almost funny today, doesn't it, with the boys heaving anything from 150 to 169 feet? But Sheridan was a great all around athlete. Competition hadn't put the standard so high, that's all.

After Sheridan, the Finns took the discuss in two meets with Taipale and Nicklander. Taipale did a few inches over 148 feet. The record was climbing.

Jessup In the Discus

Then came another American, Bud Houser. Bud was a marvelous athlete as a schoolboy. When he beat Pat McDonald in the shot at the national championships, and in college was celebrated as a competitor with unlimited grit. In 1924 Bud won both shot and discus, and in '28 he won the discus again, putting the record up to 155 ft. 2 in. Houser, stockily built and of moderate height, in both of these last two Olympics was figured an easy victim for some of the bigger men who had heaved the weights farther in the preliminary trials, but through his battling spirit he managed to beat them with his last throws in each competition. Houser stopped competing after the Amsterdam Olympics, being busy getting a start in his profession. Now he is training again and may come through to win points, although the giant Jessup from Washington has put the world's record up over the 160 feet, several have reached 160, and two or three have passed the 160 foot mark. Jessup, bigger and more developed than in his college days, may fulfil a prediction Martin Sheridan made to me when the record was under 140 feet. "Bob," said Martin, "some day some fellow six and a half feet tall and with long arms is going to throw that discus 175 feet."

Ralph Rose Greatest

The 16-pound shot, since Bob Garrett's 36 ft. 2 inch Olympic win, has grown wings. Dick Sheldon, a giant of a man, put over 45 feet in the next games. Ralph Rose, a bigger giant, six feet six, and weighing about 265 pounds, made it 48 ft. 7. Martin Sheridan won in 1906 with a shorter put and Rose won next time, two feet behind his record. Rose was getting fat and weighed 315 pounds at the 1912 Olympics, and Pat McDonald beat him and was first to beat 50 feet, although Rose in the right and left-hand event put 50 ft. 6 in. with his right hand. In addition the gigantic Rose was probably the best shot putter that ever lived. He once made an exhibition put of over 55 feet, but of course an exhibition isn't a competition. Rose was lazy and he seldom trained after his short time in college, but he won in three Olympics, 1904-1908-1912.

Little Bud Houser winning in 1924, put the shot about 45 1-2 feet. But four years later he met a man who could put too far. John Kuck, a middle west farmer, made a new Olympic record with the great put of 52 ft. 3-4 in. Kuck is a tall husky fellow, but not a giant and not fat. He stopped competing after the last Olympics, but is in training again and likely to surprise some of the others who have reached the 52 foot mark, these being Sexton of N. Y., Hirschfield of Germany, Enix and Poliert of California. There are two or three more who have reached 51 feet, which is remarkable when one remembers that Ralph Rose's world record of 51 feet lasted about fifteen years. Then there is a new champion, Franz Dolda of the Sport club Slavia, Prague, who was said to have eclipsed everybody by putting 51.44 feet. It seems there was some miscalculation in a changing from the metric measurement to feet, and Dolda's put was a little less, 52 feet 7 7-8 inches, to be exact. But if he put that far and can do it again he'll give the boys plenty of competition.

Hammer Throw to Ireland

The 16 pound hammer throw was won by John Flanagan of the U. S. A. in three Olympics, 1900, 04 and 08. his best throw being 170 ft. 4 1-4 inches. John was a great champion for many years. Mat McGrath, a bigger and more powerful man, broke his records and won the Olympic crown in 1912 and Pat Ryan, the American although originally from the Emerald Isle like Flanagan and McGrath, won in 1920. Hammer throwers were growing bigger. Flanagan weighed about 245, McGrath 285 and Ryan, the giant of the lot, who still holds the world's record of 189 ft. 6 1-2 inches made in 1913, stood 6 feet 5 inches and weighed 315 pounds. He didn't reach Matt McGrath's Olympic record of 179 feet 8.4 inches, made four years before, or the mark made in the 1924 Olympics by the American collegian, F. D. Tootell, who threw 174 ft. 10 in. In the last Olympics, 1928, the hammer throw event for the first time wasn't won by an American. Dr. Patrick O'Callaghan of Ireland won with 168 ft. 7-2 inches. The doctor is now throwing over 184 feet, so he should win again.

The 56 pound weight was thrown in only two Olympic meets, in 1904 and 1920. The first time it was won by E. Desmarteau of Canada, and the second by Pat McDonald of New York the great veteran Olympic weight champion who at fifty is training to try to do it again.

The weight events always have been our surest point winners. The United States has won the shot putting eight times, other countries once. The hammer has been won six times by the U. S., once by other countries. The discus six times by the U. S., three by other countries. The 56 pound weight once by the U. S., once by another country. This makes a total of 21 weight throwing wins by the U. S. to 6 by other countries since the modern Olympic games began.

Finns-Swedes Take Javelin

The javelin throw, if it can be considered a weight throwing event, would cut the average down, for we've never won the javelin and there's little chance we can win it this year, with Jarvinen, the Finn, hurling the long spear 239 feet 3 1-4 inches, while the American best hovers around 222 feet. From the start the Scandinavian athletes have won the javelin throwing events. It started with Lemming of Sweden, a tall, lithe blond athlete, at Athens in 1906, when he outclassed the field with 175 ft. 6 in., apparently being the only one who had studied out a form for the new event. Lemming was one of the sensations of the Athens meet. And he went on to win in two more Olympics, still far ahead of all competition. Then, in 1920 the Finns broke in. Jonni Myyra won and cracked Lemming's record with a throw of 215 ft. 9 in. Myyra won again in 1924, but then in 1928 another Swede broke in. E. H. Lundquist winning with a record throw of 218 ft. 6 in. This year Lundquist has thrown 233 feet. Barring the appearance of some unknown champion Lundquist has thrown 233 feet. Barring the appearance of some unknown Lundquist and Jarvinen should be fighting it out between themselves. There's always a chance of a dark horse. So far the Swedes and the Finns have had the event all to themselves, Swedes winning 4, Finns 2 times.

Counting the javelin a weight event, the total weight score for all Olympic games to date would be U. S. 21-12. And even that isn't so bad.

HINES FIGHTS AT RAYVILLE FRIDAY

Local Welterweight to Meet Honor Powell in Six-Round Main Event

Announcement was received here today from Lonnie Downes, fight promoter of Rayville that Buster Hines, Monroe welterweight, has been booked to fight in the main event with Honor Powell, Mississippi middleweight, on a card scheduled for next Friday night at Rayville. Both fighters have established good reputations.

Before coming to Monroe Hines held the welterweight championships of Georgia and Alabama. Recently he returned from a trip to the west coast, where, in one of his fights he knocked out the former west coast champion. While on his trip he became known as "the Little Iron Man."

Hines, although he is spotting his opponent fully 15 pounds, is confident he can win. He would like, however, to fight 10 rounds, while the match is scheduled for only six rounds. The young welterweight points out that Mickey Walker can give away around 30 pounds and still make the heavyweights wonder how they are going to keep out of his way and he is confident he can give away weight and do the same thing.

Buster is anxious for a large following of Monroe fight fans to go to Rayville to see the scrap. He wants to get boxing started again in Monroe and believes if the fans switch him in action in Rayville it will arouse a great deal of interest in boxing in the city. He has announced plans for young boxing lessons here after the Rayville battle.

Monroe fight fans also know something of Powell's ability. They have seen him fight here on several occasions and know his reputation for being able to take care of himself.

FERRIDAY AND WISNER MEET THIS AFTERNOON

FERRIDAY, May 28 (Special)—Wisner and Ferriday will play here Sunday at 3:30 o'clock at the fairgrounds diamond in the second home game of the season for the local club. Both clubs have added strength for the contest and a close game is expected. Freddie Hammett will twirl for the locals and Broadnax for the Franklin parish team.

MY THEORIES OF GOLF

By BOBBY JONES

SIMPLEST FORM IS BEST FORM FOR HITTING GOLF BALL

Just criticism if properly given and properly received is always helpful. Particularly do I welcome it in my efforts to write something about the golf swing which will be understandable and practicable to the many who would like to play a little better. For after all, in spite of the aid which the motion picture camera has given us, we are still experimenters trying to find the way—trying to explain the methods and actions which have proven correct, so that the beginner or duffer may learn to use them.

Since the application of the ultra-speed camera to the golf swing, there remains little that is obscure in the methods of the better known professional and amateur stars. Some few points are still contested, but in the main there is today a very general agreement upon the important points as disclosed by the camera. The difficulty comes when we try to translate the actions of the picture into terms of muscular sense which will have a meaning for the person who has not experienced them. Anyone may observe the successive positions on the film. But to describe these positions in terms of "feel" which can enable a person who cannot see himself to execute the same motions, is the job of the instructor.

Must Have Compensating Action

My most recent correspondent calls attention to a misleading statement which I have made to the effect that the left shoulder "dipped" below the right in making the backswing. He objects to a reference to "dipping" because, as he points out, the lowering of the left shoulder can be produced by the inclination of the upper part of the body even though the turn be not complicated by any other motion.

There can be no question that this is a perfectly just criticism. I must admit that the reference to the "dipping" of the left shoulder was the result of an unhappy choice of a word to describe a movement which had to be dismissed briefly because it was not the chief subject of discussion.

Properly speaking, I suppose that a suggestion of a "dipping" of the left shoulder implies at the same time a lowering of the head. There are a few expert players who do this very thing. Two notable examples are Leo Diegel and Billy Burke—Diegel making use of a sort of rocking motion of the upper part of his body which enables him to hit the ball decidedly upward and so obtain tremendous length. But if one examines carefully slow motion movies of this action it will be found that the movement which lowers the head during the backswing, or in starting down, requires a compensatory action in the downstroke in order to bring the player back into position at contact. In other words, it introduces into the swing one more movement which has to be accurately timed.

Simple Turn During Backswing

I think the fact that a few outstanding players are able to get away with a thing of this kind is no reason why we should accept it without quibble. To most instructors the best form is the simplest form, eliminating as far as possible the necessity for compensating actions. There are any number of ways in which a golf club can be brought against the ball in proper alignment. But the simplest way is the way which fails least often.

For this reason, I have always favored a simple turn during the backswing. And in describing the "dipping" of the left shoulder I did not intend to indicate that there should be an exaggeration of the bend of the body. The mere fact that the body is bent forward means that the point of the left shoulder will be lowered and the right raised by a simple turn around the spine as an axis, the head always remaining in its original position.

WOMEN'S TOURNEY TO START MONDAY

Pairings for Southern Golf Meeting at Hot Springs to Be Made Today

HOT SPRINGS, Ark., May 28 (AP)—Pairings for the qualifying rounds of the Women's Southern Golf association's annual tournament will be made by the tournament committee and executive board at 5 p.m. tomorrow.

Mrs. Willard Sullivan of Suffolk, Va., official starter, tonight said there would not be more than 100 players to tee off Monday morning. Entries will be accepted up to the time to tee off.

Completion of the trans-Mississippi women's tournament here today leaves about half the participants in the event on the scene and qualified to compete in the southern.

More than a dozen state champions are here tonight, ready to play a practice round tomorrow in preparation for their entry into the championship flight from which will come the successor to Mrs. Marian Turpie Lake, formerly of New Orleans, whose removed resident to New York has made her ineligible to defend her title.

EAST CARROLL WINS OVER TROJAN BOXERS

TALLULAH, May 28 (Special)—Staging the first inter-scholastic boxing meet ever attempted by a Tallulah high school squad, the Trojans lost a hard match to the Lake Providence high school mitt-slingers Friday night at the East Carroll school, 5 to 3. The two teams will continue their series Friday night when they meet in a 12 bout return card at the Tallulah auditorium. The matches are governed by a simple weight classification.

A two round knockout by Bradley, crack 128-pounder of the Providence team over Massey of the Trojan team featured the night's program of eight fights. The East Carroll fighter carried the fighting to his Trojan opponent throughout the two rounds which the fight lasted.

SMOKIES SIGN KYLE

KNOXVILLE, Tenn., May 28 (AP)—David Kyle, pitcher with the Montgomery, Ala., club of the disbanded Southeastern league, was signed by the management of the Knoxville Smokies today and will join the club in Memphis Sunday. He lives in Houston, Miss. Berlyne Horne, right-handed pitcher, was turned back to Indianapolis.

LETTERS AWARDED L. S. U. TRACKMEN

Coach Moore Prepares Squad for Olympic Tryouts at New Orleans

BATON ROUGE, May 28.—(Special)—Sixteen members of the Louisiana State university track team, Southern conference champions, were awarded letters for their efforts on the track this spring, it is announced by Bernie Moore, coach. And 14 of these 16 sterling athletes will be eligible for varsity competition, giving L. S. U. prospects for the greatest cinder path and field squad the south has ever known.

In addition to the lettermen and other promising varsity squad members, Coach Moore will have available such brilliant youngsters as Slats Hardin, an Olympic prospect, Ted O'Niel, a 49-second quarter miler, and Nathan Blair, an all-around star.

The finest team ever to be assembled below the Mason-Dixon line is expected to be developed at L. S. U. next spring.

Those awarded letters for the 1932 season follow: Eddie Stockwell, Baton Rouge; Bill Lobdell, Baton Rouge; John Boughton, Mangham; John Lehman Kingsport, Tenn.; Speeks Moore, Monroe; Foster Holderman, Crowley; Jack Torrance, Oak Grove; Sidney Bowman, Hammond; Bob Powell, Quitman, Ga.; Gladstone Stewart, Jeanerette; Les Peebles, Shreveport; John Schoelgel, New Orleans; Al Moreau, Mansura; George Fisher, Matt Gordy, Abbeville and Forrest Yawn, Merryville.

Of this list only Sidney Bowman, who won the broad jump and tied for fourth in the high jump, and Yawn, who tied for second in the pole vault in the recent conference meet, will be missing next spring.

Such brilliant performers as Moreau, twice winner of the high hurdles; Torrance winner of the shot, Stockwell, winner of the 220-yard dash, and third place man in the century, will be among the mainstays of the 1933 team.

Although practice has been retarded because of the recent incessant rains, Coach Moore plans to get his charges down to serious work this week in preparation for the Olympic tryouts at New Orleans this week-end.

THREE RAYVILLE YOUTHS INJURED IN AUTO MISHAP

RAYVILLE, May 28 (Special)—Hobart Green, Buddy Green, and James Balfour, Rayville youths, were severely injured at 11:30 o'clock tonight when their car was wrecked in a headon collision with a car driven by Mose Wilson, Sicily Island negro, near Delco, six miles south of here.

Hobart Green suffered a badly mangled ankle, and all three were badly bruised. It was thought, after they were given emergency treatment here, the Green brothers would need to be taken to the Monroe sanitarium.

The three said the negro was driving his car at a fast rate of speed on the wrong side of the road. Officers said he appeared to have been under the influence of liquor. He and a woman companion, Alberta McKinley, of Wisner, were being held here by Marshal R. S. Diamond who said he might file charges against them next week.

METCALFE SETS NEW RECORD IN 220 DASH

CHICAGO, May 28 (AP)—Ralph Metsalfe, Marquette university sprinter, today bettered the world record for the 220-yard dash, racing the distance in 20.4 seconds in a quadrangular meet involving Marquette, Chicago, Illinois, Normal, and Loyola.

The recognized record is 20.6 seconds, set by Roland Locke of the University of Nebraska in 1926.

PIRATES TROUNCE CARDINALS, 8 TO 6

(Continued from Eighth Page)

TWINS ARE SECOND IN TEAM HITTING, THIRD IN FIELDING

Homer Ezzell Is Leading Monroe's Batsmen With Average of .352

Dick Burrows, Pine Bluff first baseman, continued to lead Cotton States hitters with a mark of .418 and Pine Bluff holds its lead in team batting and team fielding, according to averages released yesterday by Irwin M. Howe, Cotton States league statisticians. The averages include games on May 22.

First Baseman Mike Bouza of El Dorado and Pitcher Gene Walker of Port Arthur are tied at .500 at the top of the list but Bouza had participated in but six games and Walker had been in nine. Pine Bluff's hitting average was .292 and the judges topped the fielding list with .966.

The Twins climbed a notch in batting, boasting a mark of .288, or four points behind the leaders, when the figures were compiled. Monroe still was in third place in fielding with .937. Baton Rouge, Vicksburg, El Dorado and Port Arthur follow in batting in the order named, while Vicksburg is second in fielding and Baton Rouge, Port Arthur and El Dorado follow Monroe.

Homer Ezzell leads the local batters with a mark of .352. Archie Fogelman, who was released several days ago, ranked second on the Twins' roster, while Wallace Moses is next in order with an average of .346. Tom Pyle was batting .329 when released, Tommy West was hitting .322, followed by Gray, who also had been released, with .321 and Dunbar, another ex-Twin, with .313.

Bill Crouch, the Twins' tall right-hander, maintained his lead in the pitchers list with four victories and no defeats. Bill has lost a game since the averages were compiled but as far as this week's records are concerned, he ranks with Berry, of Pine Bluff, and Paul, of Baton Rouge, at the top of the list. Devaney had three victories and one defeat when released. Florrid has one each, Perez had one and lost two and Erwin's record was one win and three losses.

Moses, of the Twins, and Persons, Pine Bluff, are tied as run-getters, each having scored 18 times. There was a three-way tie for stolen base honors, with Gray and Dunbar, formerly of Monroe, and Sutherlin, of Vicksburg, leading the list. Pyle leads in home runs with four while the big fellow and Washington, of Baton Rouge are tied for total bases with 45.

Following are the official averages:

TEAM BATTING

Club—	G.	AB.	R.	OR.	H.	TB.	2b.	3b.	HR.	SH.	SB.	BB.	SO.	Pct.

Baton Rouge	17

BURROWS LEADS COTTON STATES HITTERS WITH .418

America Expected to Count Points Heavily in Olympic Weight Events This Year

EDGREN DISCUSSES PAST RECORDS OF OLYMPIC ENTRIES

Tremendous Improvements in Performances Has Been Shown in Weights

By Robert Edgren

R. S. Garrett of Princeton was the first Olympic winner in the weight events. Bob won the shot put at Athens with 36 ft. 2 in. and the discus throw with 95 ft. 7½ inches. This was in the first renewal of the ancient Olympic games in 1896. Since then there has been a tremendous improvement in performances, and although competitors from other countries have cut into the list of winners now and then as a rule Americans have counted points heavily in the weights. Garrett, at the time of the first Olympics, was intercollegiate champion with the shot. He never saw a discus until he threw at Athens. The discus was thrown from a square instead of a circle, and Bob hopped across the square instead of throwing with a turn.

Bauer, of Hungary, was winner in 1900, and then Martin Sheridan appeared and won in the next three Olympiads, putting the record up to 136 ft. ½ in. Sounds almost funny today, doesn't it, with the boys heaving anything from 150 to 169 feet? But Sheridan was a great all around athlete. Competition hadn't put the standard so high, that's all.

After Sheridan, the Finns took the discuss in two meets with Taipale and Nicklander. Taipale did a few inches over 148 feet. The record was climbing.

Jessup In the Discus

Then came another American, Bud Houser. Bud was a marvelous athlete as a schoolboy. When he beat Pat McDonald in the shot at the national championships, and in college was celebrated as a competitor with unlimited grit. In 1924 Bud won both shot and discus, and in '28 he won the discus again, putting the record up to 155 ft. 2 in. Houser, stockily built and of moderate height, in both of these last two Olympics, was figured an easy victim for some of the bigger men who had heaved the weights farther in the preliminary trials, but through his battling spirit he managed to beat them with his last throws in each competition. Houser stopped competing after the Amsterdam Olympics, being busy getting a start in his profession. Now he is training again and may come through to win points, although the giant Jessup from Washington has put the world's record up over the 169 feet, several have reached 155, and two or three have passed the 160 foot mark. Jessup, bigger and more developed than in his college days, may fulfil a prediction Martin Sheridan made to me when the record was under 140 feet. "Bob," said Martin, "some day some fellow six and a half feet tall and with long arms is going to throw that discus 175 feet."

Ralph Rose Greatest

The 16-pound shot, since Bob Garrett's 36 ft. 2 inch Olympic win, has grown wings. Dick Sheldon, a giant of a man, put over 46 feet in the next games. Ralph Rose, a bigger giant, six feet six, and weighing about 265 pounds, made it 48 ft. 7. Martin Sheridan won in 1906 with a shorter put and Rose won next time, two feet behind his record. Rose was getting fat and weighed 315 pounds at the 1912 Olympics, and Pat McDonald beat him and was first to beat 50 feet, although Rose in the right and left-hand event put 50 ft. 6 in. with his right hand. In condition the gigantic Rose was probably the best shot putter that ever lived. He once made an exhibition put of over 55 feet, but of course an exhibition isn't a competition. Rose was lazy and he seldom trained after his short time in college, but he won in three Olympics, 1904-1908-1912.

Little Bud Houser, winning in 1924, put the shot about 49 1-2 feet. But four years later he met a man who could put too far. John Kuck, a middle west farmer, made a new Olympic record with the great put of 52 ft. 3-4 in. Kuck is a tall, husky fellow, but not a giant and not fat. He stopped competing after the last Olympics, but is in training again and likely to surprise some of the others who have reached the 52 foot mark, these being Sexton of N. Y., Hirschfield of Germany, Brix and Rothert of California. There are two or three more who have reached 51 feet, which is remarkable when one remembers that Ralph Rose's world record of 51 feet lasted about fifteen years. Then there is a new champion, Franz Dolda of the Sport club Slavia, Prague, who was said to have eclipsed everybody by putting 54.44 feet. It seems there was some miscalculation in a changing from the meter measurement to feet, and Dolda's put was a little less, 52 feet. 7 7-8 inches, to be exact. But if he put that far and can do it again he'll give the boys plenty of competition.

Hammer Throw to Ireland

The 16 pound hammer throw was won by John Flanagan of the U. S. A. in three Olympics, 1900, '04 and '08, his best throw being 170 ft. 4 1-4 inches. John was a great champion for many years. Mat McGrath, a bigger and more powerful man, beats his records and won the Olympic crown in 1912 and Pat Ryan, also American although originally from the Emerald Isle like Flanagan and McGrath, won in 1920. Hammer throwers were growing bigger. Flanagan weighed about 245, McGrath 285 and Ryan, the giant of the lot, who still holds the world's record of 189 ft. 6 1-2 inches made in 1913, stood 6 feet 5 inches and weighed 315 pounds. He didn't reach Matt McGrath's Olympic record of 179 feet 8.4 inches, made four years before, or the mark made in the 1924 Olympics by the American collegian, F. D. Tootell, who threw 174 ft. 10 in. In the last Olympics, 1928, the hammer throw event for the first time wasn't won by an American. Dr. Patrick O'Callaghan of Ireland won with 168 ft. 7-2 inches. The doctor is now throwing over 184 feet, so he should win again.

The 56 pound weight was thrown in only two Olympic meets, in 1904 and 1920. The first time it was won by E. Desmarteau of Canada, and the second by Pat McDonald of New York the great veteran Olympic weight champion who at fifty is training to try to do it again.

The weight events always have been our surest point winners. The United States has won the shot putting eight times, other countries once. The hammer has been won six times by the U. S., once by other countries. The discus six times by the U. S., three by other countries. The 56 pound weight once by the U. S., once by another country. This makes a total of 21 weight throwing wins by the U. S. to 6 by other countries since the modern Olympic games began.

Finns-Swedes Take Javelin

The javelin throw, if it can be considered a weight throwing event, would cut the average down, for we've never won the javelin and there's little chance we can win it this year, with Jarvinen, the Finn, hurling the long spear 239 feet 3 1-4 inches, while the American best hovers around 222 feet. From the start the Scandinavian athletes have won the javelin throwing events. It started with Lemming of Sweden, a tall, lithe blond athlete, at Athens in 1906, when he outclassed the field with 175 ft. 6 in., apparently being the only one who had studied out a form for the new event. Lemming was one of the sensations of the Athens meet. And he went on to win in two more Olympics, still far ahead of all competition. Then, in 1920 the Finns broke in. Jonni Myyra won and cracked Lemming's record with a throw of 215 ft. 9 in. Myrra won again in 1924, but then in 1928 another Swede broke in. E. H. Lundquist winning with a record throw of 218 ft. 6 in. This year Lundquist has thrown 233 feet. Barring the appearance of some unknown champion Lundquist has thrown 233 feet. Barring the appearance of some unknown Lundquist and Jarvinen should be fighting it out between themselves. There's always a chance of a dark horse. So far the Swedes and the Finns have had the event all to themselves, Swedes winning 4, Finns 2 times.

Counting the javelin a weight event, the total weight score for all Olympic games to date would be U. S. 21-12. And even that isn't so bad.

HINES FIGHTS AT RAYVILLE FRIDAY

Local Welterweight to Meet Honor Powell in Six-Round Main Event

Announcement was received here today from Leslie Downes, fight promoter of Rayville, that Buddy Hines, Monroe welterweight, has been booked to fight in the main event with Honor Powell, Mississippi middleweight, on a card scheduled for next Friday night at Rayville. Both fighters have established good reputations.

Before coming to Monroe Hines held the welterweight championships of Georgia and Alabama. Recently he returned from a trip to the west coast, where, in one of his fights, he knocked out the former west coast champion. While on his trip he became known as "the Little Iron Man."

Hines, although he is spotting his opponent fully 15 pounds, is confident he can win. He would like, however, to fight 10 rounds, while the match is scheduled for only six rounds. The young welterweight points out that Mickey Walker can give away around 30 pounds and still make the heavyweights wonder how they are going to keep out of his way, and he is confident he can give away weight and do the same thing.

Buddy is anxious for a large following of Monroe fight fans to go to Rayville to see the scrap. He wants to get boxing started again in Monroe and believes if the fans watch him in action in Rayville it will arouse a great deal of interest in fighting in this city. He has announced plans for giving boxing lessons here after the Rayville battle.

Monroe fight fans also know something of Powell's ability. They have seen him fight here on several occasions and know his reputation for being able to take care of himself.

FERRIDAY AND WISNER MEET THIS AFTERNOON

FERRIDAY, May 28 (Special)—Wisner and Ferriday will play here Sunday at 3:30 o'clock at the fairgrounds diamond in the second home game of the season for the local club. Both clubs have added strength for this contest and a close game is expected. Freddie Hammett will hurl for the locals and Broadnac for the Franklin parish team.

MY THEORIES OF GOLF

By BOBBY JONES

SIMPLEST FORM IS BEST FORM FOR HITTING GOLF BALL

Just criticism if properly given and properly received is always helpful. Particularly do I welcome it in my efforts to write something about the golf swing which will be understandable and practicable to the many who would like to play a little better. For after all, in spite of the aid which the motion picture camera has given us, we are still experimenters trying to find the way—trying to explain the methods and actions which have proven correct, so that the beginner or duffer may learn to use them.

Since the application of the ultra-speed camera to the golf swing, there remains little that is obscure in the methods of the better known professional and amateur stars. Some few points are still contested, but in the main there is today a very general agreement upon the important points as disclosed by the camera. The difficulty comes when we try to translate the actions of the picture into terms of muscular sense which will have a meaning for the person who has not experienced them. Anyone may observe the successive positions on the film. But to describe these positions in terms of "feel" which can enable a person who cannot see himself to execute the same motions, is the job of the instructor.

Must Have Compensating Action

My most recent correspondent calls attention to a misleading statement which I have made to the effect that the left shoulder "dipped" below the right in making the backswing. He objects to a reference to "dipping" because, as he points out, the lowering of the left shoulder can be produced by the inclination of the upper part of the body even though the turn be not complicated by any other motion.

There can be no question that this is a perfectly just criticism. I must admit that the reference to the "dipping" of the left shoulder was the result of an unhappy choice of a word to describe a movement which had to be dismissed briefly because it was not the chief subject of discussion.

Properly speaking, I suppose that a suggestion of a "dipping" of the left shoulder implies at the same time a lowering of the head. There are a few expert players who do this very thing. Two notable examples are Leo Diegel and Billy Burke—Diegel making use of a sort of rocking motion of the upper part of his body which enables him to hit the ball decidedly upward and so obtain tremendous length. But if one examines carefully slow motion movies of this action it will be found that the movement which lowers the head during the backswing, or in starting down, requires a compensatory action in the downstroke in order to bring the player back into position at contact. In other words, it introduces into the swing one more movement which has to be accurately timed.

Simple Turn During Backswing

I think the fact that a few outstanding players are able to get away with a thing of this kind is no reason why we should accept it without quibble. To most instructors the best form is the simplest form, eliminating as far as possible the necessity for compensating actions. There are any number of ways in which a golf club can be brought against the ball in proper alignment. But the simplest way is the way which fails least often.

For this reason, I have always favored a simple turn during the backswing. And in describing the "dipping" of the left shoulder I did not intend to indicate that there should be an exaggeration of the bend of the body. The mere fact that the body is bent forward means that the point of the left shoulder will be lowered and the right raised by a simple turn around the spine as an axis, the head always remaining in its original position.

WOMEN'S TOURNEY TO START MONDAY

Pairings for Southern Golf Meeting at Hot Springs to Be Made Today

HOT SPRINGS, Ark., May 28 (AP)—Pairings for the qualifying rounds of the Women's Southern Golf association's annual tournament will be made by the tournament committee and executive board at 3 p.m. tomorrow.

Mrs. Willard Sullivan of Suffolk, Va., official starter, tonight said there would not be more than 100 players to tee off Monday morning. Entries will be accepted up to the time to tee off.

Completion of the trans-Mississippi women's tournament here today leaves about half the participants in the event on the scene and qualified to compete in the southern.

More than a dozen state champions are here tonight, ready to play a practice round tomorrow in preparation for their entry into the championship flight from which will come the successor to Mrs. Marian Turpie Lake, formerly of New Orleans, whose removed resident to New York has made her ineligible to defend her title.

EAST CARROLL WINS OVER TROJAN BOXERS

TALLULAH, May 28 (Special)—Staging the first inter-scholastic boxing meet ever attempted by a Tallulah high school squad, the Trojans lost a hard match to the Lake Providence high school mitt-slingers Friday night at the East Carroll school, 5 to 3. The two teams will continue their series Friday night when they meet in a 12 bout return card at the Tallulah auditorium. The matches are governed by a simple weight classification.

A two round knockout by Bradley, crack 138-pounded of the Providence team over Massey of the Trojan team featured the night's program of eight fights. The East Carroll fighter carried the fighting to his Trojan opponent throughout the two rounds which the fight lasted.

SMOKIES SIGN KYLE

KNOXVILLE, Tenn., May 28 (AP)—David Kyle, pitcher with the Montgomery, Ala., club of the disbanded Southeastern league, was signed by the management of the Knoxville Smokies today and will join the club in Memphis Sunday. He lives in Houston, Miss. Berlyne Horne, right-handed pitcher, was turned back to Indianapolis.

LETTERS AWARDED L. S. U. TRACKMEN

Coach Moore Prepares Squad for Olympic Tryouts at New Orleans

BATON ROUGE, May 28.—(Special)—Sixteen members of the Louisiana State university track team, Southern conference champions, were awarded letters for their efforts on the track this spring, it is announced by Bernie Moore, coach. And 14 of these 16 sterling athletes will be eligible for varsity competition, giving L. S. U. prospects for the greatest cinder path and field squad the south has ever known.

In addition to the lettermen and other promising varsity squad members, Coach Moore will have available such brilliant youngsters as Slats Hardin, an Olympic prospect, Ted O'Niel, a 49-second quarter miler, and Nathan Blair, an all-around star.

The finest team ever to be assembled below the Mason-Dixon line is expected to be developed at L. S. U. next spring.

Those awarded letters for the 1932 season follow: Eddie Stockwell, Baton Rouge; Bill Lobdell, Baton Rouge; John Boughton, Mangham; John Lehman Kingsport, Tenn.; Specks Moore, Monroe; Foster Holderman, Crowley; Jack Torrance, Oak Grove; Sidney Bowman, Hammond; Bob Powell, Quitman, Ga.; Gladstone Stewart, Jeanerette; Les Peebles, Shreveport; John Schoelgel, New Orleans; Al Moreau, Mansura; George Fisher, Matt Gordy, Abbeville and Forrest Yawn, Merryville.

Of this list only Sidney Bowman, who won the broad jump and tied for fourth in the high jump, and Yawn, who tied for second in the pole vault in the recent conference meet, will be missing next spring.

Such brilliant performers as Moreau, twice winner of the high hurdles; Torrance winner of the shot, Stockwell, winner of the 220-yard dash, and third place man in the century, will be among the mainstays of the 1933 team.

Although practice has been retarded because of the recent incessant rains, Coach Moore plans to get his charges down to serious work this week in preparation for the Olympic tryouts at New Orleans this week-end.

THREE RAYVILLE YOUTHS INJURED IN AUTO MISHAP

RAYVILLE, May 28 (Special)—Hobart Green, Buddy Green, and James Balfour, Rayville youths, were severely injured at 11:30 o'clock tonight when their car was wrecked in a headon collision with a car driven by Mose Wilson, Sicily Island negro, near Delco, six miles south of here.

Hobart Green suffered a badly mangled ankle, and all three were badly bruised. It was thought, after they were given emergency treatment here, the Green brothers would need to be taken to the Monroe sanitarium.

The three said the negro was driving his car at a fast rate of speed on the wrong side of the road. Officers said he appeared to have been under the influence of liquor. He and a woman companion, Alberta McKinley, of Wisner, were being held here by Marshal R. S. Diamond, who said he might file charges against them next week.

METCALFE SETS NEW RECORD IN 220 DASH

CHICAGO, May 28 (AP)—Ralph Metsalfe, Marquette university sprinter, today bettered the world record for the 220-yard dash, racing the distance in 20.4 seconds in a quadrangular meet involving Marquette, Chicago, Illinois, Normal, and Loyola.

The recognized record is 20.6 seconds, set by Roland Locke of the University of Nebraska in 1926.

PIRATES TROUNCE CARDINALS, 8 TO 6

Umpires—Quigley and Reardon. Time of game—1:36.

PROMISING FILLIES IN LASSIE STAKES

CHICAGO, Ill., May 28.—(Special)—The completed roster of the Arlington Lassie stakes, one of the nine major attractions of the impending meeting at Arlington park here, represents most of the outstanding racing establishments and promising juvenile fillies in the country, President Otto Lehmann said today as he announced that 72 young lady thoroughbreds had been kept eligible at the final closing May 16.

With $10,000 added by the Arlington Park Jockey club, the Lassie now has a gross pool of $20,230 and with 15 starters expected to contest over the 6 furlongs distance at $1,000 each, there will be more than $35,000 for distribution to the successful owners and breeders. The winner will receive all but $6,250 of the total value, the second horse getting $2,500, the third $1,500 and $500 to the fourth, while the breeder of the winner will receive $1,000, of the second $500 and of the third $250.

Willis Sharpe Kilmer is the leading nominator with seven eligibles and second to him with six is Cornelius Vanderbilt Whitney, whose Top Flight captured the Lassie last summer and Panasette finished third the previous year. Among the Kilmer eligibles is Mintwina, a half-sister to Sun Edwin, a leading horse in the east for several years. The Whitney sextet include Pooks Hill, a sister to the Hopeful winner Boojum; Pukka Heaven, a half-sister to the ill-fated Red Rag, and Black Sheep, a sister to the Preakness winner Bostonian.

Other leading nominators to the Lassie are Audley farm, William R. Coe, Greentree stable, Morton L. Schwartz, Wheatley stable, Mrs. John Hay Whitney, George D. Widener, Edward R. Bradley. Three D's stock farm, Albert C. Bostwick, Cary T. Grayson, Hal Price Headley, Walter J. Salmon, Northway stable, J. W. Parrish and Middleburg stable.

Many other well-bred and promising fillies are among the Lassie elgibles, such as Knight's Gal, a sister to Gallant

QUOTATION FOR TODAY

To cure is the voice of the past, to prevent the divine whisper of today.

—Kate Douglas Wiggin.

FAIRY TREASURE
By Eleanor Jewett

There is a rush of miners
Every month of May
To dig the fairy gold up
Before it slips away.

But every May it's always
A little bit too late;
The fairy gold is restless
And never will it wait.

The fairy gold comes spilling
In pennies bright and new
Wherever grass is greenest,
To tempt the eyes of you.

It may be dandelions,
Or perhaps a buttercup—
But the children know it's treasure
Of the fairies, growing up!

VACATION

I am leaving my school today,
On the lawn where I used to play,
I am leaving all my playmates today.
I am leaving them on the last of May.

I am leaving my old swinging limb,
I am going off to swim,
I won't be gone very long,
For I will come back and play on the lawn.

I am going to leave good old Egypt school,
But I shall come back in the fall and learn my little rule.

I am leaving my little school desk
It will get a little rest,
I have laid my books aside,
They can no longer be by my side.

MAGGIE ORR.
Egypt School.

OUR HOUSE

Our house is made of paste-board. It is large enough for me to walk in. We have five chairs. We have a little red table. We have three windows in our house. It sits on the floor in our school-room.

JOHNNIE KELLY.
3-B, Lida Benton School.

SUN BONNET BABY

The Sun Bonnet baby has a bonnet on,
She is walking across the lawn.
She has a bouquet of flowers.
She is standing in the spring showers.

ARTHUR RAY,
Egypt School,
Second Grade.

This is Eva Jean Thompson, talented daughter of Mr. and Mrs. W. R. Thompson, whose dancing was one of the outstanding features of Miss Margaret Stovall's dance revue at the Paramount theater.

Mangham, La.,
May 12, 1932.

Dear Friend Jack: I am going to Washington, D. C. for my vacation this summer. I am going by air. Oh, what fun it will be to fly high up the sky. I wish you could come with me. I am going to stay all summer. Just think of the beautiful scenes I shall see. I shall have a delightful time.

I am going to the White House where the president of the United States lives. I am going to the buildings made of marble. I am going to all the wonderful buildings. Then I will get in my airplane and fly over the whole district to see the general view of all the city. When I come back I will tell you more about my vacation.

Your friend,
C. J. PYDER.

MY PUPPIES

I have six puppies that I am going to train to hunt. When they get big enough to hunt, I will train them to hunt rabbits, opossums, coons, fox and other animals. Then I will have them hunting as well as any dogs.

MATTHEW TAYLOR,
Fourth Grade,

BEER.

Way down south here,
Where we had such good beer,
Prohibition came so near
To bring back that beer;
But if they had
It would have been bad.

BILLY WRIGHT.
6-B, Central Grammar School.

'POOR.'
By Billy Dean Wainwright,
6-B, Central Grammar School.

I have me a mother
She is very poor;
She it wouldn't be long
Before she would hit the floor.

I told her not to worry,
I would love her just the same,
When the door flew open
And in Daddy came.

He said, "Hello, Mother and Sonny,
How are you?
I know you are crying
Because you are blue."

"But don't you worry a bit,
Because I going to say
That I am so happy
Because I just received my pay."

GOODBY TO SCHOOL DAYS.

Goodby, my dear old oak tree,
Which made my swings and shade for me.
Goodby to the books and play,
You shall rest three months and a day;
The trees and the brooks are calling for me,
A comrade to them I'll be.
I'll tell them about you, dear oak tree,
What a delightful time you had with me;
But I shall come back in the hall
When I hear your echoing call.
Then we shall be comrades just as before,
Then we will not want to sleep any more,
But we will be as happy as before.

C. D. RYDER,

THE BEES

The bees gives us honey.
We sell it for money.
He works fast among the flowers,
And gets wet with all the spring showers.

SAM DUNCAN,
Egypt School,
Second Grade.

MAY DAY

We had a queen on May Day. We played and danced and sang. Our friends and mothers saw us play and heard the songs we sang.

CHARLES TOWNLEY,
1-A Grade, Central School.

MY CHICKEN

One day I bought seven eggs to set. I set the eggs that day. Do you know what? In three weeks I had one little chicken. At last my little chicken had feathers on his back. The rest of his body was exposed to the sun. I was afraid I'd have to make him a suit to wear in order to keep him from blistering from the hot sun. My chicken is so little until I laugh whenever I see him.

WILLIAM STEEL,
Fourth Grade,
Farmerville, La.

ADVENTURES IN THE WOODS

Last summer my friends and I took our dolls and went walking in the woods. As we were walking and talking we heard a queer noise which made us jump.

A mother rabbit and her young ones were running around trying to get out of the way of a snake.

We picked up a stick and when he saw us he ran away. We were surely glad he did, because we were afraid he would bite us.

CLARICE NYEGAARD,
Fourth Grade,
Farmerville School.

MY DOG

Last Christmas a dog came to the house. He was poor when he came. But no one claimed him. So I kept him and fed him. Now the puppy is large and fat. He is a good dog.

BABY CONTEST

—Photos by Griffin Studios

The babies shown above were among the first entries in the Grotto "Better Baby" health contest, conducted by Teflis Grotto." The babies shown above are: First row, left to right: Jane Birdsong, daughter of Mr. and Mrs. J. H. Birdsong, 2709 South Grand street; Luther Ross Bond, son of Mr. and Mrs. M. A. Bond, 111 Richmond street; James Loftin Reagon, son of Mr. and Mrs. J. Reagan, 404 Pine street. Second row, left to right: Eddice Marie Ballard, daughter of Mr. and Mrs. Louie Ballard, 305 South Second street; Beverly Glyn Martin, daughter of Mr. and Mrs. B. B. Martin, 1112 South Second street; Jeanine Watson, daughter of Mr. and Mrs. W. W. Watson, 2209 South Grand street. Third row, left to right: Eyvonne Tolar, daughter of Mr. and Mrs. N. E. Tolar, 101 Cotton street, West Monroe; Charley Mack Flynn, son of Mr. and Mrs. Sidney Flynn, 216 Ouachita avenue; Bobby Polk, son of Mr. and Mrs. R. F. Polk, 211 Jefferson street. Fourth row, left to right: Jack Cobb, son of Mr. and Mrs. Ike Cobb, 316 South First street; Beth Wood, daughter of Mr. and Mrs. F. M. Wood, 1002 South Third street; E. N. London, Jr., son of Mr. and Mrs. E. N. London, 118 Louise Anne avenue.

Jimmy Phelps, handsome young son of Mr. and Mrs. James Phelps who entertained his young playmates with a party on his fourth birthday anniversary May the twenty-fourth.

A RUNAWAY

One day a boy asked two girls he knew if they would keep his horse for him. They said they would. So he gave it to the girls, and then went off. When he had gone, the girls decided to take a ride. One girl got in the saddle, and the other got behind it.

One of the girls had on a large hat. When they started going fast the hat blew off and scared the horse. The horse started running fast. The girls could not stop him, but could guide him. So they guided toward their house. When they got there her father came out and stopped the horse. When the girls got off they said they would never ride a horse without permission.

RONALD COTTINGHAM,
City Grmamar School, 6-B Grade.

A TURTLE

One day last summer the B. Y. P. U. were to have a picnic. On the way a boy found a turtle.

When we reached the place Mrs. Jones told us not to let the turtle bite us.

It was sitting on a stump, the turtle caught hold of my clothes. I jumped up and cried "the turtle bit me." The class laughed at me.

SAM BENNETT HICKS.
Farmerville School,

MAY'S SUNSHINE.

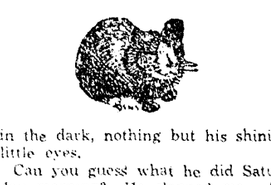

An odor in the air so clear,
That's how we know May is here.
A golden bloom on peach and pear,
And the beautiful sunshine everywhere.

A world of leaves, a green haze,
Also the meadow where the cattle graze.
What makes May's days so fair?
Because the beautiful sunshine is everywhere.

LUCILLE ROY.
3rd Grade, Egypt School.

THE BABY CUB

Once there was a baby cub whose mother went away from him. The cub had to find his own food in the woods. One day he went to a house

and no one was there. He went to another house. He knocked on the door and an old lady came to the door and let the cub in. The cub liked jam, so the lady gave him some jam for supper every night.

JAMES EVERETT,
Fourth Grade, Farmerville, La.

THE DUTCH HOUSE

The boys in our room made a little Dutch house. We colored tiles. We put them on a little Dutch stove. Then we made a little red table. Some boys in the 3-A made some little chains. Then we made a little Dutch bed. We colored pictures on some little dishes. Then we made a little Dutch cabinet. We made some curtains. Then we made a little churn. We made a little cradle. We made a foot-warmer.

NELLIE ST. CYR,
3-B, Lida Benton.

FATHER

Father's birthday is very near, but I don't think he knows it. I love to play surprises on him for it makes him very happy. It makes me happy, too, to know that he enjoys it. Father loves me very much, and I love him just as much.

ELIZABETH REYNOLDS,
Central Grammar School, Grade 6-B.

MY PET

I have a pet cat as black as Pennsylvania's coal. I can't see him at all

in the dark, nothing but his shining little eyes.

Can you guess what he did Saturday morning? He slapped me. Although it didn't hurt I pretended to cry, and he retreated to the darkest corner of the house and stayed all day.

STARLINE BRANTLEY.
Fourth Grade, Farmerville School.

VACATION.

Vacation time isn't here,
But it is very near.
And I can go and see the marks
Where there are many, many larks.

I will go to California for my vacation
And visit the beautiful orange plantation.
I will see them drying the peaches,
And what the snow-capped mountain reaches.

Far to the north, far to the south,
Right at the end of the river's mouth,
I can see the bubbling fountain
At the foot of the mountain.

CLOYSE RYDER,
4th Grade, Egypt School.

WHITE BUNNIE'S DAY OFF

It was an extremely gorgeous day in spring when the beautiful green grass covered the meadow, and the bird's melody bounced over the countryside. All this made White Bunnie want to go out in the country and nibble the beautiful green grass, but he could not get out of the cage. He

pushed harder and harder on the box until it fell to pieces. He got out of the box and slipped out of the yard into the meadow. When White Bunnie slipped into the meadow he became frightened. He saw boys playing ball and he knew his master, Bob, was there. He thought it was best for him to go back to his cage. But how can I get back he thought again and again. Soon he saw a boy coming across the meadow. It was Bob. White Bunnie followed Bob, white Bunnie was soon found at his summer home again. He never ran away again.

LUCILLE ROY.
Egypt School, Third Grade

We would like to introduce you to Ralph Holden Marionneaux, six-month-old son of Mr. and Mrs. Marionneaux and grandson of Mr. and Mrs. F. C. Holden. Ralph's mother was the lovely Mary Belle Holden.

MY SUMMER'S VACATION.

Goodby to the gorgeous woodland
That the wind sings through each day,
Goodby to the little birds
That sing us a little lay.

Goodby to the meadows
Where the cattle always graze.
Goodby to the little bird's nest by the window,
Goodby eggs that the mother bird lays.

Off from the country to the city I will go,
Goodby to the whistling winds that blow.

LUCILLE ROY.
3rd Grade, Egypt School

Here is a lovely little story and we hope you will like it. It's all about an old half starved horse. Some of the finest stories in the world are about animals. Some of these stories have been made up by clever tale-tellers, and others tell about animals that really live. Some of the stories were written ages and ages ago and therefore we can't say which are really true and which are made up.

Nevertheless true or untrue they are all interesting. This story is said to be true and the name is

THE BELL OF ATRI.

In Atri, a town in Italy, there lived long ago a very rich man who was the governor of the town. He was loved by all the people of Atri, not because he was rich, but because his heart was kind and true.

Now many of the people of Atri were poor and times were often hard. Some times the crops failed, and then the people had very little food to eat, the mothers and fathers grew sick and thin, and the platters of the children were empty.

Now the good governor of Atri thought much about his people, and when they suffered hardship and hunger his heart was moved to great pity.

And so he built a little tower outside his castle and in the tower he put a bell. From this bell a long rope hung down almost to the ground.

Then the governor made it known to the people that whoever was in trouble, sick or hungry, need only ring the bell and help would be given to them.

And so for many years the hungry came and rang the bell and were fed; the sick rang and were healed; the unhappy rang and were comforted.

MRS. MOUSE'S WARNING

They say this year that Mrs. Mouse
Inside a shoe is keeping house.

And when she goes to get some cheese
She says: "Be careful, children, please,
"If Puss comes near our shoe, you know,
You all must hide down in the toe.

"Be sure to pull your tails in, too,
And keep your squeaks inside of you."

45th Anniversary Year

Service As You Like It

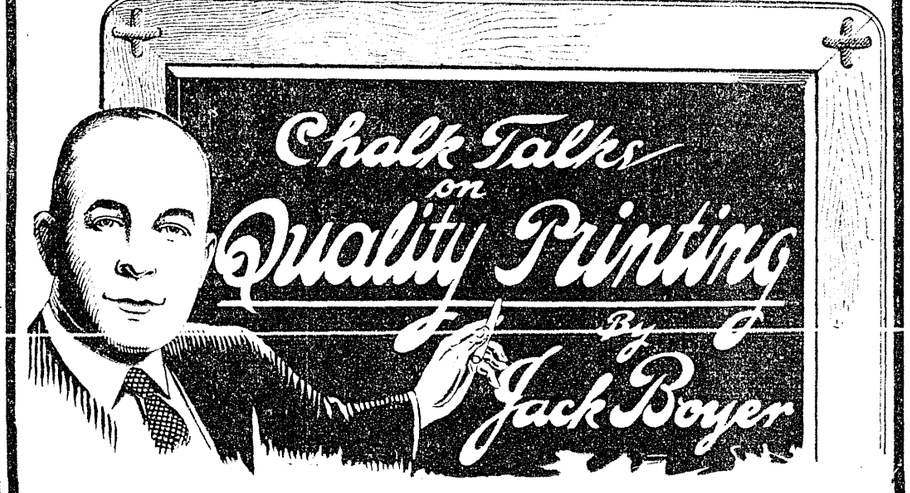

When the Ouachita National Bank serves you it thinks first of what YOU want so that it may give you service as you like it.

This institution, which has served the community along conservative banking lines for forty-five years, believes that first of all you want SAFETY for your money. And it knows that this safety is assured not only by the bank's Capital and Surplus of $900,000.00 but also by what it does for customers and HOW IT DOES IT.

The Ouachita National Bank's service is personal. Although a busy bank, it is not too large to know you. Here you can have the officers' special attention whenever you want it.

The Ouachita National Bank
OF MONROE, LOUISIANA
"A GREATER BANK FOR A GREATER MONROE"

"Making Up"

As soon as the corrections as indicated on the proof have been made, the type is made up into pages or forms, as the case may require. The proof for folders, booklets, catalogs and other publications when made up of considerable matter is usually cut and made up into a dummy as a guide for the make-up man to follow. The proof, when trimmed and made into a dummy, should be carefully marked with the galley numbers that the compositor may have no difficulty in locating the material in case there are several galleys.

The page or small form is made up on a wide galley, known as a job galley, which has been placed on a stand or rack in an inclined position, and after the form has been completed it is tied up with string or a special tying device and slid off on the imposing stone.

The page or form is again inked and a page proof is taken while the form is still on the galley, or a "stone proof" may be taken with planer and mallet after the form has been placed on the stone.

(Next Week—IMPOSITION).

I have a pet cat as black as Pennsylvania's coal. I can't see him at all

in the dark, nothing but his shining little eyes.

Can you guess what he did Saturday morning? He slapped me. Although it didn't hurt I pretended to cry, and he retreated to the darkest corner of the house and stayed all day.

STARLINE BRANTLEY,
Fourth Grade, Farmerville School.

VACATION.

Vacation time isn't here,
But it is very near.
And I can go and see the marks
Where there are many, many larks.

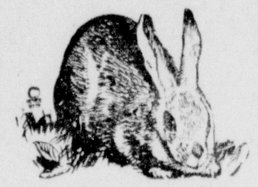

I will go to California for my vacation
And visit the beautiful orange plantation,
I will see them drying the peaches,
And what the snow-capped mountain reaches.

Far to the north, far to the south,
Right at the end of the river's mouth,
I can see the bubbling fountain
At the foot of the mountain.

CLOYSE RYDER,
4th Grade, Egypt School.

WHITE BUNNIE'S DAY OFF

It was an extremely gorgeous day in spring when the beautiful green grass covered the meadow, and the bird's melody bounced over the countryside. All this made White Bunnie want to go out in the country and nibble the beautiful green grass, but he could not get out of the cage. He

pushed harder and harder on the box until it fell to pieces. He got out of the box and slipped out of the yard into the meadow. When White Bunnie slipped into the meadow he became frightened. He saw boys playing ball and he knew his master, Bob, was there. He thought it was best for him to go back to his cage. But how can I get back he thought again and again. Soon he saw a boy coming across the meadow. It was Bob. White Bunnie followed Bob, white Bunnie was soon found at his summer home again. He never ran away again.

LUCILLE ROY,
Egypt School, Third Grade

We would like to introduce you to Ralph Holden Marionneaux, six-month-old son of Mr. and Mrs. Marionneaux and grandson of Mr. and Mrs. F. C. Holden. Ralph's mother was the lovely Mary Belle Holden.

MY SUMMER'S VACATION.

Goodby to the gorgeous woodland
That the wind sings through each day,
Goodby to the little birds
That sing us a little lay,

Goodby to the meadows
Where the cattle always graze,
Goodby to the little bird's nest by the window,
Goodby eggs that the mother bird lays.

Off from the country to the city I will go,
Goodby to the whistling winds that blow.

LUCILLE ROY,
3rd Grade, Egypt School.

Here is a lovely little story and we hope you will like it. It's all about an old half starved horse. Some of the finest stories in the world are about animals. Some of these stories have been made up by clever tale-tellers, and others tell about animals that really live. Some of the stories were written ages and ages ago and therefore we can't say which are really true and which are made up.

Nevertheless true or untrue they are all interesting. This story is said to be true and the name is

THE BELL OF ATRI.

In Atri, a town in Italy, there lived long ago a very rich man who was the governor of the town. He was loved by all the people of Atri, not because he was rich, but because his heart was kind and true.

Now many of the people of Atri were poor, and times were often hard. Some times the crops failed, and then the people had very little food to eat, the mothers and fathers grew sick and thin, and the platters of the children were empty.

Now the good governor of Atri thought much about his people, and when they suffered hardship and hunger his heart was moved to great pity.

And so he built a little tower outside his castle, and in the tower he put a bell. From this bell a long rope hung down almost to the ground.

Then the governor made it known to the people that whoever was in trouble, sick or hungry, need only ring the bell and help would be given to them.

And so for many years the hungry came and rang the bell and were fed; the sick rang and were healed; the unhappy rang and were comforted.

MRS. MOUSE'S WARNING

They say this year that Mrs. Mouse
Inside a shoe is keeping house.

And when she goes to get some cheese
She says: "Be careful, children, please.
"If Puss comes near our shoe, you know,
You all must hide down in the toe.

"Be sure to pull your tails in, too,
And keep your squeaks inside of you."

45th Anniversary Year

Service As You Like It

When the Ouachita National Bank serves you it thinks first of what YOU want so that it may give you service as you like it.

This institution, which has served the community along conservative banking lines for forty-five years, believes that first of all you want SAFETY for your money. And it knows that this safety is assured not only by the bank's Capital and Surplus of $900,000.00 but also by what it does for customers and HOW IT DOES IT.

The Ouachita National Bank's service is personal. Although a busy bank, it is not too large to know you. Here you can have the officers' special attention whenever you want it.

CLASSIFIED ADS

"Making Up"

As soon as the corrections as indicated on the proof have been made, the type is made up into pages or forms, as the case may require. The proof for folders, booklets, catalogs and other publications when made up of considerable matter is usually cut and made up into a dummy as a guide for the make-up man to follow. The proof, when trimmed and made into a dummy, should be carefully marked with the galley numbers that the compositor may have no difficulty in locating the material in case there are several galleys.

The page or small form is made up on a wide galley, known as a job galley, which has been placed on a stand or rack in an inclined position, and after the form has been completed it is tied up with string or a special tying device and slid off on the imposing stone.

The page or form is again inked and a page proof is taken while the form is still on the galley, or a "stone proof" may be taken with planer and mallet after the form has been placed on the stone.

(Next Week—IMPOSITION).

STOCKS SQUEEZE AN AVERAGE NET GAIN OUT OF TRADING

Saturday's Short Session Is Fairly Active, After Early Decline Deposits Several of Leading Issues in New Low Grounds; Foreign Exchanges Make Another Advance Against Dollars, Some Rates Soaring Sharply.

By John L. Cooley
(Associated Press Financial Writer)

NEW YORK, May 28 (AP)—Stocks squeezed an average net gain out of today's fairly active short session after an early decline had deposited many leaders into new low ground.

Foreign exchanges made another advance against dollars, some rates rising sharply. Bonds were weak, especially in rail and utility sections, and their action lent strength to the assumption that the late gain in stocks was of a technical nature.

Offerings brought numerous losses of 1 to 2 points during the first half hour, with tobaccos, merchandising issues showing most weakness. There was, however, fairly good support for U. S. Steel, American Can, General Motors and a few other stalwarts, which may have had something to do with the gradual lessening of pressure.

Both steel and can closed with fractional gains; so did Allied Chemical, Dupont, National Biscuit, Case, North American, Santa Fe and Westing-touching 90 3-4, regained all but 1-4 of it 1 1-4 point drop, while American Tobacco, Liggett & Myers, Woolworth, Consolidated Gas and Penney recovered appreciably. Transactions totaled 672,363 shares.

Little or nothing of interest developed in weekend trade news. Steel mill activity may be due for further curtailment, although Youngstown mills begin next week on a 25 per cent operating schedule, unchanged. Ford's activity for June promises to be on a larger scale than in May; otherwise there is likely to be some shading of demand for automobile materials.

By Victor Eubank
(Associated Press Financial Writer)

NEW YORK, May 28 (AP)—The feeble bond market again failed to sit up and take nourishment today, and, for the seventh consecutive session, the averages dropped into new low territory for the year.

The utilities finished the week by ousting the railways as leaders of the decline. The average for 20 principal utilities lost nine-tenths of a point while that for the same number of carriers was off only two-tenths. The industrials held up fairly week, being only slightly under the previous close. Sales totaled $5,847,000 par value.

Several bonds of American Telephone and International Telephone record lows for 1932. Western Unions were also soft. At the same time Consolidated Gas 4 1-2 reached new year's depths and softness was exhibited by loans of Columbia Gas, American & Foreign Power, New York Edison, North American Edison, Portland General Electric and Utility Power and Light.

Most of the railroads were under pressure until the latter part of the session when mild rallying tendencies appeared. St. Louis Southwestern Consolidated 4s, due next Wednesday, added 8 points to their spurt of yesterday, but reacted and closed unchanged.

Gains were registered by some loans of Canadian National, Chicago & Northwestern, Illinois Central, Kansas City Southern, New York Central, New Haven, St. Louis Southwestern and Southern. Sizeable losses, however, were suffered by loans of Baltimore & Ohio, Santa Fe, Chesapeake & Ohio, St. Paul, Great Northern, Northern Pacific, Pennsylvania, Southern Pacific, Union Pacific and Wabash.

The United States government section was fairly steady. Foreign issues were mixed. Austrian 7s of 1949 lost 7 and the 7s of 1957 gained 1 1-4 points. British 5 1-2s were unchanged. German 7s were moderately higher but the 5 1-2s 1 ost 1 1-2 points. Japanese government loans reached new low depths for the year.

MARKETS AT A GLANCE

NEW YORK, May 28.—(AP)—Stocks, irregular; early liquidation checked. Bonds, easy; utilities heavy. Curb, irregular; Cities Service and Swift issues weak. Foreign exchanges, firm, gold currencies advance. Cotton, lower; holiday liquidation. Sugar and coffee, holiday.

CHICAGO.—Wheat, steady; good export sales; firm close Liverpool. Corn, steady; forecast frost Iowa; steady cash market. Cattle, dull. Hogs, steady to lower.

NEW YORK COTTON MARKET IS QUIET

Slight Opening Advance Recorded Saturday

CABLES MOSTLY STEADY

General Net Loss of 1 Point at Closing

NEW YORK, May 28 (AP)—Trading in cotton was quiet today, with a slight opening advance on relatively steady Liverpool cables followed by declines under some liquidation and scattered selling.

The opening was steady at an advance of 2 to 3 points and some selling developed after the call which appeared to be partly for foreign account and which may have included some further selling through brokers with southern mill connections. The market worked off to net losses of 4 or 5 points on the more active positions during the middle of the morning. December declined from 5.94 to 5.87. The market was a shade steadier in the late trading and closing quotations were 2 to 3 points up from the lowest on most positions with July contracts closing at 5.51, and the general market closing steady at a net decline of 1 point on all positions.

Liverpool cables said that trade calling had absorbed hedging and liquidation in that market. The amount of cotton on shipboard awaiting clearance at the end of the week was estimated at 110,000 bales against 75,000 last year.

PRODUCE

Louisiana Produce

NEW ORLEANS, May 28.—(AP)—(USDA)—Tomatoes and cauliflower were slightly weaker today but other lines held about steady. Lug boxes of Texas tomatoes sold $2.10-2.90 and cauliflower was reported at $1.75 per crate. Louisiana celery sold $2.00-2.25 per half crate. Texas corn brought $2.25-3.00 per bushel while Louisiana corn brought $3.00 per hundred ears. Iceberg lettuce sold $3.65-3.75 per crate of 5 dozen heads.

Snap beans ranged 20-50c per bushel; squash 25-30c and cucumbers 75c-1.25. Beets sold 10-20c; carrots 15-25c and turnips 25-30c per dozen bunches. Cabbage ranged 75c-1.00 per dozen heads. Celery sold 40-50c per dozen stalks. Garlic continued at 25c-1.00 per double string.

Potatoes from Maine ranged $1.40-1.50 per 100 lb sack while Louisiana upgraded Bliss Triumphs sold $1.00-1.75. Unclassified Creole onions sold $1.25-1.75 per cwt. Sweet potatoes were unchanged with partly graded Porto Ricans selling 60-1.00 per cwt.

Strawberries sold 75c-1.00 per 24-pint crate. Pineapples brought $1.75 per crate. Cantaloupes ranged $2.75-4.00 per crate of 45 melons. Watermelons averaging 26 pounds sold 60-65c per melon. Fancy Delicious apples brought $2.25-2.50 per box while Winesap sold $1.50-1.65.

Friday Louisiana shipped 28 cars potatoes, 5 cars cabbage, 4 mixed vegetables, 3 cars sweet potatoes, 3 cars snap beans, 1 car tomatoes and 1 car of celery.

Friday Mississippi shipped 17 cars tomatoes, 12 cars cabbage, 4 cars snap beans, 1 car potatoes, 18 cars mixed vegetables.

Potatoes

CHICAGO, May 28.—(AP)—(U. S. Dept. Agric.)—Potatoes 95 on track 137 old, 56 new, total U. S. shipments 755; firm on Wisconsin, dull on other stock, supplies liberal, demand slow; sacked per cwt. Wisconsin round whites U. S. no. 1 80-90; some 95; Idaho russets 1.70-15 few higher; new stock slightly weaker supplies liberal, demand slow; Louisiana, Texas, Alabama bliss triumphs no. 1, 2.50-60; trieated and dirty 2.00-25.

LIVESTOCK

Chicago Livestock

CHICAGO, May 28.—(AP)—(USDA)—Cattle 200; compared week ago fed steers and long yearlings steady to strong. Vealers gained 25-50 cents; stocker and feeder cattle more active, fully steady; extreme top 7.65; practical top 7.50 on weighty bullocks; 7.25 on yearlings. Good to choice 115-150 lbs. vealers late 5.50-6.50.

Sheep 5,000; today's market nominal; for week ending Friday 42 doubles from feeding stations, 40,200 direct; fed clipped lambs 4.50-5.00; few 5.25; average weight mostly 86-92 lbs. good to choice woolskins 4.50-75; best 5.10; desirable native springers 5.75-6.25; few 6.40.

Hogs 6,000, including 5,000 direct; quality plain; steady to 10 lower; best available 3.30; 260-280 lbs. 3.10-15; medium to good underweights 2.50-3.00; packing sows 2.40-75; compared week ago 10-25 lower. Medium weights 200-250 lbs. 3.15-40 normal; heavy weights 250-350 lbs. 3.00-20; packing sows, medium and good 275-500 lbs. 2.40-90; pigs, good and choice 100-150 lbs. 2.60-3.00.

FINANCES

Foreign Exchange

NEW YORK, May 28.—(AP)—Foreign exchange firm; Great Britain in dollars, others in cents. Great Britain demand 3.70 1-2, cables 3.70 5-4; 60 day bills 3.69; France demand 3.94 15-16; cables 3.95, Italy demand 5.13 3-4; cables 5.14 1-4.

Demands: Belgium 14.05; Germany 23.74; Holland 40.57; Norway 19.49; Sweden 18.99; Denmark 20.28; Switzerland 19.59 1-2; Spain 8.27; Portugal 3.35; Greece .65 1-2; Poland 11.30; Czechoslovakia 2.97; Jugoslavia 1.76; Austria 13.99; Rumania .59 3-4; Argentine 25.79; Brazil 7.52; Tokyo 31.81 1-2; Shanghai 30.62 1-2; Montreal 88.00; Mexico City (silver peso) 29.90.

Note—Demand rates are nominal.

ORLEANS COTTON TRADE MODERATE

Market Opens Fir

STOCKS SQUEEZE AN AVERAGE NET GAIN OUT OF TRADING

Saturday's Short Session Is Fairly Active, After Early Decline Deposits Several of Leading Issues in New Low Grounds; Foreign Exchanges Make Another Advance Against Dollars, Some Rates Soaring Sharply.

By John L. Cooley
(Associated Press Financial Writer)

NEW YORK, May 28 (AP)—Stocks squeezed an average net gain out of today's fairly active short session after an early decline had deposited many leaders into new low ground.

Foreign exchanges made another advance against dollars, some rates rising sharply. Bonds were weak, especially in rail and utility sections, and their action lent strength to the assumption that the late gain in stocks was of a technical nature.

Offerings brought numerous losses of 1 to 2 points during the first half hour, with tobaccos, merchandising issues showing most weakness. There was, however, fairly good support for U. S. Steel, American Can, General Motors and a few other stalwarts, which may have had something to do with the gradual lessening of pressure.

Both steel and can closed with fractional gains; so did Allied Chemical, Dupont, National Biscuit, Case, North American, Santa Fe and Westinghouse touching 90 3-4, regained all but 1-4 of it 1 1-4 point drop, while American Tobacco, Liggett & Myers, Woolworth, Consolidated Gas and Penney recovered appreciably. Transactions totaled 672,363 shares.

Little or nothing of interest developed in weekend trade news. Steel mill activity may be due for further curtailment, although Youngstown mills begin next week on a 25 per cent operating schedule, unchanged. Ford's activity for June promises to be on a larger scale than in May; otherwise there is likely to be some shading of demand for automobile materials.

By Victor Eubank
(Associated Press Financial Writer)

NEW YORK, May 28 (AP)—The feeble bond market again failed to sit up and take nourishment today, and, for the seventh consecutive session, the averages dropped into new low territory for the year.

The utilities finished the week by ousting the railways as leaders of the decline. The average for 20 principal utilities lost nine-tenths of a point while that for the same number of carriers was off only two-tenths. The industrials held up fairly week, being only slightly under the previous close. Sales totaled $5,847,000 par value.

Several bonds of American Telephone and International Telephone record lows for 1932. Western Unions were also soft. At the same time Consolidated Gas 4 1-2 reached new year's depths and softness was exhibited by loans of Columbia Gas, American & Foreign Power, New York Edison, North American Edison, Portland General Electric and Utility Power and Light.

Most of the railroads were under pressure until the latter part of the session when mild rallying tendencies appeared. St. Louis Southwestern Consolidated 4s, due next Wednesday, added 8 points to their spurt of yesterday, but reacted and closed unchanged.

Gains were registered by some loans of Canadian National, Chicago & Northwestern, Illinois Central, Kansas City Southern, New York Central, New Haven, St. Louis Southwestern and Southern. Sizeable losses, however, were suffered by liens of Baltimore & Ohio, Santa Fe, Chesapeake & Ohio, St. Paul, Great Northern, Northern Pacific, Pennsylvania, Southern Pacific, Union Pacific and Wabash.

The United States government section was fairly steady. Foreign issues were mixed. Austrian 7s of 1943 lost 7 and the 7s of 1957 gained 1 1-4 points. British 5 1-2s were unchanged, German 7s were moderately higher but the 5 1-2s 1 ost 1 1-2 points. Japanese government loans reached new low depths for the year.

LIVESTOCK

Chicago Livestock

CHICAGO, May 28.—(AP)—(USDA)—Cattle 200; compared week ago fed steers and long yearlings steady to strong. Vealers gained 25-50 cents; stocker and feeder cattle more active, fully steady; extreme top 7.85; practical top 7.50 on weighty bullocks; 7.25 on yearlings. Good to choice 115-150 lbs. vealers late 5.50-6.50.

Sheep 5,000; today's market nominal; for week ending Friday 42 doubles from feeding stations, 40,800 direct; fed clipped lambs 4.50-5.00; few 5.25; average weight mostly 80-92 lbs. good to choice woolskins 4.50-75; best 5.10; desirable native springers 5.75-6.25; few 6.40.

Hogs 6,000, including 5,000 direct; quality plain; steady to 10 lower; best available 3.30; 260-280 lbs. 310-15; medium to good underweights 2.50-3.00; packing sows 2.40-75; compared week ago 10-25 lower. Medium weights 200-250 lbs. 3.15-40; nominal; heavy weights 250-350 lbs. 3.00-20; packing sows, medium and good 275-500 lbs. 2.40-90; pigs, good and choice 100-130 lbs. 2.60-3.00.

FINANCES

Foreign Exchange

NEW YORK, May 28.—(AP)—Foreign exchange firm. Great Britain in dollars, others in cents. Great Britain demand 3.70 1-2; cables 3.70 3-4; 60 day bills 3.69; France demand 3.94 15-16; cables 3.95; Italy demand 5.13 3-4; cables 5.14 1-4.

Demands: Belgium 14.03; Germany 23.74; Holland 40.57; Norway 18.49; Sweden 18.99; Denmark 20.29; Switzerland 19.59 1-2; Spain 8.27; Portugal 3.35; Greece .65 1-2; Poland 11.30; Czechoslovakia 2.97; Jugoslavia 1.78; Austria 13.99; Rumania .59 3-4; Argentine 25.79; Brazil 7.53; Tokyo 31.81 1-2; Shanghai 30.62 1-2; Montreal 88.00; Mexico City (silver peso) 29.90.

Note—Demand rates are nominal.

MARKETS AT A GLANCE

NEW YORK, May 28.—(AP)—Stocks, irregular; early liquidation checked. Bonds, easy; utilities heavy. Curb, irregular; Cities Service and Swift issues weak. Foreign exchanges, firm, gold currencies advance. Cotton, lower; holiday liquidation. Sugar and coffee, holiday.

CHICAGO.—Wheat, steady; good export sales; firm close Liverpool. Corn, steady; forecast frost Iowa; steady cash market. Cattle, dull. Hogs, steady to lower.

NEW YORK COTTON MARKET IS QUIET

Slight Opening Advance Recorded Saturday

CABLES MOSTLY STEADY

General Net Loss of 1 Point at Closing

NEW YORK, May 28 (AP)—Trading in cotton was quiet today, with a slight opening advance on relatively steady Liverpool cables followed by declines under some liquidation and scattered selling.

The opening was steady at an advance of 2 to 3 points and some selling developed after the call which appeared to be partly for foreign account and which may have included some further selling through brokers with southern mill connections. The market worked off to net losses of 4 or 5 points on the more active positions during the middle of the morning. December declined from 5.94 to 5.87. The market was a shade steadier in the late trading and closing quotations were 2 to 3 points up from the lowest on most positions with July contracts closing at 5.51, and the general market closing steady at a net decline of 1 point on all positions.

Liverpool cables said that trade calling had absorbed hedging and liquidation in that market. The amount of cotton on shipboard awaiting clearance at the end of the week was estimated at 110,000 bales against 75,000 last year.

PRODUCE

Louisiana Produce

NEW ORLEANS, May 28.—(AP)—(USDA)—Tomatoes and cauliflower were slightly weaker today but other lines held about steady. Lug boxes of Texas tomatoes sold $2.10-2.90 and cauliflower was reported at $1.75 per crate. Louisiana celery sold $2.00-2.25 per half crate. Texas corn brought $2.25-3.00 per bushel while Louisiana corn brought $3.00 per hundred ears. Iceberg lettuce sold $3.65-3.75 per crate of 5 dozen heads.

Snap beans ranged 20-50c per bushel; squash 25-30c and cucumbers 75c-1.25. Beets sold 10-20c; carrots 15-25c and turnips 25-30c per dozen bunches. Cabbage ranged 75c-1.00 per dozen heads. Celery sold 40-50c per dozen stalks. Garlic continued at 25c-1.00 per double string.

Potatoes from Maine ranged $1.40-1.50 per 100 lb. sack while Louisiana ungraded Bliss Triumphs sold $1.00-1.75. Unclassified Creole onions sold $1.25-1.75 per cwt. Sweet potatoes were unchanged with partly graded Porto Ricans selling 60-1.00 per cwt.

Strawberries sold 75c-1.00 per 24-pint crate. Pineapples brought $1.75 per crate. Cantaloupes ranged $2.75-4.00 per crate of 45 melons. Watermelons averaging 26 pounds sold 60-65c per melon. Fancy Delicious apples brought $2.25-2.50 per box while Winesap sold $1.50-1.85.

Friday Louisiana shipped 28 cars potatoes, 5 cars cabbage, 4 mixed vegetables, 3 cars sweet potatoes, 3 cars snap beans, 1 car tomatoes and 1 car of celery.

Friday Mississippi shipped 17 cars tomatoes, 13 cars cabbage, 4 cars snap beans, 1 car potatoes, 18 cars mixed vegetables.

Potatoes

CHICAGO, May 28.—(AP)—(U. S. Dept. Agri.)—Potatoes 95 on track 157 old, 56 new, total U. S. shipments 755; firm on Wisconsin, dull on other stock, supplies liberal, demand slow; sacked per cwt. Wisconsin round whites U. S. no. 1 80-90; some 95; Idaho russets 1.10-15, few higher; new stock, slightly weaker, supplies liberal demand slow; Louisiana, Texas, Alabama bliss triumphs no. 1, 2.50-60; heated and dirty 2.00-25.

ORLEANS COTTON TRADE MODERATE

Market Opens Firmer, on Good Cables

GAINS 1 TO 2 POINTS NET

Prices Fluctuate Only Very Narrowly

NEW ORLEANS, May 28 (AP)—Cotton was only moderately active today, trading being in a measure affected by the impending holiday in New York on Monday. Prices fluctuated narrowly and without definite trend, closing steady at net gains for the day of 1 to 2 points.

The market opened firmer on good cables. Liverpool came in 2 to 3 penny points better than due and private cables stated that trade calling absorbed the hedging and there was some liquidation. Manchester reported the market slow with traders lacking confidence in current prices. First trades here showed gains of 4 points and July gained an additional point after the start to 5.57.

The market soon turned easier owing to early weakness in stocks and in the second and final hour made lows for the day of 5.50 for July and 5.70 for October or 7 points down from the highs and 2 to 3 points under yesterday's close.

In the late trading the market rallied 4 points on weekend covering and July closed at 5.54 and October at 5.75 or 1 to 2 points net higher for the day on those active months.

Port receipts 4093, for season 9,667,831, last season 8,821,464. Exports

TAXPAYERS' GROUP IN LINCOLN PARISH RAPS LAWMAKERS

(Continued from First Page)

to the legislature. This, it was asserted, would have placed the legislature in the position of conducting a probe.

"His second resolution, which I understand has not yet been acted upon, would merely ask that the secretary of state submit to the legislature reports from each department, which under the law they are required to submit to him at stated intervals.

"The second resolution, to my mind, is more reasonable and just and I believe it should be approved by the legislature."

Referring to his statement which appeared in Monday morning's edition of The World, Mr. Fields stated that he had received letters of approbation concerning his proposals for economy in government from Alexandria, Shreveport, Ruston and other north Louisiana towns.

He expressed approval of R. D. Swayze's action last week in announcing a voluntary cut in his own salary as being in line with suggestions in the Monday statement that the higher paid officials voluntarily reduce their own pay as a patriotic move.

Lindy Case

John Hughes Curtis Will Face Trial for Perpetrating Hoax

FLEMINGTON, N. J., May 28 (AP)—John Hughes Curtis of Norfolk will go on trial the week of June 27 for hoaxing the Lindberghs an police seeking the kidnap-murderers of their baby son.

Prosecutor Anthony Hauck made this announcement after indictments were handed down today by the grand jury which considered the Curtis case Thursday.

Three indictments were presented to Justice Thomas Trenchard by the foreman of the grand jury. Only three cases had been considered by the grand jury at its most recent sitting, a murder case, a manslaughter case, and the Curtis hoax.

Because only three cases had been considered and because of Hauck's statement as to the trial date and of a further announcement by him that Curtis would be arraigned for pleading next Saturday in quarter sessions, it was taken for granted that one of the closed indictments named Curtis.

ONE OF BYRD'S AIDES HURT IN AUTOMOBILE ACCIDENT

COLUMBIA, Mo., May 28 (AP)—C. B. Foster, 24, of Norfolk, Va., a member of Admiral Richard E. Byrd's south pole expedition, was seriously injured and Ted Yohe, 20, of Fairfield, Ills., a University of Missouri student, was killed today when their automobile turned over near here.

Foster, a former University of Pennsylvania student, came here two weeks ago to enroll in the Missouri School of Journalism summer session. He was a member of the crew of the Byrd supply ship, the Eleanor Bolling, which made two trips to the Antarctic.

ARTHUR GOEBEL, FAMOUS FLIER, INJURED IN WRECK

M'KINNEY, Texas, May 28 (AP)—Arthur Goebel, famous aviator who won the Dole derby by flying from San Francisco to Honolulu several years ago, was injured and his mechanic, R. L. Riss of Dallas, was killed instantly in the crash of their airplane here today.

Caught by a gust of wind during an attempted takeoff at the municipal airport, the plane struck a tree, nose-dived from an altitude of 35 feet into a ditch and buried the fliers in a mass of wreckage.

FUNERAL SERVICE IS HELD FOR VICTIM OF BANDITS

Funeral services were held yesterday at his home near Calhoun for D. F. Avant, 49-year-old Calhoun merchant who was shot and fatally wounded Friday by bandits. Burial was made in the Avant cemetery.

Search for his slayers is still being conducted by the sheriff and his deputies but has so far been fruitless. It is believed that the merchant was shot as he backed his car from the garage at his store.

OPELOUSAS MAN'S FOOT IS SEVERED BY A TRAIN

OPELOUSAS, May 28 (AP)—Charles Dupre, local man, suffered the loss of his left foot here today, when he stepped onto a railroad track while a freight train was passing. The foot was severed just above the ankle.

Dupre was removed to a local sanitarium, where physicians said that a part of the lower left leg would probably have to be amputated. His condition was said to be not serious.

German railways will run excursion trains with secret destinations.

Emigration from Australia last year broke records of recent years.

WITNESS IN LINDBERGH QUIZ

Associated Press Photo

Max Rosenhaim (left) and Milton Gaglio leaving the Bronx grand jury room in New York where they testified in the investigation of the futile payment of $50,000 ransom seeking the return of the kidnaped Lindbergh baby. Rosenhaim is the owner of a restaurant patronized by Dr. John F. Condon, aged intermediary, and Gaglio acted as chauffeur for Condon.

This Game of GOLF

By O. B. KEELER

It is the idea now that among the distinguished visiting golfers who will attract the close attention of the galleries at the British open at Sandwich, beginning June 6, will be the quiet little Japanese professional, Tommy Miaymoto, who toured the United States last winter, winding up at Pinehurst in the north and south open.

After the British open, I understand Tommy will return to America and play in our open at Fresh Meadow, where another foreigner will make his American debut. Or, more properly speaking, his North American debut; for he is Jose Jurado, the brilliant Argentinian, who has played several times in Britain.

These two picturesque entries may be expected to go a long way at Fresh Meadow toward the rehabilitation of popeyed interest in our open championship, which was generally considered to be somewhat on the flat side in 1931, partly due, no doubt, to the first absence in a dozen years of Bobby Jones.

First Bow Dramatic

Francis Powers for one rates the Argentinian as a flamboyant golfer of the type to captivate the fans; and certainly his first appearance in one of the major tournaments north of the equator—they never have had one south of it—was calculated to inspire respect and admiration.

The little Jurado popped up unheralded four years ago at Sandwich, where the British open is played this year; turned in a card of 69 in one qualifying round; and at the end of the second round of the tournament was leading the field with a score of 145. Then he slipped, and Sir Walter Hagen steamed on to one of his perennial British victories.

Last summer at old Carnoustie, the little Jurado got into the British open again, and this time he and Macdonald Smith, a native of Cornoustie, looked like successive winners with half a dozen holes to play.

Tommy Armour was already in with his score; and where par golf would have matched or bettered it for the South American and the great Scot, neither could quite stick it in the closing chapters, and Jurado finished a stroke back of Armour.

Textile mills of Hungary are operating at 80 to 90 per cent capacity.

TAXPAYERS' GROUP IN LINCOLN PARISH RAPS LAWMAKERS

(Continued from First Page)

to the legislature. This, it was asserted, would have placed the legislature in the position of conducting a probe.

"His second resolution, which I understand has not yet been acted upon, would merely ask that the secretary of state submit to the legislature reports from each department, which under the law they are required to submit to him at stated intervals.

"The second resolution, to my mind, is more reasonable and just and I believe it should be approved by the legislature."

Referring to his statement which appeared in Monday morning's edition of The World, Mr. Fields stated that he had received letters of approbation concerning his proposals for economy in government from Alexandria, Shreveport, Ruston and other north Louisiana towns.

He expressed approval of R. D. Swayze's action last week in announcing a voluntary cut in his own salary as being in line with suggestions in the Monday statement that the higher paid officials voluntarily reduce their own pay as a patriotic move.

Lindy Case

John Hughes Curtis Will Face Trial for Perpetrating Hoax

FLEMINGTON, N. J., May 28 (AP)—John Hughes Curtis of Norfolk will go on trial the week of June 27 for hoaxing the Lindberghs an police seeking the kidnap-murderers of their baby son.

Prosecutor Anthony Hauck made this announcement after indictments were handed down today by the grand jury which considered the Curtis case Thursday.

Three indictments were presented to Justice Thomas Trenchard by the foreman of the grand jury. Only three cases had been considered by the grand jury at its most recent sitting, a murder case, a manslaughter case, and the Curtis hoax.

Because only three cases had been considered and because of Hauck's statement as to the trial date and of a further announcement by him that Curtis would be arraigned for pleading next Saturday in quarter sessions, it was taken for granted that one of the closed indictments named Curtis.

ONE OF BYRD'S AIDES HURT IN AUTOMOBILE ACCIDENT

COLUMBIA, Mo., May 28 (AP)—C. B. Foster, 24, of Norfolk, Va., a member of Admiral Richard E. Byrd's south pole expedition, was seriously injured and Ted Yohe, 20, of Fairfield, Ills., a University of Missouri student, was killed today when their automobile turned over near here.

Foster, a former University of Pennsylvania student, came here two weeks ago to enroll in the Missouri School of Journalism summer session. He was a member of the crew of the Byrd supply ship, the Eleanor Bolling, which made two trips to the Antarctic.

ARTHUR GOEBEL, FAMOUS FLIER, INJURED IN WRECK

M'KINNEY, Texas, May 28 (AP)—Arthur Goebel, famous aviator who won the Dole derby by flying from San Francisco to Honolulu several years ago, was injured and his mechanic, R. L. Riss of Dallas, was killed instantly in the crash of their airplane here today.

Caught by a gust of wind during an attempted takeoff at the municipal airport, the plane struck a tree, nose-dived from an altitude of 35 feet into a ditch and buried the fliers in a mass of wreckage.

FUNERAL SERVICE IS HELD FOR VICTIM OF BANDITS

Funeral services were held yesterday at his home near Calhoun for D. F. Avant, 49-year-old Calhoun merchant who was shot and fatally wounded Friday by bandits. Burial was made in the Avant cemetery.

Search for his slayers is still being conducted by the sheriff and his deputies but has so far been fruitless. It is believed that the merchant was shot as he backed his car from the garage at his store.

OPELOUSAS MAN'S FOOT IS SEVERED BY A TRAIN

OPELOUSAS, May 28 (AP)—Charles Dupre, local man, suffered the loss of his left foot here today, when he stepped onto a railroad track while a freight train was passing. The foot was severed just above the ankle.

Dupre was removed to a local sanitarium, where physicians said that a part of the lower left leg would probably have to be amputated. His condition was said to be not serious.

German railways will run excursion trains with secret destinations.

Emigration from Australia last year broke records of recent years.

WITNESS IN LINDBERGH QUIZ

Associated Press Photo

Max Rosenhaim (left) and Milton Gaglio leaving the Bronx grand jury room in New York where they testified in the investigation of the futile payment of $50,000 ransom seeking the return of the kidnaped Lindbergh baby. Rosenhaim is the owner of a restaurant patronized by Dr. John F. Condon, aged intermediary, and Gaglio acted as chauffeur for Condon.

This Game of GOLF

By O. B. KEELER

It is the idea now that among the distinguished visiting golfers who will attract the close attention of the galleries at the British open at Sandwich, beginning June 6, will be the quiet little Japanese professional, Tommy Miaymoto, who toured the United States last winter, winding up at Pinehurst in the north and south open.

After the British open, I understand Tommy will return to America and play in our open at Fresh Meadow, where another foreigner will make his American debut. Or, more properly speaking, his North American debut; for he is Jose Jurado, the brilliant Argentinian, who has played several times in Britain.

These two picturesque entries may be expected to go a long way at Fresh Meadow toward the rehabilitation of popeyed interest in our open championship, which was generally considered to be somewhat on the flat side in 1931, partly due, no doubt, to the first absence in a dozen years of Bobby Jones.

First Bow Dramatic

Francis Powers for one rates the Argentinian as a flamboyant golfer of the type to captivate the fans; and certainly his first appearance in one of the major tournaments north of the equator—they never have had one south of it—was calculated to inspire respect and admiration.

The little Jurado popped up unheralded four years ago at Sandwich, where the British open is played this year; turned in a card of 69 in one qualifying round; and at the end of the second round of the tournament was leading the field with a score of 145. Then he slipped, and Sir Walter Hagen steamed on to one of his perennial British victories.

Last summer at old Carnoustie, the little Jurado got into the British open again, and this time he and Macdonald Smith, a native of Cornoustie, looked like successive winners with half a dozen holes to play.

Tommy Armour was already in with his score; and where par golf would have matched or bettered it for the South American and the great Scot, neither could quite stick it in the closing chapters, and Jurado finished a stroke back of Armour.

Textile mills of Hungary are operating at 80 to 90 per cent capacity.

LOCAL MAN TALKS AT FARMERVILLE

O. B. Morton Addresses Meeting of Union Parish Seat Rotary Club

Addressing a meeting of the Farmerville Lions club Thursday noon, O. B. Morton, Monroe banker, declared, "If this country is to be saved and rescued from the evil results to which the tendencies of the times seem to be drifting it, it must be saved by just such citizens as compose this local club.

"Lose your money, and you lose something; something quite valuable; lose character, and you have lost even more; but lost your courage, and you have lost all," he said.

He pointed to clean life, justice, morality, and courage as the elements of character necessary in the average humble citizen to make the state and nation safe for all time. He emphasized the importance of courage to fight for right, to adhere to principle, and to insist that the home, church and community be kept morally clean and socially safe.

"Relief for our ills," he said, "are not going to come from Baton Rouge, New York, or Washington, but from the individual, such as each of you who are members of this club."

Other speakers at the luncheon included Dr. B. M. McKoin, president of the Monroe Lions club; A. B. Clarkson, former district governor of Lions clubs; Major J. G. Lee, Jr., dean of the college of agriculture, Louisiana State university; O. A. Morgan, of Monroe; and P. K. Ramsey, of Marfa, Texas, a former resident of Farmerville.

COLORED HIGH SCHOOL IS TO HOLD PROGRAM TODAY

The Monroe colored high school class of 1932 is to hold its baccalaureate exercises this afternoon at 2:30 o'clock in the auditorium of the school. Rev. Luke Allen, president of the Louisiana (colored) Baptist convention, is to be the speaker. The class is composed of 23 members.

On Friday at 8 p.m., Dr. M. M. Coleman, president of Coleman college in Gibsland, is to deliver the commencement address.

The seventh grade of the colored school will hold its graduating exercises on Tuesday night. There are to be 56 to receive certificates.

CHARITY HOSPITAL PLANS DISCUSSED

Charles Sherrouse of Gilbert Pays Visit Here in Interests of Project

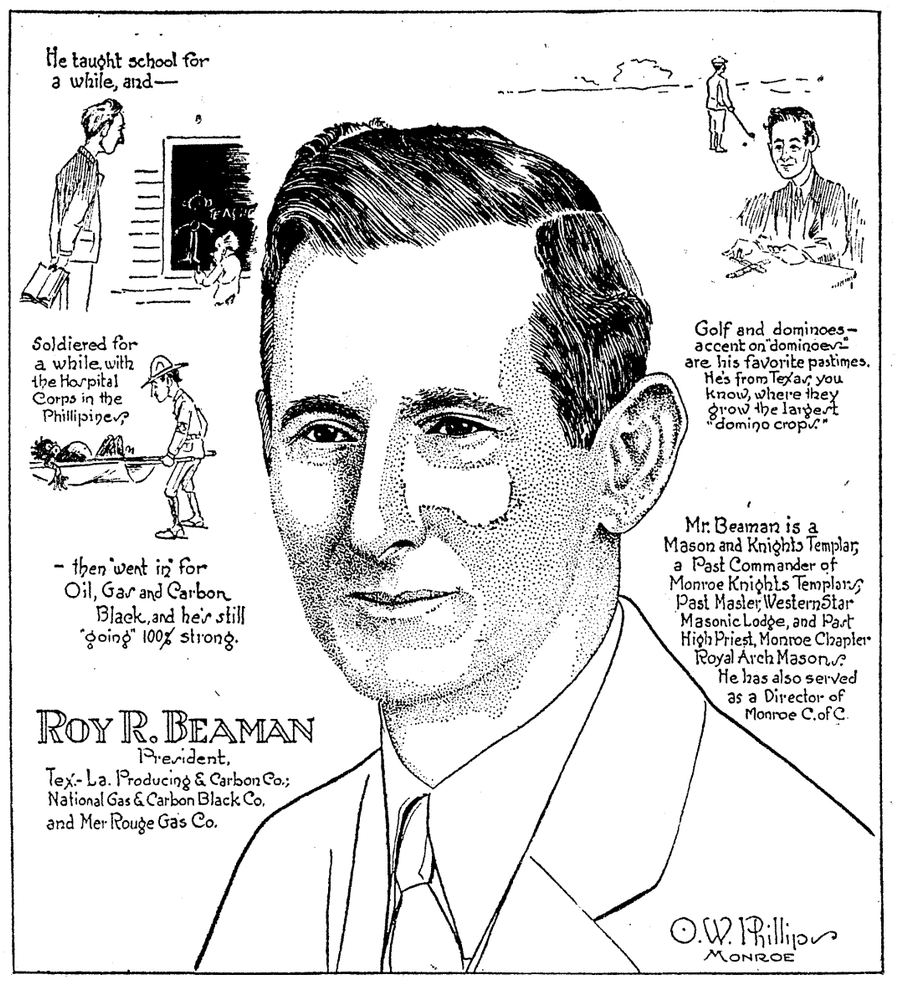

Charles Sherrouse, Gilbert business man, was in the city yesterday after a conference held in Baton Rouge with members of the legislature, concerning the establishment of a charity hospital in Monroe. In the conference, attended by representatives from this district and parish, was also Dr. Joseph A. O'Hara, state board of health president, and all of whom were interested in the establishment of the hospital for this city.

As an outcome of the meeting, Senator H. W. Gilbert was named chairman of a committee to wait upon proper state officials in the interest of the hospital and Mr. Gilbert was named head of the steering committee.

A proposal was made to purchase and operate Riverside sanitarium on South Grand street for the purposes of the charity hospital. It is believed that this can be obtained at a cost far less than the original.

Supporters of the hospital movement here are urging readers of The News-Star and Morning World to wire their senators and representatives, asking that they use every effort to bring about the adoption of a resolution appropriating a sufficient sum of money to establish the institution, as the legislature two years ago passed a bill authorizing the location of a charity hospital here.

BABY CONTEST IS TO BE CONTINUED

Entries Are Not Closed, Due to Inclement Weather of Last Week

Entries for the Grotto "Better Baby" health contest, conducted by Teflis Grotto, now exceed 100 babies.

The chief purpose of the health contest, managers said, will be to give mothers the benefit of expert advice along modern health lines, and the proper care and nourishment of the baby. Twenty-five prizes, including a silver loving cup and $25 in gold to the healthiest "baby girl" and the same to the healthiest "baby boy," will be presented by Teflis Grotto.

The committee in charge of the health contest announced Saturday that due to the weather conditions of the past week the registration of babies would continue all this week. All parents wishing to enter their babies for the health examination have been requested by the committee to register them at the Teflis Grotto headquarters, 335 DeSiard street, during this week.

The following babies have been added to the list of entries already published:

Caroline LeVerne Bagwell, daughter of Mr. and Mrs. V. Jack Bagwell, Swartz; Elizabeth Anne Bates, daughter of Mr. and Mrs. A. R. Bates, 409 North Sixth street, West Monroe; Robert Lee Bateman, son of Mr. and Mrs. E. A. Bateman, 101 Filhoil avenue, West Monroe; Fay H. Burdeaux, Jr., son of Mr. and Mrs. Fay H. Burdeaux, 508 Pine street, West Monroe; Roy Eugene Cash, son of Mr. and Mrs. R. W. Cash, Route No. 1, West Monroe; Billy Joe Culbertson, son of Mr. and Mrs. J. H. Culbertson, 509 Catalpa street; Patricia Jean Colquette, daughter of Mr. and Mrs. Vernon Colquette, 103 Cherry street; Billie Eyre, son of Mr. and Mrs. Frank Eyre, 207 School street, West Monroe; Russell L. Fisher, Jr., son of Mr. and Mrs. R. L. Fisher, 8 Grayling lane; Robert Eugene Gewin, son of Mr. and Mrs. R. I. Gewin, West Monroe; Fred W. Huenefeld, Jr., son of Mr. and Mrs. F. W. Huenefeld, Route No. 3; Robert Eugene Hemphill, son of Mr. and Mrs. R. D. Hemphill, Route No. 3; George Allen Hare, son of Mr. and Mrs. M. R. Hare, Route No. 3; Morris Edwin Lewis, son of Mr. and Mrs. C. D. Lewis, West Monroe; Wayne Joseph McDonald, Jr., son of Mr. and Mrs. W. J. McDonald, Route No. 3; Kathleen Anne McHenry, daughter of Mr. and Mrs. B. G. McHenry, 211 Bry avenue; Mary Jo Martin, daughter of Mr. and Mrs. F. R. Martin, 214 Telemaque; Ramona Lee O'Neal, daughter of Mr. and Mrs. R. L. O'Neal, Swartz; Harry Girardet Prophit, 3rd, son of Mr. and Mrs. H. G. Prophit, Jr., 302 Walnut street; Ira Leon Stokes, son of Mr. and Mrs. W. H. Stokes, Jr., West Monroe; Virginia Lee Smith, daughter of Mr. and Mrs. W. H. Smith, 510 North Third street, West Monroe; Maggie Irene Sheffield, daughter of Mr. and Mrs. W. J. Sheffield, West Monroe; Delia Beatrice Tucker, daughter of Mr. and Mrs. E. S. Tucker, 1615 Washington street.

NEW SEWER INSTALLED

New sections of storm sewer had been installed yesterday to temporarily replace sections damaged Wednesday night by a cave-in at the head of Calypso street. The bottom of the hole was filled with dirt to forestall further crumbling of the walls of the holes. It was stated that when definite arrangements are made for repairs at the site of the hole, wooden or steel sheeting will be driven into the ground to prevent any cave-in in the future.

DAUGHTER BORN

A daughter, Betty Morgan, was born at the Clinic Friday to Mr. and Mrs. H. A. Porter, 312 Hart street.

MARY NOLAN APPEARS AT THEATER HERE SATURDAY

Imogene "Bubbles" Wilson, former Ziegfeld follies star whose frolics with Frank Tinney, noted comedian, amused the nation several years ago, and finally ended in court, appeared at the Paramount theater yesterday as Mary Nolan, screen actress.

Others in the company included Buddy Pearson, Texas lad of 12 years, whom the screen actress adopted.

Tomorrow Miss Nolan will autograph her photographs in the lobby of the theater, and will greet visitors behind stage. Between the first and second shows, she will sell tickets, in order to meet Monroe people.

TOMATOES GROWN NEARBY IN MARKET

Perryville Farmer Brings First Load to This City; Has Peppers Also

Will Evans, truck farmer on the farm of J. A. Perry of Perryville, Thursday sold the first tomatoes and peppers to be sold by a farmer of this parish in Monroe this year, according to E. R. Strahan, agricultural agent. Mr. Evans sold seven crates of tomatoes and four bushels of peppers to a local wholesale house.

Mr. Evans produces his own plants, using hot beds for those for which they are required in getting out early plants.

Tomatoes and peppers now being marketed by Mr. Evans were grown on land which was planted winter before last to Austrian winter peas. Last year, after the peas had been turned under, the land was planted to corn and produced 60 bushels to the acre.

Beginning next week, Mr. Evans will make regular sales to the wholesale houses. He has two and one-half acres planted to tomatoes.

NEVILLE SENIORS' SERVICE TONIGHT

Baccalaureate Sermon Will Be Preached by Rev. W. C. Scott at 8 p. m.

Baccalaureate services for the graduating class of the Neville high school will be held at 8:30 o'clock tonight, at the Monroe First Methodist church, Rev. W. C. Scott, pastor, speaking on "The Majesty of Strength."

Special numbers will be given by the church choir, including Shelley's "Hark, Hark, O My Soul."

Girls of the graduating class are Dorothy Apgar, Edna Bacle, Hermine Bailey, Doris Beaman, Gertrude Brauer, Nellie Breard, Corre Mae Calder, Geneve Ann Castles, Ouida Collins, Mary Fletcher, Mildred Gobble, Mary Gordon, Louise Gray, Frances Hart, Bessie Gillian Henry, Marie Dell Horuff, Lucille Kennedy, Joan Lynn, Sarah May, Ruth Murphy, Dean McKoin, Gladys McGee, Ruby Oakland, Beverly Russell, Suzanne Sperry, Joy Steele, Carolyn Stubbs, Linda Stubbs, Billy Stroud, Marguerite Terrell, Nancy Terzia, Carolyn Walker, Noelie Watkins, and Catherine White.

Boys who will graduate in the class are Jack Adcock, Roland Adcock, Elvin Anish, W. L. Ethridge, Henry Florsheif, Paul Fudicker, Durwood Griffin, Woodrow Hathorne, Maurice Haas, John Hays, Alvin Harper, Robert Holloway, Sam Jones, Simeon Lieber, Oliver Lowery, Anthony Marsala, Thomas May, W. D. McGee, Billy Nelson, James Newton, Paul Owens, Frank Renfro, Frank J. Roddy, Carlo Sciara, Thomas Sullivan, Paul Ticheli, Woodrow Wilson, and Burton Wolf.

GIVE TO MILK FUND

In memory of Henry Strauss, two contributions were given to The Morning World's milk fund yesterday. The contributions were in the sums of three dollars and one dollar. They brought the amount of the milk fund's balance on hand up to $130.63.

MONROE IS NAMED CONVENTION CITY

Officers Are Elected by Louisiana State Press Association Saturday

NEW ORLEANS, May 28 (Special)—Monroe was unanimously chosen as the 1933 convention city for the Louisiana State Press association at its meeting late this afternoon. Bossier City loomed as a dark horse contender today, but when the invitation was presented to the convention after a long session this afternoon, J. M. Thompson, publisher of the Item-Tribune, asked the convention to unanimously vote for Monroe, "The Queen City of the Ouachita." The motion was carried with tumultuols applause.

George Goodman, editor of the Ponchatoula Enterprise, was elected president without opposition. The other officers are: George Bush, Arcadia, first vice president; W. G. Jones, Denham Springs, second vice president. Isaac Chapman, editor of the Morehouse Enterprise, was reelected secretary-treasurer and the convention gave him a rising vote in appreciation of his efficient work in the past two years.

Among late actions taken by the association was acceptance of a resolution opposing postponement in the payment of state taxes. A resolution has just passed the state legislature providing for the postponement of forced property tax sales until October 15. The newspaper men took the position that local bond obligations would be jeopardized by the delayed tax collections.

The association declined to adopt a resolution proposing a referendum on repeal of the Hood act, the state prohibition law. Resolutions proposing a referendum on prohibition repeal are now pending before the legislature with protests being registered daily by the Woman's Christian Temperance union.

Dolph Frantz, editor of the Shreveport Journal, proposing changes in the primary laws, was one of the leading speakers of the day.

Other speakers included W. F. Roy, of the St. Bernard Voice and C. E. Faulk, Jr., of Ruston, who discussed free publicity; Dr. James M. Smith, president of Louisiana State university, who told of the extension work of L. S. U. and Dr. Gus W. Dyer, of Vanderbilt university, who discussed tax raises.

Mr. Frantz suggested an immediate change in the Louisiana primary laws to bar negroes from voting in democratic primaries.

"There is already a movement among negroes of New Orleans and Shreveport to register as democrats and vote in the democratic primaries," said Mr. Frantz, "unless the Louisiana laws are changed and changed quickly, we are going to have trouble with this negro democratic vote. I recommend that the present legislature take steps to amend the present laws governing democratic primaries and general state election."

Ruling in a Texas case, said Mr. Frantz, the United States supreme court has held that the state central committee is a state agent and as a state agent it cannot bar negroes from voting, as it would be a violation of the fourteenth amendment to the constitution.

"It is therefore necessary," he said, "that the democratic party in Louisiana be liberated from this statutory defect and as an independent organization select its own committees and provide regulations for its own members and the constitution of its membership and its governing authority.

"A general primary law might be adopted so that any political party could avail itself of the privilege of a primary conducted upon legal regulations on complying with certain conditions such as numbers or a stipulated fee."

Mr. Frantz is chairman of the democratic executive committee of Caddo parish.

COMPROMISE AGREEMENT IS MADE ON INJURY CASE

A judgment in district court, in favor of James Hannibal, against the Federal Compress and Warehouse company for $312 compensation for injuries alleged to have been received from a fall while in the employ of the company, on January 9, 1932, was released yesterday, when a compromise agreement was affected between both parties.

Company will pay Hannibal $156 compensation, or a weekly compensation of $7.80 for a period of 20 weeks.

Hannibal had received $156 compensation from the company, directly after his injury.

REVOLVER STOLEN

Joe D. Trammell, 506 Arkansas avenue, reported to police yesterday morning that a .38 caliber revolver had been stolen from a desk in the office of the Stovall Drilling company, in the Bernhardt building.

A Pretty Face

can never be more attractive than your

Teeth

If women only knew that beauty can never be attained with unsightly teeth they would call on their dentist before visiting their beauty shop. Discolored, decayed, irregular, crooked teeth will always defeat your best efforts to appear attractive, and what a shame when my modern methods will quickly and surely correct these defects that handicap you now and my prices are so low anyone can afford my services.

Examination and Estimate Free

I know only one kind of dental work and that is "The Best." I use only the best material obtainable and my many years of practice in your midst is my best recommendation. Come in at any time and I will tell you the exact condition of your teeth and the cost of work if needed.

GUARANTEED DENTISTRY

"Don't Let 'em Kid You"

One of the main reasons why more people eat Seale-Lily Ice Cream than any other kind is "SMOOTHFROZEN."

Other ice cream manufacturers know this. They know it so well that in their natural eagerness to get business they are tempted to claim "Smoothfrozen" too.

But there's a lot of difference between claiming "Smoothfrozen" in advertisements and making "Smoothfrozen" Ice Cream. Just as there is a vast difference in "Smoothfrozen" and other ice cream.

Don't let anybody kid you. If you want "Smoothfrozen" Ice Cream (85 out of 100 do), there is but one way to get it. Insist upon Seale-Lily!

LOCAL MAN TALKS AT FARMERVILLE

O. B. Morton Addresses Meeting of Union Parish Seat Rotary Club

Addressing a meeting of the Farmerville Lions club Thursday noon, O. B. Morton, Monroe banker, declared, "If this country is to be saved and rescued from the evil results to which the tendencies of the times seem to be drifting it, it must be saved by just such citizens as compose this local club.

"Lose your money, and you lose something; something quite valuable; lose character, and you have lost even more; but lost your courage, and you have lost all," he said.

He pointed to clean life, justice, morality, and courage as the elements of character necessary in the average humble citizen to make the state and nation safe for all time. He emphasized the importance of courage to fight for right, to adhere to principle, and to insist that the home, church and community be kept morally clean and socially safe.

"Relief for our ills," he said, "are not going to come from Baton Rouge, New York, or Washington, but from the individual, such as each of you who are members of this club."

Other speakers at the luncheon included Dr. B. M. McKoin, president of the Monroe Lions club; A. B. Clarkson, former district governor of Lions clubs; Major J. G. Lee, Jr., dean of the college of agriculture, Louisiana State university; O. A. Morgan, of Monroe; and P. K. Ramsey, of Marfa, Texas, a former resident of Farmerville.

BABY CONTEST IS TO BE CONTINUED

Entries Are Not Closed, Due to Inclement Weather of Last Week

Entries for the Grotto "Better Baby" health contest, conducted by Teflis Grotto, now exceed 100 babies.

The chief purpose of the health contest, managers said, will be to give mothers the benefit of expert advice along modern health lines, and the proper care and nourishment of the baby. Twenty-five prizes, including a silver loving cup and $25 in gold to the healthiest "baby girl" and the same to the healthiest "baby boy," will be presented by Teflis Grotto.

The committee in charge of the health contest announced Saturday that due to the weather conditions of the past week the registration of babies would continue all this week. All parents wishing to enter their babies for the health examination have been requested by the committee to register them at the Teflis Grotto headquarters, 335 DeSiard street, during this week.

The following babies have been added to the list of entries already published:

Caroline LeVerne Bagwell, daughter of Mr. and Mrs. V. Jack Bagwell, Swartz; Elizabeth Anne Bates, daughter of Mr. and Mrs. A. R. Bates, 409 North Sixth street, West Monroe; Robert Lee Bateman, son of Mr. and Mrs. E. A. Bateman, 101 Filhoil avenue, West Monroe; Fay H. Burdeaux, Jr., son of Mr. and Mrs. Fay H. Burdeaux, 508 Pine street, West Monroe; Roy Eugene Cash, son of Mr. and Mrs. R. W. Cash, Route No. 1, West Monroe; Billy Joe Culbertson, son of Mr. and Mrs. J. H. Culbertson, 509 Catalpa street; Patricia Jean Colquette, daughter of Mr. and Mrs. Vernon Colquette, 103 Cherry street; Billie Eyre, son of Mr. and Mrs. Frank Eyre, 207 School street, West Monroe; Russell L. Fisher, Jr., son of Mr. and Mrs. R. L. Fisher, 8 Grayling lane; Robert Eugene Gewin, son of Mr. and Mrs. R. I. Gewin, West Monroe; Fred W. Huenefeld, Jr., son of Mr. and Mrs. F. W. Huenefeld, Route No. 3; Robert Eugene Hemphill, son of Mr. and Mrs. R. D. Hemphill, Route No. 3; George Allen Hare, son of Mr. and Mrs. M. R. Hare, Route No. 3; Morris Edwin Lewis, son of Mr. and Mrs. C. D. Lewis, West Monroe; Wayne Joseph McDonald, Jr., son of Mr. and Mrs. W. J. McDonald, Route No. 3; Kathleen Anne McHenry, daughter of Mr. and Mrs. B. G. McHenry, 211 Bry avenue; Mary Jo Martin, daughter of Mr. and Mrs. F. R. Martin, 214 Telemaque; Ramona Lee O'Neal, daughter of Mr. and Mrs. R. L. O'Neal, Swartz; Harry Girardet Prophit, 3rd, son of Mr. and Mrs. H. G. Prophit, Jr., 903 Walnut street; Ira Leon Stokes, son of Mr. and Mrs. W. H. Stokes, Jr., West Monroe; Virginia Lee Smith, daughter of Mr. and Mrs. W. H. Smith, 510 North Third street, West Monroe; Maggie Irene Sheffield, daughter of Mr. and Mrs. W. J. Sheffield, West Monroe; Delia Beatrice Tucker, daughter of Mr. and Mrs. E. S. Tucker, 1615 Washington street.

MONROE IS NAMED CONVENTION CITY

Officers Are Elected by Louisiana State Press Association Saturday

NEW ORLEANS, May 28 (Special)—Monroe was unanimously chosen as the 1933 convention city for the Louisiana State Press association at its meeting late this afternoon. Bossier City loomed as a dark horse contender today, but when the invitation was presented to the convention after a long session this afternoon, J. M. Thompson, publisher of the Item-Tribune, asked the convention to unanimously vote for Monroe, "The Queen City of the Ouachita." The motion was carried with tumultuols applause.

George Goodman, editor of the Ponchatoula Enterprise, was elected president without opposition. The other officers are: George Bush, Arcadia, first vice president; W. G. Jones, Denham Springs, second vice president. Isaac Chapman, editor of the Morehouse Enterprise, was reelected secretary-treasurer and the convention gave him a rising vote in appreciation of his efficient work in the past two years.

Among late actions taken by the association was acceptance of a resolution opposing postponement in the payment of state taxes. A resolution has just passed the state legislature providing for the postponement of forced property tax sales until October 15. The newspaper men took the position that local bond obligations would be jeopardized by the delayed tax collections.

The association declined to adopt a resolution proposing a referendum on repeal of the Hood act, the state prohibition law. Resolutions proposing a referendum on prohibition repeal are now pending before the legislature with protests being registered daily by the Woman's Christian Temperance union.

Dolph Frantz, editor of the Shreveport Journal, proposing changes in the primary laws, was one of the leading speakers of the day.

Other speakers included W. F. Roy, of the St. Bernard Voice and C. E. Faulk, Jr., of Ruston, who discussed free publicity; Dr. James M. Smith, president of Louisiana State university, who told of the extension work of L. S. U. and Dr. Gus W. Dyer, of Vanderbilt university, who discussed tax raises.

Mr. Frantz suggested an immediate change in the Louisiana primary laws to bar negroes from voting in democratic primaries.

"There is already a movement among negroes of New Orleans and Shreveport to register as democrats and vote in the democratic primaries," said Mr. Frantz, "unless the Louisiana laws are changed and changed quickly, we are going to have trouble with this negro democratic vote. I recommend that the present legislature take steps to amend the present laws governing democratic primaries and general state election."

Ruling in a Texas case, said Mr. Frantz, the United States supreme court has held that the state central committee is a state agent and as a state agent it cannot bar negroes from voting, as it would be a violation of the fourteenth amendment to the constitution.

"It is therefore necessary," he said, "that the democratic party in Louisiana be liberated from this statutory defect and as an independent organization select its own committees and provide regulations for its own members and the constitution of its membership and its governing authority.

"A general primary law might be adopted so that any political party could avail itself of the privilege of a primary conducted upon legal regulations on complying with certain conditions such as numbers or a stipulated fee."

Mr. Frantz is chairman of the democratic executive committee of Caddo parish.

COMPROMISE AGREEMENT IS MADE ON INJURY CASE

A judgment in district court, in favor of James Hannibal, against the Federal Compress and Warehouse company for $312 compensation for injuries alleged to have been received from a fall while in the employ of the company, on January 9, 1932, was released yesterday, when a compromise agreement was affected between both parties.

Company will pay Hannibal $156 compensation, or a weekly compensation of $7.80 for a period of 20 weeks.

Hannibal had received $156 compensation from the company, directly after his injury.

REVOLVER STOLEN

Joe D. Trammell, 506 Arkansas avenue, reported to police yesterday morning that a .38 caliber revolver had been stolen from a desk in the office of the Stovall Drilling company, in the Bernhardt building.

A Pretty Face can never be more attractive than your Teeth

If women only knew that beauty can never be attained with unsightly teeth they would call on their dentist before visiting their beauty shop. Discolored, decayed, irregular, crooked teeth will always defeat your best efforts to appear attractive, and what a shame when my modern methods will quickly and surely correct these defects that handicap you now and my prices are so low anyone can afford my services.

Examination and Estimate Free

I know only one kind of dental work and that is "The Best." I use only the best material obtainable and my many years of practice in your midst is my best recommendation. Come in at any time and I will tell you the exact condition of your teeth and the cost of work if needed.

Teeth Extracted Free When Work Is Needed

GUARANTEED DENTISTRY

$15.00 Plates..... $7.50
$25.00 Plates..... $12.50

Wedding Bells Ring For All Hands

SUNDAY, MAY 29, 1932

Trade Mark Registration Applied For

1 HERE come the brides-to-be. Yes, sir! Jane and Elaine slipped one over on Auntie last night when they tiptoed out and slept at Grandma's. Lady Ella wasn't going to get a chance to muffle their wedding bells. Look at Jed waving those marriage licenses. Let's go!

2 SHADES of Mendelssohn! Look who got to the church first! Auntie, no less, and her boy-friend, Warner Beansbury Smyth, and from all appearances Auntie has just slipped one over on the girls.

"She's just married him," gasps Elaine.

"We'll never get a cent of her money now," adds Jane.

"Hang the money, darlings," say Jed and "Sonny." "Tell the parson the double wedding party's here and waiting."

3 "TOODLE-OO!" flips Auntie and her blushing bridegroom to the other newlyweds.

"We'll be back," Lady Ella adds, as the liner slowly moves away, "after we've seen Europe and maybe all the rest of the world. There is a little wedding present for each of you in the mail, enough to enable you to follow us on the next boat if you want a real honeymoon."

LACE AND SATIN FOR THE BRIDE

THIS year's June bride and her attendants will make as lovely a picture as one could wish for. Look and see for yourself the bridal procession pictured on this page today.

The bride's costume is simple and dignified and yet it is the last word in smartness, according to the edicts of fashion. Since lace and satin are the favored materials for this season's bride, the gown illustrated is fashioned of these luxurious fabrics. The entire bodice is of lace except for insets of the gleaming satin over the shoulders. The deep V-inset of satin on the skirt goes around to the back where it forms a huge train. A tiny lace cap, tilted like a hat, reveals a bunch of orange blossoms high in the back where the veil is caught. One piece of the veil falls flatteringly over the face just to the chin.

For her bridesmaids, this bride chooses youthful frocks of soft yellow taffeta, with tight-fitting bodices and extremely bouffant skirts. The decolletage is rather deep and accented by a narrow turned-down collar of gold cloth. And the cunning capelets are of a pinky orange velvet, forming an interesting color contrast. Muffs of brown tulle, decorated with tiny gold leaves, match the bridesmaids' small hats and complete the picturesque costumes.

The maid of honor wears a gown that matches in color, the bridesmaids' capes. It is developed in crepe roma and worn with a sleeveless jacket of white crepe. The one-sided bertha collar is worn over the jacket and caught together with a boutonniere on the left shoulder. The muff, formed entirely of blossoms, matches the flower trimming of the tiny crepe roma cap.

The little flower girl's costume is charming. Her Kate Greenaway frock of yellow taffeta employs rows of brown tulle ruffling to outline the square neck and short puffed sleeves. The poke bonnet of brown tulle is lined with orange crepe, repeating the color note used in the costumes of the other attendants. A bow of the same color ties under her chin. Two chic hats to grace the most exclusive wedding party are also sketched below.

THE MAID OF HONOR

Looks stunning in her very smart frock of orange crepe roma. It boasts a one-sided bertha collar of white crepe worn over a sleeveless jacket of the same material. The muff is formed entirely of tiny white flowers, matching the corsage at the left shoulder and the flower trimming of her small crepe roma hat. A Kate Greenaway frock is a perfect choice of costume for the cunning little flower girl. This one of yellow taffeta is outlined at neck and sleeves with ruffles of brown tulle. The young lady's brown tulle poke bonnet is lined with orange crepe and ties in a bow of ribbon under her chin.

HERE COMES THE BRIDE

Resplendent in a gown of lace and satin. The bodice is cut simply with a V-decolletage and gleaming satin insets over the shoulders. The satin is used again in a V-inset on the skirt that goes right around to the back where it forms a stately train. Something new is introduced in the tiny lace cap tilted in the manner of a small hat and decorated in the back with a bunch of orange blossoms, at which point the veil is caught. Note that the veil falls softly over the face to the chin.

THE BRIDESMAIDS

Their bouffant frocks are fashioned of yellow taffeta with very snug bodices belted at the natural waistline with a narrow sash that finishes in a large bow at the back. The deep decolletage is accented by a turned-down collar of gold cloth. Tiny capes of orange velvet add a feminine touch. The caps and muffs are of brown tulle effectively set off with gold leaves.

TWO CHARMING HATS

Are suggested here for the wedding guests. At the left is a stunning model formed entirely of white velvet flowers closely sewed together and finished at the side back with a bow of purple velvet. In the sketch at the right we show a hat of black cire straw, draped to give the new high back and accented by a bunch of purple flowers.

Tragic Ending to the Kidnaping of the College Beauty

How One Mad Prank of Four Undergraduates Led to Gunplay on the Campus, With One Arrest and Sixteen Halted University Careers

Dr. Walter Williams, President of the University of Missouri, Who Declared, "College Pranks Are Indefensible When They Degenerate Into Lawlessness!"

Main Entrance to the Grounds of the University at Columbia, Mo., Where the Playful Prank of Four Students Resulted in the Shooting of Three Undergraduates and the Suspension of Sixteen Seniors.

This Is "Queen" Mary Butterfield, the Co-Ed Whose "Kidnaping" on the Day of the Engineers' Annual Ball Started the Whole Tragic Squabble.

THE bright college years of sixteen University of Missouri students recently were darkened. All because of a prank that ended disastrously in the kidnaping of a co-ed and the shooting of three other students.

The suspension of these sixteen seniors was merely one of the unhappy results of one of those innumerable school feuds that generally end with handshaking all around and, in later years, furnish material at alumni gatherings for chats about the "good old days."

At the University of Missouri, situated in the town of Columbia, there has for years been intense, but friendly, rivalry of this sort between the lawyers-to-be and the future engineers.

Members of the two factions "hazed" each other whenever they got the chance. Everything, it seemed, was fair between the "Counselors" and the "Young Hoovers," as some called the engineers. That is, it was considered so until several weeks ago, when the 1932 engineers' ball was scheduled to take place.

The engineers had selected piquant Miss Mary Butterfield of Kansas City, Mo., to reign as queen at their Spring fete. About three o'clock on the afternoon of the ball pretty Mary skipped down the steps of her sorority house.

Immediately, four students—said later to be four mischievous embryonic lawyers and judges—clustered around her and spirited the bewildered girl to a waiting green sedan. One of the boys stepped on the gas and they sped away with their fair prisoner.

Night came and all the handsome, dashing young "Hoovers" gathered with their girl friends for the ball, but Queen Mary, whose coronation was to have been one of the highlights of the engineers' festive evening, did not appear.

Nine o'clock, ten o'clock, eleven o'clock, midnight and the ball was still queenless. There were mutterings among the engineers. "The shysters are responsible for this!" one disappointed "Hoover" cried.

Others said darkly that fun was fun but kidnaping Queen Mary was going much too far. The police were called in and immediately started an intensive search for the missing girl. Her parents in Kansas City were notified and, panic-stricken, jumped into a motorcar and drove to the university.

Then, just as the little incident was assuming serious potentialities, pretty Mary ran, breathless and excited, into the gymnasium where the dance was being held. Few were there to greet the engineers' queen. Most of the couples had gone home, angry and disappointed and raging at their foes, the lawyers.

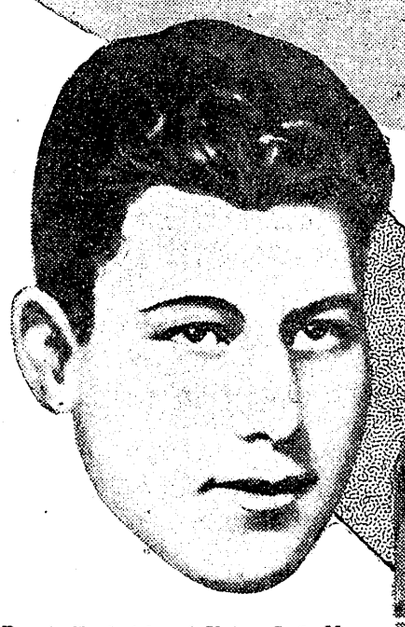

Frederick Horne, of Moberly, Mo., who had been chosen to crown the queen had gone also, and there was no one there to take his place. Mary stood in the center of the almost deserted gymnasium feeling like a Cinderella who had arrived at the ball too late.

When Miss Butterfield's story—she had been kidnaped and taken to Moberly, Mo., and detained for hours before being released—was buzzed about the campus the next morning her admirers, the engineers, became furious. There were rules governing all college rivalries, they loudly proclaimed, and kidnaping a girl to ruin their biggest annual social event was nothing less than barbarous.

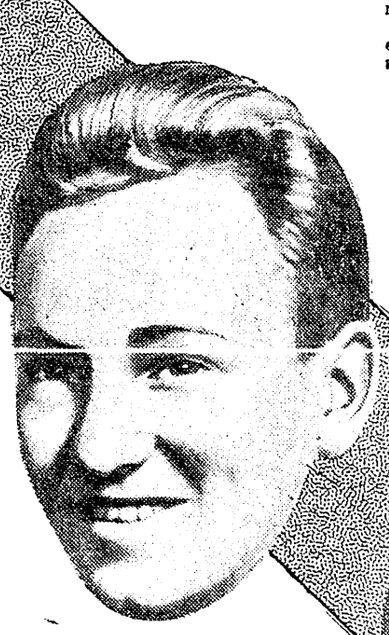

The calmest one in the entire college town was Mary, the heroine of the escapade. Shown an illustrated year-book she refused to identify the culprits.

"After all," she told everybody, "my abductors might have been ill-advised but they did me no harm."

The engineers, however, refused to calm down and swore they'd have their revenge. They started their reprisals by seizing Arnold Fink, of Blytheville, Ark., president of the law school student body, and holding him prisoner for several hours. Then they released him on what they called "parole" with a threat to have his head shaved if any more didoes were committed by his followers.

Burnis Frederick, of Union Star, Mo., Who Was Held in $1,000 Bail on the Charge of Firing a Revolver at the Crowd of Engineering Students. He Resigned From College.

Jerry Cebe, of St. Louis, Mo., a Victim of the College Gunplay and One of the Sixteen Undergraduates Suspended From the Institution After the "Kidnaping."

The Francis quadrangle, the engineers' part of the campus, then became an armed camp. Their weapons, however, were only the regular paddles they carry to keep trespassers off their share of the ground. Tension was high between the two factions but almost everyone connected with the university believed that the hot-blooded youths would cool down in a few days and the "outrage," as the engineers called it, would shortly be forgotten.

However, many of the group appointed themselves amateur sleuths and set about trying to discover the identity of the four "kidnapers." The activities of a quartette of these young Sherlock Holmeses so alarmed the four youths who had carried off the uncrowned queen that they appealed for protection to a justice of the peace.

They named the four engineers and the justice put these "Hoovers" under $100 peace bonds. This act ended Miss Butterfield's generous tolerance.

"This has ceased to be a prank," the pretty victim exclaimed. "I now feel justified in telling the names of the men who kidnaped me!" And she did.

They were, she said, James Harutum, Joplin, Mo.; Gerard Spencer, Columbia; Burnis Frederick, Union Star, Mo., and Stanley Ginn, of Miller, Mo. The university authorities still thought it best to make little of the affair and ignored the heated accusations. Dr. Albert K. Heckel, dean of the institution's men, announced he did not intend to recommend action by the discipline committee.

Then, for the first time Miss Butterfield told her friends complete details of her abduction. In Moberly, where she had been taken, her captors had brought her to the home of a young married couple.

Until late at night she had played bridge with the lawyers and then had been taken back to Columbia in the green sedan. About two blocks from her sorority house she had been released. Going to her room, she hastily changed into an evening gown and then rushed to the ball—but too late for the fun.

For some curious reason, the telling of these rather innocuous details roused the engineers' anger to fever heat. All day long rumors and threats zipped between the members of the rival schools.

The third night following the ruined ball, twelve engineers got together, it is said, and swore revenge on the perpetrators of the "kidnaping." It was whispered around the campus that several of the lawyers, hearing of this, became so apprehensive that they armed themselves with revolvers. However, almost everybody scoffed at this tale of gun-toting.

And all was quiet as Burnis Frederick, one of the men named by Mary, accompanied by Max Patten, another law student, visited the home of a girl undergraduate. When they left the girl's home and started for their own quarters they found themselves facing a charge of very belligerent-looking engineers.

Charles Love, of Jefferson City, Mo., Who Was Shot in the Right Foot and Later Dropped for a Time From the University.

D. Frank Luckey, the Engineering Student Who Was Wounded in the Abdomen, Causing Physicians to Despair for His Life.

What the engineers had planned, it was said, was a head-shaving expedition. According to their version, Frederick lost his head as they advanced upon him and drew a revolver from his pocket. Frederick claimed he shot two bullets into the ground as a warning but the oncoming chargers did not halt.

Then, it is alleged, Frederick discharged his weapon at the engineers. Three of them were wounded and fell. Frederick was overpowered, tossed into a car and driven to a municipal airport two miles away. There he alleged later, he was severely beaten. When the engineers learned that one of their mates had been so severely wounded that an emergency operation was being contemplated, they turned Frederick over to the police.

The three wounded men were: D. Frank Luckey, shot through the stomach and, at this writing, in a dangerous condition; Jerry Cebe, the engineering school's ranking student and captain-elect of the university wrestling team, shot through the right leg; and Charles Love, who was slightly injured in the foot.

Frederick was charged with carrying concealed weapons and placed under $1,000 bond by the police after being taken to a hospital to be treated for severe head bruises. The shooting affray caused, of course, the wildest excitement the University of Missouri had known for years. Feeling between the schools now ran higher than ever.

In court, Frederick's lawyer declared the engineer raiders had carried revolvers and had discharged them. He also asserted that Frederick had run three blocks before firing the last of his gun's six shells. Self-defense was his plea for his client. Frederick resigned from the university after the sensational fracas.

Investigation of the entire affair, beginning with the kidnaping of Queen Mary Butterfield was ordered by Dr. Walter Williams, president of the university. "College pranks," he said, "are indefensible when they degenerate into lawlessness."

All those having a part in the trouble that had started so innocently and ended so gravely would be punished, he indicated. The probe was accelerated by reports from the hospital that doctors held out little hope for the wounded Luckey's recovery.

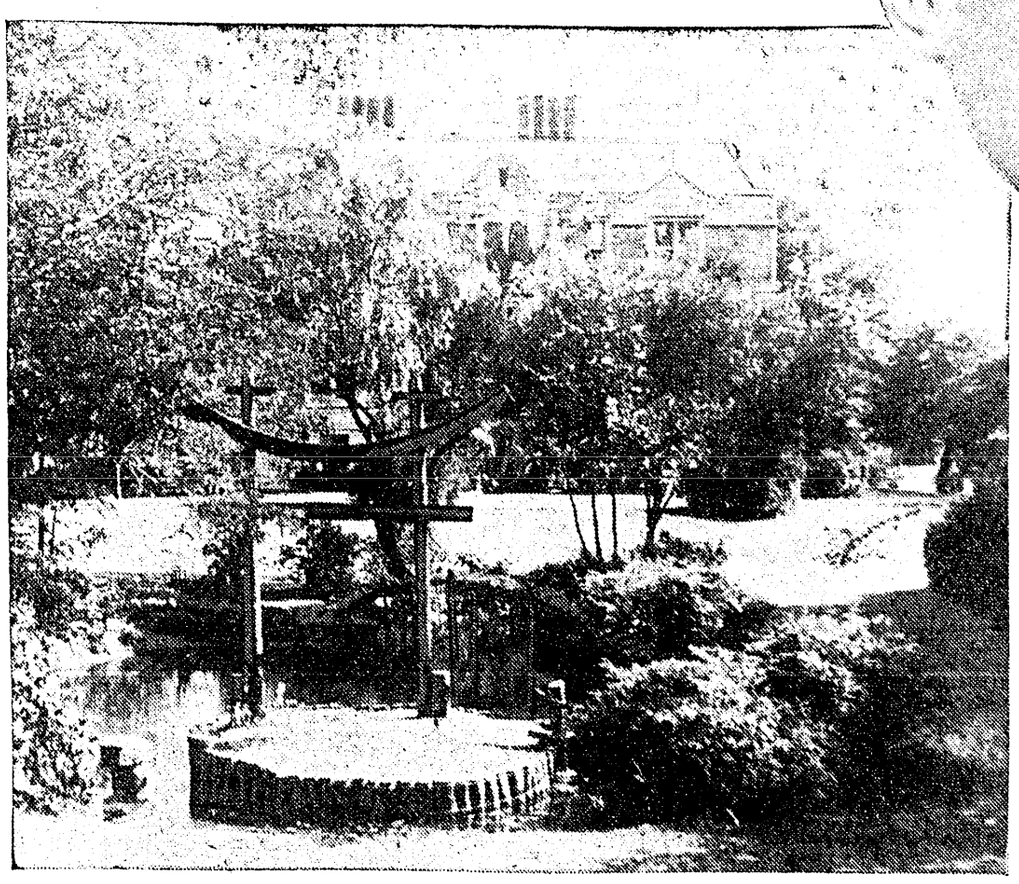

When the institution authorities who were chosen for the investigation committee turned in their recommendations the entire student body was amazed. The suspension of no less than sixteen students was requested. The list included four lawyers and twelve engineers. Frederick's three alleged fellow-"abductors" were dropped as well as Patten and two of the wounded men, Cebe and Love.

Dr. Williams said the absence of Luckey's name from the list did not mean he would not be disciplined later, in the event of his recovery. The suspended students, he admitted, may life an application for reinstatement. If the appeal of any were denied it meant the end of his college career, at least at the University of Missouri.

Other results of the mixup will be the discontinuance of all contests between members of the law and engineering schools and the elimination of all secrecy in the choosing of the engineers' ball queens. As a matter of fact, no more queens may be picked for several years to come.

However, some weeks after the shooting scrape the university fathers decided to give the sixteen suspended youths another chance. They were enrolled once more after a large part of the student body pleaded for their reinstatement. However, they are under indefinite probation.

Frederick waived preliminary hearing on the weapon charge and his case was set for the June term of the Circuit Court.

The Tranquil Japanese Garden, Most Beautiful Section of the University of Missouri Campus, Near Which the Stormiest Part of the Astonishing Undergraduate Battle Was Staged.

The engineers had selected piquant Miss Mary Butterfield of Kansas City, Mo., to reign as queen at their Spring fete. About three o'clock on the afternoon of the ball pretty Mary skipped down the steps of her sorority house.

Immediately, four students—said later to be four mischievous embryonic lawyers and judges—clustered around her and spirited the bewildered girl to a waiting green sedan. One of the boys stepped on the gas and they sped away with their fair prisoner.

Night came and all the handsome, dashing young "Hoovers" gathered with their girl friends for the ball, but Queen Mary, whose coronation was to have been one of the highlights of the engineers' festive evening, did not appear.

Nine o'clock, ten o'clock, eleven o'clock, midnight and the ball was still queenless. There were mutterings among the engineers. "The shysters are responsible for this!" one disappointed "Hoover" cried.

Others said darkly that fun was fun but kidnaping Queen Mary was going much too far. The police were called in and immediately started an intensive search for the missing girl. Her parents in Kansas City were notified and, panic-stricken, jumped into a motorcar and drove to the university.

Then, just as the little incident was assuming serious potentialities, pretty Mary ran, breathless and excited, into the gymnasium where the dance was being held. Few were there to greet the engineers' queen. Most of the couples had gone home, angry and disappointed and raging at their foes, the lawyers.

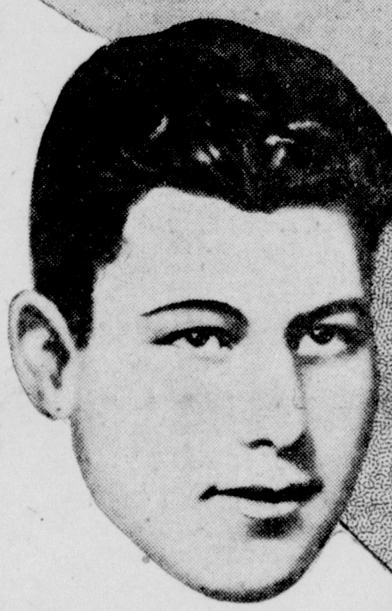

Frederick Horne, of Moberly, Mo., who had been chosen to crown the queen had gone also, and there was no one there to take his place. Mary stood in the center of the almost deserted gymnasium feeling like a Cinderella who had arrived at the ball too late.

When Miss Butterfield's story—she had been kidnaped and taken to Moberly, Mo., and detained for hours before being released—was buzzed about the campus the next morning her admirers, the engineers, became furious. There were rules governing all college rivalries, they loudly proclaimed, and kidnaping a girl to ruin their biggest annual social event was nothing less than barbarous.

The calmest one in the entire college town was Mary, the heroine of the escapade. Shown an illustrated year-book she refused to identify the culprits.

"After all," she told everybody, "my abductors might have been ill-advised but they did me no harm."

The engineers, however, refused to calm down and swore they'd have their revenge. They started their reprisals by seizing Arnold Fink, of Blytheville, Ark., president of the law school student body, and holding him prisoner for several hours. Then they released him on what they called "parole" with a threat to have his head shaved if any more didoes were committed by his followers.

Burnis Frederick, of Union Star, Mo., Who Was Held in $1,000 Bail on the Charge of Firing a Revolver at the Crowd of Engineering Students. He Resigned From College.

Jerry Cebe, of St. Louis, Mo., a Victim of the College Gunplay and One of the Sixteen Undergraduates Suspended From the Institution After the "Kidnaping."

The Francis quadrangle, the engineers' part of the campus, then became an armed camp. Their weapons, however, were only the regular paddles they carry to keep trespassers off their share of the ground. Tension was high between the two factions but almost everyone connected with the university believed that the hot-blooded youths would cool down in a few days and the "outrage," as the engineers called it, would shortly be forgotten.

However, many of the group appointed themselves amateur sleuths and set about trying to discover the identity of the four "kidnapers." The activities of a quartette of these young Sherlock Holmeses so alarmed the four youths who had carried off the uncrowned queen that they appealed for protection to a justice of the peace.

They named the four engineers and the justice put these "Hoovers" under $100 peace bonds. This act ended Miss Butterfield's generous tolerance.

"This has ceased to be a prank," the pretty victim exclaimed. "I now feel justified in telling the names of the men who kidnaped me!" And she did.

They were, she said, James Harutum, Joplin, Mo.; Gerard Spencer, Columbia; Burnis Frederick, Union Star, Mo., and Stanley Ginn, of Miller, Mo. The university authorities still thought it best to make little of the affair and ignored the heated accusations. Dr. Albert K. Heckel, dean of the institution's men, announced he did not intend to recommend action by the discipline committee.

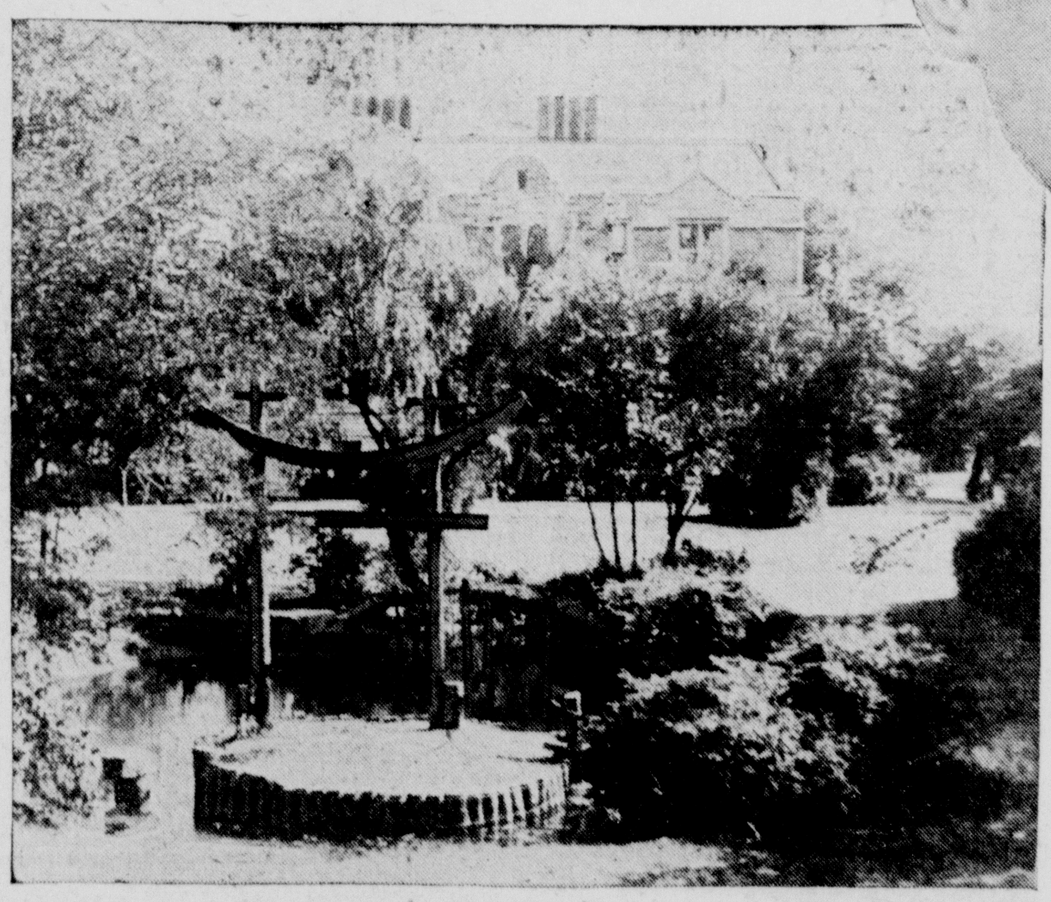

Then, for the first time Miss Butterfield told her friends complete details of her abduction. In Moberly, where she had been taken, her captors had brought her to the home of a young married couple.

Until late at night she had played bridge with the lawyers and then had been taken back to Columbia in the green sedan. About two blocks from her sorority house she had been released. Going to her room, she hastily changed into an evening gown and then rushed to the ball—but too late for the fun.

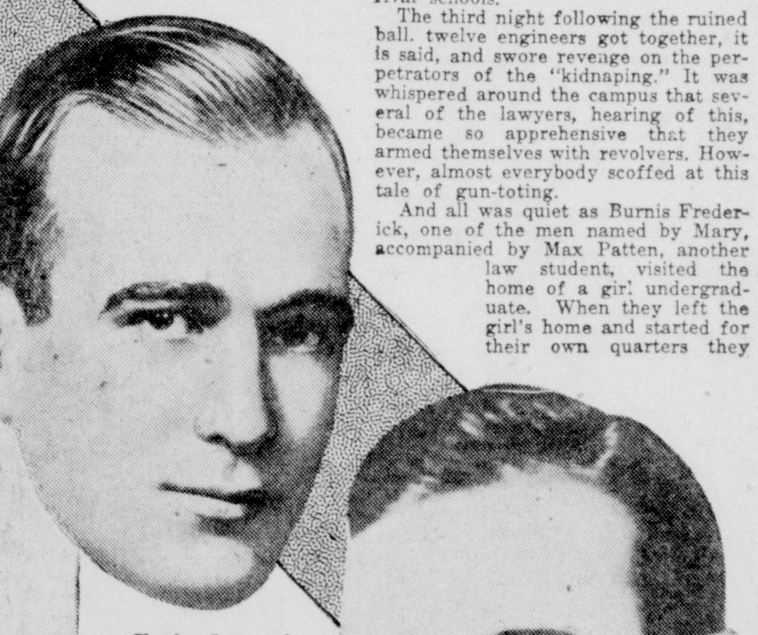

For some curious reason, the telling of these rather innocuous details roused the engineers' anger to fever heat. All day long rumors and threats zipped between the members of the rival schools.

The third night following the ruined ball, twelve engineers got together, it is said, and swore revenge on the perpetrators of the "kidnaping." It was whispered around the campus that several of the lawyers, hearing of this, became so apprehensive that they armed themselves with revolvers. However, almost everybody scoffed at this tale of gun-toting.

And all was quiet as Burnis Frederick, one of the men named by Mary, accompanied by Max Patten, another law student, visited the home of a girl undergraduate. When they left the girl's home and started for their own quarters they found themselves facing a charge of very belligerent-looking engineers.

The Tranquil Japanese Garden, Most Beautiful Section of the University of Missouri Campus, Near Which the Stormiest Part of the Astonishing Undergraduate Battle Was Staged.

Charles Love, of Jefferson City, Mo., Who Was Shot in the Right Foot and Later Dropped for a Time From the University.

D. Frank Luckey, the Engineering Student Who Was Wounded in the Abdomen, Causing Physicians to Despair for His Life.

What the engineers had planned, it was said, was a head-shaving expedition. According to their version, Frederick lost his head as they advanced upon him and drew a revolver from his pocket. Frederick claimed he shot two bullets into the ground as a warning but the oncoming chargers did not halt.

Then, it is alleged, Frederick discharged his weapon at the engineers. Three of them were wounded and fell. Frederick was overpowered, tossed into a car and driven to a municipal airport two miles away. There he alleged later, he was severely beaten. When the engineers learned that one of their mates had been so severely wounded that an emergency operation was being contemplated, they turned Frederick over to the police.

The three wounded men were: D. Frank Luckey, shot through the stomach and, at this writing, in a dangerous condition; Jerry Cebe, the engineering school's ranking student and captain-elect of the university wrestling team, shot through the right leg; and Charles Love, who was slightly injured in the foot.

Frederick was charged with carrying concealed weapons and placed under $1,000 bond by the police after being taken to a hospital to be treated for severe head bruises. The shooting affray caused, of course, the wildest excitement the University of Missouri had known for years. Feeling between the schools now ran higher than ever.

In court, Frederick's lawyer declared the engineer raiders had carried revolvers and had discharged them. He also asserted that Frederick had run three blocks before firing the last of his gun's six shells. Self-defense was his plea for his client. Frederick resigned from the university after the sensational fracas.

Investigation of the entire affair, beginning with the kidnaping of Queen Mary Butterfield was ordered by Dr. Walter Williams, president of the university. "College pranks," he said, "are indefensible when they degenerate into lawlessness."

All those having a part in the trouble that had started so innocently and ended so gravely would be punished, he indicated. The probe was accelerated by reports from the hospital that doctors held out little hope for the wounded Luckey's recovery.

When the institution authorities who were chosen for the investigation committee turned in their recommendations the entire student body was amazed. The suspension of no less than sixteen students was requested. The list included four lawyers and twelve engineers. Frederick's three alleged fellow-"abductors" were dropped as well as Patten and two of the wounded men, Cebe and Love.

Dr. Williams said the absence of Luckey's name from the list did not mean he would not be disciplined later, in the event of his recovery. The suspended students, he admitted, may life an application for reinstatement. If the appeal of any were denied it meant the end of his college career, at least at the University of Missouri.

Other results of the mixup will be the discontinuance of all contests between members of the law and engineering schools and the elimination of all secrecy in the choosing of the engineers' ball queens. As a matter of fact, no more queens may be picked for several years to come.

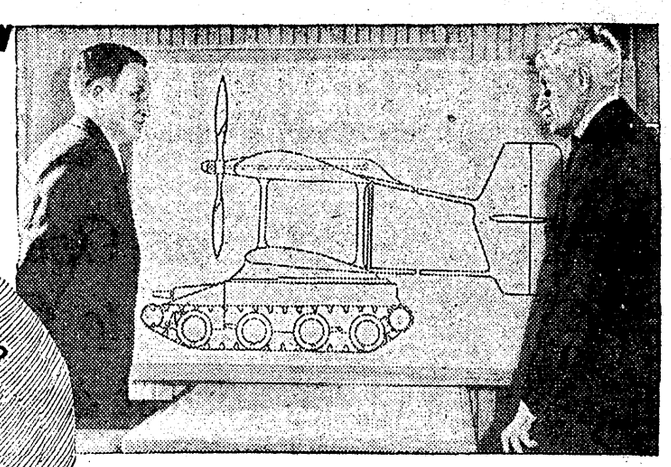

However, some weeks after the shooting scrape the university fathers decided to give the sixteen suspended youths another chance. They were enrolled once more after a large part of the student body pleaded for their reinstatement. However, they are under indefinite probation.

Frederick waived preliminary hearing on the weapon charge and his case was set for the June term of the Circuit Court.

The Tank that Runs, Climbs, Fights and *FLIES*

And Why the Inventor of the Newest "Mechanical Fighting Fool" Thinks His Amazing War Monster Could Rout an Invading Army

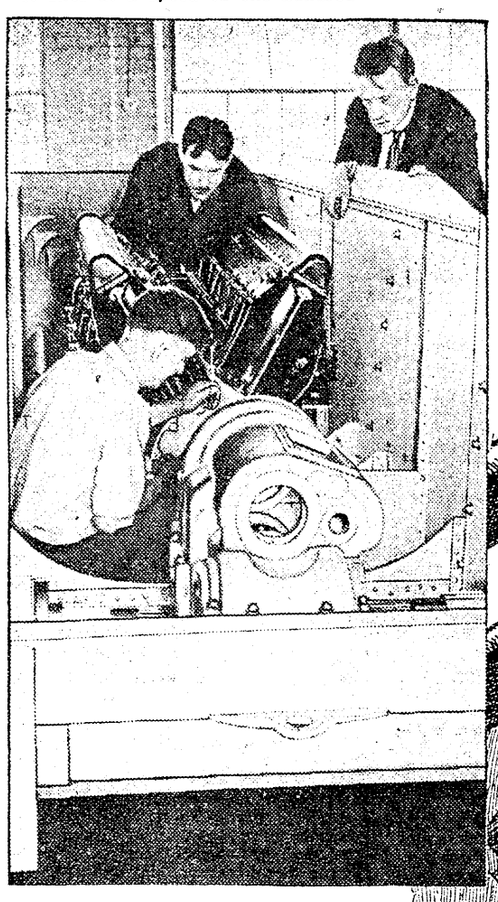

The Diagram That Guided the Construction of the "Mechanical Fighting Fool" Is Studied by Inventor Christie and Engineer P. G. Anderson in Their Linden, N. J., Workshop.

A MECHANICAL fighting fool! This is what war experts are calling the unique new flying tank now being completed at Linden, New Jersey. Supervising its intricate construction is J. Walter Christie, middle-aged inventor and developer of the famous traveling gun mount. During the World War Mr. Christie built many effective armored vehicles, including an amphibian one used by the United States Army.

The flying tank undoubtedly constitutes one of the most spectacular and astonishing contributions ever made to military science. The death-dealing machine combines all the advantages of a regular caterpillar tank with those of a high-powered armored motor car and a bombing plane.

It flies at a speed of one hundred and forty miles per hour, zips over level ground at an even hundred and travels up and down hills, over trenches and shell holes at seventy. And flying, climbing or speeding over the ground it fights unceasingly with heavy machine guns and bombs.

The Unique 1,000-Horsepower Engine of the Spectacular New Flying Tank Being Inspected by Inventor J. Walter Christie and an Engineer.

Operating one of these remarkable "mechanical fighting fools" requires only two men. A fleet of a hundred flying tanks, it is estimated by some authorities, could rout an army of half a million foot soldiers. But where the new device appears to enjoy the greatest advantage over all other known destructive motor machines is in the rapidity and ease with which it can be transformed from an air-fighter to a land-fighter and back again.

Hurtling over the ground at 100 miles an hour and protected by its heavy armament it could tear straight into the enemy's lines. If blocked or endangered by terrific barrages it could rise in almost the twinkling of an eye and fly to a more vulnerable point along the opposition's front. And its equipment enables it to fight with the same furious effectiveness in the air as on land.

Most promising of all are its prospects as a weapon of defense in the event of the seizure and occupancy of some great metropolis by the armed forces of a foreign power.

Let it be granted for a moment that New York City is so occupied and has been made absolutely impregnable to attack by land and sea. In such a situation the flying tank probably would be America's reprisal ace.

The flying tank squadron would fly to some clearing in the conquered city —say Central Park— and, racing through the big town's guarded streets at one hundred miles per hour, would open up a fierce projectile and machine gun fire attack on the entrenched foe's strongholds.

Their extraordinary speed would make them difficult targets. Repeated assaults by the squadron would most likely cripple the enemy and rout them in a short while from the city.

The inventor of this amazing new engine of destruction, J. Walter Christie, is a tall, distinguished looking man of middle age. He first came to the notice of the general public about twenty-five years ago as a crack automobile racing driver. He is not a militarist in the strict sense of the word and sees his latest creation more as a weapon of defense than as an instrument to wage offensive war upon foreign powers.

"I believe," he says, "that if hundreds of these flying tanks were in the possession of the United States they would be more effective in maintaining peace than any treaties. And let me say at once that the invention is at the disposal of this country though I have received a handsome offer from a foreign power."

As it neared completion the machine, when first exhibited behind closed doors at the Linden workshop, closely resembled the Christie speed tank which the old racing auto track ace supplied to the American army.

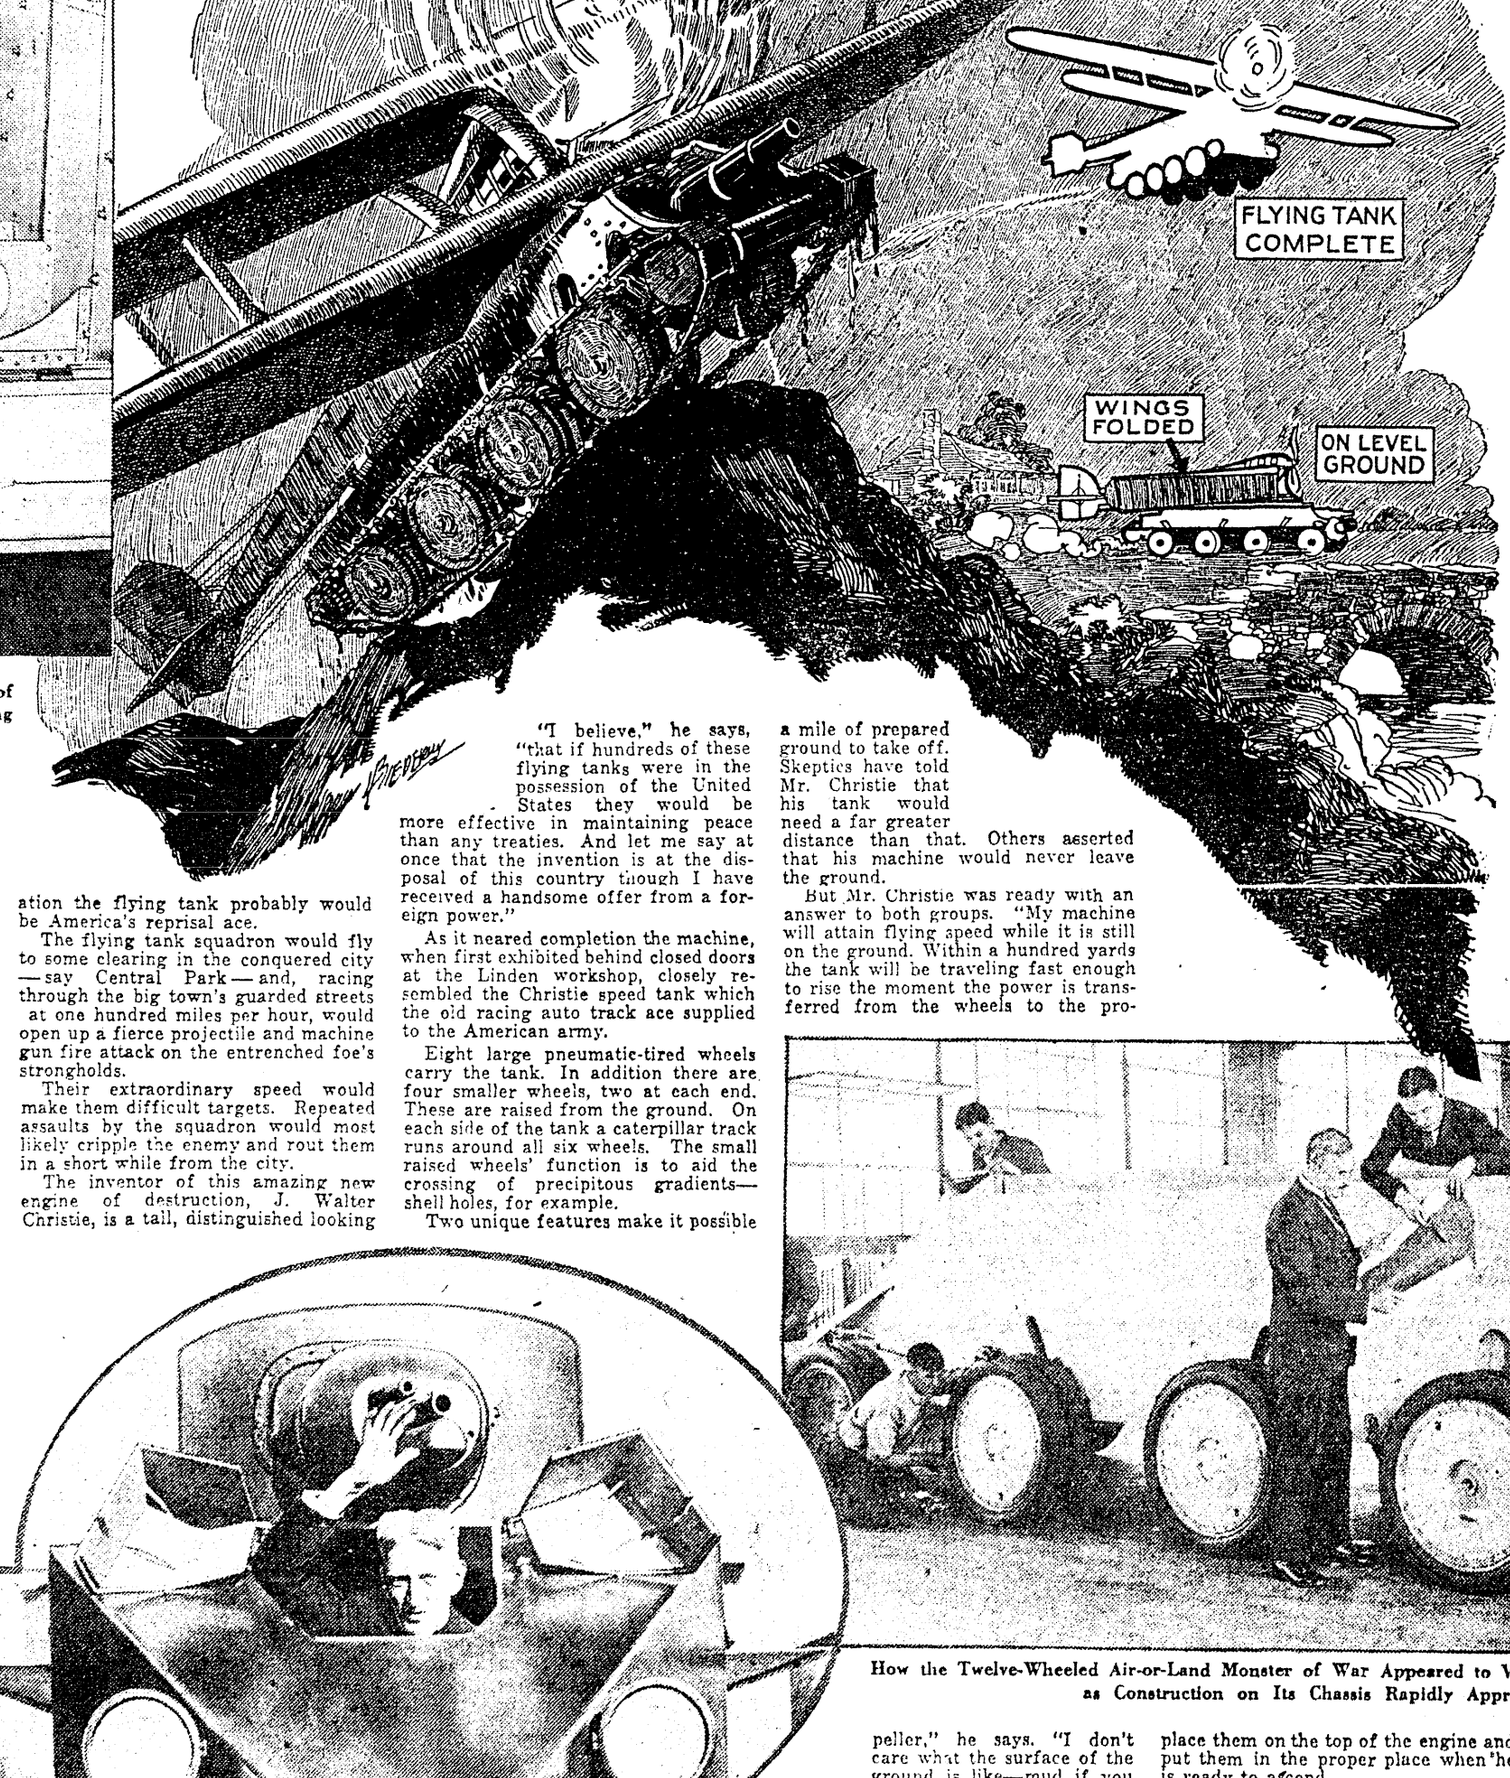

Eight large pneumatic-tired wheels carry the tank. In addition there are four smaller wheels, two at each end. These are raised from the ground. On each side of the tank a caterpillar track runs around all six wheels. The small raised wheels' function is to aid the crossing of precipitous gradients—shell holes, for example.

Two unique features make it possible for the tank to fly when equipped with a pair of wing and a propeller. These are the engine's astonishing light weight and speed.

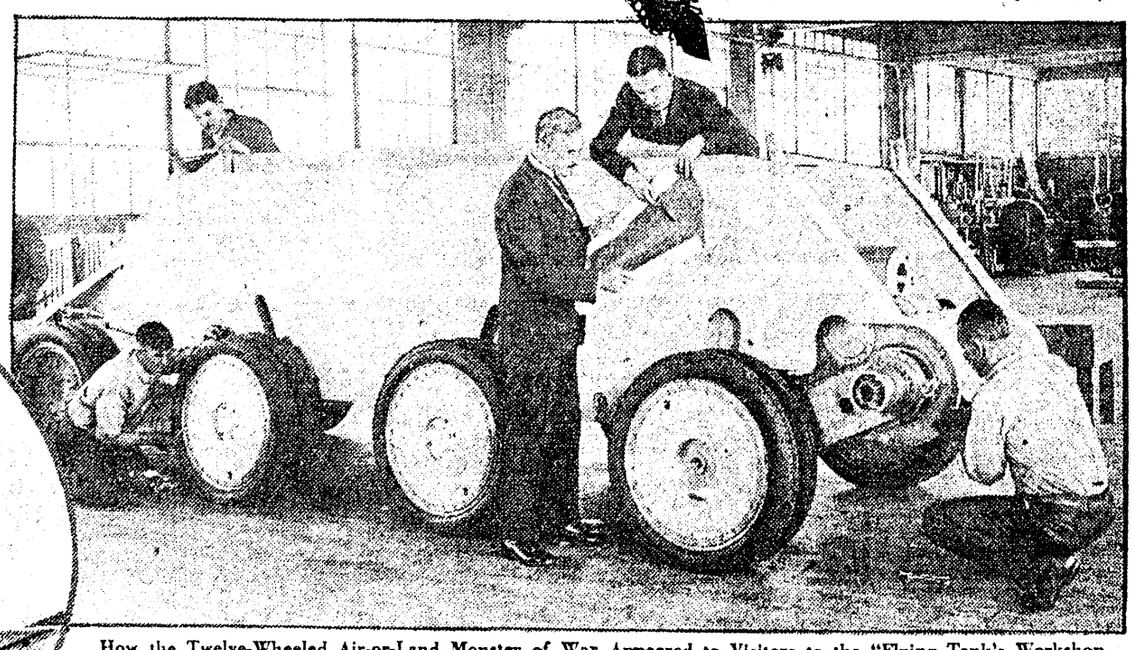

"It is an established fact that a single pair of wings can support this tank in the air," explains Mr. Christie. "Any aviator will tell you in two minutes how little wing spread is required."

The first question that would be asked by a Doubting Thomas, versed in the A B C's of aviation, is "How about the takeoff?" Mr. D. Thomas would point out the well known fact that many planes require three-quarters of a mile of prepared ground to take off. Skeptics have told Mr. Christie that his tank would need a far greater distance than that. Others asserted that his machine would never leave the ground.

But Mr. Christie was ready with an answer to both groups. "My machine will attain flying speed while it is still on the ground. Within a hundred yards the tank will be traveling fast enough to rise the moment the power is transferred from the wheels to the propeller," he says. "I don't care what the surface of the ground is like—mud if you wish. The caterpillars will function just as well. The Christie speed tank has already proved that."

Artist Biedermann's Realistic Drawing, Portraying the Flying Tank in All Phases of Its Military Activities; Flying Complete or With Ground Tank Detached It Can Achieve 100-Miles-an-Hour, Along Level Ground with Detachable Wings Folded It Can Better 100 Miles and Traveling Over Shell-Torn Battlefields It Averages 70-Miles an Hour.

How the Twelve-Wheeled Air-or-Land Monster of War Appeared to Visitors to the "Flying Tank's Workshop as Construction on Its Chassis Rapidly Approached Completion.

The inventor declared that landing could also be effected in short spaces. The tank has an instrument-board that will show the pilot his air speed and when he turns into a chauffeur he will be able to ascertain his land speed both on the caterpillar tracks and the wheels —whichever he is using at the moment.

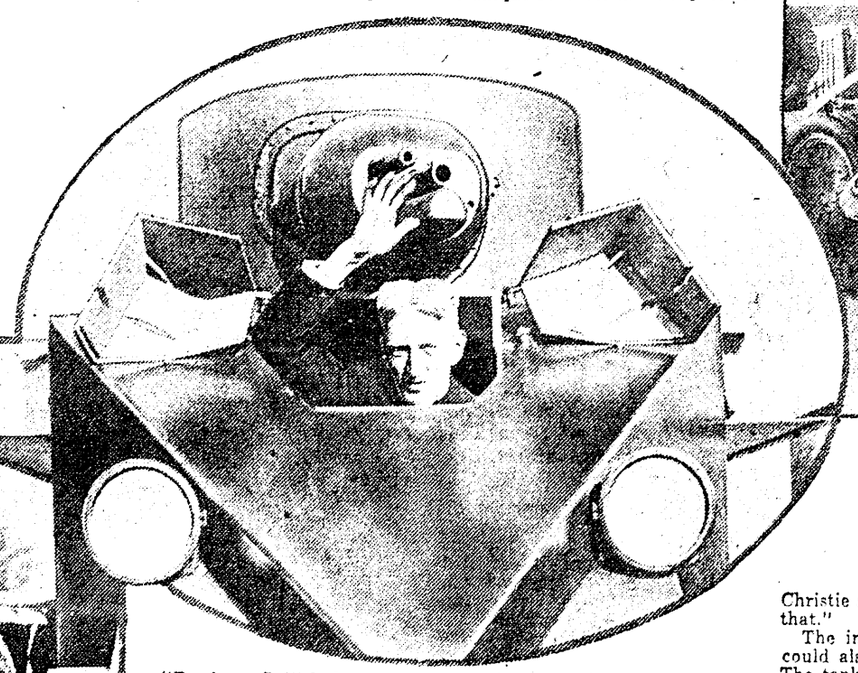

The change from air to land is accomplished very simply. All the driver has to do is to start the caterpillar wheels in motion and adjust them to the air speed. He can do this easily by watching the speedometers. The moment the tank touches the ground he will begin braking it like an automobile.

By an ingenious arrangement the wings can be detached from the tank by the pressure of a single lever. If the driver intends to go up again he can place them on the top of the engine and put them in the proper place when he is ready to ascend.

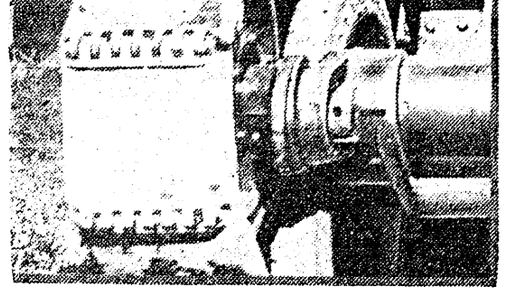

Another plan for the flying tank that Mr. Christie has in mind is to make not only the wings detachable but also the entire plane part of the duplex machine. Thus, this detached plane, with its own pilot, could take off from the tank proper and land on some other tank whenever desired. Of course the tanks would be geared at flying speed so the plane need never touch the ground.

At this writing Mr. Christie was preparing for a first practical demonstration of his astonishing invention. The tank is run by a light-weight engine capable of developing from 750 to 1,000 horse power. It is designed to drive both the back axle for land work and the propeller for air maneuvers.

Secret construction principles were worked out in building the body. As a result the complete tank will weigh only a little more than four tons. The tremendous speed of the tank is gained by a special springing system, pneumatic tires and a patent caterpillar track.

"Ready to Go!" Is Inventor Christie, Sitting at the Controls of the Caterpillar Truck Under the Fighting Turret.

This Graphic Close-Up of the "Business" End of the Flying Tank Shows How the Detachable Caterpillar Covers the Wheels When Traversing Rough Ground.

While Mr. Christie was finishing his ingenious machine several ambitious and inventive minds were designing new war engines in Japan. Nippon's recent unpleasantness with China in Manchuria and Shanghai seems to have brought latent Japanese ingenuity into full flower.

Immediately following the cessation of hostilities on the mainland of Asia a host of suggestions and ideas and models flooded the Tokio War Office. The majority, as usual, came from cranks, but among them were several so startling, even if not practicable, that cabled news of them soon girdled the globe.

Perhaps the most astonishing of all was the brain-child of a bright Yokohama patriot. This Oriental gentleman conceived the following fantastic notion. First the War Department should make a huge number of large funnel-shaped shields. These would be mounted on wheels.

Once they were built and conveyed to the battlefield, all that the leaders of the Japanese armed forces had to do was push them ahead of the troops. The funnels would catch the enemy's bullets. The bullets would be deflected into a tube, and this would empty the missiles right into a "bullet collector."

"What could be simpler," asked the young inventor, "than immediately putting the garnered bullets into Japanese guns and shooting them right back at the enemy?"

The War Department, contrary to the young Yokohama genius's expectations, did not leap to the opportunity of adopting this magnificent idea. This also was Tokio's reaction to a brilliant suggestion that emanated from Kobe about the same time. The Kobe wizard wanted to manufacture five thousand saw-toothed saw blades for the Japanese War Department.

These were to be utilized, he said, in mowing down the enemy!

A third war-born inspiration came in from Nagasaki, where a citizen's fertile brain spouted forth with a lethal two-seater vehicle. Two-seater vehicles that are lethal are rare enough in this world, but it is safe to say that nothing like this particular device had ever been seen or heard of before.

The man from Nagasaki wanted his two-seater vehicle built with a machine gun mounted in front and a plow in the rear. This was a little too much for the Japanese military officials. They wrote to the Nagasaki man asking "What's the idea?"

This (in effect) is what he replied:

Gentlemen:

I have read in the newspapers of our estimable country that the farmers in Manchuria are victimized and oppressed by the bandits. My wonderful invention would stop all that at once.

All the sons of Nippon have to do is to provide all the Manchurian agriculturists now under the protection of our glorious flag with these two-seater vehicles. The farmers could fight off the mercenary banditti with their machine guns without even interrupting their ploughing.

I call my invention "War and Peace!" War is represented by the machine gun in front, and peace is symbolized by the plow. Because I am a patriot I offer you this device absolutely free of charge.

Yours respectfully,
A GOOD CITIZEN.

Instead of leaping at this suggestion the Tokio military authorities decided that the Manchurian peasants would have to get along without "War and Peace." The conjecture of the Nagasaki man can well be imagined. One can almost hear him saying to his wife, "You have to have pull to get anywhere with the government these days. But they'll be sorry when some other nation tries to buy up my invention!"

Feasted on Ground Glass and Poison Just Once Too Often

How an Oriental Authority Explains the Weird and Tragic Fate of the Hindu Fakir Whose Fantastic Daily Diet Astounded All India

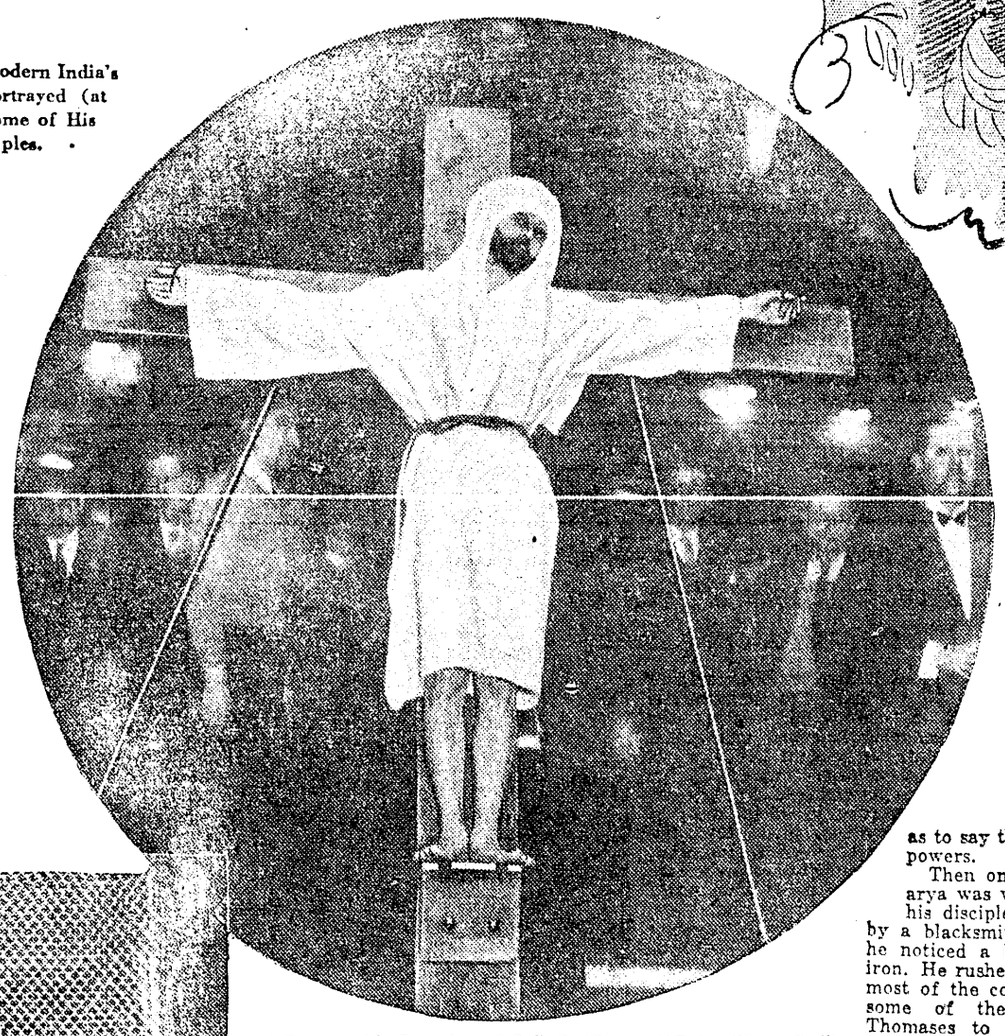

"On Occasion, when dining *en Famille*, a Timid Guest Has Been Terrified Almost Out of Her Wits When the Swami Ordered His Favorite Poisons and Ground Glass and Swallowed Them With Little Sighs of Pleasure."

Sankaracharya, the Master Yogi, Who Founded the Order of Swamis in the Eighth Century, Reproduced From a Rare Old Steel Engraving.

Ramkrishna, One of Modern India's Greatest Yogis Is Portrayed (at Left) Addressing Some of His Faithful Disciples.

A Remarkable Snapshot of O. P. S. "Birman" Being "Crucified" a "Stunt" Which the Renowned Indian Fakir Performed at Paris and Elsewhere.

SWAMI NARASINGHA, professional Hindu mystic, had been dining in public. His favorite menu was a platter of ground glass and a small wine glass of sulphuric acid. After drinking the acid he would eat the wine glass itself, bite by bite, and wash down the fragments with half a dram of nitric acid, a grain of strychnine, finally polishing off the meal with a demi-tasse of sulphuric acid.

Swami Narasingha had done all this many times in public—for money. On occasion, when dining en famille, a timid guest had been terrified almost out of her wits when the Swami ordered his favorite poisons and ground glass and swallowed them with little sighs of pleasure.

However, something went very wrong recently when Narasingha ate one of his exhibition meals at Rangoon, Burma. Ground glass, poison and more poison—enough to kill a regiment—disappeared down his throat and then, the Swami, rising with a sickly smile on his face announced that he did not feel so well. Two hours later he was dead.

"Strychnine poison!" was the verdict of the hospital doctors. "Not so!" corrected the Swami's disciples. "The holy man simply forgot his usual hatayoga exercises before eating."

"Bunkum!" is probably what most Occidentals would comment on hearing this.

However, Basanta Koomar Roy, distinguished Hindu student and formerly a lecturer at the University of Wisconsin, points out in the accompanying article that there are mystics and holy men in India who are possessed of occult training beyond the comprehension of ordinary mortals and to whom Narasingha's fatal feast would be a completely safe adventure.

By BASANTA KOOMAR ROY.

IT HELPS neither the Oriental nor the Occidental to be snobbish about his achievements in life.

The Occidental thinks that the Oriental is woefully ignorant, because he does not know enough about the technics of electricity to enable him to send a message or a picture through the ether or how to project an airplane through space at 250 miles an hour.

Similarly, the Oriental thinks that the Occidental is hopelessly ignorant, because he does not know the secrets even of his own body, not to speak of the uncanny powers of his mind.

The truth, however, lies in the fact that the Occidental scientist is doing useful research work in the universe of the outer world—the matter; and the Oriental mystic is doing exactly the same in the universe of the inner world—the mind. Like two devout pilgrims they have started from the same point and on the same quest, traveling in opposite directions around the globe of research acquiring transcendant knowledge of two different worlds. And when at their journey's end they meet after centuries of separation and sit down like two loving brothers in all the humility of their abundance of knowledge and profundity of wisdom, and compare notes, human civilization fortunately becomes immeasurably enriched.

As an illustration, it may be mentioned here that the paramount scientific researches of Professor Albert Einstein, especially his Unified Field theory, have just begun to delve scientifically into what the Hindu sages of 7,000 years ago called Vedanta Philosophy; even though Professor Einstein never heard of the word Vedanta until I mentioned it to him during his visit to New York just a little over a year ago. "Let knowledge grow from more to more; but more of reverence in us dwell."

Recent press dispatches from the Orient reported that the Hindu mystic, Narasingha Swami, had died very suddenly in Rangoon, Burma. He had gone there to give a public demonstration of his "yogic" powers.

"Birman" Is Here Shown in the Cage Where He Attempted to Hypnotize Some Wild Rats. The Dogs in Front of the Cage Have Just Caught Some Rodents That Succeeded in Escaping.

"He ate glass," the cabled dispatches stated, "and then swallowed half a dram of nitric acid, a grain of strychnine, a grain of potassium cyanide and some sulphuric acid. Two hours later he complained of not feeling very well. He was taken to a nearby hospital where he died that night. His death was attributed to "strychnine poisoning."

A Hindu holy man who gives such public demonstrations for money may well be said to deserve death; and it would certainly be a happy and useful thing for India if all such "swamis" turned to a more honorable way of making a living.

No true Yogi in India will ever give public demonstrations of his yogic powers for money, or for any material consideration whatsoever. The man who does that is not a genuine holy man. He may be a first-class magician or a circus man. In fact, spiritually speaking, he is nothing short of an ignorant showman still in the dark, but with business instincts abnormally developed. As long as a man has the least feeling of even needing money, he cannot be a true Yogi. Yoga is unconditional renunciation of all passions, emotions and desires; and absolute submision to and identification with the will of God. That is why there are more "fakers" than real Yogis amongst the holy men even in India.

The cabled dispatches also claim that Narasingha Swami died because, on account of visitors, the Swami failed to do his *hatayoga* exercises after he swallowed glass and poison. This further proves this Swami was not a real Yogi. The true Yogi does not need to exercise to throw off the effects of poison.

To eat glass, drink poison and live is only child's play to the Yogi who has attained his goal. It is not a question of mind over matter with him any more. For, in him mind and matter become one; the many become one; the finite and the infinite become one.

The greatest commentator on this ancient Hindu philosophy of unity in diversity was Sankaracharya. If ever a Yogi lived in India, he was one. He was a master Yogi. He founded the order of the Swamis. He lived in the eighth century, A. D. We are told numerous stories about his superhuman powers as a master Yogi.

After going through a disciplinary course of extreme austerities, Sankaracharya, like Buddha, came to the conclusion that too much ascetic practice of self restraint was not good for the health of both body and mind. So some of his favorite disciples began to whisper against him. They even went so far as to say that he had lost his yogic powers.

Then one day when Sankarachacharya was walking with a group of his disciples, he happened to pass by a blacksmith's shop. In the shop he noticed a bowl of red-hot molten iron. He rushed to the bowl and drank most of the contents. Then he asked some of the whispering doubting Thomases to drink the rest of the molten iron. No one dared. And the Thomases fell at the feet of their Master, begging forgiveness.

During the latter half of the nineteenth century when Prophet Baha-ullak of Persia was preaching his doctrine of world peace and human brotherhood from his exile at Acca in Palestine, Saint Ramkrishna of India (whose life has been written by men like Professor Max Muller of the Oxford University, and Romain Rolland, the biographer of Beethoven), was breaking down the walls of religious animosity, and preaching the gospel of saintly living. He was one of the greatest of Yogis in modern India. He died in 1886. He was opposed to working miracles; and never encouraged miracle-mongering on the part of his disciples. Said he:

"Visit not miracle workers. They are wanderers from the path of truth. Their minds have become entangled in the meshes of psychic powers, which lie in the way of the pilgrim towards God, as temptations. Beware of these powers, and desire them not.

"A man, after fourteen years of hard asceticism in a lonely forest, obtained at last the power of walking over the waters. Overjoyed at this acquisition, he went to his Guru (teacher), and told him of his grand feat. The Master replied, 'My poor boy, what thou hast accomplished after fourteen years' arduous labor, ordinary men can do simply by paying a penny to the boatman'."

Ramkrishna was an uneducated man who found it difficult even to write his own name. And yet, he could explain some of the most difficult passages from Latin, Greek and Sanskrit. He could see things at a distance, he could predict future events, he could heal sickness simply by the will of his saintly mind.

But perhaps the greatest miracle to his credit was the fact that he could change human nature by the mere touch of his spiritually magnetized hands or feet. As an infallibly penetrating reader of human destiny, he could see behind the veil of man's multiple outer imperfections the radiant inner light that ever burns in varying degrees of effulgence in the innermost chambers of all human beings—saints or sinners.

So, for the welfare of human society, he was wont to pick up the worst sinner in drunkenness, debauchery, depravity or dishonesty, and would just touch him. And the man's life would change. He would be transformed at once into one of the purest men on earth; even to the extent of forgetting the uncleanliness of his former life.

Money for miracles! Ramkrishna trained himself in his early youth not to care for money. He was wont to sit by the Ganges with gold and silver coins in one hand; and in the other he would hold mud. Then he would mingle mud with money and repeat aloud to himself: "Money is mud; money is mud," and then throw both money and mud into the Ganges. Then he would feel much relieved and most happy about it. Later in his life he felt physically sick whenever he touched money even by accident.

In spite of the fact that Ramkrishna was an uneducated priest of a temple at Dakhineswar, near Calcutta, some of the greatest minds of modern India have reverently bowed at his feet, and solemnly drunk at the fountain of his wisdom.

Do you think that a Yogi like Trailanga Goswami of Bernares, who died about fifty years ago, would perform miracles for money, or condescend to perform miracles at all? He was, however, forced to it a few times during his life. And he worked those "miracles" only to demonstrate to the skeptic the power of Yoga. But to him these were not miracles any more than eating baked beans is a miracle for the people of Boston.

Once an English official in India called this holy man a faker, and locked him in a cell in the Benares jail. The official himself closely guarded the prison gate. In a few minutes, however, Trailanga Goswami was seen outside the jail gate and greeted the English official with a smile.

On another occasion a few Hindu skeptics forced this stout holy man into a boat. The boat was rowed to the middle of the Ganges. There they threw a sword into the deep river; and then rowed the boat more than a mile away from that spot. Then they dropped this Master Yogi into the Ganges, asking him to recover the sword that was dropped a mile away.

Trailanga Goswami sat floating on water as he would on land. Then he plunged his right arm into the waters of the Ganges, and in a few moments got into the boat holding the sword in his hand.

There are many who may be inclined to laugh at these stories. I do not blame them. These things are beyond the pale of ordinary knowledge. They indeed defy an average present knowledge of science. Go to India, and tell a Hindu farmer in a remote village days away from any railway or steamship station that it is possible for him to actually talk with a friend of his two thousand miles away through a wireless telephone. He will laugh at you, for radio and the wireless telephone are things beyond the pale of his knowledge. You may be a professor of medicine at Johns Hopkins University, a professor of law at Harvard University, or a professor of physics at the California Institute of Technology and yet, in your own way you are just as ignorant about certain matters as the Hindu farmer.

As for myself, ever since the miracles of the radio I do not feel like disbelieving anything I hear. I simply "don't know" everything I feel like disbelieving. To me Marconi and Edison are only two of the greatest Yogis and miracle-makers of the West.

Feasted on Ground Glass and Poison Just Once Too Often

How an Oriental Authority Explains the Weird and Tragic Fate of the Hindu Fakir Whose Fantastic Daily Diet Astounded All India

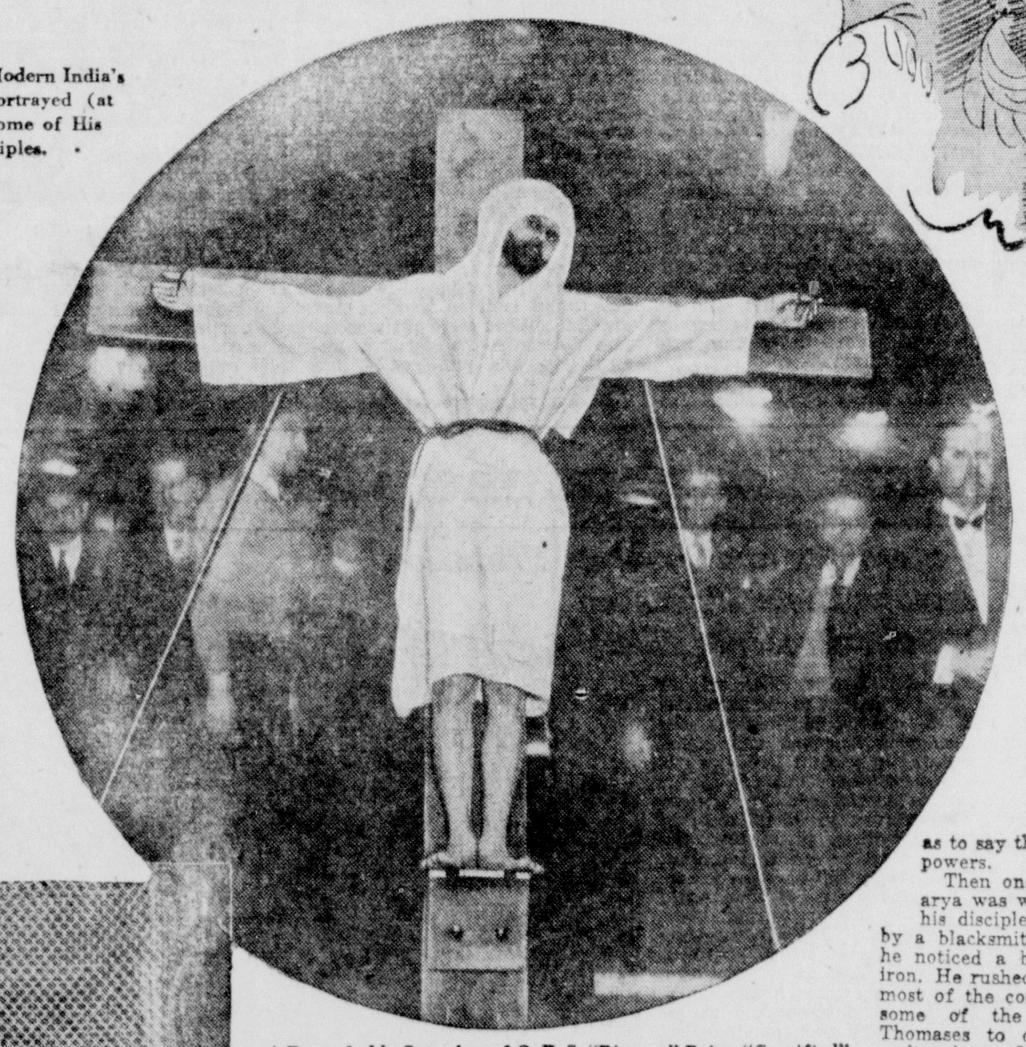

"On Occasion, when dining *en Famille*, a Timid Guest Has Been Terrified Almost Out of Her Wits When the Swami Ordered His Favorite Poisons and Ground Glass and Swallowed Them With Little Sighs of Pleasure."

Sankaracharya, the Master Yogi, Who Founded the Order of Swamis in the Eighth Century, Reproduced From a Rare Old Steel Engraving.

Ramkrishna, One of Modern India's Greatest Yogis Is Portrayed (at Left) Addressing Some of His Faithful Disciples.

A Remarkable Snapshot of O. P. S. "Birman" Being "Crucified" a "Stunt" Which the Renowned Indian Fakir Performed at Paris and Elsewhere.

SWAMI NARASINGHA, professional Hindu mystic, had been dining in public. His favorite menu was a platter of ground glass and a small wine glass of sulphuric acid. After drinking the acid he would eat the wine glass itself, bite by bite, and wash down the fragments with half a dram of nitric acid, a grain of strychnine, finally polishing off the meal with a demi-tasse of sulphuric acid.

Swami Narasingha had done all this many times in public—for money. On occasion, when dining en famille, a timid guest had been terrified almost out of her wits when the Swami ordered his favorite poisons and ground glass and swallowed them with little sighs of pleasure.

However, something went very wrong recently when Narasingha ate one of his exhibition meals at Rangoon, Burma. Ground glass, poison and more poison—enough to kill a regiment—disappeared down his throat and then, the Swami, rising with a sickly smile on his face announced that he did not feel so well. Two hours later he was dead.

"Strychnine poison!" was the verdict of the hospital doctors. "Not so!" corrected the Swami's disciples. "The holy man simply forgot his usual hatayoga exercises before eating."

"Bunkum!" is probably what most Occidentals would comment on hearing this.

However, Basanta Koomar Roy, distinguished Hindu student and formerly a lecturer at the University of Wisconsin, points out in the accompanying article that there are mystics and holy men in India who are possessed of occult training beyond the comprehension of ordinary mortals and to whom Narasingha's fatal feast would be a completely safe adventure.

By BASANTA KOOMAR ROY.

IT HELPS neither the Oriental nor the Occidental to be snobbish about his achievements in life.

The Occidental thinks that the Oriental is woefully ignorant, because he does not know enough about the technics of electricity to enable him to send a message or a picture through the ether or how to project an airplane through space at 250 miles an hour.

Similarly, the Oriental thinks that the Occidental is hopelessly ignorant, because he does not know the secrets even of his own body, not to speak of the uncanny powers of his mind.

The truth, however, lies in the fact that the Occidental scientist is doing useful research work in the universe of the outer world—the matter; and the Oriental mystic is doing exactly the same in the universe of the inner world—the mind. Like two devout pilgrims they have started from the same point and on the same quest, traveling in opposite directions around the globe of research acquiring transcendant knowledge of two different worlds. And when at their journey's end they meet after centuries of separation and sit down like two loving brothers in all the humility of their abundance of knowledge and profundity of wisdom, and compare notes, human civilization fortunately becomes immeasurably enriched.

As an illustration, it may be mentioned here that the paramount scientific researches of Professor Albert Einstein, especially his Unified Field theory, have just begun to delve scientifically into what the Hindu sages of 7,000 years ago called Vedanta Phiosophy; even though Professor Einstein never heard of the word Vedanta until I mentioned it to him during his visit to New York just a little over a year ago. "Let knowledge grow from more to more; but more of reverence in us dwell."

Recent press dispatches from the Orient reported that the Hindu mystic, Narasingha Swami, had died very suddenly in Rangoon, Burma. He had gone there to give a public demonstration of his "yogic" powers.

"He ate glass," the cabled dispatches stated, "and then swallowed half a dram of nitric acid, a grain of strychnine, a grain of potassium cyanide and some sulphuric acid. Two hours later he complained of not feeling very well. He was taken to a nearby hospital where he died that night. His death was attributed to "strychnine poisoning."

A Hindu holy man who gives such public demonstrations for money may well be said to deserve death; and it would certainly be a happy and useful thing for India if all such "swamis" turned to a more honorable way of making a living.

No true Yogi in India will ever give public demonstrations of his yogic powers for money, or for any material consideration whatsoever. The man who does that is not a genuine holy man. Summer Clothes and Soapsuds

How to Wash Delicate Fabrics So that Colors and Textures Keep Their Crispness

After Being Laundered, Shaped and Dried, Mesh Garments Should Be Pressed on the Wrong Side with a Moderately Warm Iron and Gently Eased Into Their Original Shape.

The Care of These Lovely Summer Fabrics in Lightweight Wool, Silk, Linen, Cotton, Durene and the Synthetic Textiles, Is Really Simple if You Follow the Directions Given Below.

Before Washing a Knitted Garment, Jot Down the Correct Measurements. After Washing It According to Directions, Ease the Garment Gently Back to Shape.

"I AM glad that summer has come again, with its washable clothes," said my smartly dressed friend to me. "I adore light colors and bright colors, and I always feel so young and gay in a spotlessly clean dress."

She is a charming woman, this friend of mine, and she is a busy woman, too, with many professional and social duties. But there is never a moment when she is not smartly and fastidiously dressed. When she talks about washable dresses she doesn't mean ordinary house dresses. Not a bit of it. She knows that she can be as particular and practical as she pleases in choosing dresses for street wear and formal wear, with no sacrifice of that elusive *chic*. For progressive manufacturers have accomplished surprising things this year in the way of fabrics that are not only washable, but "packable."

Fabrics that do not wrinkle easily are a god-send to those of us who travel during the summer, to the inveterate week-enders who are always dashing off to the shore or country, and to the commuters who must be well-groomed even after a hot and crowded trip on bus or train. We all know that wrinkles can make even the youngest and smartest of frocks look old and tired; yet with constant packing and daily wear, wrinkles have always seemed to be an unavoidable nuisance.

This summer we have at our command a lovely variety of packable fabrics which, when taken from a bag, are ready for active service, without benefit of pressing! New developments in weave and finish make this possible. You yourself can determine to some extent the amount of pressing a fabric will require, by crushing or twisting it. If it springs back into shape without creasing, it will undoubtedly be packable.

Never before have fabrics been more interesting in weave, texture, and finish. Meshes, rough, soft, spongy weaves, or crepy novelties, boucles, various knitted textures, and gay prints—all present many new problems with regard to care.

White is so cool and summery when it is freshly laundered, that it is wise to choose a white that is washable, especially for sports and general wear.

Washable knitted garments made of light-weight woolens, silk, synthetic textiles, linen, cotton, durene, or a combination of these fibers, have proved satisfactory and smart for sports, travel, and daytime wear, and they are sometimes used for evening. These may vary from nubby, pebbly weaves to lacy tweeds in either a firm, close weave or loose lacy construction; but it is important that they be firm enough to hold their shape. Care should therefore be taken to choose one that is made of a firmly-constructed fabric; that is, one which will spring back to its original shape if pulled in any direction. The rough, firm types will not wrinkle, but neither will the soft, loose weaves provided they are of good quality.

White with a brilliant color contrast is a great favorite this season. Scarfs, sashes, fischus, and colored yokes or sleeves all add a lively interest to our laundry problems. So many people throw up their hands in despair when you mention washing any gay combination of colors. They invariably assure you that the colors always streak. Don't worry! It is not a matter of luck at all, but rather of knowing how. Satisfactory results are dependent upon three things: the fabric itself, the soap, and the method of laundering. The fabric should be one which shrinks very little, and the color should be fast both to sun and washing. The best way to be sure of this is to buy, if possible, only fabrics, trimmings, or dresses that you are sure are washable and color-fast.

The method of laundering is a most important consideration, for even washable fabrics, washed with a good soap, have been ruined by not knowing how. The soap you use should be mild, and in every case it should be thoroughly dissolved before the clothes are immersed in the suds.

To wash such fabrics as meshes, ratines, laces, or boucles, use enough soap to make a lively suds. Dissolve it in hot water, then add cold water until the suds is lukewarm (98° F.). Keep the garment in the suds about five minutes, continually forcing the suds through the soiled parts. Use plenty of suds, and if you are washing the garment in the tub, squeeze it gently or, still better, use a little hand plunger—one of those approved by Good Housekeeping Institute.

After squeezing the suds from the garment, without twisting, put it into a soapy rinse, which is made by using about one-half the amount of the soap used in the first suds. Then rinse twice in clear, lukewarm water, and roll smoothly and tightly in a towel with a kneading action, to absorb the moisture quickly and evenly. Remove from the towel at once. If colors show an inclination to run after being removed from the first towel, roll in another dry towel, to get out more of the moisture. Remove the garment immediately, and pull gently into shape.

Meshes, spongy weaves, lacy cottons and durenes, tweeds, crepe de chine, heavy sheers like georgettes and romaines, flat crepes, shantungs, and spun synthetic fibers, after being shaped, should be hung in an airy place away from the sun until almost dry. Then they should be shaped carefully and ironed on the wrong side with a moderately warm iron. Some prefer to shake the garments gently in the air to hasten drying.

If you have a washing machine, do not hesitate to use it and remember that a reliable commercial laundry will take the same care of your summer wardrobe as you do yourself.

Terry cloth, ratine, boucles, napped or matted surface materials, and chiffons should be shaped while wet, but allowed to dry before pressing. Then place the napped side over a padded surface covered with a turkish towel, and press lightly on the wrong side with a warm iron. Always iron with the thread of the material. This is particularly important when bias cuts have been used in construction. Careful shaping and pressing helps the garment retain its new look. Brushing lightly with very soft bristles will raise the nap.

Before washing a knitted garment, lay it on a flat surface and jot down the bust, shoulder, and under-arm measurements, also the length and width of sleeves, center back, and center front. Then wash, following the directions given in this article, but after rolling in the towels, dry on a flat surface covered with a towel or absorbent cloth.

Refer to the measurements taken before washing, and stretch or ease gently to the same size and shape. If a ruler or straight hard surface is placed against the outer edges of the garment while it is being eased and patted to shape, all fullness and irregular edges can be eliminated.

Never before has it been possible to secure so many truly smart fabrics that are both packable and washable. Knowledge of correct laundry methods should encourage us to look for fabrics that can be easily and inexpensively washed and that will give lasting satisfaction in use.

Certified by Good Housekeeping Institute

These household articles are supervised by the internationally recognized Good Housekeeping Institute, which is conducted by Good Housekeeping Magazine. In their fully equipped, modern laboratories types of household devices are tested by a corps of scientifically trained men and women. Furthermore, new cookery methods are constantly being evolved to save steps, time and labor to housekeepers. All recipes are tested and standardized and will always work if directions are carefully followed. Recipes printed on this page serve six people unless otherwise specified.

Keeping Dates In Warm Weather

FREQUENTLY we are asked about the method of keeping dates in good condition during the warm-weather months. We are glad to pass on to you the following information, given us by a well-known date packer.

The keeping of dates has always been a rather serious problem for us, not because dates tend to spoil in the heat, but because the average retail grocer insists on putting them in his refrigerator or ice box.

Dates are a tropical fruit and under normal conditions should keep even better in the summer than in the winter. They are, however, subject to attacks by a parasite known as the saw-toothed beetle, which, as you know, is one of the cereal weevils. This weevil, however, does not develop in the date package. It reaches the date only when the date package is stored near cereals either on the grocer's shelf or in the pantry of the home. Our advice, therefore, is to store dates in any dry place, no matter what the temperature, and away from cereals of all kinds. If this is followed, the dates should remain fresh and free from infestation.

Making Water Ices

A CLASS of frozen desserts well adapted to summer has a water and fruit juice foundation made into ices. These may be made in a variety of flavors and textures.

The Institute has found that many ices may easily approach ice cream in body smoothness and texture by the addition of corn syrup or pectin. It is density or body in ices which produces a smooth product. Both pectin and corn syrup help to provide this body without producing an oversweetened product.

If corn syrup is used select the clear white variety which has no outstanding flavor. If pectin is used, select the unflavored commercial variety, which usually comes in liquid form.

In making an ice mixture with corn syrup, add the corn syrup to the sugar and water and cook all together to 240° F. Then add the fruit juices, thoroughly blend and cool.

In making an ice mixture with pectin, cook the sugar syrup to 230° F. then add the pectin and continue cooking for about one minute longer. Remove from the heat, add the fruit juice immediately, blending thoroughly before cooling.

In the tests made here at the Institute we found little difference in the texture of ices made with either corn syrup or pectin and they are both very smooth. However, if you desire, either may be substituted for the other in the recipes which have evolved. In so doing, we have found that one-half cupful of corn syrup should be added to each cupful of sugar called for in the recipe. On the other hand, six tablespoonfuls of pectin should be added to each cupful of sugar called for in the recipe.

Ices should be frozen with the proportion of eight parts of ice to one of salt. They should be frozen until stiff and are better if not packed for too long a period of time. The only exception to this procedure is in the case of granites and frappes. They are generally used to accompany a meat course and are frozen with the proportion of two parts of ice to one part of salt. Their consistency should be that of a mush and they are more granular than an ice.

APRICOT ICE

- 1 cupful sugar
- ½ cupful clear white corn syrup
- 2 cupfuls water
- 4 tablespoonfuls lemon juice
- 2 cupfuls apricot pulp and juice

Cook the sugar, corn syrup and one cupful of water to 240° F. Remove from the fire and add the lemon juice, one cupful of cold water and the canned or cooked apricots which have been put through a coarse sieve. Cool and freeze, using eight parts of ice to one of salt. Makes about two quarts.

GINGER ICE

- ½ cupful clear white corn syrup
- 1 cupful water
- 1 cupful sugar
- 1½ cupfuls orange juice
- ⅔ cupful lemon juice
- ⅔ cupful preserved ginger and syrup

Cook the sugar, corn syrup and one cupful water to 240° F. Remove from the fire; add the orange and lemon juice and the ginger syrup. Chop the ginger into fine bits and add to the syrup mixture. The ginger root may be omitted if desired and only the ginger syrup used. Cool and freeze, using eight parts of ice to one part of salt. Makes about two quarts.

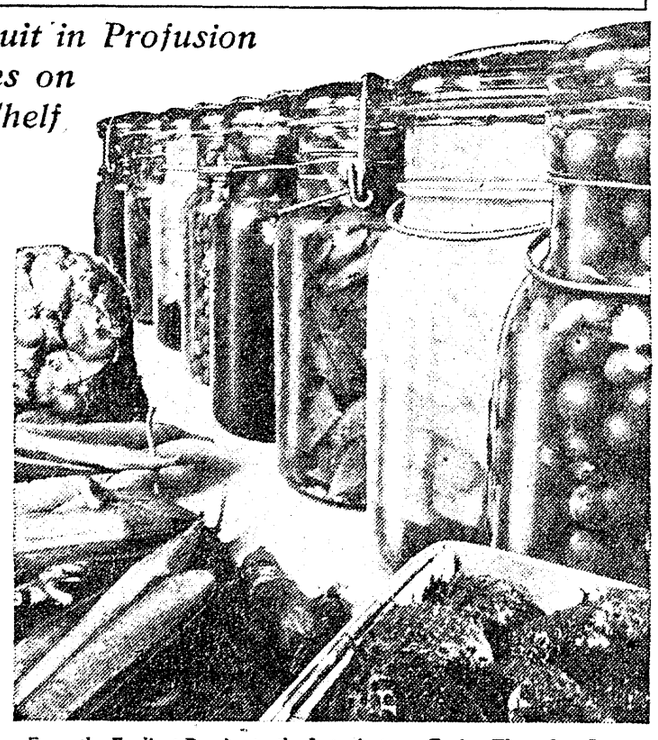

ORANGE MINT ICE

- 1½ cupfuls sugar
- ¾ cupful clear white corn syrup
- 6 tablespoonfuls lemon juice
- 3 cupfuls orange juice
- 3 tablespoonfuls chopped mint
- 1¾ cupfuls water

Cook the sugar, one cupful of water and corn syrup together to 240° F. Remove from the fire and add the lemon juice, orange juice, mint and three-fourths cupful of cold water. Chill, pour into the freezer and freeze, using eight parts of ice to one part of salt. Makes about two quarts.

Start Your Summer Canning Now

Vegetables and Fruit in Profusion Await Their Places on Winter Preserve Shelf

From the Earliest Berries to the Late Autumn Fruits, There Is a Succession of Garden and Orchard Produce That May Be Canned and Put Away to Entice the Tired Winter Appetite.

AND here it's the month of June! The strawberries are big and luscious—the pineapples fragrant and sweet. Asparagus is right in its prime, with peas and beans not so far behind. As the season progresses these garden products are succeeded by others, just as crisp and sweet. Small wonder then, that housekeepers feel the urge to can. Yet, there are many who should never even attempt to can.

To be sure, it is wise economy to can the garden's surplus, if that garden happens to be your own. Then you are not only able to pick each fruit or vegetable at its tenderest and sweetest stage, but you can can it as soon as it is picked. But if you must buy your products—vegetables in particular—from a market, and have no way of knowing their freshness, then don't attempt to can. It is not only a waste of time, money, and materials, to can such products but it may be unsafe as well! Furthermore commercially canned products are cheaper than ever today, and they are always picked fresh and packed safely in the cans!

But granted you are fortunate enough to be able to can your own garden's surplus, then it should be your first responsibility to decide just what you are going to can and how best to can it. Don't wait until you have your vegetables all picked, only to discover you haven't all the equipment you will need or that your canning time-table is mislaid.

If your home canning aspirations are limited to fruits and tomatoes, then you have a choice of several ways of processing them. A water-bath canner, a heat-controlled oven, a steamer, or a waterless cooker—fruits and tomatoes can be safely canned in any one of these devices. In case you need to buy such equipment, our bulletin, "Household Equipment Tested and Approved," which is sent gratis upon request, will give you a complete list of those now being carried as tested and approved.

If you are interested in the home-canning of non-acid vegetables, such as beans, peas, spinach, corn, etc., here is a situation to which you should give careful consideration: there is increasing evidence that the danger from botulinus poisoning in canning these vegetables is a real menace. To eliminate this danger, the commercial canning industry now uses the steam pressure canner as the safest means of sterilizing non-acid vegetables. Other types of canning equipment do not allow the use of a sufficiently high temperature to sterilize the vegetables without affecting the color, texture and flavor. For these reasons, Good Housekeeping Institute recommends that all vegetables canned at home, with the exception of tomatoes, be canned in the steam pressure cooker. And do not pack the jars or tins too closely or it wil be difficult for the heat to penetrate the solid mass at the center and imperfect sterilization may result.

Even greater than in the case of non-acid vegetables are the difficulties in securing adequate sterilization of meat products. For this reason we do not recommend the home canning of any meats but chicken, chicken which has been home-raised and canned immediately after dressing.

Space does not permit us to give in this article complete directions and time-tables for canning fruits, vegetables and chicken. In our bulletin, "Canning Methods Up-to-Date," however, which you can secure for 25 cents from our Bulletin Service at 57th St. and 8th Ave., New York City, we have carefully included all the necessary information about the selection of proper canning equipment, jars and rubbers and the safest methods of canning fruits, vegetables, and chicken at home. Complete time-tables for processing the various products are given as well. You should have this bulletin to start your canning season right.

When You Cook Rice

RICE is an extremely versatile article of food, and is quite competent to take its place in the menu at any of the three meals. Although it is rightfully classified as a cereal, it may be served as a vegetable or as a dessert with equal success. Left-over rice may be used in happy combinations with eggs, milk, and cheese which help add variety to the daily menu.

Rice is too often served as a sticky, glutinous mass, which is both unappetizing and unpalatable, when it could and should be tender and flaky, with each kernel distinct. How can we best achieve a product which fulfills all the specifications? First of all, by buying the best packaged rice. Kernels that are mashed and broken will not give the best results. Next, by washing the rice thoroughly so that all foreign particles are dislodged and any loose starch is washed away. This is best done by putting the measured rice in a coarse strainer, holding it under a stream of cold water, and turning the grains frequently until they are perfectly clean. Third, by choosing one of the following methods for cooking the rice.

For the double-boiler method, put one cup of washed rice in the top of the double-boiler: add one quart of boiling water and two teaspoonfuls of salt. Cover and steam until soft. This steaming takes about fifty minutes. The water should be completely absorbed at the end of the cooking period. Place the cooked rice, uncovered, in a warm oven for five minutes to dry it out, leaving the oven door ajar. The finished product will be dry and flaky.

Rice may be successfully cooked in a steamer, also. Sprinkle one teaspoonful of salt over one cup of washed rice and steam over one and one-half cupfuls of boiling water for forty-five minutes. Then dry out in the oven as directed above.

Some people prefer to boil rice. To do this successfully, use one cup of washed and drained rice, two quarts of water, and one tablespoonful of salt. Bring the water and salt to a full rolling boil, sprinkle the rice into it, and let it continue to boil rapidly. Continue cooking for twenty to thirty minutes, tossing the rice with a fork occasionally, as a spoon tends to mash the kernels. Add more boiling water if necessary. Test the grains frequently by rubbing a kernel between the thumb and finger. When entirely soft, remove the rice and drain into a colander or coarse strainer. Hold the cooked rice under a vigorous stream from the cold-water faucet. This will separate the kernels and rinse off the loose starch. Then dry in the oven.

For a delicious rice pudding wash one-half cup of rice as usual. Mix this with one quart of milk, two-thirds cup of sugar, one-half teaspoonful of salt, a dash of nutmeg, and one-half cup of raisins, and pour into a greased baking dish. Bake in a slow oven at 320° F. until rice is tender (between two and three hours). Stir every fifteen minutes during the first hour of baking.

Helps to Housewives

THE FAMILY BULLETIN BOARD

KEEP a pad and pencil on the living-room table, so that if in your absence the children wish to go out, they may leave a note on the family bulletin board, telling you where they have gone and when they expect to return. Do the same for them, and because it is a family rule and not just one for the children they will comply cheerfully. They can easily reach you in case of an emergency, and you will not have to worry about where they may be. It will help to keep your family life intact and is a constructive force in these strenuous days when there are so many disruptive tendencies in our modern life.

TO CLEAN LIGHT-COLORED FELT HATS

If your felt hat is light in color, mix salt and cornmeal in the proportion of one teaspoonful of salt to two tablespoonfuls of cornmeal. Place on a paper and rub the hat briskly with the mixture, using a soft cloth. When the mixture looks dirty, brush the hat thoroughly with a stiff, clean brush and you will find a marvelous change in the hat.

KEEP YOUR RECIPE CARDS CLEAN

After writing or typewriting your recipes on the cards for your filing cabinet, shellac both sides of the card with good waterproof shellac or clear waterproof varnish. Let harden thoroughly. You then have a permanent record and can lay the card you are using on your kitchen work shelf without danger of spotting with water. If the recipe is written on only one side of the card, notations which help you in cooking or planning may be put on the reverse side, likes or dislikes of the family with regard to flavoring, what accompaniment went well with the dish, etc.

Summer Clothes and Soapsuds

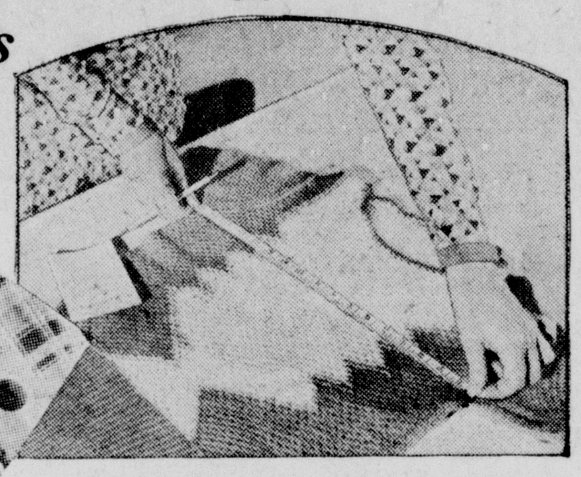

How to Wash Delicate Fabrics So that Colors and Textures Keep Their Crispness

After Being Laundered, Shaped and Dried, Mesh Garments Should Be Pressed on the Wrong Side with a Moderately Warm Iron and Gently Eased Into Their Original Shape.

The Care of These Lovely Summer Fabrics in Light-weight Wool, Silk, Linen, Cotton, Durene and the Synthetic Textiles, Is Really Simple if You Follow the Directions Given Below.

Before Washing a Knitted Garment, Jot Down the Correct Measurements. After Washing It According to Directions, Ease the Garment Gently Back to Shape.

"I AM glad that summer has come again, with its washable clothes," said my smartly dressed friend to me. "I adore light colors and bright colors, and I always feel so young and gay in a spotlessly clean dress."

She is a charming woman, this friend of mine, and she is a busy woman, too, with many professional and social duties. But there is never a moment when she is not smartly and fastidiously dressed. When she talks about washable dresses she doesn't mean ordinary house dresses. Not a bit of it. She knows that she can be as particular and practical as she pleases in choosing dresses for street wear and formal wear, with no sacrifice of that elusive *chic*. For progressive manufacturers have accomplished surprising things this year in the way of fabrics that are not only washable, but "packable."

Fabrics that do not wrinkle easily are a god-send to those of us who travel during the summer, to the inveterate week-enders who are always dashing off to the shore or country, and to the commuters who must be well-groomed even after a hot and crowded trip on bus or train. We all know that wrinkles can make even the youngest and smartest of frocks look old and tired; yet with constant packing and daily wear, wrinkles have always seemed to be an unavoidable nuisance.

This summer we have at our command a lovely variety of packable fabrics which, when taken from a bag, are ready for active service, without benefit of pressing! New developments in weave and finish make this possible. You yourself can determine to some extent the amount of pressing a fabric will require, by crushing or twisting it. If it springs back into shape without creasing, it will undoubtedly be packable.

Never before have fabrics been more interesting in weave, texture, and finish. Meshes, rough, soft, spongy weaves, or crepy novelties, boucles, various knitted textures, and gay prints—all present many new problems with regard to care.

White is so cool and summery when it is freshly laundered, that it is wise to choose a white that is washable, especially for sports and general wear.

Washable knitted garments made of light-weight woolens, silk, synthetic textiles, linen, cotton, durene, or a combination of these fibers, have proved satisfactory and smart for sports, travel, and daytime wear, and they are sometimes used for evening. These may vary from nubby, pebbly weaves to lacy tweeds in either a firm, close weave or loose lacy construction; but it is important that they be firm enough to hold their shape. Care should therefore be taken to choose one that is made of a firmly-constructed fabric; that is, one which will spring back to its original shape if pulled in any direction. The rough, firm types will not wrinkle, but neither will the soft, loose weaves provided they are of good quality.

White with a brilliant color contrast is a great favorite this season. Scarfs, sashes, fischus, and colored yokes or sleeves all add a lively interest to our laundry problems. So many people throw up their hands in despair when you mention washing any gay combination of colors. They invariably assure you that the colors always streak. Don't worry! It is not a matter of luck at all, but rather of knowing how. Satisfactory results are dependent upon three things: the fabric itself, the soap, and the method of laundering. The fabric should be one which shrinks very little, and the color should be fast both to sun and washing. The best way to be sure of this is to buy, if possible, only fabrics, trimmings, or dresses that you are sure are washable and color-fast.

The method of laundering is a most important consideration, for even washable fabrics, washed with a good soap, have been ruined by not knowing how. The soap you use should be mild, and in every case it should be thoroughly dissolved before the clothes are immersed in the suds.

To wash such fabrics as meshes, ratines, laces, or boucles, use enough soap to make a lively suds. Dissolve it in hot water, then add cold water until the suds is lukewarm (98° F.). Keep the garment in the suds about five minutes, continually forcing the suds through the soiled parts. Use plenty of suds, and if you are washing the garment in the tub, squeeze it gently or, still better, use a little hand plunger—one of those approved by Good Housekeeping Institute.

After squeezing the suds from the garment, without twisting, put it into a soapy rinse, which is made by using about one-half the amount of the soap used in the first suds. Then rinse twice in clear, lukewarm water, and roll smoothly and tightly in a towel with a kneading action, to absorb the moisture quickly and evenly. Remove from the towel at once. If colors show an inclination to run after being removed from the first towel, roll in another dry towel, to get out more of the moisture. Remove the garment immediately, and pull gently into shape.

Meshes, spongy weaves, lacy cottons and durenes, tweeds, crepe de chine, heavy sheers like georgettes and romaines, flat crepes, shantungs, and spun synthetic fibers, after being shaped, should be hung in an airy place away from the sun until almost dry. Then they should be shaped carefully and ironed on the wrong side with a moderately warm iron. Some prefer to shake the garments gently in the air to hasten drying.

If you have a washing machine, do not hesitate to use it and remember that a reliable commercial laundry will take the same care of your summer wardrobe as you do yourself.

Terry cloth, ratine, boucles, napped or matted surface materials, and chiffons should be shaped while wet, but allowed to dry before pressing. Then place the napped side over a padded surface covered with a turkish towel, and press lightly on the wrong side with a warm iron. Always iron with the thread of the material. This is particularly important when bias cuts have been used in construction. Careful shaping and pressing helps the garment retain its new look. Brushing lightly with very soft bristles will raise the nap.

Before washing a knitted garment, lay it on a flat surface and jot down the bust, shoulder, and under-arm measurements, also the length and width of sleeves, center back, and center front. Then wash, following the directions given in this article, but after rolling in the towels, dry on a flat surface covered with a towel or absorbent cloth.

Refer to the measurements taken before washing, and stretch or ease gently to the same size and shape. If a ruler or straight hard surface is placed against the outer edges of the garment while it is being eased and patted to shape, all fullness and irregular edges can be eliminated.

Never before has it been possible to secure so many truly smart fabrics that are both packable and washable. Knowledge of correct laundry methods should encourage us to look for fabrics that can be easily and inexpensively washed and that will give lasting satisfaction in use.

Certified by Good Housekeeping Institute

These household articles are supervised by the internationally recognized Good Housekeeping Institute, which is conducted by Good Housekeeping Magazine. In their fully equipped, modern laboratories types of household devices are tested by a corps of scientifically trained men and women. Furthermore, new cookery methods are constantly being evolved to save steps, time and labor to housekeepers. All recipes are tested and standardized and will always work if directions are carefully followed. Recipes printed on this page serve six people unless otherwise specified.

Keeping Dates In Warm Weather

FREQUENTLY we are asked about the method of keeping dates in good condition during the warm-weather months. We are glad to pass on to you the following information, given us by a well-known date packer.

The keeping of dates has always been a rather serious problem for us, not because dates tend to spoil in the heat, but because the average retail grocer insists on putting them in his refrigerator or ice box.

Dates are a tropical fruit and under normal conditions should keep even better in the summer than in the winter. They are, however, subject to attacks by a parasite known as the saw-toothed beetle, which, as you know, is one of the cereal weevils. This weevil, however, does not develop in the date package. It reaches the date only when the date package is stored near cereals either on the grocer's shelf or in the pantry of the home. Our advice, therefore, is to store dates in any dry place, no matter what the temperature, and away from cereals of all kinds. If this is followed, the dates should remain fresh and free from infestation.

Making Water Ices

A CLASS of frozen desserts well adapted to summer has a water and fruit juice foundation made into ices. These may be made in a variety of flavors and textures.

The Institute has found that many ices may easily approach ice cream in body smoothness and texture by the addition of corn syrup or pectin. It is density or body in ices which produces a smooth product. Both pectin and corn syrup help to provide this body without producing an oversweetened product.

If corn syrup is used select the clear white variety which has no outstanding flavor. If pectin is used, select the unflavored commercial variety, which usually comes in liquid form.

In making an ice mixture with corn syrup, add the corn syrup to the sugar and water and cook all together to 240° F. Then add the fruit juices, thoroughly blend and cool.

In making an ice mixture with pectin, cook the sugar syrup to 230° F. then add the pectin and continue cooking for about one minute longer. Remove from the heat, add the fruit juice immediately, blending thoroughly before cooling.

In the tests made here at the Institute we found little difference in the texture of ices made with either corn syrup or pectin and they are both very smooth. However, if you desire, either may be substituted for the other in the recipes which have evolved. In so doing, we have found that one-half cupful of corn syrup should be added to each cupful of sugar called for in the recipe. On the other hand, six tablespoonfuls of pectin should be added to each cupful of sugar called for in the recipe.

Ices should be frozen with the proportion of eight parts of ice to one of salt. They should be frozen until stiff and are better if not packed for too long a period of time. The only exception to this procedure is in the case of granites and frappes. They are generally used to accompany a meat course and are frozen with the proportion of two parts of ice to one part of salt. Their consistency should be that of a mush and they are more granular than an ice.

APRICOT ICE

- 1 cupful sugar
- ½ cupful clear white corn syrup
- 2 cupfuls water
- 4 tablespoonfuls lemon juice
- 2 cupfuls apricot pulp and juice

Cook the sugar, corn syrup and one cupful of water to 240° F. Remove from the fire and add the lemon juice, one cupful of cold water and the canned or cooked apricots which have been put through a coarse sieve. Cool and freeze, using eight parts of ice to one of salt. Makes about two quarts.

GINGER ICE

- ½ cupful clear white corn syrup
- 1 cupful water
- 1 cupful sugar
- 1½ cupfuls orange juice
- ⅔ cupful lemon juice
- ⅔ cupful preserved ginger and syrup

Cook the sugar, corn syrup and one cupful water to 240° F. Remove from the fire; add the orange and lemon juice and the ginger syrup. Chop the ginger into fine bits and add to the syrup mixture. The ginger root may be omitted if desired and only the ginger syrup used. Cool and freeze, using eight parts of ice to one part of salt. Makes about two quarts.

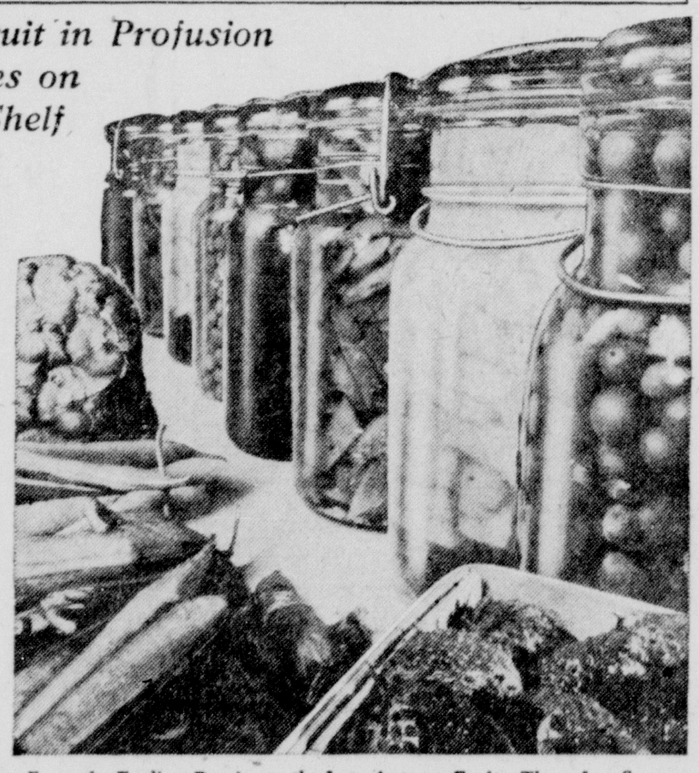

ORANGE MINT ICE

- 1½ cupfuls sugar
- ¾ cupful clear white corn syrup
- 6 tablespoonfuls lemon juice
- 2 cupfuls orange juice
- 3 tablespoonfuls chopped mint
- 1¾ cupfuls water

Cook the sugar, one cupful of water and corn syrup together to 240° F. Remove from the fire and add the lemon juice, orange juice, mint and three-fourths cupful of cold water. Chill, pour into the freezer and freeze, using eight parts of ice to one part of salt. Makes about two quarts.

Start Your Summer Canning Now

Vegetables and Fruit in Profusion Await Their Places on Winter Preserve Shelf

From the Earliest Berries to the Late Autumn Fruits, There Is a Succession of Garden and Orchard Produce That May Be Canned and Put Away to Entice the Tired Winter Appetite.

AND here it's the month of June! The strawberries are big and luscious—the pineapples fragrant and sweet. Asparagus is right in its prime, with peas and beans not so far behind. As the season progresses these garden products are succeeded by others, just as crisp and sweet. Small wonder then, that housekeepers feel the urge to can. Yet, there are many who should never even attempt to can.

To be sure, it is wise economy to can the garden's surplus, if that garden happens to be your own. Then you are not only able to pick each fruit or vegetable at its tenderest and sweetest stage, but you can can it as soon as it is picked. But if you must buy your products—vegetables in particular—from a market, and have no way of knowing their freshness, then don't attempt to can. It is not only a waste of time, money, and materials, to can such products but it may be unsafe as well! Furthermore commercially canned products are cheaper than ever today, and they are always picked fresh and packed safely in the cans!

But granted you are fortunate enough to be able to can your own garden's surplus, then it should be your first responsibility to decide just what you are going to can and how best to can it. Don't wait until you have your vegetables all picked, only to discover you haven't all the equipment you will need or that your canning time-table is mislaid.

If your home canning aspirations are limited to fruits and tomatoes, then you have a choice of several ways of processing them. A water-bath canner, a heat-controlled oven, a steamer, or a waterless cooker—fruits and tomatoes can be safely canned in any one of these devices. In case you need to buy such equipment, our bulletin, "Household Equipment Tested and Approved," which is sent gratis upon request, will give you a complete list of those now being carried as tested and approved.

If you are interested in the home-canning of non-acid vegetables, such as beans, peas, spinach, corn, etc., here is a situation to which you should give careful consideration: there is increasing evidence that the danger from botulinus poisoning in canning these vegetables is a real menace. To eliminate this danger, the commercial canning industry now uses the steam pressure canner as the safest means of sterilizing non-acid vegetables. Other types of canning equipment do not allow the use of a sufficiently high temperature to sterilize the vegetables without affecting the color, texture and flavor. For these reasons, Good Housekeeping Institute recommends that all vegetables canned at home, with the exception of tomatoes, be canned in the steam pressure cooker. And do not pack the jars or tins too closely or it wil be difficult for the heat to penetrate the solid mass at the center and imperfect sterilization may result.

Even greater than in the case of non-acid vegetables are the difficulties in securing adequate sterilization of meat products. For this reason we do not recommend the home canning of any meats but chicken, chicken ,which has been home-raised and canned immediately after dressing.

Space does not permit us to give in this article complete directions and time-tables for canning fruits, vegetables and chicken. In our bulletin, "Canning Methods Up-to-Date," however, which you can secure for 25 cents from our Bulletin Service at 57th St. and 8th Ave., New York City, we have carefully included all the necessary information about the selection of proper canning equipment, jars and rubbers and the safest methods of canning fruits, vegetables, and chicken at home. Complete time-tables for processing the various products are given as well. You should have this bulletin to start your canning season right.

When You Cook Rice

RICE is an extremely versatile article of food, and is quite competent to take its place in the menu at any of the three meals. Although it is rightfully classified as a cereal, it may be served as a vegetable or as a dessert with equal success. Left-over rice may be used in happy combinations with eggs, milk, and cheese which help add variety to the daily menu.

Rice is too often served as a sticky, glutinous mass, which is both unappetizing and unpalatable, when it could and should be tender and flaky, with each kernel distinct. How can we best achieve a product which fulfills all the specifications? First of all, by buying the best packaged rice. Kernels that are mashed and broken will not give the best results. Next, by washing the rice thoroughly so that all foreign particles are dislodged and any loose starch is washed away. This is best done by putting the measured rice in a coarse strainer, holding it under a stream of cold water, and turning the grains frequently until they are perfectly clean. Third, by choosing one of the following methods for cooking the rice.

For the double-boiler method, put one cup of washed rice in the top of the double-boiler: add one quart of boiling water and two teaspoonfuls of salt. Cover and steam until soft. This steaming takes about fifty minutes. The water should be completely absorbed at the end of the cooking period. Place the cooked rice, uncovered, in a warm oven for five minutes to dry it out, leaving the oven door ajar. The finished product will be dry and flaky.

Rice may be successfully cooked in a steamer, also. Sprinkle one teaspoonful of salt over one cup of washed rice and steam over one and one-half cupfuls of boiling water for forty-five minutes. Then dry out in the oven as directed above.

Some people prefer to boil rice. To do this successfully, use one cup of washed and drained rice, two quarts of water, and one tablespoonful of salt. Bring the water and salt to a full rolling boil, sprinkle the rice into it, and let it continue to boil rapidly. Continue cooking for twenty to thirty minutes, tossing the rice with a fork occasionally, as a spoon tends to mash the kernels. Add more boiling water if necessary. Test the grains frequently by rubbing a kernel between the thumb and finger. When entirely soft, remove the rice and drain into a colander or coarse strainer. Hold the cooked rice under a vigorous stream from the cold-water faucet. This will separate the kernels and rinse off the loose starch. Then dry in the oven.

For a delicious rice pudding wash one-half cup of rice as usual. Mix this with one quart of milk, two-thirds cup of sugar, one-half teaspoonful of salt, a dash of nutmeg, and one-half cup of raisins, and pour into a greased baking dish. Bake in a slow oven at 320° F. until rice is tender (between two and three hours). Stir every fifteen minutes during the first hour of baking.

Helps to Housewives

THE FAMILY BULLETIN BOARD

KEEP a pad and pencil on the living-room table, so that if in your absence the children wish to go out, they may leave a note on the family bulletin board, telling you where they have gone and when they expect to return. Do the same for them, and because it is a family rule and not just one for the children they will comply cheerfully. They can easily reach you in case of an emergency, and you will not have to worry about where they may be. It will help to keep your family life intact and is a constructive force in these strenuous days when there are so many disruptive tendencies in our modern life.

TO CLEAN LIGHT-COLORED FELT HATS

If your felt hat is light in color, mix salt and cornmeal in the proportion of one teaspoonful of salt to two tablespoonfuls of cornmeal. Place on a paper and rub the hat briskly with the mixture, using a soft cloth. When the mixture looks dirty, brush the hat thoroughly with a stiff, clean brush and you will find a marvelous change in the hat.

KEEP YOUR RECIPE CARDS CLEAN

After writing or typewriting your recipes on the cards for your filing cabinet, shellac both sides of the card with good waterproof shellac or clear waterproof varnish. Let harden thoroughly. You then have a permanent record and can lay the card you are using on your kitchen work shelf without danger of spotting with water. If the recipe is written on only one side of the card, notations which help you in cooking or planning may be put on the reverse side, likes or dislikes of the family with regard to flavoring, what accompaniment went well with the dish, etc.

HIGH LIGHTS OF HISTORY -:- Early Polish Rulers -:- By J. CARROLL MANSFIELD

AT THE BEGINNING OF THE CHRISTIAN ERA THE ROMANS APPLIED THE NAME "SARMATIANS" TO ALL THE SLAVIC PEOPLES DWELLING ON THE SOUTHERN RIM OF THE BALTIC SEA. AMONG THESE WERE THE POLES.

THE POLES WERE DIVIDED INTO ABOUT A DOZEN INDEPENDENT TRIBES, WHICH UNITED ONLY WHEN ATTACKED BY A COMMON FOE.

IN THE 6TH CENTURY WE HEAR OF THE FIRST POLISH DUKE, LESZEK I, WHO RULED OVER THE TRIBES; AS A SORT OF MILITARY COMMANDER-IN-CHIEF, FROM THE DUCAL TOWN OF GNESEN.

ON THE TOP OF THE HILL HE HAD PICKED AS A SITE FOR A CASTLE LESZEK FOUND AN EAGLE'S NEST.

THIS WAS CONSIDERED A GOOD OMEN. LESZEK NAMED THE PLACE GNESEN, FROM THE SLAVIC WORD FOR NEST, AND HENCEFORTH THE FIGURE OF AN EAGLE WAS DISPLAYED ON THE POLISH BANNERS. —•

TWO CENTURIES LATER THE POLISH TRIBES WERE CONSOLIDATED UNDER ONE RULER, THE DUKE CRACUS.

CRACUS REMOVED THE SEAT OF GOVERNMENT FROM GNESEN TO THE HEAD OF THE VISTULA RIVER, WHERE HE FOUNDED A NEW CITY WHICH WAS NAMED CRACOW IN HIS HONOR, —•

CRACUS WAS AN ABLE GENERAL AND AN EFFICIENT RULER. UNDER HIS LEADERSHIP THE POLES PROSPERED AT HOME AND TRIUMPHED OVER THE ENEMIES THAT ATTACKED THEM. —•

THE GOOD DUKE CRACUS WAS SO WELL BELOVED THAT AFTER HE DIED THE POLES DEPARTED FROM THEIR CUSTOM AND CHOSE HIS DAUGHTER WANDA TO RULE OVER THEM. —•

WANDA WAS SO BEAUTIFUL AND ACCOMPLISHED THAT NOBLE SUITORS CAME FROM FAR AND WIDE TO TRY TO WIN HER HEART AND HAND.

BUT POWER WAS SWEET TO THE DUCHESS AND, WHILE THE PRESENCE OF SO MANY SUITORS PLEASED HER VANITY, SHE DID NOT WISH TO SHARE THE THRONE WITH A HUSBAND AND HAUGHTILY SPURNED ALL OFFERS OF MARRIAGE . . . . . .

HER MOST ARDENT AND PERSISTENT WOOER WAS A YOUNG GERMAN COUNT NAMED RÜDIGER.

ANGERED BY WANDA'S REFUSAL, RÜDIGER LED HIS WARRIORS INTO POLAND WITH THE MAD IDEA OF FORCING THE DUCHESS TO MARRY HIM. . . . . .

WARNED THAT RÜDIGER WAS COMING WITH AN ARMY, WANDA GATHERED HER FIGHTING MEN AND RODE OUT TO OPPOSE HIM. —•

WHEN RÜDIGER'S MEN SAW THE YOUNG DUCHESS RIDING TOWARDS THEM, THEY REFUSED TO DRAW THEIR SWORDS AGAINST A WOMAN AND WENT HOME.

THE EXASPERATED SUITOR WAS LEFT ALONE. THE DUCHESS WANDA MERELY LAUGHED AT RÜDIGER'S DISCOMFITURE AND RODE BACK TO CRACOW WITH HER SOLDIERS. © 1932, BY J. CARROLL MANSFIELD.

RÜDIGER WAS IN DESPAIR. DESERTED BY HIS FOLLOWERS, SCORNED BY THE WOMAN HE LOVED, THE UNHAPPY YOUTH TURNED HIS SWORD AGAINST HIMSELF AND DIED WITH HIS FACE TOWARD CRACOW.

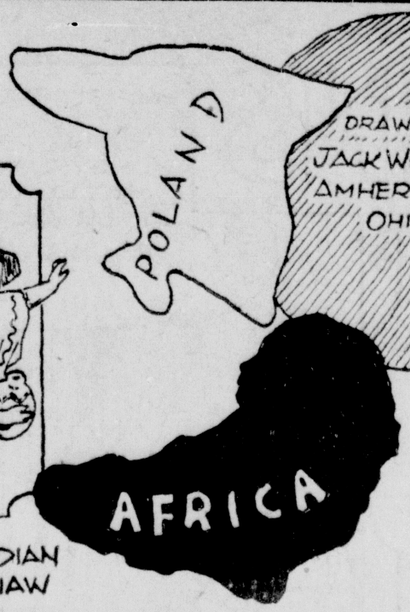

WANDA'S FATE WAS EQUALLY TRAGIC. SHE WAS FILLED WITH REGRETS AND FOUND NO HAPPINESS IN THE POWER SHE HAD PRIZED SO HIGHLY. FINALLY SHE FLUNG HERSELF INTO THE RUSHING WATERS OF THE VISTULA AND WAS DROWNED. —— TO BE CONTINUED.

THIS WAS CONSIDERED A GOOD OMEN. LESZEK NAMED THE PLACE GNESEN, FROM THE SLAVIC WORD FOR NEST, AND HENCEFORTH THE FIGURE OF AN EAGLE WAS DISPLAYED ON THE POLISH BANNERS. —

TWO CENTURIES LATER THE POLISH TRIBES WERE CONSOLIDATED UNDER ONE RULER, THE DUKE CRACUS.

CRACUS REMOVED THE SEAT OF GOVERNMENT FROM GNESEN TO THE HEAD OF THE VISTULA RIVER, WHERE HE FOUNDED A NEW CITY WHICH WAS NAMED CRACOW IN HIS HONOR, —

CRACUS WAS AN ABLE GENERAL AND AN EFFICIENT RULER. UNDER HIS LEADERSHIP THE POLES PROSPERED AT HOME AND TRIUMPHED OVER THE ENEMIES THAT ATTACKED THEM. —

THE GOOD DUKE CRACUS WAS SO WELL BELOVED THAT AFTER HE DIED THE POLES DEPARTED FROM THEIR CUSTOM AND CHOSE HIS DAUGHTER WANDA TO RULE OVER THEM. —

WANDA WAS SO BEAUTIFUL AND ACCOMPLISHED THAT NOBLE SUITORS CAME FROM FAR AND WIDE TO TRY TO WIN HER HEART AND HAND.

BUT POWER WAS SWEET TO THE DUCHESS AND, WHILE THE PRESENCE OF SO MANY SUITORS PLEASED HER VANITY, SHE DID NOT WISH TO SHARE THE THRONE WITH A HUSBAND AND HAUGHTILY SPURNED ALL OFFERS OF MARRIAGE . . . . . .

HER MOST ARDENT AND PERSISTENT WOOER WAS A YOUNG GERMAN COUNT NAMED RÜDIGER.

ANGERED BY WANDA'S REFUSAL, RÜDIGER LED HIS WARRIORS INTO POLAND WITH THE MAD IDEA OF FORCING THE DUCHESS TO MARRY HIM. . . . . .

WARNED THAT RÜDIGER WAS COMING WITH AN ARMY, WANDA GATHERED HER FIGHTING MEN AND RODE OUT TO OPPOSE HIM. —

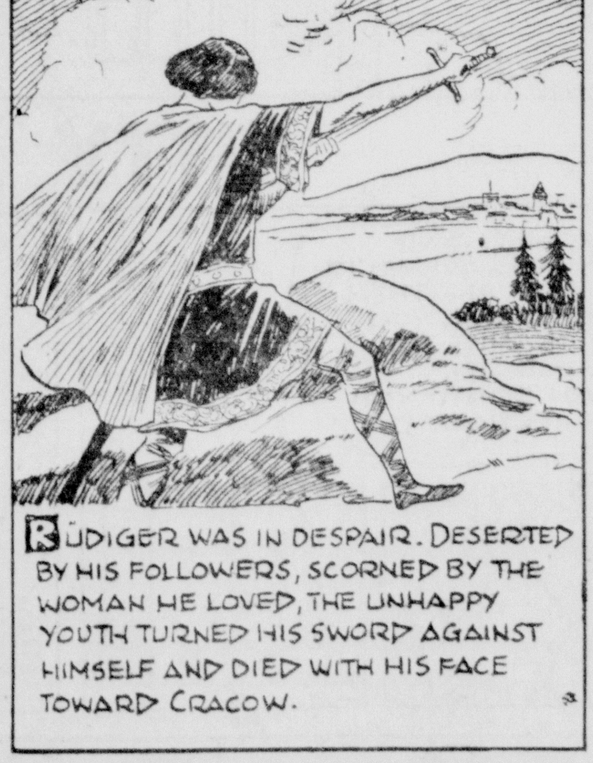

WHEN RÜDIGER'S MEN SAW THE YOUNG DUCHESS RIDING TOWARDS THEM, THEY REFUSED TO DRAW THEIR SWORDS AGAINST A WOMAN AND WENT HOME.

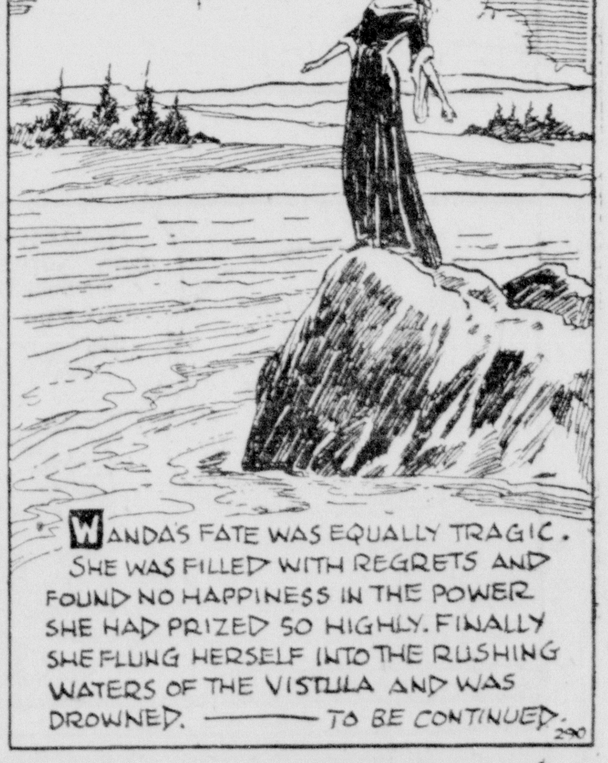

THE EXASPERATED SUITOR WAS LEFT ALONE. THE DUCHESS WANDA MERELY LAUGHED AT RÜDIGER'S DISCOMFITURE AND RODE BACK TO CRACOW WITH HER SOLDIERS.

© 1932, BY J. CARROLL MANSFIELD

RÜDIGER WAS IN DESPAIR. DESERTED BY HIS FOLLOWERS, SCORNED BY THE WOMAN HE LOVED, THE UNHAPPY YOUTH TURNED HIS SWORD AGAINST HIMSELF AND DIED WITH HIS FACE TOWARD CRACOW.

WANDA'S FATE WAS EQUALLY TRAGIC. SHE WAS FILLED WITH REGRETS AND FOUND NO HAPPINESS IN THE POWER SHE HAD PRIZED SO HIGHLY. FINALLY SHE FLUNG HERSELF INTO THE RUSHING WATERS OF THE VISTULA AND WAS DROWNED. —— TO BE CONTINUED.

MOON MULLINS

by Frank Willard

I WAS JEST WONDERING, SUGAR, IF YOU WOULD HAVE ANY OBJECTIONS TO MY GOING OUT WITH MOONSHINE THIS EVENING! A FRIEND OF HIS, A BIG MAN IN THE STEEL INDUSTRY, WANTS TO TALK TO ME.

IS THAT SO?

WELL, YOU'RE GOING TO STAY RIGHT HERE THIS EVENING AND TALK TO ME

AFTER MAKIN' MYSELF HUMPBACKED OVER A WASHBOARD ALL DAY I DON'T FEEL IN NO MOOD TO SET HERE ALONE AND TALK TO MYSELF.

ALL RIGHT, PET, ALL RIGHT. WAIT TILL I GO TAKE OFF MY SHOES AND GET COMFORTABLE.

WELL, HONEYBUNCH, WHAT'LL WE TALK ABOUT?—

WELL, WOT IN—

ZZZ N-N-

ZZZAW!

WHAT A BREAK!

AND I UNDERSTAND THAT RIVET SLINGER'S BENEFIT BALL IS GOING TO BE QUITE A ELEGANT AFFAIR

MY NEPHEW LEFT A TICKET HERE AT THE DOOR FOR ME I BELIEVE.

MULLINS IS THE NAME.

SAY, SHANTY, DID SOME GUY LEAVE A TICKET HERE TO BE CALLED FOR?

YEH.

WELL MOONSHINE, HERE I AM.

HOW ABOUT INTRODUCING ME TO SOME OF YOUR FRIENDS?

SURE, WAIT TILL I GET THROUGH WALTZIN' THIS NUMBER.

OH BOY! THIS IS WHAT I CALL A VERY GALA EVENT! —I REALLY SHOULD GET OUT IN SOCIETY OFTENER—

THIS BIRD SAID HIS NAME IS MULLINS

ARE YOUSE MULLINS?

I AM MR. MULLINS, SIR, AND YOURS?

POW!

WHERE DID THAT BIG BUM GET THAT STUFF? ACCUSIN' ME OF BEIN' THE GUY THAT'D BEEN TAKIN' HIS GIRL OUT.

OH OH!

AND THE LITTLE WOMAN'S STILL UP TOO.

?

UNCLE JOE!

UNCLE JOE—THA LAS' TIME WE PLAYED BALL I DID TH' PITCHING—WILL YA PLAY WITH ME AGAIN AN' LEMME BAT AN' YOU DO TH' PITCHING?

SAY! WHY CAN'T YOU LET AN OLD GUY GET IN A NAP ON SUNDAY? ALWAYS WANT TO PLAY!

IF I DON'T GET BATTIN' PRACTICE I WON'T MAKE MY CLASS TEAM AN' YA WANT ME TA MAKE IT YA SAID!

YEAH—I SAID IT—AND NOW I'M SORRY FOR IT!

GET SET! WHEN YOUR UNCLE HEAVES 'EM, THEY TRAVEL!

SHOOT!

ALL RIGHT! KEEP YOUR EYE PEELED! THIS IS GONNA BE ONE YOU'LL WHIFF A MILE!!

SHOOT IT—I'M SET!

LOOK OUT!

LE'S SEE YOU LAY A BAT ON THAT!!!

BAM!

PLOP!

HAW! HAW! SO TH' BEST YOU COULD DO WITH THAT WAS A HIGH FOUL, EH? A BUZZARD!
